## About Us

**AXG INDUSTRIES SDN BHD** (hereinafter called "AXG") is one of the Glove manufacturer and supplier based in Klang, Selangor MALAYSIA. We are specializing in Latex and Rubber Glove with OEM and private label for export. AXG also offers glove products under its own brand name – 'AXGlove', which has been marketed worldwide more than 50 countries.

We have a dedicated Marketing team consisting of experienced and knowledgeable persons. We also participate actively in international trade shows to keep abreast with latest developments and to maintain a high profile in the market. Our team also makes regular contact and visits with customers to ensure close communications and enhance customer relationships.

Our products are compliant to various international Standards such as ISO, CE mark and exported to all the major world markets including USA, Europe, Latin America, Middle East and Asia.

We at AXG are proud of our reputation for excellence: a reputation based on our commitment to the highest ethical standards. Our home page [www.axg.com.my](http://www.axg.com.my) is a reflection of our commitment to provide you quick access to pertinent information about AXG's guiding business values and the Ethics Program.

At AXG, all of our business relationships with customers, shareholders, employees, suppliers and host communities must rest on a foundation of integrity and trust. Our success is dependent on each individual's commitment to these enduring values and no success is worth the expense of compromising ethical behaviour.

### Our Philosophy

Our greatest asset lies in the strength of our people. We are continually striving for improvements, innovations and setting new standards and stretching ourselves further to meet and exceed customer requirements.

### Our Motto

Think Glove Think AXGlove

- WE STRIVE TO BE THE MOST ADMIRER GLOVES INDUSTRIAL SUPPLY AND MANUFACTURING COMPANY THROUGH WORLD-CLASS PEOPLE AND TECHNOLOGY •

Typically, Malaysia is responsible for one third of the world's rubber export.

Since 2001, Malaysia's rubber production has been increasing. In 2004, production value reached eight billion dollars, in 2007 it topped ten billion dollars, and in 2008, production value is sitting at 11.24 billion dollars. In 2009 however, production plummeted by nearly six percent. Malaysia has earned a good reputation around the world for its high quality and well priced rubber products. Rubber manufacturers in Malaysia supply several different rubber products such as medical gloves, components for automobiles, belts, and hoses to several different countries such as USA, Japan, and many countries in Europe.
