

Education Consultancy Services of AECC Global in Kathmandu

AECC Global's consultancy service has recently been extended to the country of Nepal, with the opening of an office in the city of Kathmandu. This will allow the students from Nepal and surrounding areas to realize their dream of an education in Australia, as well as the opportunity to experience Australia's vibrant culture.

With AECC Global's presence now in the country of Nepal, students there are finally able to experience the advantages of Australian culture as well as receiving top-notch education from one of the greatest universities in the country. AECC Global is involved in the entire process from smoothening the way for admission to the country and to a specific university, to career counseling and advice about potential university programs to enroll in till the time visa is not received

“Students will have all the advantages of living and studying abroad in a country with a diverse culture and many world-class educational institutions. Some other tangible advantages are that the degrees obtained from Australia are globally recognized, many of the world's top-ranked universities are in Australia, costs are lower in comparison to other countries, Australian Diaspora is very friendly and co-operative, the weather is comparable to that found in Nepal, many settlement options are available, and the Australian universities are research-focused and technology-driven.”

There are even more reasons that students from all around the world find Australia to be such a desirable destination for studying abroad, and that is the reason why AECC Global was established in the first place. As there are so many distinct features about an education in Australia, AECC Global had a vision of a global representation of the country and the educational system.

“Australia is one of the leading destinations for students who are willing to study abroad. Over 500,000 international students chose Australia for their education in the past year. Australia has an international reputation for excellence in all areas of education and training. It is a hub for research and innovation and offers various opportunities for international students to contribute to Australian and global research. It has around 200,000 students from over 140 countries around the world. Above all, Australia's commitment of offering international students with quality education is backed by legislation and regulation that govern the international education sector.”

In addition to the full degree programs available in the country, there are also [Australian advance diploma courses](#) offered. This is just one more opportunity for students around the globe to find what they are looking for in the country and to take advantage of all that Australia has to offer.
