The premature death of dozens of icons & pop stars over the past decades has left the world bereft of natural talent, allowing the music & entertainment industry to promote manufactured bands, like Busted or Blue! Plane crashes are a usual cause of death for the rich & famous, many more, like Marilyn Monroe or Brian Jones, have died in mysterious circumstances.

President Samora Machel perished in an air disaster & Congressman Larry McDonald was killed on board Korean Flight 007, shot down by Soviet missiles. The aircraft carrying John F. Kennedy Jr. plunged into the sea at 5,500 ft per minute off Martha's Vineyard & Senator Paul Wellstone died with his wife & daughter in a plane crash near Minnesota two years ago.

The 1970's saw the loss of enigmatic Jim Morrison of The Doors, raunchy Janis Joplin & the guitar prodigy, Jimi Hendrix, all attributed to the excesses of Rock n' Roll. Martial art exponent, Bruce Lee died of cerebral edema while making 'Game of Death' in 1973 & coincidentally, his son Brandon was killed as the result of a shooting accident on the film set of 'The Crow.'

By the 1980's we had witnessed the killing of political activist Steven Biko, the death of wacky 'Who' drummer, Keith Moon & the murder of John Lennon. Peter Tosh was shot & Bob Marley wasted away from cancer at the clinic of former Nazi SS Officer, Dr. Joseph Issels. Another uplifting reggae singer, Garnett Silk, died next in a tragic house fire.

Kurt Cobain allegedly shot himself, yet the nineties saw gun crime on the rise & rappers were often the target. Hit men sent Christopher Wallace, aka Notorious B.I.G. to his grave, followed by Tupac Shakur & Jam Master Jay. Michael Hutchence is said to have died by accidental strangulation & Lisa 'Left-Eye' Lopez was killed in a car crash, like James Dean & others.

We lost two gifted musical composers when George Harrison & Frank Zappa succumbed to disease. However, Princess Diana's 'car accident' which she predicted, was the cruelest of all high-profile murders & left a void. Like the assassination of JFK, Martin Luther King or Malcolm X, it sent shock waves around the globe. How could they? How dare they!

While some celebrity deaths may be self-inflicted, such as Sid Vicious, who died from a drug overdose, aged twenty-one, the majority are suspicious. Personalities or performers with originality & ingenuity are martyrs of 'Operation Mockingbird' to be replaced by mediocre, compliant clones. But the NWO can't kill music; true talent is irrepressible and

this is soo scary & unreal... its just horrific..what are your thoughts

Im sorry i wasn't exactly sure where to post this

im sorry i posted here i know you guys are tired of hearing this..also i heard jay-z is in w/ them & is

During three exclusive interviews with TomFlocco.com, the ex-operative told us the final classified report specifically said JFK Jr.s plane broke in half just aft of the cabin. The damage was caused by a plastique (C-4) shape charge which was formed along the bottom of the fuselage & up along both sides of the walls. The charge was caused to be set off or exploded with a large spark generated by a barometric switch device triggered by the altitude of the plane. In other words, the assassins chose the altitude for the explosion of the plane—a standard procedure to make the targets murder look like an accident.
