## Welcome to Bashkir Horseback Riding!

We offer horseback riding for small groups of 2-4 persons on Russian Bashkir horses. The horses are calm so even beginners are welcome. We usually ride on Marma Shooting Range which is a wonderful Natura 2000 site full of rare plants and animals such as Yew, Mezereons, Pasque Flower, Ramson, Bird's-Nest Orchid, Helleborines, Baneberry and Corncrake. The riding is in varied terrain including a lovely birch forest which is very beautiful in May when all the anemones bloom. The focus on the tour is to offer horseback riding on calm horses in varied surroundings, where the priority is set on the nature experience.
