JWRC

WATATAGUI with the Fiesta R2T quickly take the lead but **iamyourfriend** and **Balloussy** are not defeated yet, **PauloSoriaRally** take 3 places and climb up to 4th.

Then in Leg2 **PauloSoriaRally** drop a minute and lost all the time he gained, **iamyourfriend** did the same mistake and **Chato** profit to obtain the third place, the Frenchman unfortunately have to retired in the very difficult SS8, **PauloSoriaRally** manage to retake some positions and still the 3rd place from **Zio Pino** who take it from **Chato** early this day.

The positions remain the same, the gap is important between the drivers.

RallyeSim needs Marshal !

I didn't mention it but it's very important too, RallyeSim also needs Marshal !

You won't waving a flag unfortunately but you will have to take the role of several real marshal.

- Check the Setups, if they are legal.
- Check the times, is they are correct and possible.
- View the replay, reported and sanctioned the cuts and also the dangerous driving.

Contact **Maverik** on the forum to become a RallyeSim Marshal.

Remember, like IRL, if we don't have Marshal, we don't have races.
