## WHAT IS MYSTERY TOKEN?

TheMysteryToken is the latest Version of AutoReward Tokens. You will earn BNB through Frictionless Yeild. After a successful launch, we will work towards building an NFT Market Place where you can unlock Mystery "Loot Crates" with our \$MYSTERY Token. Inside these "Loot Crates" contain NFTs. Unlocking the crates gives you the chance to win Mystery NFTS and NFTS from our Partners. The NFTS you find in the Mystery "Loot Crates" can either be worth alot or very little. You will be able to buy, sell and trade all NFTS including the Mystery "Loot Crates". Another original idea are our Real Estate NFT "Loot Crates". These special crates will remain a mystery until they arrive on your doorstep and you open them up at home.

## WHAT MAKES \$MYSTERY UNIQUE?

In addition to our Mystery and Real Estate NFT "Loot Crates" our BNB Reward System makes \$MYSTERY very unique. You will earn BNB directly into your Wallet through Frictionless yeild. This means you won't have to do anything else but hold. The Rewards will be sent every 3 Days. In order to prevent unstable BNB Rewards, as seen in other AutoRewards tokens, we came up with the following solution: The amount of BNB sent to your wallet increases over time. The longer you hold the more BNB you will get. The Size of your Rewards will not decrease by shrinking Volume.
