

SEEN HERE IS WHAT WAS USED BY MIAMI DADE POLICE TO DENY ME EMPLOYMENT WITHIN MIAMI DADE'S LAW ENFORCEMENT (Miami Dade police department abused, delayed, and lied during employment procedure for police officer position) BETWEEN 2001 AND 2005:

Here is the appeal letter that was submitted to Miami Dade Police Department after declining me the right to work in one as a police officer:

The two written reprimands received from Wackenhut Corporation mentioned on my background file were irrational and here is why...

The first time reprimand took place in my life was at the at the Marriott hotel's location in known as Dadeland Marriott when working for Wackenhut Corporation.

After working 16 hours without rest(entire afternoon and night shift) at Marriott Dadeland, I was asked in the morning hours to continue my work at different post. When asked, I have initially agreed to another eight hours by giving signature to supervisor who have asked me for favor(I just loved to assist people my entire life and have accepted what under law is considered as “illegal overtime” as an honorable opportunity to help/give back to my coworkers as well as company); however, I was unrested(as much as I wanted to assist him, work load went beyond me and I couldn't do it)...

Therefore, still holding the paper in my hands, I have erased my signature from the paper in front of the supervisor by using the white out !!! All this occurred at approximately 0630 hours which was just thirty minutes before ending 16 hour shift(for him, this was a ground for written reprimand) at 0700.

Second reprimand occurred when I left at 0800(at 0800 because my relief came late that morning) hours from Dadeland's Marriott hotel toward home to Miami Beach. I failed to pass onto morning guard what was master key(I only passed him universal reader card used to open doors from hotel rooms). The relieving guard was one hour late that morning and I was in hurry to get out of Dadeland due to construction work and heavily congested morning traffic which would regularly build after 0800 hours in that part of Miami.

As a result of guard being late one hour that morning, It took me two hours to

return home to Miami Beach from Dadeland. Upon arrival to Miami Beach residence, several messages were recorded on answering machine...messages were related to missing master key card.

Despite traffic and everything(all night work), I have immediately headed with my ex wife to hotel at Dadeland. Due to previously mentioned conditions on US1, I have used car to Miami Downtown and from there on we both took metro rail mover to Dadeland(I also did so due to work exhaustion which could result in car accident).

I have still managed to return myself with card to hotel at approximately 1100 hours that day and have passed one onto my supervisor.

Once I gave the card to my supervisor, I was told to go to Wackenhut's branch office located at Blue Lagoon Drive. Supervisor declined to explain how or why !!!

I HAVE TO CLARIFY THAT WHAT IS STATED HERE ALONE WOULD BE CONSIDERED BY ANY LAW ENFORCEMENT WORLDWIDE AS ASSASSINATION ATTEMPT. ALREADY FORCING AN INDIVIDUAL(EMPLOYEE) FOR ALMOST MINIMUM WAGE INTO HIGHLY DISTANCED AND TRAFICED PORTIONS OF METROPOLITAN TOWN AREAS SUCH AS ARE IN CITY OF MIAMI WOULD AND SHOULD RESULT UNDER NORMAL CIRCUMSTANCES IN SUSPENSION OF WACKENHUT ACTIVITIES BY FLORIDA STATE GOVERNMENT COMMISSION ...NEVER MIND STATED ABOVE(Wackenhut had plenty work positions next door on Miami Beach and so on, but they would deliberately send me to remote and trafficked areas of the city). WACKENHUT HAVE HAD IN HOTEL MARRIOTT ALSO PLENTY OF MASTER CARDS THAT COULD BE USED OR EVEN REPLICATED FOR THE DAY(till I would return for work in the evening) VIA COMPUTER SYSTEM – THERE WAS NO NEED FOR ALL THIS.

Upon my arrival at Blue Lagoon Drive that same day, major DELAROSA(De La Rosa), have handled me written reprimands for which he demanded signatures. I did not agree with the reprimands as those were all fabricated charges(LIES BASED ON SEVERE ABUSE PERFORMED AGAINST ME), and have requested to see instead Mr. Eduardo “Eddy” Esquivel who was the main person incharged for Miami's operations. After my explaining him the situation, he stated

how he understands me, but that I should sign reprimands despite facts mentioned earlier. He stated that he likes my performance, and is thinking to promote me from upscale security officer to custom protection officer. Left without choice, I did sign the reprimands as directed by Mr. Eduardo Esquivel without knowing or anticipating that those will be actually used against me in most disgusting and backstabbing manners possible whenever applying for government related work positions. Mr. Eduardo “Eddy” Esquivel was charged and arrested in 2010 by Miami Dade county police along with few other criminals from Wackenhut Corporation when overcharging city of Miami 3 million US Dollars for non existing services company services <http://www.miamiherald.com/latest-news/article1944878.html>

Year passed, and while working at Winn-Dixie's Warehouse one night, road captain Alexander Cruz stopped by to conduct the post check. Due to me unknown reasons, Mr. Cruz disliked me(would not laugh or converse as he did with other guard and wouldn't respond with same politeness which he received from me).

While handing him touch probes (location check sensors) in his vehicle through the window, he deliberately kicked me with vehicle's door(he would just open car door by pushing one in me when standing beside window – what I considered as in-polite and as attempt to escalate non existing conflict into real conflict situation). Alexander might have a long day behind him and was perhaps tired for the night(he was also in school during the day time). My realizing the potential for conflict situation, I have instead managed to friendly avoid him by immediately assuming work post back at the guardhouse.

After more than thirty-five minutes chatting with other guard(he should have stay there for no more than 5-10 minutes – its what takes to complete post check as a road captain and its what you do as a road supervisor unless you are replacing guard – I was one as well, so I know how that works), Mr. Cruz approached me in guardhouse and have asked me for the spare radio battery which I have immediately handed him(I gave him whole radio). However, he was unable to detach primary battery on his radio and have demanded from me to hand him my personal keys set what I declined(he had his keys and he could have even broken my car key).

By using his own keys set, he finally managed to detach the battery off his radio. Upon his battery replacement completion, he slid me one across the table by

what appeared to be almost as if thrown in me (radio flew into my paperwork in front of me). I have quietly attached the spare battery onto his radio unit (he didn't bother to attach one to his spare radio, but have demanded me to do so instead), but did have enough of his attitude and have replied him I cite, "I do not appreciate the way you treat me".

He returned angrily with, *"What is your problem man! Do you want me to come in there ?"*

On his challenging words and since Cruz was armed with pistol, I answered him that I feel threatened and will report incident to Blue lagoon's office.

Agitated and equipped with revolver, Mr. Cruz entered the security booth, and stated that he knows Mr. Esquivel personally. Few minutes latter, he called new major who have sent me at home (major who was at home was totally awake during incident which I believe have taken place sometimes between two and three in the morning...as if someone well anticipated incident described above).

Very same day, I was fired from Wackenhut Corporation upon my arrival there. They were not interested in my side of the story, but did mentioned me previous reprimands as a critical factors in their final decision.
