

A GUIDE TO THE COMPLETE LACK OF DEMOCRATIC CAMPAIGN SECURITY

The Biden campaign's volunteer resources have absolutely NO security whatsoever. There is no verification process for most of the actions one can take, and the website both exposes private voter data and allows literally anyone (American or otherwise) to input false information into the Democratic Party's system. Please see below for just one example (their phonebanking system).

STEP 1: Go to www.joebiden.com and click on the "Action Center" button when the calling campaigns are active (usually between 12 PM – 7 PM EST).

STEP 2: Click on "Make Phone Calls for Joe".

STEP 3: Select a voter group to target.

STEP 5: Set up your openVPB account (the tech vendor used by Democratic campaigns).
NOTE THE CALL CODE IN THE URL! If coming from a direct link, you do NOT need the call code, but otherwise it may pop up. You can usually avoid this problem by just making a brand new account.

STEP 6: Set up your ActionID account to actually make calls. THERE IS NO VERIFICATION PROCESS. Every single detail can be fake, including your email address.

STEP 7: You now have access to the private information of voters and can input information that will be fed into Democrat campaign algorithms. Volunteers are expected to use their own PERSONAL PHONE NUMBERS and there is no accountability or verification of ANY information entered into the system. You don't even need to make a call in order to enter data into the system!

Hello, is [supporter name] available? Hi, my name is _____ and I'm a volunteer working to elect Joe Biden and Democrats up and down the ticket in Arizona. How are you doing today? [Listen and respond appropriately].

Thanks for sharing. It's certainly a difficult time for all of us.

I'm calling to confirm that you're still planning on supporting Joe in November's election. Is that correct?

CLOSING:

Thanks so much for taking time to speak with me — we'll continue to stay in touch. Have a great day!

Notes

He told me that he'd rather shoot himself than vote for Joe Biden. I started to ask why but then I heard a gunshot and the phone line went dead.

Stop Making Calls **Save & Next Call**

COMPARE WITH TRUMP CAMPAIGN'S PHONEBANKING SYSTEM

- 1) Trump Talk is a self-contained app that requires verification of email addresses and phone numbers.
- 2) Volunteers who register for Trump Talk must be **MANUALLY** reviewed and accepted by campaign staff.
- 3) Volunteers call with their phone to a central server, which then dials out using a random number so that no volunteer data is revealed to anyone.
- 4) The system tracks the length of conversation and does not allow data entry until a certain length of time has been reached.
- 5) Manual audits are conducted whenever certain red flags are noticed (e.g. unrealistically-high level of engagement, numerous unreasonably-fast conversations, etc.) Each individual volunteer is monitored and responsible for any actions taken as a volunteer.

FINAL NOTE: Clinton's 2016 campaign used the same vendor (NGP-VAN) and had the same absence of security, which means that this is **NOT** a security exploit or a hack, but that the system was designed like this without any thought given to security at all!
