LAMENTATIONS *of the* FLAME PRINCESS WEIRD FANTASY ROLE-PLAYING

Intro

What is this?: Here, I have created what are essentially ‘pregen’ characters to portray the adventurers found in the game Darkest Dungeon. These were done with as little house-ruling as possible, to stay within the rules-as-written of ‘*Lamentations of the Flame Princess*’.

Obviously, adventurers such as the Abomination or Houndmaster don’t fit within a traditional OSR class archetype, so simple solutions have been laid out, typically in **white** text at the bottom.

Why not create new Classes?: You could, easily. OSR games are incredibly customizable. What I aimed to do was show people how *flavor* and not just *classes* can create a unique adventurer.

What about stress, virtues & afflictions?: To keep things simple, on a 2-in-6 chance, I would roll a [d10+5] post-combat or other deadly event. Players would then roll to Save (equal-or-over the number). Any failed saves would suffer from a variety of afflictions, such as:

- Paranoid (+1 to be surprised)
- Selfish (-1 CHA)
- Irrational (-1 WIS)
- Fearful (always last in initiative)
- Hopeless (-1 DAM)
- Abusive (10% chance to attack ally)
- Masochistic (immediate damage for 1+lv HP)

Successful rolls would lead to virtues, such as:

- Powerful (+1 damage)
- Courageous (+2 initiative)
- Stalwart (+1 CHA)
- Vigorous (+1 CON)
- Focused (+1 to hit)

Again, these are just ideas. If used, duration, remedies, implementation etc. should be determined by the Referee.

Enjoy!
