Take Two - Interactive

Subject: Cybercrime & Extremist Propaganda - ATA 2001

This letter is addressed over to investigation and monitoring unit of 'products distribution as substantial report in relation to child safety & extremism prevention petition over the virtual communication & entertainment platforms. Before writing this letter over to the ethics and relations team of Take- Two Interactive & related subjects of the matter, special report was formed and sent over to international jurisdictions of law enforcement, respectively to tackle extremism, radicalism and equally engaged subjects, for a new legislation law to be passed and proceeded in the following international anti terror committees. As followed:
International Police & Investigation - Interpol.: [reference act: Resolution (AG-2009-RES-05) [in accordance with: " Proclamation TS-2015 ACT / Cyber crime & Extremist Propaganda ATA 2001 ACT / Introduced " Prevention of Cyber Terrorism & Radicalization ACT PCTR 2015". Independent Anti Terrorism Tackling Organization [reference act: Child safety & protection online CSPO] [in accordance with: " Prevention of Cyber Terrorism & Radicalization ACT [PCTR]
Regarding current state of affairs in relation to an official petition and report over to Interpol & following independent inquiries, to purposes of new legislation induction, i am willing to provide you with a report & statistics on cyber crime being committed by the radical organizations, through the use of Rockstar & Take - Two interactive products, correctly stating, "tertiary modifications", developed and created by independent teams of freelancers and programmers, please review the legislation carefully, specifically for the sections of " Distribution of entertainment and production manufacture" . Stating proclamation for necessary induction of monitoring and regulation over gaming platforms exceeding 10-15 years limit.

Take Two - Interactive

Production exceeding 10-15 years

For most of the commercial products & distributed virtual content, related to interactive platforms, gaming integration with no single, hut multiply users, that is applied under criteria of exceeding the limit of operative flow, for over 10 years, are noted as 'products of interests' for monitoring purposes in relation to proclamation act to counter extremism, terrorism, radicalism. I am writing this letter over to your department, to ensure you of my intentions and to inform you of my further actions that will be considered to be taken as soon as we as a community of parents, families, and ones that had lost our loved ones during the war conflicts and similar situations, will continue to develop [PCTA] Act proclamation as a primary programme, for it not only to sustain but to get through as an official counter terrorism operation on the list of Interpol's criteria.

It has been considered, for Take - Two Interactive & Rockstar Products exceeding the limits provided in above context, to be investigated as a part of ongoing cyber tackling operation against radicalism and spread of radical propaganda using interactive platforms as called " multiplayer modifications " official / none official as being part of product general source also known as manufacture. We had identified three potentially dangerous modifications, directly and indirectly related to Take - Two and Rockstar Games official products which are:

- Grand Theft Auto III:
modification: Multi Theft Auto

- Grand Theft Auto Vice City
modification: Multi Theft Auto
modification: VC-MP "Vice City Multi Player"

- Grand Theft Auto San Andreas
modification: Multi Theft Auto
modification: SA-MP "San Andreas Multi Player"
modification: GTA Tournament

Take Two - Interactive

Reasoning

We had identified these products as potentially dangerous for young generations and as modifications to original Take - Two and Rockstar Games products that are unable to provide their users with safety guidance and decrypted log system for enforcement agencies to have an easy access to, as the system uses individual server packages and all stored data and information is limited for monitoring purposes. Stated modifications provide the users with freeroam communication platform that can be used for purposes of radical propaganda infiltration, recruitment through the use of inside gaming processes and experience users get. Limited to policy statements in reference to officially representing any company, individual, organization or else. Please review section " " in regardance to legislation concept, primary purposed for induction in official proclamation of Interpol.

Documents attached

There is folder documentation in a separate mail that should be delivered over to your office by the end of the week, documentation list as follows:

SITE - Official report & statistics on cyber crime & terrorism

Interpol legislation request - Cyber crime & Extremist propaganda - ATA 2001

Thank you for your time reading, we appreciate your efforts for continues development of entertainment production.

In regards to Take - Two Interactive
