First of all, get your Network Name (SSID) & Network Key (Password) Handy. Now let's move Brother MFC-L2710DW Printer Wifi Setup.

Easy steps to connect Brother MFC-L2710DW Printer to Wifi

First, you have to reboot your printer.

- Turn on your Brother MFC-L2710DW Printer
- To reset the wireless connection press the Menu button. Then Press Ok
- Select Network Reset.
- Press 1 to select Yes.
- Press 1 again to confirm the reboot
- The printer will now reboot and the network reset has been successfully done.

Now connect It to a wifi network

- Click on the 'Menu' tab on the machine's control panel and press OK.
- Select 'Network' and press OK.
- Select the 'LAN' option and again press OK.
- Find the 'WLAN' and click on 'OK' to confirm and wait for 'WLAN enable' to flash on your screen. After this step, wait for a moment as it will then start the wireless network wizard.
- The device will now look for the network and display lists of available SSID's, select the one SSID with which you wish to connect and press 'OK'.
- Enter the network key and press 'ok' and then select yes in order to apply your settings.
- The device will now attempt to connect to the wireless device that you had selected. If your wireless device is successfully connected, the machine's 'LCD' screen will display the status as 'connected'.
- Download the printer driver software and your machine is ready to print.
