

I/O Coin

Road Map

IO-HTML5 Wallet

Contacts, Ions, Skins, Price ticker, Buy Now button & a surprise Custom feature.

With our wallet people can create their own css layouts and add additional features.

On release the I/O Team will be having a contest for the best skin. The winner will receive a reward of 1,000 I/O Coins. Community members can also charge I/O Coins for custom skins and added features to the wallet based on HTML5

I/O Coin is on a quest to conquer mass adoption. We are in full negotiations with investors, crypto currency exchanges and banks to make this a reality. Over the next couple of weeks we will be added to instabt and have our own Insta-IO. We will start our efforts in Canada in hopes to add more countries of operation. (Ademar Gonzalez has been hired to be part of the I/O Coin Dev Team)

Ademar Gonzalez - Canadian resident, holds a degree in Mathematics and has been a professional programmer for more than 20 years. Ademar owns and operates a number of internet companies (Code Maker Inc., ISQ Solutions Inc.) Ademar is Co-Founder and CTO of Universal Algorithmics Inc. a company which produces cryptocurrency trading software and operates the InstaBT brand (<https://InstaBT.com>)

POS Improvements & Added Features

P2Pool Staking

Modification of p2pools to work with staking, then forcing it in the client.

New! POS 3.0

POS_v3_DIFFICULTY_HEIGHT

Mobile Wallets

For Android and iOS

Charity

IONS Fees will be donated to charities. This initiative will be followed by a charity section on our website. It will display our ions fee public address.

On a Monthly basis the community will get to vote via poll to choose a charity to send the proceeds of our IONS fees.

We are also going to develop a reddit called IONERS Care. We would love to hear stories of our community members doing charitable work around their neighborhoods. This could bring our community closer and for us to help each other out and people in need all over the world. Every month we will choose our most charitable person to be rewarded with 1000 I/O Coins. We hope that this initiative could grow and that we are able to impact peoples lives.

Our Development team is committed to our long term strategy, even though market price fluctuates we wont be deterred from our continued work. :-)
