

With the ending of Q4 2022, RGE(Reggie Token) announces the Cryptocurrency.

Reggie Token carefully developed by Industry experts based in the Middle East. Reggie Token is a tax token that makes utilities 2% reward busd , 2% auto lp , 4% marketing 2% dev which enable people to store and invest their wealth in a digital Currency based on the Binance Smart Chain.

The total supply is 1Billion making it a huge potential for astronomical increase in price value making investors tons of profits trading and holding R.

What is Binance Smart Chain?

Binance Smart Chain (BSC) is a smart contract-enabled parallel blockchain to Binance Chain that provides a permission

less platform for decentralized application (DApps). While Binance Chain offers a high-throughput targeting active crypto trades, it lacks in the programmability department. Binance Smart Chain exists to change that. Binance launched Smart Chain to provide a high-speed, low-cost alternative for the burgeoning decentralized finance (DeFi) market, developer-friendly token standard that allows anyone to deploy fungible digital currencies or tokens on Binance Smart which has suffered from Ethereum's high transaction fees. Launched in September 2020, Binance Smart Chain boasts a five-second block time, cross-chain asset transfers, EVM compatibility, and a Proof of Staked Authority consensus protocol to ensure scalability.

The BEP20Token Standard?

developer-friendly token standard that allows anyone to deploy fungible digital currencies or tokens on Binance Smart Chain. What's more, leading digital assets on other chains can be ported onto Binance Smart Chain in the form of pegged BEP20 tokens. For example, you could use Binance Bridge to swap bitcoin (BTC) for BTCB (BEP20) tokens backed by BTC. BTCB (BEP20) tokens can then be deployed in DeFi protocols to earn yield on bitcoin. The same goes for ETH, XRP, DOGE, and many more.

What's Happening on Binance Smart Chain?

Chain already boasts a wide range of DApps and DeFi apps on its chain. While some DeFi protocols have migrated over to Smart Chain from other blockchain networks, dozens of Smart Chain-native DApps have emerged and experienced substantial user growth since their inceptions. DeFi protocols, such as Pancake Swap, Venus, and Auto farm, make up most of the activity on BSC. But that does not mean Smart Chain is only for decentralized finance. Gaming and gambling DApps have also found a home on Smart Chain, and the first NFTs appeared in early 2021 to provide BSC users with the same crypto collectible experience found on other chains.

How to Access Binance Smart Chain?

Arguably, the easiest way to access the BSC ecosystem is using the [Trust Wallet DApp Browser](#). The market-leading mobile DApp Browser allows anyone with a smartphone to securely access DApps and DeFi protocols on Binance Smart Chain with just a few clicks. Download Trust Wallet today and explore the Binance Smart Chain ecosystem.

INTRODUCTION

1. WHAT IS Reggie Token (RGE)?

Reggie Token Crypto Currency is created on Binance smart chain. RGE is going to serve as utilities solutions of liquidity will be adding automatic , and token holders will earn rewards also source, peer-to-peer, Anonymous Cryptocurrency created on the Excellent Binance Smart Chain based carefully The total supply is 1 billion making it a huge potential for astronomical increase in price value making investors tons of profits trading and holding RGE. Reggie Token

cryptocurrency to be developed in the Middle east. by cryptocurrency fan meme coin is a form of digital public money created by complex mathematical computations and validated by millions of computer users (blockchain technology).

You can store Reggie Token on your computer drive, smartphone, hardware wallet or somewhere in the cloud. Reggie Token (RGE) transfer system is convenient and easy to use. The transfer of funds can be done anywhere in the world within seconds. Reggie Token protects your transaction history and wallet contents from prying eyes, whilst leaving publicly accessible transaction hashes available for the technically discerning to authenticate transactions hereby making the transaction of Reggie Token safe and anonymous.

Once you own Reggie Token, they behave like physical gold coins: they possess value and can be traded like stocks in popular exchanges. In the future you'll be able to use them to purchase goods and services.

Reggie Token aims to provide secure, fast payment solutions based on the Binance Smart Chain.

Users in their ecosystem can easily interact with it to send secure payments across the globe and soon be able to make

payments for purchasing goods and services. They further plan to offer wallet encryption, which shields from wallet-stealing viruses and trojans to secure user wallets, enabling them to view transactions and account balances stored in the Binance Smart Chain. Their peer-to-peer payment system allows for faster payment processing and verification of transactions.

Speedy Coin users can store their coins on their computer drives, smartphone, hardware wallet, or in the cloud. Unlike traditional payment systems, Reggie Token aims to simplify transactions, settle them faster, and offer transparency and security by utilizing decentralized ledger technology.

3. SPECIFICATIONS

Description	Reggie Token
Price	Presale Price Starts at \$0.0000005
Total Supply	1,000,000,000
Presale Total Supply	1,000,000,000
Decimal Places	18
Symbol	RGE
Algorithm	BEP20 (Binance Smart Chain)
Reserve Total Supply	200,000,000
Smart Contract Address	0x0B31EE9e9ECb7e8D850eb71c08C5904f8D0e450b

4. How to Store Reggie Token on Binance Smart Chain Wallet

A) Storing on Your Desktop wallet

1) on Your Desktop Google Browser download

Binance Chain wallet extension via this link:

<https://chrome.google.com/webstore/detail/binance-chain-wallet/fhbohimaelbohpbjblcngonapndodjp?hl=en>

2) Add the extension to your Google Chrome browser.

install the extension, create your Binance Smart Chain wallet address and keep your passphrase save.

3) login to your Binance Smart Chain wallet, then

click on the + sign on your wallet interface.

in the space called "Filter assets..." paste in this address:

0x0B31EE9e9ECb7eBD850eb71c08C5904f8D0e450b

PLEASE TO INSTAL Binance Smart Chain on your Google Chrome browser watch this video:

<https://www.youtube.com/watch?v=skiyudsjSHY>

B) Storing on Your Mobile wallet (Trust Wallet)

1. Trust wallet

2. Add custom token

3. Network (Bep20)

4. Contract address (0x0B31EE9e9ECb7eBD850eb71c08C5904f8D0e450b)

5. Name (Reggie Token)

6. Symbol (RGE)

7. Decimals (18)

DISCLAIMER

Crypto currencies are very high-risk investments. The team will do its best to bring this project to limelight and make it a force to reckon with, but everyone needs to understand that it is a full community-owned project and there are risks associated with that.
