Tinder Gold for free is not an easy task now. On one occasion, the app had a system error in which many people took advantage of it to see the photos of those who gave them “Like,” which is one of the Tinder Gold benefits. Some websites and articles show different ways to get Tinder Gold for free. But is this method working? In today’s article, let’s find out whether these methods are working.

Tinder Gold is a membership that Tinder offers within its monthly paid subscriptions. There is also a membership like Tinder Plus, which gives you fewer benefits with the advantage of being cheaper. Each member's membership offers you additional functions that will make you enjoy much more freedom than other users have. Officially to have Tinder Gold, you must locate the golden star you will find in the upper area of the main window. In addition to taking you to the membership section, that star tells you how many people have "liked" your profile, an opportunity to be able to match with them.

The Internet is a lucrative place with misleading advertisements and scams on websites. Therefore, you will find many articles that will indicate giving free Tinder Gold promo codes for free. It can be said that finding a valid Tinder promo code is very difficult. Many coupon websites offer discounts of 50%-70%, but they do not exist at all. You spend a lot of time looking for it, just a waste of time. These types of coupons will not work. Step 1: Open your browser and visit [Tinder.com](https://www.tinder.com) and scroll down to the bottom of the page.

- Step 2: On the footer, you can find the heading Community. Under that, tap on the Promo Code.
- Step 3: Enter or paste the promo code you have and then hit Submit.
- Step 4: To sign up, you can use your phone number or your Facebook credentials. Create an account using one of the mentioned methods.
- Step 5: If required, you can enter the payment details and continue.

Many sites recommend using the Tinder Gold generation tool, but in fact, it does not work. For example, gamingtoolz.club. These similar Tinder ID generators will ask you to provide your Tinder username or email address and the device you are using. Then let you choose Tinder Membership type and Membership Duration. This is how the scam started. It seems to connect your account, and when you want to activate Membership, it requires you to complete two offers to pass "Human Verification." This is the beginning of the deception, and then it will jump to the advertisement, but it always fails to verify the offer status. Ultimately, you may lose your Tinder account as well since you expose your credentials. Please don't fall into their trap; this is a scam, and you won't get anything.
