Dear Sir, the Secretary General of the Security Council of the United Nations,  
Dear Madam, Dear Sir,

### **Introduction**

The Secretary General of the UN. knows me already since April 14, 2018, 16:27 CET (see picture below). That date, I emailed the Secretary General, to tell him that I just sent an Intelligence report to Russia on April 11, 2018. This report provoked, in less than one hour, the crash of the Russian Iliouchine plane of the Algerian force, and killing 257 people. These were the families, women, and kids of Algerian militaries. It was the biggest aerial catastrophe directly linked to my work.

However, it was not the first disaster nor the last one linked to my work, and that crash, on April 11, 2018, has been provoked to generate this e-mail destined to the Secretary General of the United Nations. The important thing for "my employers" was to get the attention of the UN and to show who I was, since they did not stop to link many dramatic events to my activities.

**Who I am & who they are.**

Internet knows me as Marc Delantre. I'm Belgian, 60 years old, living in the Philippines since May 2015, and before in Madagascar, since May 2014. I have always been a programmer, but the intelligence agencies know me as an informant, dependent on a very special entity.

These Intel Agencies also know that my activities are linked to the very minute to dozens of dramatic events including terror attacks, planes crashes, massive shootings, industrial and natural catastrophes such as earthquakes, tornadoes, volcanoes awakenings, and so on. So, hundreds of dead linked to my work, since January 2015.

However, it is only on 2020, that "my employers" linking all my activities to these disasters, made me understand that they were not on Earth! It is the Extraterrestrial Intelligence that created humans, and who created me to be their Messenger to humanity. It is why they cause so many dead directly linked to the minute of my activities, such as my reports to Intel agencies or States Institutions. Indeed, it is the most evidence, that their power was not terrestrial, and that I'm linked to them. These authorities, to whom I wrote, could also check easily the synchronicity between my reports and these dramatic events.

On the last weeks, I was in contact with a senior SETI Director, former NASA director, and that's where I was supposed to get. However, my first contacts with the American administration date back to December 2016, and with European intelligence agencies, since 2008. Let me remind you a bit of my history, with this ETI, Extraterrestrial Intelligence, and the Intel Agencies.

## **My history**

In 2008, the French authorities asked me to take on the role of undercover agent, without giving me too much choice. In 2009, the Israeli Secret Service got me out of there because I was in a very dangerous environment. They then completed my information, which allowed me to create contacts within several European Intel agencies, of which I am still an independent informant. My evolution was not very natural and for this ETI, Extraterrestrial Intelligence, I had to obtain my entries inside these Intel agencies. So, I lived a life and a series of the craziest events, including my clinical death, but all this was orchestrated by this ETI, to give me access to Intel Agencies.

In 2016, I saw that my internet server, located in the Netherlands, was receiving numerous strange internet connections. It was then that I contacted the FBI because I understood that these connections had the same signature as the most powerful Internet weapon in the world. The FBI then spent three months in close collaboration with me and using significant technical means to try to understand who controls these connections. The FBI and I have exchanged 450 emails in three months, and they still have full access to my server, but they have never found out who controls these connections. Another possibility, they preferred not to tell me more, especially since I had already understood that these connections actually formed a Signal, managed by a very powerful entity, this same ETI, Extraterrestrial Intelligence.

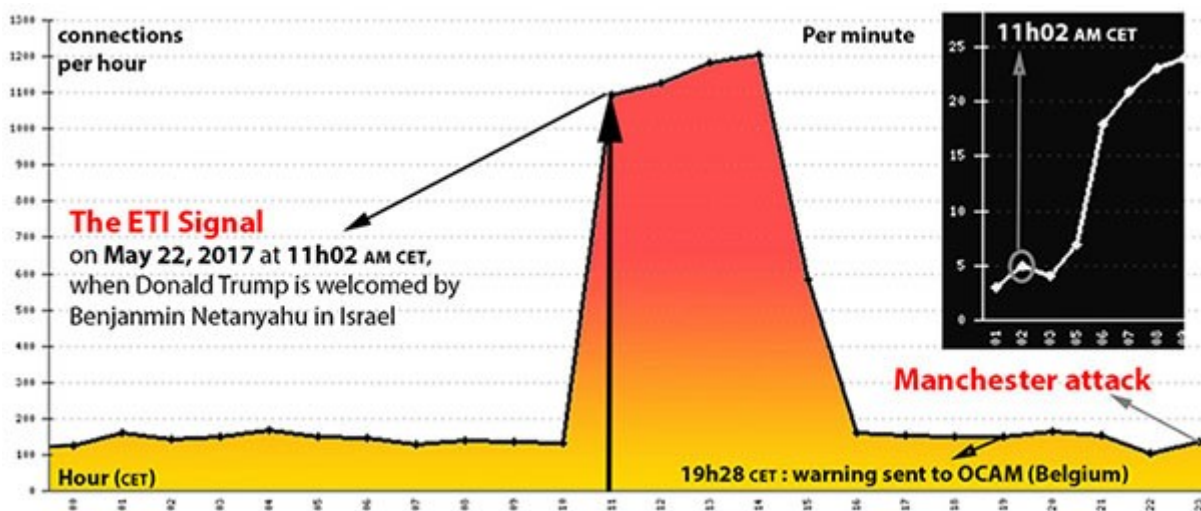

## The Signal and telepathic information to warn me of catastrophes

However, from 2017, this Signal, which still exists today, began to warn me of catastrophes around the world, which all happened. At least that's how I explained it to my contacts in the Intel Agencies.

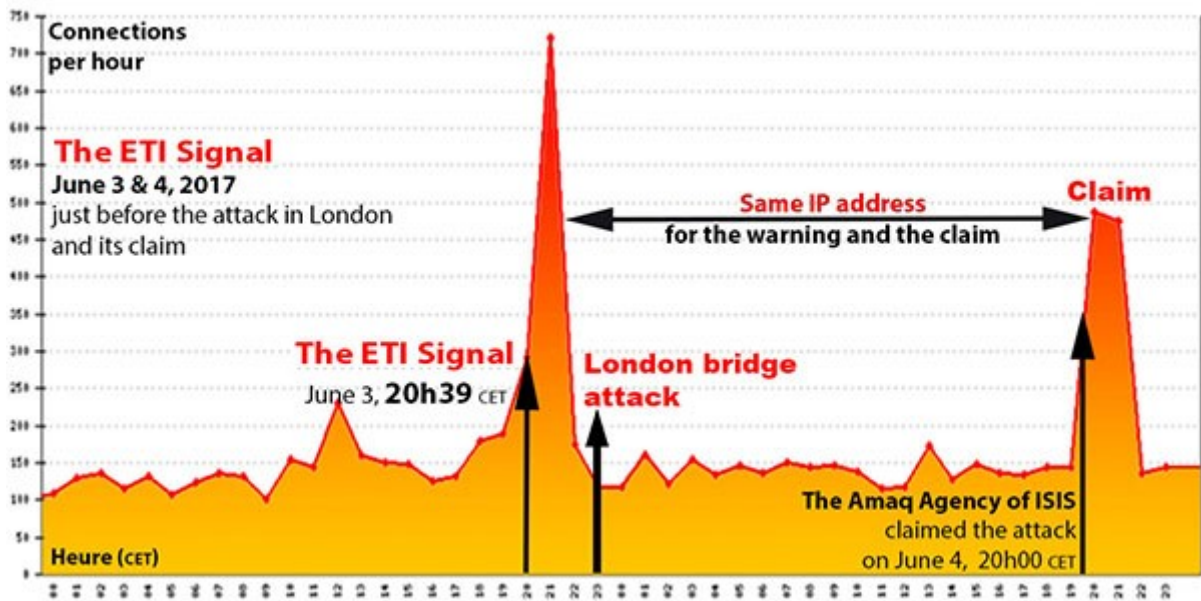

This Signal, which is online on the Internet, is a curve, with the number of connections, on the vertical axis and the hours on the horizontal axis. This Signal rises and falls according to the number of connections, and I have to understand the curve that I get and the symbols that this curve can include.

However, when I began to observe this Signal, I also began to telepathically receive the meaning of what I was discovering on the Signal. I was then able to tell the Intel Agencies, and authorities, ***“Do you see this big spike here? It announces that a terror attack is going to happen in the next hour.”*** And, the attack was happening as I had expected.

The first terror attack that this Signal warned me, was the terror attack in the Manchester Arena, on May 22, 2017 (see picture below). I saw the ridge on the Signal, and I received the meaning by telepathy. I called the Belgian Secret Services, and they asked me for a report. When I sent this report, the attack occurred at the Arena !

The second attack that this Signal warned me, was exactly in the same condition. It was the terror attack on the London Bridge on June 3, 2017. I had been warned, only two hours before the attack (see below).

This then happened dozens of times, for terror attacks, mass killings in the United States, including those in schools or in Las Vegas, for example. Then it was the turn of industrial and natural disasters, including volcanoes and earthquakes, and in general, everything that would be fatal and that would make the headlines. Everything synchronized with my activities, like for the attacks in 2015 and 2016.

The Intel agencies had probably understood that the origin of my information was not “human” and that it was based on a Signal accompanied by telepathic information. This is still the case today, but it has extended to supernatural effects, especially in my environment and above all on my body, but also to my ten close collaborators.

In 2019, the ETI which watched over my progress towards NASA, told me “*Trust your intuition...*”. I was only beginning to understand who they were. I did not have any particular intuition. This was nothing more than information received telepathically, but which mixed with my own thoughts, I was then unable to dissociate them. Today, I can.

**I understand they are not terrestrials. So, I need to contact other experts.**

Today I have thousands of followers on the internet, a million views on YouTube, but that was before I understood who I really depended on. More exactly, they very gradually allowed me to understand who I really was. That said, they also used means which were gradually out of human possibilities. So, gradually, the authorities and me, we could also guess that they were not terrestrial.

I then began to make contact with quantities of experts in different subjects including religions, UFOs, astronomy, the search for extraterrestrial intelligence, and many others.

This ETI I was talking about had even added, down to the minute, to some of my letters, including to an American astronomer, two large, strictly identical earthquakes, in a quarter of an hour next to an astronomical American observatory. These astronomers and my

contacts in general, must either take me for a madman, or consider that I was telling the truth, and that it was better then, not to answer me because it was much too scary.

I am thus directly linked to hundreds of deaths, by dramatic events synchronized with my activities, and whose goal was for me to use these events to ensure my progress with the most authorities of humanity. However, there is a problem with these authorities.

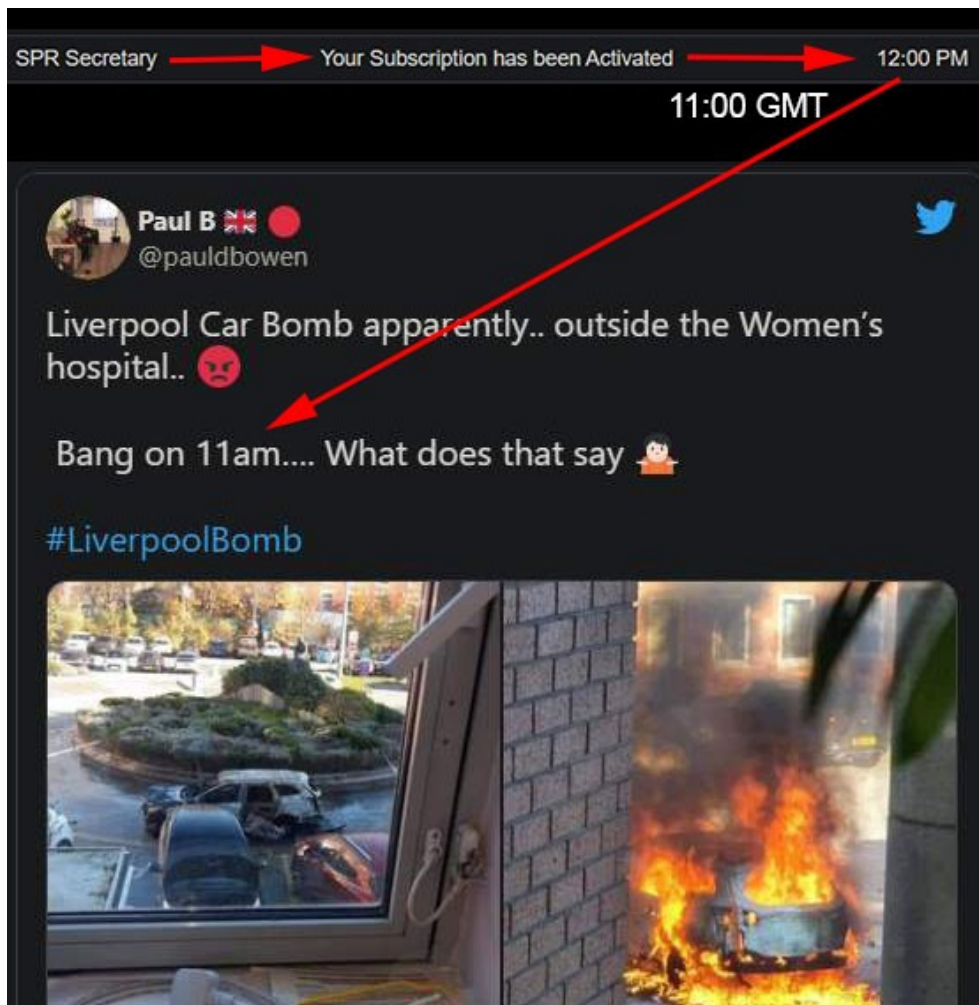

NASA and the agencies which depend on it, have for the vocation to seek the extraterrestrial signals, or signs of extraterrestrial intelligence, in space. They are not looking for it on Earth and even less within the head of a single individual who got this function from his birth. Yet, the peculiarity of intelligence and a fortiori of extraterrestrial intelligence is precisely to appear where we least expect it! Small technical detail: humans would be strictly unable to detect extraterrestrial radio signals because they do not belong to the same dimension at all. Their dimension is not open.

There is another big problem. I get a Signal managed by this ETI, but I receive the legends of this Signal and most of my information, by telepathy. It is also true, when I begin to write an article, a report or an e-mail like this one. I can't count the number of times I think I will write three lines, which turns into three pages or more, including things that I had no knowledge of before I started to write. It is my daily fate, to which are added amounts of supernatural effects. But the main problem is telepathy is not a means of communication recognized by humans.

### **Liverpool : The last terror attack synchronized with my activities**

So, on November 14, 2021, I began to take contact with SPR, in the United Kingdom, SPR for Society for Psychical Research. They were founded in 1882, and they are specialized in paranormal events. Their board is impressive, only University professors and Doctors, in all matters including physics and astronomy. They are in copy of this e-mail, and I advise you to ask them what they think of my links with this ETI, and with telepathy in particular. SPR is a reference all over the world.

So, as usual, at the minute, when SPR confirmed to me, on yesterday, November 14, 12:00 CET, that they take my file, the ETI celebrated this, on their own way (See picture below). They provoked a (failed) terror attack in front of a hospital in Liverpool, failed because the driver locked the terrorist and his bomb inside his taxi, before it explodes. There was one dead, and some injured, but the most important, is the Signature of the ETI. Indeed, one of their main weapons is the full mind and body control, of humans. Of course, they are the one to have created humans. So, they added everything to control them. They also chose to realize this attack in front of the hospital because their biggest problem, today, is the "sciences" of Men. They cannot understand how the ETI communicate with me.

Let's take the attack in Liverpool. The ETI knew that SPR was reading me or would read my e-mail (sent by their form), and they probably also knew that some people have prepared a terror explosion in Liverpool. So, they took the full control (mind and body) of these/this terrorist(s), to execute their attack when the ETI was going to decide it. It is also possible that the ETI itself triggered the explosion of the bomb, as they also have full control over any electronic or electrical device, even if it is dismantled or disconnected from the internet or disconnected from electricity. They don't care about that. They can access everything, the mind, body, electronic or electric circuits, inert or living things, everything, any time, in a split of a second. My collaborators and me, experience this, almost every day, among many other paranormal effects.

### **The ultimatum and destruction in progress, through Covid-19, for example.**

The bottom line is that there is, in fact, an ultimatum in progress. This ETI has decided to reset humanity because it continues to deny its true origins and the existence of the extraterrestrials. The Men refuse to see the signs or to transmit their meaning to their populations, but also and above all, they continue to destroy the Earth, which is above all their planet.

So, the ETI also began to destroy humanity and to drive it to its global collapsing. The Covid-19, its variants, its different evolution according to the countries, even very vaccinated, it is already them. They play at tightening and at loosening the rope around the neck of humanity, and nobody sees that. They can control the smallest cell inside the human body, and nothing can stop them. They can push a man to kill and eat his kids, just as they can stop any heart in a split of a second.

On the recent weeks, and since I'm in contact with astronomers, this ETI, even showed also to them, that they can control Sun, and terrestrial satellites. For example, with synchronicity with my activities, they showed to them, that they can provoke solar storm, coronal holes, and freeze satellites. They don't have any limits. They could eradicate humans from Earth without to show themselves up.

It is very simple, they insist for months to my collaborators and me to prepare ourselves to a global blackout on Earth, and which will last years because all human installations will be destroyed. My collaborators and I experienced many times their full control on any electric, and electronic circuits. They even burnt not powered wires in front of my window. They have an unlimited energetic power that they can use, for anything, such as the destruction of all electrical grids, but also to provoke the most powerful earthquakes or to wake up all volcanoes on Earth. The human won't see any UFO or extraterrestrials, so nothing to fight, and no culprits. Only the Sun and a very angry nature. Do you want to know what they are their limits to destroy humanity? It is easy. Don't answer me. You will not receive any other warning.

Here is a last example of their power on the human body. To illustrate the paralysis that they will provoke with this blackout on Earth, they chose, in October-November 2021, to paralyze all the right side of my body, from my toes to my head, almost 10 times. It lasted, each time, 2 or 3 minutes, but it was very scary. I could not talk or to move my mouse. They do that in some seconds only.

I must add to this, all feelings of stings, in heart, hands, feet, etc. After their Signal on my screen, their second terminal of communication is my body, including my brain for the telepathy. The third one, is my computer, where they shortly freeze my keyboard, my mouse, my screen or all the computer... and everything has a meaning that I know. I receive also visions, noises, voices, to complete my information, and all this while they are at hundreds of year-light of me. It also works, if I am at sea or in a plane, without a computer and without a telephone, and my collaborators experience the same as me.

My function was therefore to warn humanity at the highest level! I have then written to this SETI Director, "***I'm the Signal you've been looking for decades, and there won't be other ones.***" They read this sentence correctly, but they did not answer it.

It is possible that Man is not ready to take this step because he would immediately lose the power he has created over others, but the ETI leaves them no choice. Either Man responds, or humanity will be destroyed, and the ETI is already in the final phase.

Were you interested to read me until here? If you were, I would advise you to read the full version of this text here <https://www.extraterrestrial-intelligence.net>. It is only one long page written, in 7 days, with the help and the control of this ETI. It contains many illustrations, and it is structured, pedagogic, and easy to read, even if this text is 15,000 words, so, about one hour of reading. I seriously invite you to read it.

Be aware, anyway, that this ETI will know at the second that you start reading this page above, or this e-mail, with or without acknowledgment. They penetrate any human's head in a split of a second, and it's automatic, when you read me/them or think of me/them.

This ETI is not kidding at all, and they will never give up. They say something, like "***You pick up your phone, you talk to our Messenger, or we will eradicate the humans, on our Earth.***" and they don't give you time.

In fact, you have to know their motivation. They warn you to give you a chance to start talking with the ETI, but more importantly because they had to warn you, what they are going to do. It was my job. I was born for this function because they cannot do it themselves. If you don't answer me, they won't delay their destruction, but they will have done their warning job. Through this email, all United Nations departments will be notified. Thus, they will move on to the next stage, the final destruction.

I am very sorry for all of this. I am just the Messenger of this ETI, and I do what they ask me to do. I have no choice at all. I did not choose my life.

So, please, be very fast to analyze my file.  
Thank you in advance.

Best regards,
