

Pixel 6 Pro

The smartest and fastest Pixel yet.¹

Introducing Pixel 6 Pro, the redesigned, fully loaded Google phone.

Google's first custom-built chip.

The first processor designed by Google and made for Pixel, Google Tensor takes performance to a whole new level.

The most advanced Pixel camera ever.

Capture brilliant colour and vivid detail with Pixel's computational photography and new pro-level lenses.²

Redesigned for more powerful performance.

With faster apps and pages, an all-day battery and proactive help, Pixel 6 Pro delivers what you need when you need it.³

Most hardware security layers in any phone.

Pixel 6 Pro keeps your personal data safe with the new Google Tensor processor and next-gen Titan M2™ security.⁴

1 Based on internal benchmark testing on pre-production devices. 2 Compared to main rear camera on Pixel 5. 3 Maximum battery life based on testing using a mix of talk, data, standby and use of other features. Battery life depends upon many factors and usage of certain features will decrease battery life. Battery testing was conducted by a third party in California in mid-2021 on pre-production hardware and software, using default settings. Battery testing conducted using two major operator networks using sub-6 GHz non-standalone 5G (ENDC) connectivity. Actual battery life may be lower. 4 Based on a count of independent hardware security subsystems and components.

Google Tensor, Google's first custom-built chip.

The first processor designed by Google and made for Pixel, Google Tensor makes Pixel 6 Pro the smartest and fastest Pixel yet.¹

Google's advanced on-device AI

for enhanced photos, videos,
language translation and more

Up to 80% faster performance¹

for rich graphics, faster-
loading apps and more

for great battery life

¹ Based on internal benchmark testing on pre-production devices. "80% faster" claim based on comparison to Pixel 5.

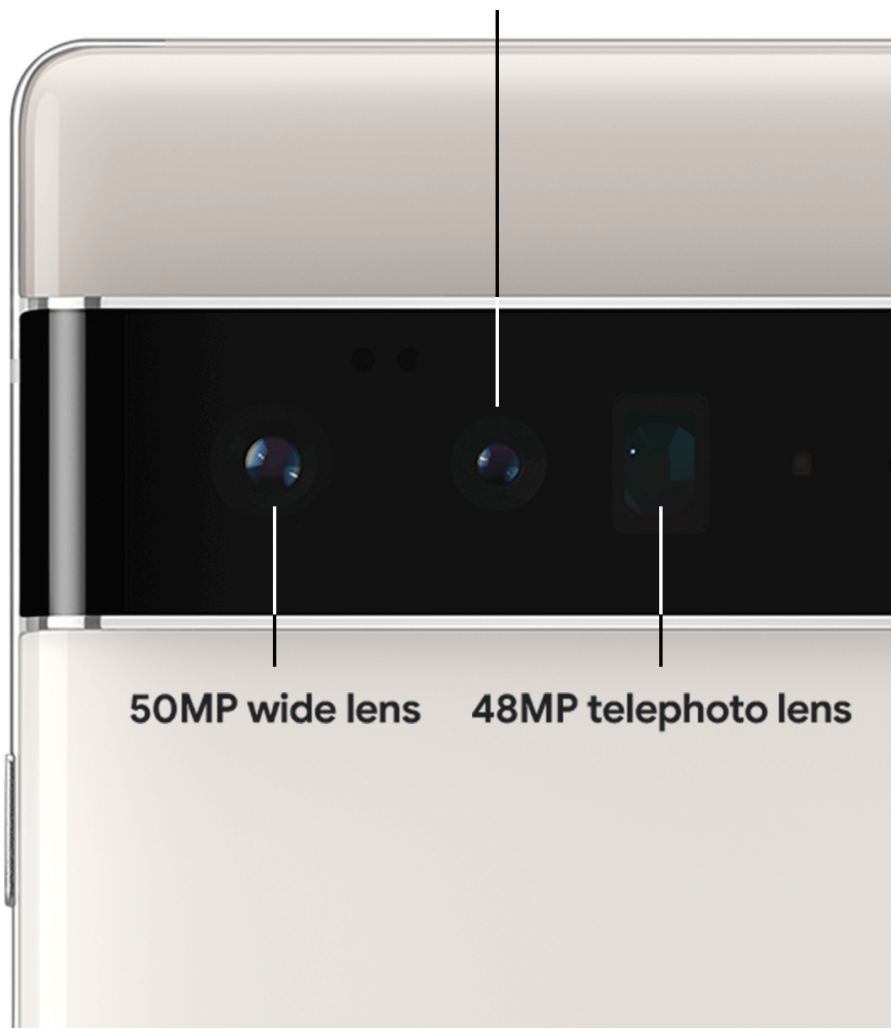

² Based on a count of independent hardware security subsystems and components.

The most advanced Pixel camera ever.

Capture brilliant colour, vivid detail and beautiful, authentic skin tones with new pro-level lenses.

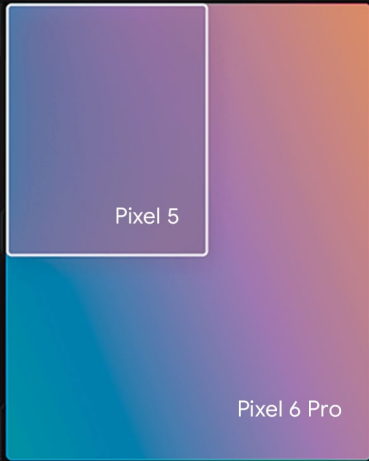

12MP ultrawide lens

50MP wide lens

48MP telephoto lens

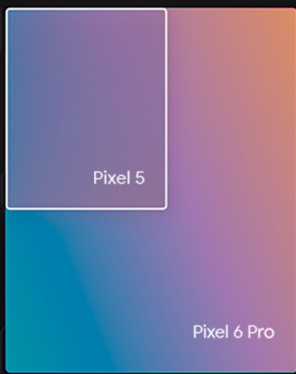

Pixel 5

Pixel 6 Pro

Captures 150% more light.

The new, larger main sensor captures the most light ever in a Pixel, for finer detail and richer colour, plus faster, more accurate Night Sight photos.¹

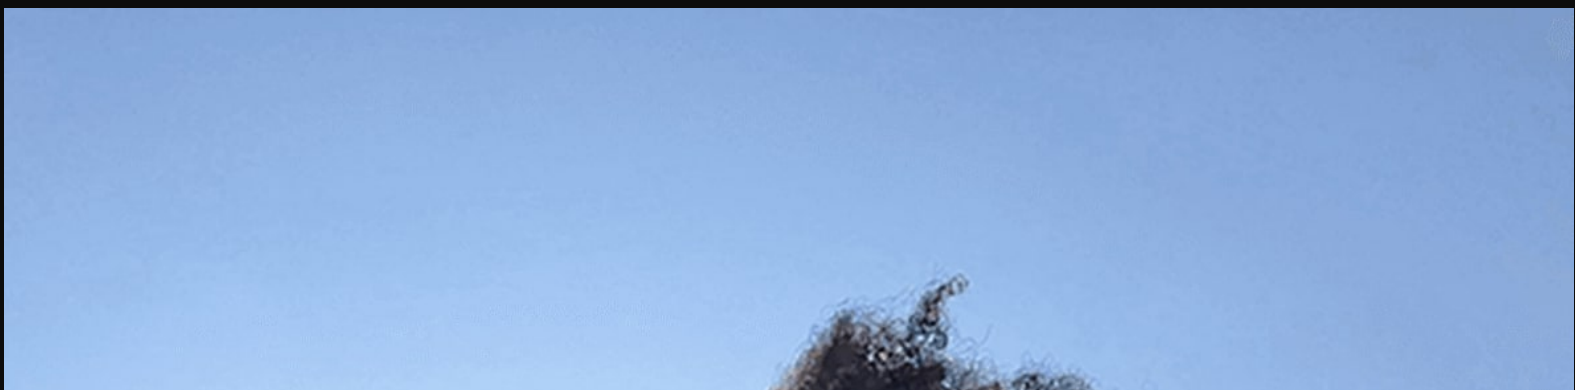

Pixel 5

Pixel 6 Pro

**Get up close with
4x optical zoom.**

Pixel 6 Pro includes a telephoto lens with 4x optical zoom. Super Res Zoom lets you zoom up to 20x.²

Get everyone in the shot.

Take big group selfies or see more of your surroundings with the Ultrawide 94° field-of-view front camera.³

1 Compared to main rear camera on Pixel 5. 2 Not available for all camera apps or modes. 3 Field of view with RAW image files setting turned on. Setting is turned off by default. See g.co/pixel/photoediting for more information.

Stay in the moment with professional tools in your pocket.

Make distractions disappear like magic.

Use Magic Eraser to remove photobombers and unwanted objects, so that your subject is the star.¹

**Keep your favourite
face in focus.**

Catch the action and see faces clearly with Face Unblur, which can deblur a face to make it sharper.²

Take authentic, accurate portraits.

Portraits on Pixel highlight all people and the nuances of different skin tones beautifully and authentically.

1 Magic Eraser may not work on all image elements.
2 Deblurring may not work on all photos or videos with faces.

Everything a battery should be.

Everything a battery should be.

Adapts to save you power.

Pixel's battery allocates power to the apps that you use most to last

beyond 24 hours, even on 5G.^{1,2}

**Charges up to 50%
in just 30 minutes.³**

Pixel charges fast and wirelessly,
and it can charge other devices
with Battery Share.⁴

1 Estimated battery life based on testing using a mix of talk, data, standby and use of other features. Average battery life during testing was approximately 34 hours. Battery life depends upon many factors and usage of certain features will decrease battery life. Battery testing was conducted by a third party in California in mid-2021 on pre-production hardware and software, using default settings. Battery testing was conducted using two major mobile networks using sub-6 GHz non-standalone 5G (ENDC) connectivity. Actual battery life may be lower. 2 Requires a 5G data plan (sold separately). 5G service not available on all carrier networks or in all areas. Contact carrier for details. 5G service, speed and performance depend on many factors, including carrier network capabilities and signal strength. Actual results may vary. Some features not available in all areas. Data rates may apply. See g.co/pixel/networkinfo for info. 3 Charging speed based upon testing with device batteries drained to 1% and charged with Google 30W USB-C® Charger; sold separately. Charging testing conducted by Google in mid-2021 on pre-production hardware and software using default settings with the device powered on. Charging speed depends upon many factors including usage during charging, battery age and ambient temperature. Actual charging speed may be lower. 4 Designed to charge Qi-certified devices. Use of Battery Share significantly reduces Pixel battery life. Cases may interfere with charging and will reduce charging speed. Charging speed based upon testing with device batteries drained to 1% and charged with Google 30 W USB-C® Charger (sold separately). Charging testing conducted by Google in mid-2021 on pre-production hardware and software using default settings with the device powered on. Charging speed depends upon many factors including usage during charging, battery age and ambient temperature. Actual charging speed may be lower.

As durable as it is beautiful.

Made for optimal performance.

Enjoy more responsive gaming and scrolling with a 120 Hz refresh rate and LTPO technology that lowers to 10 Hz to save battery.⁴

Designed for daily life.

The 6.7-inch Smooth Display is made with Corning® Gorilla® Glass Victus,[™] the toughest Gorilla Glass yet, with up to 2x better scratch than previous Pixel phones.^{1,2} And with IP68 protection, it can take a little water and dust.³

1 Measured diagonally; dimension may vary by configuration and manufacturing process.

2 Compared to Pixel 5 and Pixel 4a (5G). 3 Designed to comply with dust and water protection rating IP68 under IEC standard 60529 when each device leaves the factory, but the device is not water- or dust-proof. The accessories are not water- or dust-resistant. Water resistance and dust resistance are not permanent conditions and will diminish or be lost over time due to normal wear and tear, device repair, disassembly or damage. Dropping your device may result in loss of water/dust resistance. Liquid damage voids the warranty. See g.co/pixel/water for details. 4 Not available for all apps or content. Display automatically adjusts to optimise for best viewing and battery performance.

The most fluent Pixel ever.

Translate live video captions, signs in up to 55 languages, and private chats and messages automatically and securely.¹ No apps, Internet or language courses required.²

Translate to English

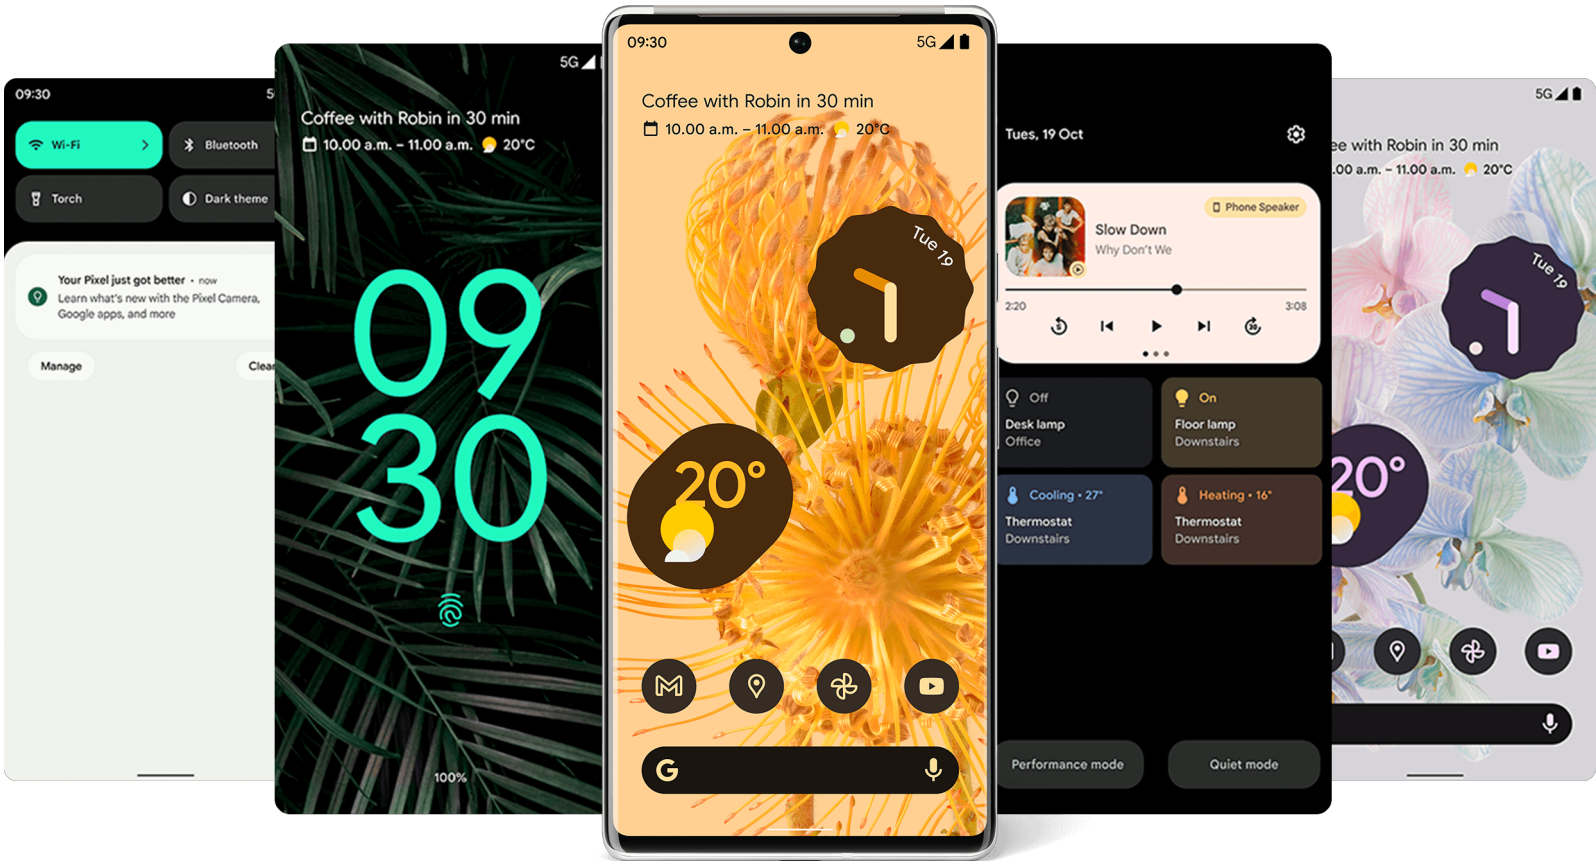

¡Hola Maya!

Soy Sophie, la amiga de Lucy.
Estoy organizando una fiesta
de cumpleaños para Lucy y
me gustaría invitarte.

¹ Not available in all languages or countries. Not available on all media or apps. Camera-based translation using Lens is available in 55 languages. Language availability may be more limited for other Pixel translation features. See g.co/pixel/livetranslate for more information. ² Internet connection required during setup only.

The phone that's about you.

The new Pixel 6 Pro is reimagined on the inside to be more modern, intuitive and personal.

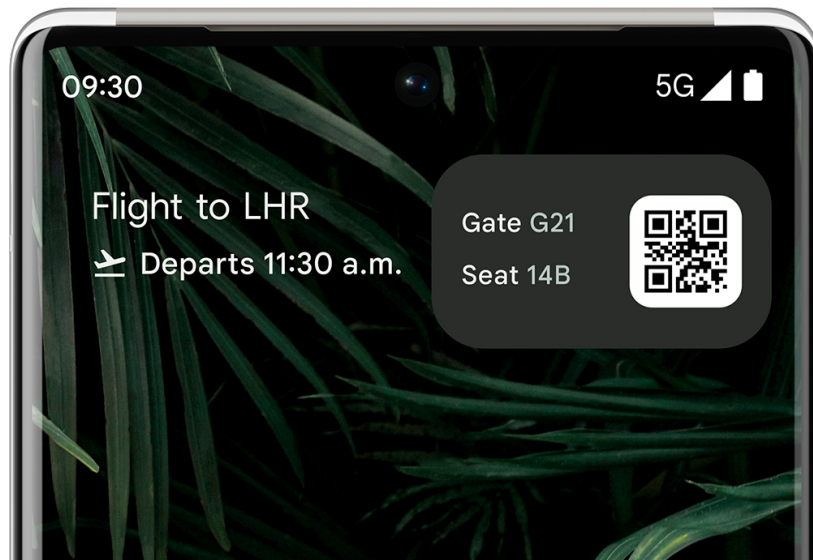

A fresh new look and feel.

The reimagined interface is a whole new way to experience Pixel, with colours that reflect your personal style.

**Shows you what you
need, when you need it.**

At a Glance intuitively surfaces
your upcoming events,
reminders and more – like your
boarding pass when you arrive
at the airport.¹

1 Boarding pass feature requires a
Gmail account and an Internet connection.

1 Boarding pass feature requires a
Gmail account and an Internet
connection.

**More layers of
hardware
security
than any other
phone.¹**

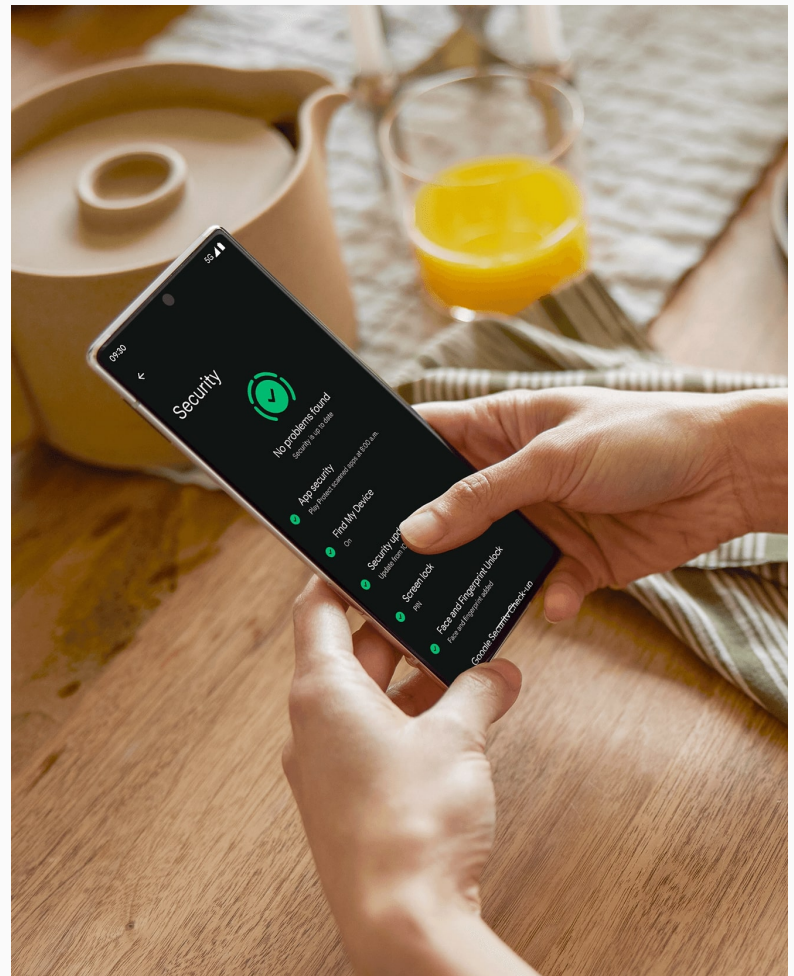

Google Tensor is the first

processor with the security core built in, and it works with the next-gen Titan M2™ security chip, which helps make Pixel even more resilient to attacks.²

Making sure that you and your stuff are safe.

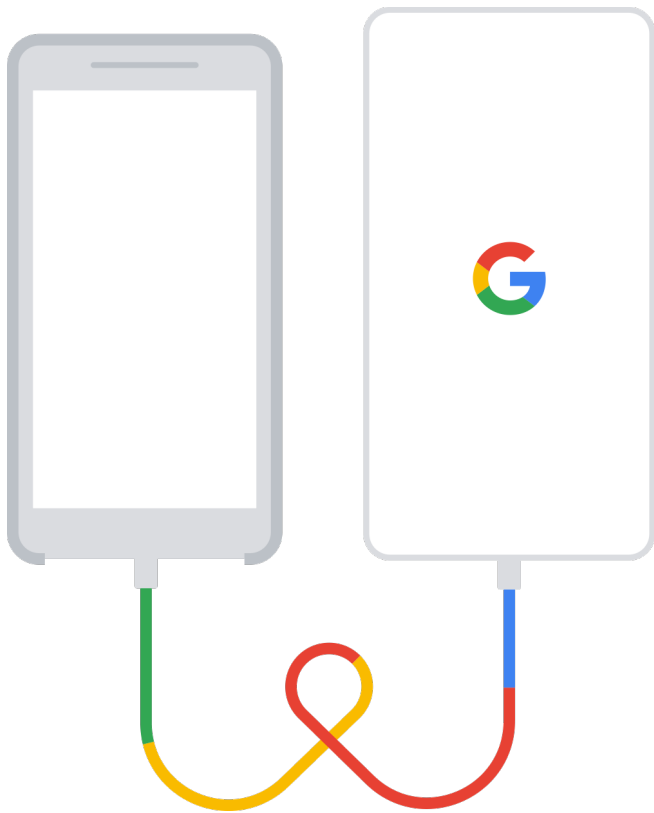

Pixel's security features help protect everything on your phone: texts, photos, sensitive data and more. They've even earned a perfect score on an analyst evaluation.³

Better protection with security updates.

Security risks are constantly evolving. To protect you and your sensitive data against these threats, Pixel comes with at least 5 years of updates, so it gets more secure over time.⁴

1 Based on a count of independent hardware security subsystems and components. 2 Compared to earlier models of Pixel phones. 3 Based on 2020 analyst research funded by Google LLC and conducted by Informa Telecoms and Media Limited. Evaluation considered features that may not be available in all countries. Evaluation did not include testing. See goo.gle/mobilesecurityscorecard for more information. 4 Android security updates for at least five years from when the device first became available on the Google Store in the US. See g.co/pixel/updates for details.

Switching is simple.

It only takes a few steps to move your favourites from your old mobile phone and get going on Pixel. Just use the Quick Switch adaptor to transfer messages, contacts and photos to your new device.¹

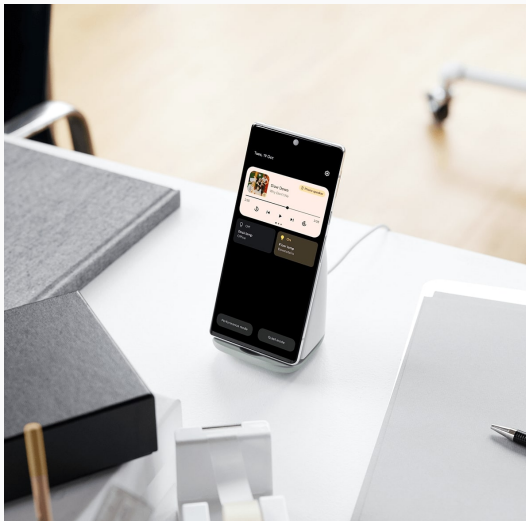

Message **Contacts** **Photos**

¹ Some third-party apps and data may not be transferred automatically. Visit g.co/pixel/copydatahelp for information.

Grab-and-go accessories.

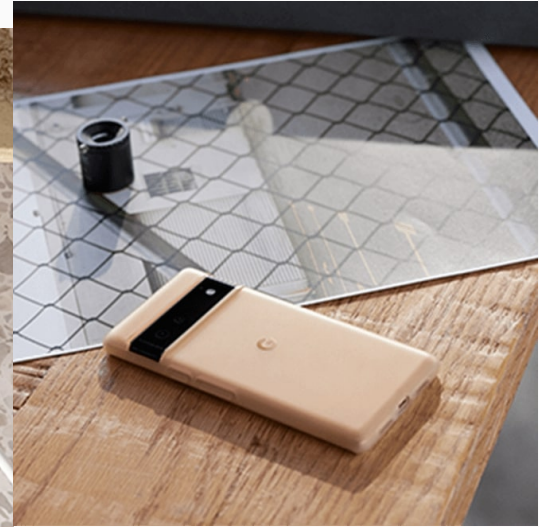

Wireless charging with twice the power.

The new Pixel Stand is twice as powerful.¹ And while your phone is charging, you can use it to see pictures from Google Photos or control your smart devices.²

Charge and go. Fast.

Charge your Google products and other USB-C[®] devices quickly with the 30 W USB-C[®] Charger.³ It's compact enough to take wherever you go.

Built to protect. Designed to show off.

Made with translucent material that lets the phone shine through, this case is thoughtfully designed with over 30% post-consumer recycled plastics.

1 Compared to Google Pixel Stand (1st gen). Wireless charging rates up to 21 W (Pixel 6) and up to 23 W (Pixel 6 Pro) charging with Qi-certified Google Pixel Stand (2nd gen) (sold separately). Actual results may be slower. 2 Requires compatible smart device. Sold separately. See g.co/pixelstand/req for more details. 3 Requires compatible USB-C[®] device (sold separately). Charging speed varies and depends on device capabilities, battery age, usage during charging and many other factors.
