Great Day's all who love in the God and Peacefull mind

I like a man born and ever since my childhood, naturally with the same ideology which is God's purpose and the reason for the creation of the human world as Biblically known human act of God's creation, Genesis and a peaceful purpose, open borders, without territorial differences, One World and the unity of mankind, all important source of the world and to every person without discrimination, establishment of a full world peace and the creation of a society without knowledge of the crime and the need to violate the rights of others as well as their entitlement.

Today, I'am as a man acknowledging God as a reality that can not be refuted, as well as his divine power and capabilities, but I'm alone and I'm not fully active in the faith, I also distrust in the of-foreign political texts transforming God's words and their meanings Bible and the Quoran, but I recognize God what it is, in my own way, as the rhythm of reality around us and a special form of physical energy throughout the world.

Today is my interest to unite all churches and religious groups in order to promote the unification of the entire human world and thus the formation of our joint centers for bringing honor to God, opening the joint cathedrals and churches, mosques and parishes, homes for the service of God and lives together.

My goal is to unite together to create our common bond of all churches and religious groups, One Big World Union of Churches Bible and the Quoran. The territory of the Federal Government of Diamonds Imperium is always open for You and Your groups and movements, and to Your representatives and leaders. Our cooperation in the territories of the Imperium Diamonds will create a new center of all religious groups and ideologies large temples to honor God and to live and prayers of the faithful and recognizing God as those who serve him of own whole life.

Our union with a view to a common understanding and development of our faiths to exalt the possibility of God's act of destiny of humankind and creation of our civilization and good destiny for our race, states, friends and family.

The federal government Imperium of Diamonds and creates and affirms its

interest in building a world of religious centers to emphasize the importance of the interests steps "The One World", and therefore the unification of all countries on the planet, creating a unity of all mankind and eliminating all borders between states, elimination of disasters Babylon thereby creating a new world and how God first interest created and started, without war, without crime and conflict, without dependence and opposition, without animosity and without reasons sins because it is "The One world" and we are all people of our human world, one nation created be the our God.

Ideology united world it intended for the development of peoples and the common organization of the new future of humanity, and so I ask You also about the support that the new world the picture of God's first act of determining the origin of our planet Earth.

Our goal, therefore, may be the creation of political parties, "The One World", spreading the ideology of human unity, support for the development of national associations and cultural centers, organizing conferences and our joint reunion in society and the expression of our gratitude and joy for the opportunity every day anew live more and more confidently in a unified world.

Our opportunity is also to create a global organization of religious nature, and thus unite our Churches and religious movements in the organizational Union for the assembly of all believers in God and looks for its recognition.

Your support and cooperation for development projects "The One World" and religious interest will be formed for the purpose of a good step for our entire human world and also in the interests of our common friendship purposes. Our cooperation for building new centers of religious recognition of Your churches and religious movement in the territory of ID's Diamond Oasis, and soon in other centers territories Imperium of Diamonds and building temples, churches, mosques, parishes, monasteries for professing God's world and build our International centers for God's approval, each financial payment will be secured by check or bills of developing sources of government Imperium of Diamonds, Diamond Oasis in the territory and stable development of the religious center of churches and castles for the recognition of God and the purity of his faith. Each of You has always opened our right to support cooperation and the development of global organized network behind this interest. Our goal is a good plan for a better future for humanity, and especially for the main interests of God. Our opposition to this may be just the devil!

ID's plan is to build the largest temple of God and monasteries in the world, open to everyone who is believing and acknowledging the words of God and his faith. Temple for anyone who wants to live amicably and pure spirit, to promote the name of God and his religion.

By our great alliance for the purpose of the global centralization and common growth of our centers, but also as an opportunity to establish International religious colonies on the territory of the Imperium of Diamonds, and to create new federal states ID's. Every church has the opportunity to unite together, thereby ensuring the formation of the largest state the basis of the recognition of God.

Colonies and their development may be set for each of You and each of Your party religious movement and recognition, but so can support this development also people dropping out of ancient history as princely, aristocratic and royal families, so today survivor who rightfully possessions and goods, and therefore part of the ID's will be supported for future payment of all losses, and at the same time is right to establish colonies ID's in order to strengthen the function of the state.

My interest is to provide the same service for Your parties, expensive church groups as institution with a legal claim damages for having all nationalized and confiscated property during the period preceding century governments. Your possessions will be returned or paid, and always with support for the just create replacements.

The need for the formation of colonies and their application function is enabled when our common act of common unification and the creation of our cooperation, Diamond Oasis is always open for cooperation and the country's first development.

If Your church or movement will develop colonies and interest for the creation of their own new state, it is my plea for support also to other refugees and their open access Diamond Oasis and the establishment of a new civilization, the first steps in developing a refugee camp which will be the basis for a future center Oasis Diamond big city in North Eastern Africa.

Each refugee gets a job and the necessities of life, and our cooperation will give a good life for families. Each refugee receives all his life needs to ensure that its decriminalization and social and company cooperation.

Every hungry child suffering to death, and his family, everyone has the right to citizenship of Imperium Diamonds and therefore expand our common goal to build a new state that provides good living resources and good family facilities for everyone who lives in peace and friendship.

Anyone who lacks his own home and a good family background, if he can live in peace and friendship, because he can always take advantage of new profit opportunities for citizenship Imperium of Diamonds, and so they also get a new home and all quality of life.

Anyone who needs medical assistance and treatment, one who lacks medical support, and he wants to live in peace and friendship, everyone can therefore always come into the country Imperium of Diamonds and gain citizenship that for each provide an opportunity to consistently treat and develop their own health capability.

Country Imperium of Diamonds is open to every person that lives in peace and to friendship, and You therefore also enables You to take advantage of these opportunities for our cooperation building the new state would one day unite our entire human world, and we can therefore commence our building directly immediately in the structures of our loved ones.

Today, however, I am under oppression and terror blockages that strongly inhibits the development of my interests and possibilities of our cooperation. Therefore, it is also dedicated to my plea for Your support and letters to the UN, Egypt ministries, and the Humanitarian organization's representation for the purpose of legal representation of the relationships to the Bir Tawil, so legalization ID's sovereignty, without conflicts and therefore with full political support.

My Plea to You also for Your support the emergence ID's provisory offices so that they can start immediate strength and stability of our movement, and global cooperation among nations, governments of countries and supreme organization. Our capabilities are significant, and as soon together we can develop a fully active cooperation with banks of countries with the Association of business corporations and associations, with the other churches and groups that work with us will support immediate development of our countries and civilizations, building a new and important directions for future whole world and global recognition for peace and love in the reall God.

My Supplication is also for Your support and contacting the media and press associations in the world. Our media cooperation is important always done to support our better future.

Today, as I find blocking European crime often compelled to live on the streets and under slavery, it is my plea also about me storing and recovering from bad company so that only robs and harms the whole world and all peoples of planet Earth.

If Your help will be real, and we can together find a joint contact in the actual safety and Independence on the world of crime which is surrounded around me, I have my best interest to learn Your intelligence and education together, to better understand Your community and interest and letter of God words and principles of Your company. I want You to understand, and I thus better able to support the building of our cooperation and the development of our new states.

Above all, my main Plea request is distrust in the speech of others, their knowledge is based just over the influence of those who are fleeing from justice, and their minds are free of remorse for their crimes.

Now I thank You for all of You, the one who gave Your own time to understand my text and my understanding of the offers of cooperation. My interest is to create a leading our friendly cooperation to stage "The One World", and thereby establish a fully unified and peaceful world exactly as God had been at the time of the first emergence of man in creation of Adam and Eve.

Thank You very much, I wish You all good luck and success, always peaceful and concerns all the best for everyone in Your church, and the group, so I wish all the best to all Your friends and families and neighbor Your loved ones, I wish for everyone to work together He is standing with God in good and in peace, friendship and so for good intentions.

We live in the same world, and together !
