

Bostjan(Sebastian) Avsec	Contact: ausertimes@gmail.com or bastianauser@gmail.com
Address: Osrodek dla Cudzoziemcov Grotniki Ustronie 29 95-073 GROTNIKI Poland	

Profile:

I am professional with over 27 years of experience in international settings that involved and involve industries such as retail/wholesale(**electronic, real estate, time share, car sales**) / government and private security / customer service / transportation / mechanical engineering / investigative journalism / book writing / video production / political activism / human rights & much more...

CHARACTERISTICS: I possess excellent inter-personal skills(I can write books on psychology or psychiatry because I know certain areas of the two fields more than what most professional psychiatrists/psychologists do), strong analyst(researcher), fast and entrepreneurial problem solver, fast learner, enthusiast, management experience, customer oriented(love helping people), computer literate, multilingual(**English, Spanish, German, Croatian, Slovenian**), quality and budget minded.

I seek employment in industry that involves any of the above mentioned services or my level of the education, but am also open to other types of work(I know that I need to learn Polish, so any type of work is more than welcome right now). I came to Poland to file for political asylum(ask for protection), but am not allowed to file for one because of my being EU citizen(its a scam that EU member states use to protect interests in crime against our own EU citizens – its like saying how there is no crime in EU). However, I am American and Slovenian citizen what allows me employment in Poland since Slovenia alone is EU member state.

Education:

- Grammar and high school, Slovenia(Osnovna Sola Grm, Novo mesto - 8 years)
- Slovenia (Solski center Novo mesto - 3 years for industrial/transportation maintenance mechanic).
- Slovenia (Solski center Novo mesto - 2 years for mechanical engineering technician).

Languages: English(very good), Spanish(good), German(so so), Slovenian(Very good), Croat(very good)...am learning Polish and I also speak some Russian. Have plenty of additional training in computers and in other areas(send me evaluation for potential work position; I will gladly look into and let you know if I can handle one)...

Experience:
