### **What is Video Magic Player?**

Anyone who is serious about marketing online is now using videos.

There are countless resources out there to help you create effective sales videos and video content resulting in more leads and more sales.

However to really stand out from the crowd presenting your video in relatable and high quality surroundings is becoming more and more important.

The problem is up until now you have had to use complicated software to create the surroundings, then jump to another software to create videos with engaging marketing features. Then there is the headache of marrying the two together.

Placing calls-to-action, sales buttons and opt-in forms in video players is nothing new. However with this stunning new software that process has now become "beautifully simple"!

You no longer need to navigate page after page, diving deep into settings to add these to your video. In fact with this powerful software its all right there step by step within a click of creating your video.

Introducing: [\*\*Video Magic Player\*\*](#)

[\*\*Video Magic Player\*\*](#), is a beautiful video player that allows you to use mock-ups of the highest quality, whilst still using your existing YouTube and Vimeo videos.

You can use it from anywhere you have Internet access and it is automatically updated with new features regularly as customers request them (you never have to wait for the next / new version).
