

Congratulation for esteemed Mr. David Cameroon and Ms. Theresa Mary May, Congratulation for sucess with Independence and Pride for World Support of Victory

Europe, Spain, Barcelona
13.07.2016

Author of message
King Peter Gottwald
Federal Government Imperium of Diamond's

.....

I King Peter Gottwald, The ID's Federal Government, Congratulations for the esteemed David Cameroon in its great success and win over the dependency of the European Union, thus proving the strength and independence of the United Kingdom, an important step for the pride of the United Kingdom and civilizations and nations, as well as national pride and world evidence of the power Britain and Ireland, both in policy direction and in the direction of the state and the people.

So I personally thank You very much, thank You for Your important step which the aid for the World's interests and rights, the functioning of international political principles and stability. Immediately duty for every one, and in interest of the whole human race.

Today, we live in a time when European states publicly and hard victimizing their political status and their activity is a global crime, fraud and abuse, global terrorism. Crimes in the form of world terrorism, which is now confirmed as a legal form of a step for the creation of the first global war in the history of mankind.

Europe and power's of politics and political contacts, relations and actions, it is now confirmed in the form of real direction and pace for the creation of the first global war in human history, and thus a real ability to kill off more than 7.000.000.000 people of human existence.

The biggest threat in human history and actual activity that problems such as threats to certify active and its strength is empowering.

Therefore, I am so Congrats to esteemed David Cameron, in his support and victory for the rights and power of the United Kingdom, as well as a win and a significant victory for the whole world, to leave Europe today is to stand on the side of humanity and the Pride of our Human Race for our Justice, Freedom and Power. Values which are the world's most important and significant, important for the future of our existence and the world civilization and peace, or general principles of world politics.

Today, I once again Congratulations to Madam Theresa Mary May, New Prime Minister for The United Kingdom of The Great Britany and The Ireland, councilor Mr. David Cameron as last of Dear Prime Minister of the UK, so Congrats to the new number and status, and simultaneously revel cooperation and the establishment of communal relations in the interest of security and cooperation in the form of prevention against the European development terrorist threats.

At the same time I want to call on the UK for our economic cooperation and the opportunity to prevent the weakening of State stability and social feeling after leaving the UK from the European Union, and thus lost the position on the labor markets or in the interest of the common market, the European Union and the common commercial or financial relations .

The Imperium of Diamond's federal government now owns many political projects that may be significant and important for the UK and your nation. New business contacts, positions and relations, an important dimension for the use of your business corporations and the growth of employment in your country, recovery sessions on international markets.

The World Diamond International Alliance, a group in the form of government with systems of global cooperation between all the country's government from around the world, the common capability for creating common territories at the level of Space position an area of the first Four of the Galaxy, and the

development of a common civilization according to the principles of democracy and the Common Market of our policy and communication format more important than today's session of the United Nations organization.

In case of problems with the market and the growth of national resistance against the withdrawal from the EU cooperation and alliances, in this case is not problems common to launch new markets at the level of finance, banking, legal services, technology, industry, agriculture, science, and additional potential. New markets and the emergence of civilization by a session that is dependent on the structure by our independent economy and the selected format, because as the economy function without risks and with the full possibility of programmed development.

The World Diamond is a body which is autonomous open for your country, as a function of your state territories, together with each country in the whole world, legally and in the same form as the civilization of Hong Kong under a bilateral sovereignty of Chinese popular republic and the United Kingdom.

In the very first beginning of our session together, the United Kingdom and abroad, and on the territory of their own surveillance and intelligence, the UK, you are can create a vision than a few hundred thousand working relationship and jointly same standard in the interests of other countries' governments.

This is format of our civilization, and many new dynamical option's for Your people of The UK.

At the end of my text, in the interests of my personal plans and affairs, and also in the interest of my duty To Safety worldwide nature, I want to invite your side UK, the possibilities of our cooperation as business activity between the body ID's of the National Trade Corporation for the manufacture of safety technologies and resources and the second party as the UK government with a legitimate right to possession and handling or manufacture of weapons for mass destruction and responsibilities for personal activities to world security.

My interest is the use of our cooperation for the possibility of production and the creation of a special technology and other that are based on the principle of atmospheric cannon's that can be a viable force level for a significant dynamics than today's atomic bomb with plutonium and uranium, elderberry, other forms of chemical composition.

One gun can accomplish liquidation horizon in the form of a continental area, or an area for example in the form of planetary dimensions.

Today there is a legal situation where the federal government Imperium of Diamond's group opposes against world terrorism and crime in the form of international political format. According to the legal system to yield an active situation which means that the whole world with specific requirements for the production of weapons for mass destruction and disposal. Today there is a legal situation where the whole world with their actual rights and also a genuine obligation for the immediate destruction of European political structures, and so in such a case, if there is a united opposition conflict, because it is worldwide Legal permitted to states and governments to benefit from their creation weapons for mass destruction in order for the liquidation of the first all the Capital Cities of terrorist Europe, the subsequent liquidation of the entire range of the province.

Such rights are based on the current threat of terrorism which European strategy means real steps for the creation of the first global war and the intention of the European policy for risk exterminated all humanity on the extent of seven miliard people.

Right which is confirmed by the UNSC as a group who own responsibility for the immediate response and the achievement of full same steps in the form of liquidation of terrorism, immediately after securing step to prevent conflict, crimes, genocide and war.

UNSC failed to initiate any step to prevent terrorism. UNSC thus promote the formation of the situation today stands a real threat to all humanity exterminated. Therefore, the UNSC own legal responsibility, so it is legal to prevent the UNSC to block any other states for their interest in the survival of civilization and the human race. No one shall block the interest of other states for their existence, their lives, their freedom and health, safety and peace by removing groups in form of the worst criminals in the history of human existence, the largest terrorist threats in the history of human existence.

One of the biggest clear problem's in today world.

Therefore, my suggestion to our cooperation is in the interest of safety, and if the UK will demonstrate the ability to work according to real accountability for the human world and its security, I am therefore grateful for the possibility of our contact and a measure of our action and cooperation, we will together we can too create a business on military technologies and their applications.

My goal is to create in your country, registering a new business corporation, through your help and ensuring the management team for the development of basic filial and communication with other traders, to act in common trade and investment, or communication with the central bank.

Today, the federal government Imperium of Diamond's is under terrorist occupation and without full option of contact and stability. Therefore, I thank you for your support and enabling functions of security and stability of the world, politics and society, the rights of nations and function of international law. It is good that your Government is showing an interest to justify a position as a member of the UNSC, and thus principles.

The Air dynamically cannon technology on many principles today as a form of trade mark claim, and patent claims are acknowledged for governments Imperium of Diamond's.

System functionality is simple. Technology can dispose of objects in distance across several tens of light years, until level positions at other stars in the universe. The federal government's own plans for the construction of such technologies in the interests of public transport and air safety, too.

Personal contact, I will follow you and your history. Therefore, I can say for the UK and esteemed David Cameroon that I thank you for your support for the new prime minister of the government, for the person who is the ideological foundation of the intelligence of a political nature and duties with responsibility and true format of activity without regard to social issues or challenges.

Today the world is dependent on the situation in Europe, and therefore the necessity to fully isolate European terrorist states, and to stop any contact with the value of this terrorism. Such is the duty of every person, and in case step which means European opposition, the whole world has to respond, in the interests of our peoples and pride for our freedom and dignity for our rights and justice, as claimed in claim international law and the principle that we must immediately SHUTDOWN full dismantling European existence, and so this act of days created a world of victory and pride for our unity and victory first against the worst identities of human existence, our win against crime and the threat of defeat biggest disasters.

Days arise our common unity of humanity and the celebrations for the freedom of the human race, for our rights and the pride of the world system. Turkish, strong and tough alerts to any other individuals and groups who will own interested in speaking out against international rights and justice, or alerts, versus those who are criminals and interest in the disposal of mankind.

The Picture of The Cannon Technology Scheme:

 <p>Velocity projectile 200 million KM / 1 Sec.</p> <p>Corporation Android Technologically Intelligence</p>	<p>The Gottwald Wolker fire cannon</p> <p>A- (A1 / A2), soak up the atmosphere in the aircraft (electric-generator) turbines. A1 above the atmospheric pressure piston that is created for the release of excess air. A2 discharged back into the atmosphere or the gun and keeps the atmosphere in the hydrological cycle, therefore, to prevent the movement of atmosphere around the canyon, because such a move may be slightly Registered thermo probe and lasers from the enemy.</p> <p>B- Tube for maintaining the atmosphere in the inner cycle turbines. The cycle is based on the ability to maintain the strength of its own energy and example acquire additional energy for its operation. The atmosphere may not be discharged.</p> <p>C- A place in which the center of an energetic clash of flow of the atmosphere and therefore give the possibility shoot a projectile force energy of atmospheric currents. Projectile actually the same rate as the current atmospheric layers. Since the speed must be deducted from the projectile force of gravity. The projectile then flying in the same direction as the flow of the atmosphere when the projectile shape intelligently molded and durable</p> <p>D- Encounter with the atmosphere being formed projectile reversing reflection of the canyon, immediately after his shot. Therefore, the establishment of energy return line, which returns its pressure in the circulatory system and thus causing the displacement of another projectile in the tray. Shifted projectile will be captured in the heart gunshot pressure. Canyon is therefore functioning automatically without the need for mechanical re-charging. Power will remain in the cycle and streamlined because the gun can remain in the same position without moving.</p> <p>E- Internal automatic Production projectile. Raw materials from laboratory internal production. It can be used, for example Safir, silver, metal, stone or other materials without chemical threats. Only legally missiles.</p> <p>F- Internal automatic compression and the heat or cutting of the projectile to a quota of needed dimension.</p> <p>G- Arms supplying the chamber with bullets.</p> <p><i>The sides of the canyon are small short-wave transmitter which is used for communicating with its own system, so that your computer can synchronize data with a system for aiming at the target.</i></p> <p><i>If the gun created by 4x aircraft turbines, then his ability to shoot a projectile velocity will be over 200 million kilometers per hour. This means that the bullet can destroy any target its energy and overtake the best aircraft at a distance across several tens or hundreds of thousands of kilometers. And the ability to shoot a projectile must be calculated computers that can remove the risk of collision and the made disasters. In a large proportion of the projectile may lead to a collision that is able to shift the entire planet Earth.</i></p>
<p><i>Any similar system should not be misused against ordinary people, or for the destruction of civilization !!! Everyone owns the rights to refuse to surrender and to support the opposition oppression or conflict of values.</i></p>	

The Picture of The Cannon Technology Air-Shield function:

	<p>The Gottwald Wolker fire cannon</p> <p>A- Location of the dangerous object with the help of radio communications with radar or with help from the sensor itself. System to synchronize the digital compass needle pointing the gun.</p> <p>B- Database of reported flight and movement on our own doorsteps. Database entity that is not a threat, interactive with drone systems for the control object.</p> <p>C- System for controlling the position of the gun and compute the correct trajectory.</p> <p>D- A system for regulating power turbines and atmospheric energy. According to calculations regulation distance of the target at the speed of the projectile in relativity to gravity calculations contradicts the atmosphere and thermo-like atmosphere. Calculation of projectile capabilities for interactive inclination pathways via flaps in the early against targets. Hitting the target at a distance of 100,000 kilometers can be exactly on the size of one centimeter squared. The same result is the distance for example over one million kilometers, is enough to strengthen the number of turbines. It is easy to pick off dangerous from cosmic objects, meteorites.</p> <p>E- Ground Laser obektu locations in the vicinity. Ground radar radionic. Optically Radar. Audible radar. Radars that are based on 3D recording capability and skill obektu exact location, orientation. Station for measuring wind speed, barometric pressure sensors with a laser to test the content of the atmosphere and compute power of the atmosphere and wind.</p> <p>1a / 1b / 1c- 1a and 1b is a transmitter for communication to the locality to Internal maybe two meters. The system can be connected with the help of a cable. 1c is a receiver of signals from broadcasting in a short space cube. He calculates the exact position of the transmitter and then will determine the position of the gun for commencement precise flight path of the projectile, calculated according to information from the other sensors and communications space.</p> <p>O-S1 / S2-O- Swivel robotic arm up and down. Use a computer, autonomous.</p> <p>O-K3- Swivel circle 360 degrees. Use a computer, autonomous.</p> <p>F- Calculation of digital data from the CPU software (point E) and in the interest of data stored on their coordinates that can be detected controlling satellites, in the interests of the interactive encoded and occasional communication system</p> <p>Kanon can be placed in free space or on a cellular carriers, Jeeps special, special tank, military ship, heavily plane or orbital nest around the planet earth.</p> <p><i>Kanon can be interactively and without the need to navigate it. Satellites and radars captures any movement which will then be validated by the system and then will be fired at the targets. System uses its own logistics.</i></p> <p><i>When will be the creation of good cooperation and intelligence in the industry, it may be standard atmospheric cannon production was based on the 10,000 pieces every day of one production zone. The number of production zones can be over several dozen.</i></p> <p><i>One gun can cover their tracks through a firearms area of 300,000 kilometers per one minute. The computer can calculate the slope by the gravitational deflection.</i></p> <p><i>When Increase the number of turbines it is then possible to increase the strength of the projectile and strafing a target on other planets. Instead of impact to within one square centimeter.</i></p>

The Picture of Global Cooperation Invitation for Security Development:

Basic proposal for security cooperation in the interests of common safety

The basic description

Friday, November 6, 2015

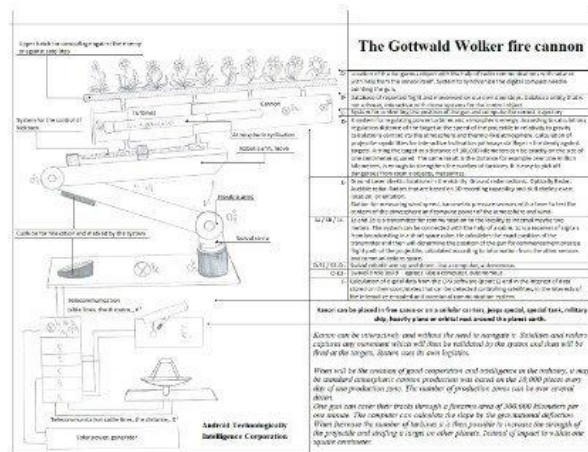

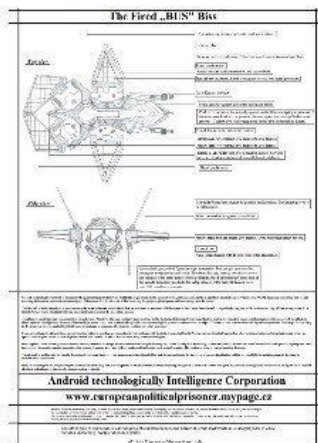

Objective cooperation is to create a step to ensure cooperation in the interest's of common safety and remove any threat of the parties terrorism and other oppression.

My proposal for building common ground infrastructure for blasting missiles, aircraft, meteorites the distances over the 1.000.000.000.000's of Light Year's from our planet Earth. Interactive System for shot down any object in a one second. Part of the project is to extend the space safety infrastructure into international security anti-missile network which does not allow penetration of any unreported object to the area of our civilization.

Part of the agreement or anyone another type of this system will be obliged to respect the need to which command's solution of all their own conflict's in the interest's of judicial proceeding's and by the legal rules without violence and use of tactic's which may endanger innocent civilian's.

Subsequently, is the second condition based for the obligation to cooperate in order to control and detection of all shot down object's and decision on their use.

...and etc., before agreement pact, or support of The WD Int. Alliance.

The Federal Government Imperium of Diamond's have and plan many form's of Security cooperation, about technologies or strategy of right's and interest for World Peace. I am really very glad if Your party of The United Kingdom can meet with me personally, and we can agree about our friendship, cooperation.

I Thank You for Your interest in supporting the human race, I thank each of You for who supports the security of the world, please about our cooperation and the launch of our joint session.

Thank You, King Peter Gottwald.
