4Life® Transfer Factor Plus® Tri-Factor® Formula

- Provides broad spectrum immune system support
- Stimulates Natural Killer (NK) cell activity by 437%¹
- Supports immune cells' ability and function

What is 4Life Transfer Factor Plus Tri-Factor Formula?

4Life Transfer Factor Plus-Tri Factor Formula provides 4Life's highest level of immune system support, boosting immune cell function up to 437%. Representing the most advanced discoveries in Transference™ Science, it combines the power of Tri-Factor Formula (Transfer Factor E-XF™ and NanoFactor® extract) with a proprietary Cordyvant™ blend to support innate and cellular immunity. The messenger molecules found in 4Life Transfer Factor Plus Tri-Factor Formula help educate immune cells and support the immune system's ability to more effectively recognize, respond to, and remember potential health threats. This complete formula promotes immune system function to help maintain optimal health, energy, and everyday quality of life.

PRIMARY SUPPORT:

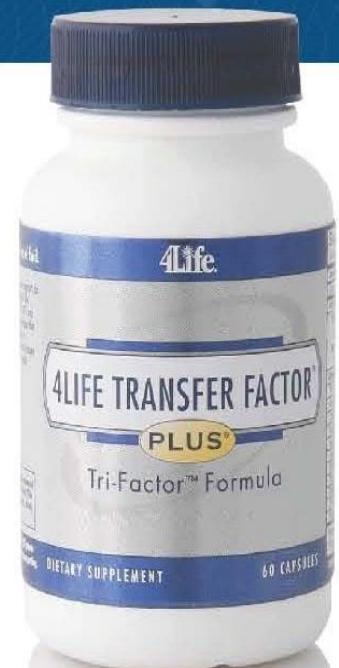

Immune System, General Wellness

SECONDARY SUPPORT:

Cardiovascular, Energy

Key Features

- Supports healthy immune system function that, in turn, promotes healthy energy levels and the healthy function of all other systems throughout the body
- Contains transfer factors (immune messenger molecules) that help educate immune cells and promote the immune system's ability to more effectively recognize, respond to, and remember potential health threats
- Includes Cordyvant, a proprietary blend of ingredients that includes maitake mushrooms, shiitake mushrooms, cordyceps, IP-6 (inositol hexaphosphate), olive leaf extract, and other ingredients to further nourish innate immune function
- Ensures exclusivity with protective United States patents: 6,468,534 (extraction process for transfer factors from egg sources) and 6,866,868 (combination process of transfer factors from cow colostrum and chicken egg yolks)

Transfer Factors & AUTISM

There are different types of Transfer Factor. In 1985 Dr. Fudenburg used Transfer Factor on twenty-two children with "classic" autism. He found that twenty of the children had **Myelin Basic Protein Antibodies (MBPA)**. These children were treated for three-three and a half years, **receiving Transfer Factor three days every six weeks**. After the treatment **twenty-one out of twenty two had improved**. Ten were considered normal, in that they no longer exhibited autistic symptoms and were mainstreamed in their schools.

Transfer Factor therapy is based on the fact that an Immune system dysfunction has occurred. Most likely this dysfunction occurred from a nutritional deficiency via a virus/vaccine leading to autoimmunity, and thus autism. Transfer factors supplementation strengthens the cellular immune system and may be a valuable supplemental treatment to control epileptic seizures.

Noted improvements include, more attentive, eye contact improved, eczema improved, decreased incidence of illness, improve language skills, resolution of diarrhea, and improved toileting skills.

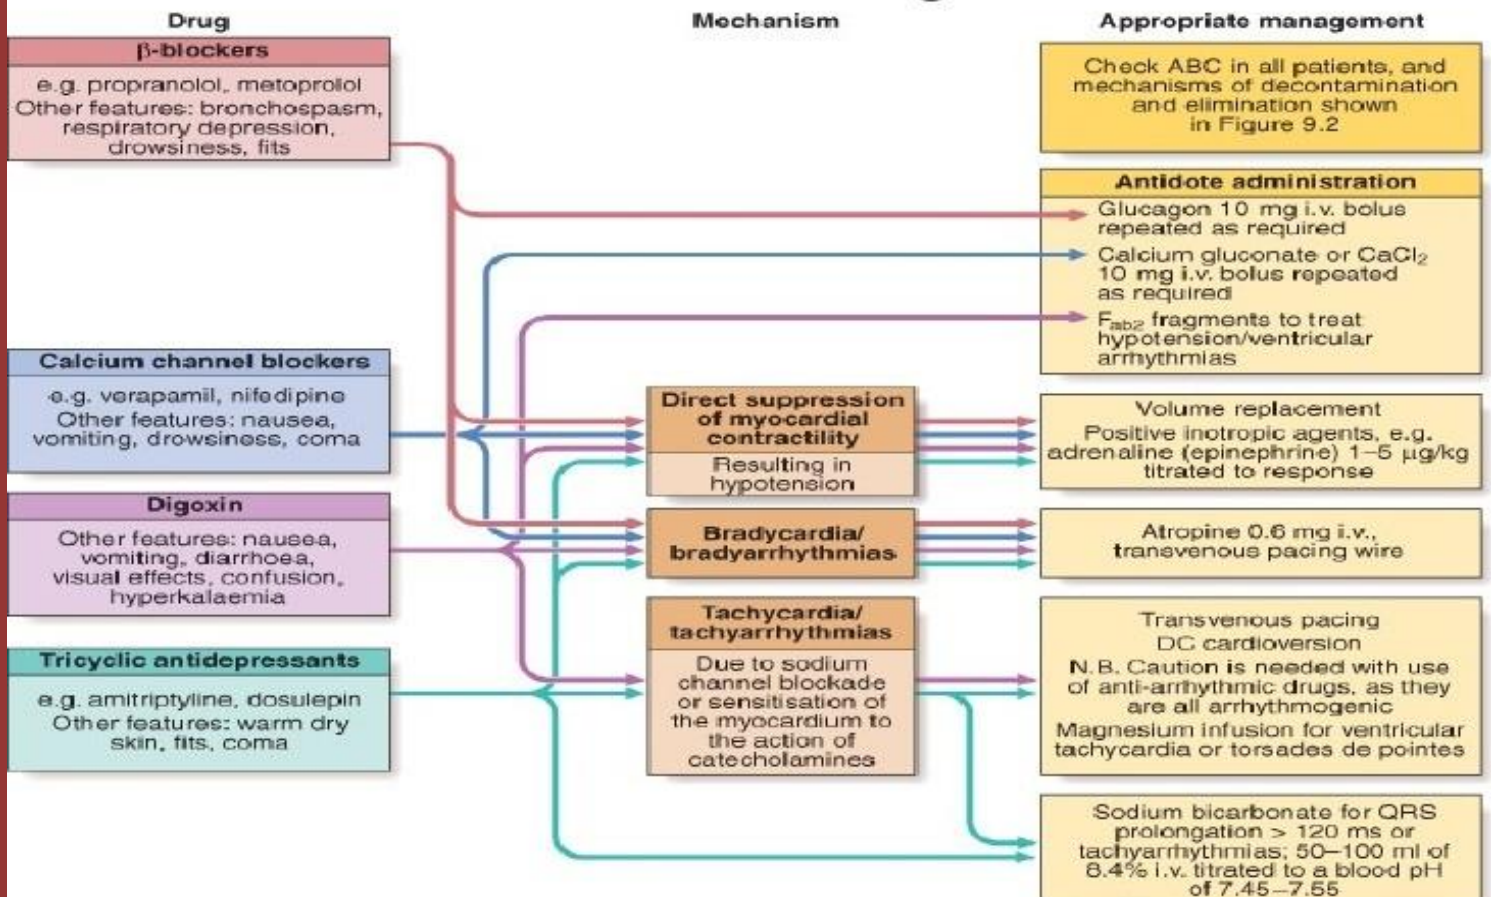

Transfer Factor GLUCOACH Primary Benefits

- Supports healthy immune response
- Supports healthy metabolic and endocrine system function
- Provides antioxidant support

What makes this product unique?

- 4Life Transfer Factor Glucoach targets the superior immune-enhancing benefits of transfer factors to directly support the metabolic and endocrine systems.
- Targeted Transfer Factors can help support a normal inflammatory response within the metabolic and endocrine systems.
- *Pterocarpus marsupium*, *Momordica charantia* (bitter melon) and *Gymnema sylvestre* are all well known for supporting balanced glucose levels.
- Ginseng and fenugreek are herbs that promote healthy glucose and cholesterol levels.
- Alpha lipoic acid (ALA) has been shown to be an important antioxidant to support healthy metabolic systems and structures.

Other Doctors Recognize 4Life Transfer Factor® as Legitimate

You don't have to take my word for it. There are numerous other medical doctors, nurse practitioners, and health care professionals who have stated their beliefs in the validity of 4Life and its products:

"When infants are nursed they are significantly less likely to be seriously ill. Today we understand the science behind this dramatic display of wellness. A newborn's immune system is jumpstarted with mom's immune history via the transfer of her immune factors. 4Life Transfer Factor® is our tool to enhance our own immune systems." - Suzette Lawrence, CNM

"My patients who use 4Life Transfer Factor® have great outcomes. That's why I recommend it to all my patients. I was a skeptic before but now I'm a believer" - Alex Tan, MD

Frequently Asked Questions

How do I create a residual income?

4Life's compensation plan is designed so that as you share the products with friends, who in turn share them with others who purchase them, you earn residual income off those sales. These earnings will continue as long as these people continue to purchase the products.

How long can it take to create an income of \$1,000/month?

If you treat your business like a business, this can easily be achieved within months, especially since you already have a built-in network of patients who trust you with their health needs. Many health professionals are now earning well over \$5,000/month after only a few years.

How do patients view a doctor/health professional doing 4Life?

Most patients are very open to using nutritional products, and they are concerned primarily with the quality, price, and results of these products. They're not so worried about how they are distributed. Network marketing is simply a different distribution method, but it works very well. Your patients will appreciate your sharing superior-quality products like 4Life with them.

Robert Robertson, Jr., MD completed his education at the University of Louisville School of Medicine, serving as the Director of Emergency Services at Western Baptist Hospital in Paducah, Kentucky from 1977 to 1994. He and his son, Rob Robertson, III, started a nutritional supplement company in 1994. In researching products for their company, they came across 4Life Transfer Factor®. Convinced of the importance of 4Life's mission, they sold their company and became full-time distributors in late 1997.

Doctor to Doctor

Why 4Life Makes Sense for You and Other Medical Professionals

Robert Robertson, Jr., MD

From One Doctor to Another

As a medical doctor myself, I understand where you come from and your position within our modern medical health care system. Chances are you're likely frustrated by various aspects of this system. And if you're like me, you're probably frustrated with the overall philosophy of health care in this country. In short, health care costs too much, there's far too big a focus on pharmaceutical drugs and unnecessary surgeries, and the idea that the body is actually the best healer gets lost in all the bills, insurance claims, and rush to prescribe the latest medication.

Additionally, the economic and financial picture of our health care system is extremely worrisome. Running your own practice is risky in many ways, with insurance and overhead costs continuing to soar. And perhaps you're still paying off significant student loans. You'd probably love to know you had some financial cushion now and into the future.

4Life Means Good News for Health Professionals

I have some good news—for you and your patients. 4Life is a respected leader in the areas of nutritional supplementation, immune system science, and the development of 4Life Transfer Factor® products (also called "Transferecultural" Science).

Over the last 15 years, 4Life has developed the technology and formulations behind their 4Life Transfer Factor and NanoFactor®-based

products. 4Life Transfer Factor is comprised of proteins and other peptides that enhance the immune system's ability to recognize, respond to, and remember potential threats to the body. Transfer factors are the subject of dozens of studies. Thousands of people worldwide have enjoyed significant benefits by using these products, and the products form the basis for a significant additional income stream that can work directly with your already existing practice.

Banyak penyakit yang boleh dihidkan dengan kelemahan sistem ketahanan tubuh selain itu juga penyakit yang disebabkan akibat terganggu sistem ketahanan antaranya ialah (cystitis), demam, masalah sistem polycystoidosis dan sebagainya. Ini disebabkan oleh kelemahan sistem ketahanan menawan sel sendiri.
Sistem ketahanan tubuh yang gagal menyebabkan antara serangan penyakit "penceroboh" dengan sistem sel badan akan mencetuskan penyakit menyengat sel sendiri yang akan menyebabkan penyakit autoimun.

4Life TRANSFER FACTOR RESEARCH

Testimoni dari Sebagian Pengguna TF

DR. Freddy Hutapea, Jakarta.
Alergi berat terhadap debu. Setelah mengkonsumsi TF Advance sebanyak 3 botol, alergi debu saya hilang dan prostat membaik, begitu juga kadar asam urat saya kembali normal. Saat ini saya melanjutkan konsumsi TF secara rutin agar hidup saya sehat sejahtera.

Adelina Hutagalung, Jakarta.
Asma yang sangat berat selama 56 tahun setelah mengkonsumsi TF selama 3 hari, konsumsi obat asma saya berkurang hingga 50%, namun setelah mengkonsumsi 3 botol TF, sekarang saya hanya mengkonsumsi 1 kapsul asma sehari dan 1 kapsul Advance sehari.

En Khalid, Malaysia. penyakit ginjal (kerusakan buah pinggang) & menjalani dialisis 3 kali seminggu. Sebelum memakan TF, saya selalu penat & lesu dan berbaring sahaja. Sekarang, tenaga saya sudah pulih dan saya seperti dahulu. Medical report saya kini menyatakan saya tidak lagi menghidap penyakit ginjal.

En Salim Talib, Singapura. sakit jantung. Setelah mengambil TF dua minggu. Saya sihat & berenergi, tidak lesu seperti dulu. Medical report saya kini menyatakan saya tidak lagi menghidap penyakit jantung.

Lufti Zakaria, Jakarta. Di vonis Autisme sejak umur 2 th. Bermacam pengobatan telah di coba orangtuanya dgn biaya ratusan juta rupiah. Hingga umur 5 th, Lufti belum dapat bicara dan hanya bermain sendirian. Maret 2006, mengkonsumsi TF Advance dan Chewable tiap hari 2x. Setelah 2 bulan, Lufti menunjukkan kemajuan sgt baik, penuturan kata sudah mulai teratur, menjuarai sains di sekolahnya, sudah tidak perlu guru pembimbing dan semakin normal keadaannya.

Note: TF tidak boleh dikonsumsi oleh orang yang menerima transplantasi organ

Transfer Factor Untuk Amandel & Flek

Sebelum pakai TF

Anak saya di sering sakit2an trus dr bayi, sampe kena flek paru umur 16bulan, umur 4,5 thn bobotnya cm 12 kg aja, amandel besar sering panas tinggi, batuk pilek, radang, berulang2 dim. Sebulan sampe copri ngecap dilulang, sering infeksi telinga(flu telinga).

Kalau malem tidur ngorok, sering sesak nafas, kalo malam mo tidur sama bangun tidur pagi, kringat dingin klo tidur sampe ganti baju berkali2 sama doktr THT nya suruh oprasi.

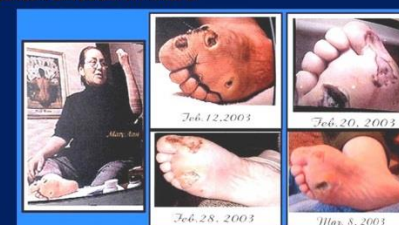

Wkt itu Aku minumin TF 3x2 + chewable 3x3. Sama masih minum obat dr dokter, amandelnya mengecil, gak jadi oprasi.

Sampe skarang jarang banget kumat. Sebelumnya sebulan 2-3x pasti kumat. Ke dokter THT sama spesialis anak sebulan 2x - 3x. Sejak itu berat badannya naik jadi normal, jarang sakit, konsentrasi belajarnya meningkat.

Evidence Based Clinical Studies
LEVEL 3 CATEGORY A PHASE 3:

Mary Anne Myers, aged 45, has diabetes and was on 500mg of Glucophage. She started taking 8 Transfer Factors per day and sprinkling 2 capsules directly on the wound for one week. She's now taking 6 capsules per day and continue sprinkling Transfer Factor on the wound. Here are the remarkable results in just LESS THAN 4 WEEKS.

Level 3 Category A Phase III

Leukemia (AML)

Mhd.Fadzil, 4 years old diagnosed with AML. He went through 1 cycle of chemotherapy. During the first cycle of chemotherapy, I told the Oncologist about Transfer Factor and he allowed me to give 2 capsules of TF Advance and 30ml Riovidol 3 times daily. The second month he continued the same dosage of TF Advance and Riovidol. After 3rd protocol, bone marrow was done and Oncologist said he is free from AML and cleared him from anymore Chemotherapy.

PENINGKATAN TUMOR NECROSIS FACTOR ALPA DAN FUNGSI SEL NK MENGGUNAKAN PENDEKATAN INTEGRATIF TERHADAP KANKER STADIUM LANJUT

CIRI PASIEN	HASIL SETELAH 6 BULAN
20 Pasien	Rata-rata peningkatan TNF Alpha
Umur rata-rata 49.3	Meningkat dari 12,4 menjadi 1287,6
Semua kanker stadium 4	Rata-rata peningkatan fungsi sel NK

"Belum pernah di temukan sejenis herbal produk makanan kesehatan atau obat-obatan yang mempunyai kekuatan dalam merangsang & meningkatkan daya imun seperti Transfer Factor!" - Dr Darryl See

Darryl See, M.D

I recommend these products to everyone...

My name is Francis D'Souza and I am 46 years old. On Oct. 9, 2010, I was admitted in renowned Hospital in Goa for 10 full days because of severe chest pain. Angiography test revealed 4 different blockages in my arteries ranging from 60 to 98 percent. Doctors treating me recommended immediate bypass operation and advised me to do this on ASAP basis. At this point, my uncle Evaris D'Souza from Mumbai who is a 4Life distributor recommended that I should start using Transfer Factor products but since I was in the ICU, I could not do so. Even after daily-dialysis for 4 more days, I was unsure whether I should undergo the bypass operation. The doctors finally lost patience on me and told me to go home.

Once I was out of the hospital, I got in touch with my uncle who put me on 4Life products immediately. Every day I took 9 capsules of TF TriFactor Formula & TF Cardiol & 90ml of TF Riovidol. I was also asked to maintain a good leafy vegetable diet to give me additional local dose of Vitamin B12 & B6.

Over the next 3 months I strictly maintained the above intake and as the time lapsed, I found my chest pains, breathlessness slowly vanished. I began to feel normal once again and everybody around me told me I was looking good once again.

Exactly 4 months from leaving the hospital I decided to conduct more test and therefore, I visited Card Hospital in Surat. Here 2D Echo, ECG tests were conducted including a 15 min. Treadmill exercise. The results of these tests certified me 75 to 80 percent normal.

At the time of writing this testimony, I am taking a maintenance dose of the above products and I must admit that I have not only saved money but have avoided an operation which I could not afford, thanks to my uncle Evaris D'Souza and the amazing power of 4Life products called Transfer Factor. I recommend these products to everyone who may have a similar health problem.

Di Vonis **AUTISME** sejak umur 2 tahun. Bermacam pengobatan telah di coba orang tuanya dgn biaya ratusan juta rupiah. Hingga umur 5 tahun, Lufti belum dapat bicara dan hanya bermain sendirian.

Bryant, 4,5 tahun - Surabaya, Indonesia

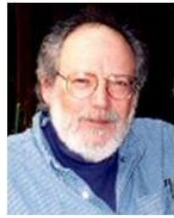

Putra saya mengalami **SPEECH DELAY**, sejak April 2010 mulai minum Transfer Factor atas rekomendasi dokter anak. Saya mulai memberi anak saya TF advance, awalnya 2x3 kapsul / hari selama 2 minggu ada perubahan dimana mulai banyak kemajuan dan pelan-pelan bisa menerima pelajaran berhitung dari saya hanya dalam tempo 2-3 hari, meningkat lagi dengan cara makannya yang mulai mau dikunyah terlebih dahulu (awalnya selalu ditelan langsung begitu saja.)

Sejak mengalami kemajuan, maka dianjurkan oleh dokter anak saya untuk ditingkatkan menjadi 3x3 kapsul / hari, dan tidak lama kemudian mulai bisa diajak komunikasi 2 arah dan menjawab pertanyaan dan sapaan, sampai Oktober 2010 ini sudah lebih banyak lagi kemajuannya, kemampuan bicara meningkat dan kosa-kata makin bertambah banyak.

Kebetulan juga kedua anak saya ada alergi terhadap telur ayam, namun sejak mengkonsumsi TF advance, alerginya pelan2 mulai menghilang, putri saya berumur 2 tahun saat ini.

Semuanya berkat TRANSFER FACTOR no.1 SYSTEM IMUN in USA, dan tidak lupa adalah berkat Rahmat Tuhan yang selalu menyertai dan mengijinkan kesembuhan untuk putra saya.

Penelitian David Markowitz, M.D Terhadap Anak-Anak

David Markowitz, M.D "Sekarang saya telah menyelesaikan studi perbandingan terhadap anak-anak di tempat praktek kami antara yang menggunakan dan yang tidak menggunakan Transfer Factor, dalam periode yang sama. 87 anak, usia 8 bulan s/d 9 tahun, menggunakan Transfer Factor. Kami menemukan 74% anak lebih jarang sakit dan 84 % berkurang dalam penggunaan antibiotic. Dari sekitar 250 pasien anak dalam sebulan yang menggunakan 4Life Transfer Factor, hanya satu yang kembali menggunakan antibiotics dan itu pun setelah 2-1/2 bulan. Saya melihat mereka di kantor saya setiap 2 minggu untuk menggunakan 4Life Transfer Factor.

Lebih 50 tahun penelitian para ilmuwan mendukung penggunaan transfer factor pada manusia. Dengan studi medis penggunaan 4Life Transfer Factor (TF) yang kian hari semakin lengkap dan banyak dilakukan di berbagai dunia. Dengan tidak adanya efek samping, suplemen imun dengan Transfer factor menghasilkan perbaikan total pada tingkat kesembuhan pasien anak di klinik kami, dengan lebih dari 600 pasien usia bayi s/d 18 tahun menunjukkan 75% lebih jarang sakit dan lebih dari 80% berkurang dalam penggunaan antibiotic dibanding yang tidak menggunakan Transfer Factor.

~ David M. Markowitz is an M.D. trained in General Pediatrics and Pediatric Cancer. He left a full-time medical practice after 29 years to share a vision of a healthier world, and to reach about the importance of a strong and healthy immune system and its impact on your community and your world.

Jumain Ahmad, telah dimasukkan ke hospital kerana mengalami kerosakkan hati yang kronik (**Hepatitis**). Keadaan ini menyebabkan mata dan seluruh badan menjadi kuning. Doktor juga mengesahkan buah pinggang hampir rosak. Selepas mengambil TFA 6 kapsul sehari dalam masa 3 hari, ujian darah menunjukkan perkembangan positif dengan imun dalam darah naik 300% dari ujian sebelumnya. Kini saya telah sembuh dan menjalani kehidupan seperti biasa.

Hj. Muhamad Lagis, Julai 2008 telah disahkan menghidap "Three vessel disease" (penyempitan tiga arteri koronari jantung) dan kolesterol tinggi. Sebelumnya selalu sesak nafas. Doktor pakar di IDN menasihatkan supaya menjalani pembedahan "Ballon stenting" atau "Coronary bypass" yang menelan belanja RM60 ribu. Setelah diperkenalkan dengan TF Cardio dan mengambil mengikut dos biasa. Alhamdulillah dalam masa 2 minggu secara beransur kesihatan bertambah baik, tidak lagi sesak nafas dan dapat menjalankan aktiviti harian seperti biasa. Rawatan susulan "angiogram" mendapati masalah kesumbatan pada jantung telah tiada dan ujian darah menunjukkan tiada masalah kolesterol.

Ustazah Salmah, menghidap **Lupus (SLE)** sejenis penyakit autoimun semenjak 2003. Keadaan semakin teruk sehinggalah diperkenalkan dengan TFA pada April 2007 dan mengambil 6 kapsul sehari. Mula merasa perubahan pada hari ketiga. Pada November 2007 mejalani rawatan susulan di Hospital Selayang dan Dr. Pakar mengesahkan saya telah sembuh. Syukur kepada Allah kerana telah dipertemukan dengan produk yang hebat ini.

"Menerusi pengalaman selama 4 tahun, 4Life Transfer Factor berkesan dalam meningkatkan kualiti hidup pesakit kronik saya. Ia juga terbukti meningkatkan IQ yang drastik sehingga kanak-kanak yang tidak mengenali huruf mampu menjadi pelajar cemerlang. Setiap sen yang anda laburkan untuk transfer factor tiada tandingannya dengan kualiti hidup yang anda nikmati setelah menggunakannya"

ANEMIA, PENYAKIT GINJAL & LUPUS

- Nama: Istri saya Noraini 37 tahun dari Lawak Sarawak.
- Dia menghidap penyakit ginjal stadium 5, Hipertensi, Anemia dan Lupus. Ini kenyataan dari RS Miri (8 Juni 2010).
- Pembedahan AVF di RS Kucing (13 Jul 2011). Ribuan ringgit telah habis untuk 4 kali pembedahan. Dia juga mengambil berbagai jenis obat dokter dan rawatan alternatif, tetapi tidak juga sehat.
- Perawat di RS Miri menyuruh kami mencoba TF. Kemudian sepupu kami juga memberitahu kami tentang TF. Pada bulan Sep 2011 dia mulai mengambil TFA 3x2 dan Rivoida 3x30ml.
- Alhamdulillah, selepas beberapa bulan, istri saya sudah mendapatkan kembali kesehatannya!

Psoriasis (autoimune)

Andi Sultan Qurais, Umur 12 Th
Menderita Psoriasis sejak umur 6 tahun, dengan konsumsi TF Tri Factor Formula 3x2 kapsul / Hari .

LUPUS

Setelah beberapa bulan alergi yang tidak jelas sebabnya, di Feb 2007, saya divonis **Lupus**.

Lalu saya diberi obat Lupus - corticosteroid dan lain-lain; dan harus menerima efek sampingnya (moon-face, gemuk dan osteoporosis).

December 2010, saya diperkenalkan 4Life.

Setelah konsumsi **Transfer Factor 3 bulan**, Lupus saya hilang, dan saya merasa lebih baik. April dst, saya tidak minum obat dokter lagi, dan berat badan saya kembali normal. July dan Nov, saya tes darah dan ke dokter, dan Doctor turut bahagia bahwa Lupus saya sudah hilang.

PROCEDURI

Procedura pentru **INSCRIERE** ca distribuitor:

-Se acceseaza <http://www.4life.com>

-Se merge in dr/sus la steag, se acceseaza Europa (jos) si apoi Romania (pe mijloc) si va logati in contul dvs-tra;

-Join us / Become a distributor (Enroll now)

Se parcurg primii 2 pasi de la Account Information

- Se introduc datele personale: prenume; nume; adresa de e-mail; telefon (+407...); parola de doua ori; CNP; se alege limba dorita din cele existente; la Coaplicant nu se introduce nimic; Datele bancare nu se introduc, le bagam ulterior.

- La Sponsor/Enroller information, se introduce ID-ul sponsorului (8850993)– Nu se bifeaza patratelul;

- La Billing Address, se trece adresa, orasul, Codul postal, tara;

- La Shipping Address se bifeaza patratelul (adica primiti pachetul la adresa de facturare, de mai sus)

- La Agreement, bifati cele doua patratele, acceptati ca sunteti de acord cu Termeni si conditii si Politica de confidentialitate;

- Submit.

Apoi se acceseaza Enrollement Application, se copiaza si se salveaza ID-ul distribuitorului

Eu ma numesc Marcu Gheorghe, iar ID-ul meu este 8850993

Procedura pentru realizare **COMENZI**:

Pentru a face o comanda trebuie sa avem un card cu bani pe el si acceptul bancii de a face operatiuni online.

In primul rand, de la steagul din dreapta/sus, intram pe Europa (jos de tot) si apoi pe Romania (este pe dreapta).

Ne logam in cont, accesand Ingresar. (daca vrem sa facem comanda pentru altcineva, trebuie sa intram cu Codul si parola in contul respectivului).

Pentru a comanda, sub fiecare produs/grup de produse, se alege numarul produselor (daca vrem sa comandam mai multe se schimba cifra 1 in nr-ul de produse pe care vrem sa-l comandam) si se acceseaza apoi „caruciorul” din dreapta.

Dupa ce am accesat „caruciorul”, la Carrito de Compras apare cifra 1.

Daca vrem sa mai comandam alt produs, repetam aceeasi figura. Vom observa ca sus, la Carito de Compras va apare cifra 2, functie de numarul tipurilor de produse comandate.

Se acceseaza apoi Carrito de Compras, se vizualizeaza suma, sa fie cea vazuta anterior cand am facut comanda si se merge apoi jos pe pagina la Finalizar Compra.

Se completeaza apoi formularul de comanda cu datele spaniolului, mai putin adresa de e-mail care este bine sa fie a celui in contul caruia se face comanda, pentru ca va primi un e-mail de la companie cu factura comanzi.

La Nombre se trece Numele si prenumele, la Estado se alege Judetul, la Pais se pune Romania, la Direccion (de sub Estado/provincia) se pune Strada si nr-ul, in celelalte doua ferestre cu Direccion nu se mai trece nimic; la Ciudad se trece Orasul, la Código postal, Zip se trece Codul postal, la Correo electrónico se pune adresa de email a celui in contul cui se face comanda, iar la Teléfono se trece nr. tel. sub forma +40.... si se acceseaza Continuar.

Urmeaza sa introducem datele de pe card, se introduce numele (cum este trecut pe card); cele 16 cifre; luna si anul expirarii; cele 3 cifre de pe verso card si Codul postal al adresei celui care este posesorul cardului (atentie) si se acceseaza jos Enviar.

Nu este nevoie sa faceti la final printscreen, pentru ca va va veni pe e-mail factura.

Atentie:

Este recomandabil sa comandam promotii, pe care le gasim la Club 250... pe stanga, sau le gasim pe dreapta paginii unde sunt toate produsele, ca si pachetele de produse promotionale, care au litera „e” in fata, de regula sunt mai multe flacoane in pachetul cu promotii.

Pachetul face 10 zile si ajunge direct acasa la dvs-tra.
