

How To Download Minecraft For PC

If you're wondering how to download Minecraft for PC, you've come to the right place.

Minecraft, one of the most popular Xbox One games is also available on a computer. The benefits of downloading it onto your computer make it well-worth your time.

First of all, the best graphics cards for PC will make your computer look sharper and have a higher resolution. 83hh.com There are many controllers and mouse options available. You can also relax with wireless options.

Minecraft Java Edition and Minecraft for Windows 10 are the two versions available for download. There are some significant differences between these two versions.

Although Bedrock doesn't have an updated combat system, it does allow for crossplay between PC and Xbox One or mobile plays - and has some content that Java doesn't.

Meanwhile, whilst Java only allows players to play with other Java players, it is hosted on far more public servers and boasts a comprehensive modding community. If you're not quite sure which to choose then we advise going for Java, as it includes a free copy of Bedrock with it.

Whichever you choose, let's go through how to download, register, buy the game, and install Minecraft in no time.

How to Download Minecraft for PC

How to Download Minecraft for PC: Visit our Minecraft website

First things first, when it comes to how to download Minecraft for PC you'll want to mosey on over to the Minecraft website (opens in new tab). The large picture of Steve (and Alex) overlooking a Minecraft land should greet you.

Look to the side and you'll see a green box that reads "Get Minecraft". Click on it.

How to Download Minecraft for PC: Choose the right version for you

Upon clicking the button, you now have to make a choice: which version of Minecraft do you want to download? You have the option to choose from computer, mobile, console and other versions (yes, there are so many versions of Minecraft!).).

For this guide, we want to click on the one marked 'computer'.

Next, you will need to choose which version of Minecraft to download: the Java Edition or the Windows 10/Bedrock version.

If you chose the Windows 10 game, you'll be taken directly to a Minecraft page that has a 'buy button'. Click "buy" and you'll be taken to the Microsoft Store. Here you can purchase the game and then install it immediately.

Note: If it's the Windows 10 version you were after, you're all done now!

If you'd like to download Minecraft for PC in Java Edition, however, click on that version, on the left, and when the next page loads, click buy.

How to download Minecraft for PC: Register and install

Windows 10 users are now done. However, there are still a few things to do to get the Java Edition.

After clicking 'buy', you will need to create a new account using an email address and a password. Generic passwords won't be accepted, so please don't use animal names or other similar terms.

Once all of the information is complete, click 'register' and then open a new browser tab. Next, go to your email inbox. To move on, you should have received a four-letter code.

Enter the code in the box, hit 'verify' and you're almost done.

The buy page is now. Enter your card details, verify the amount, and then click the purchase banner at its bottom.

Wait for the page to load and you'll be jettisoned to the 'purchase complete' screen. Click on

'download for Windows' and a file named 'MinecraftInstaller.msi' should auto download.

Click on the file to install the game. You can then hit the Finish button and power through to 'next' to install it.

A new window should open (that's the Minecraft launcher), log in with your email address and password then click 'play'. And there you have it, you now know how to download Minecraft for PC.

Now just sit back as Minecraft Java Edition downloads and you can jump into a world of endless fun.
