GP Stan 10 starts at the second week at 20 mg everyday then continues to the 3rd through 6th week at 30 mg a day and ends at the 7th week with 10 mg a day. This testosterone-GP Stan 10 cycle also uses GP Nolva during the cycle in order to decrease estrogenic effects from testosterone use, and a post-cycle therapy of HCG and GP Clomiphene.

I'm still trying not to lose the gains as much as I can and try to workout at home but that could never be comparable to the gym. Obviously I started loosing my weight
