

Po korakih:

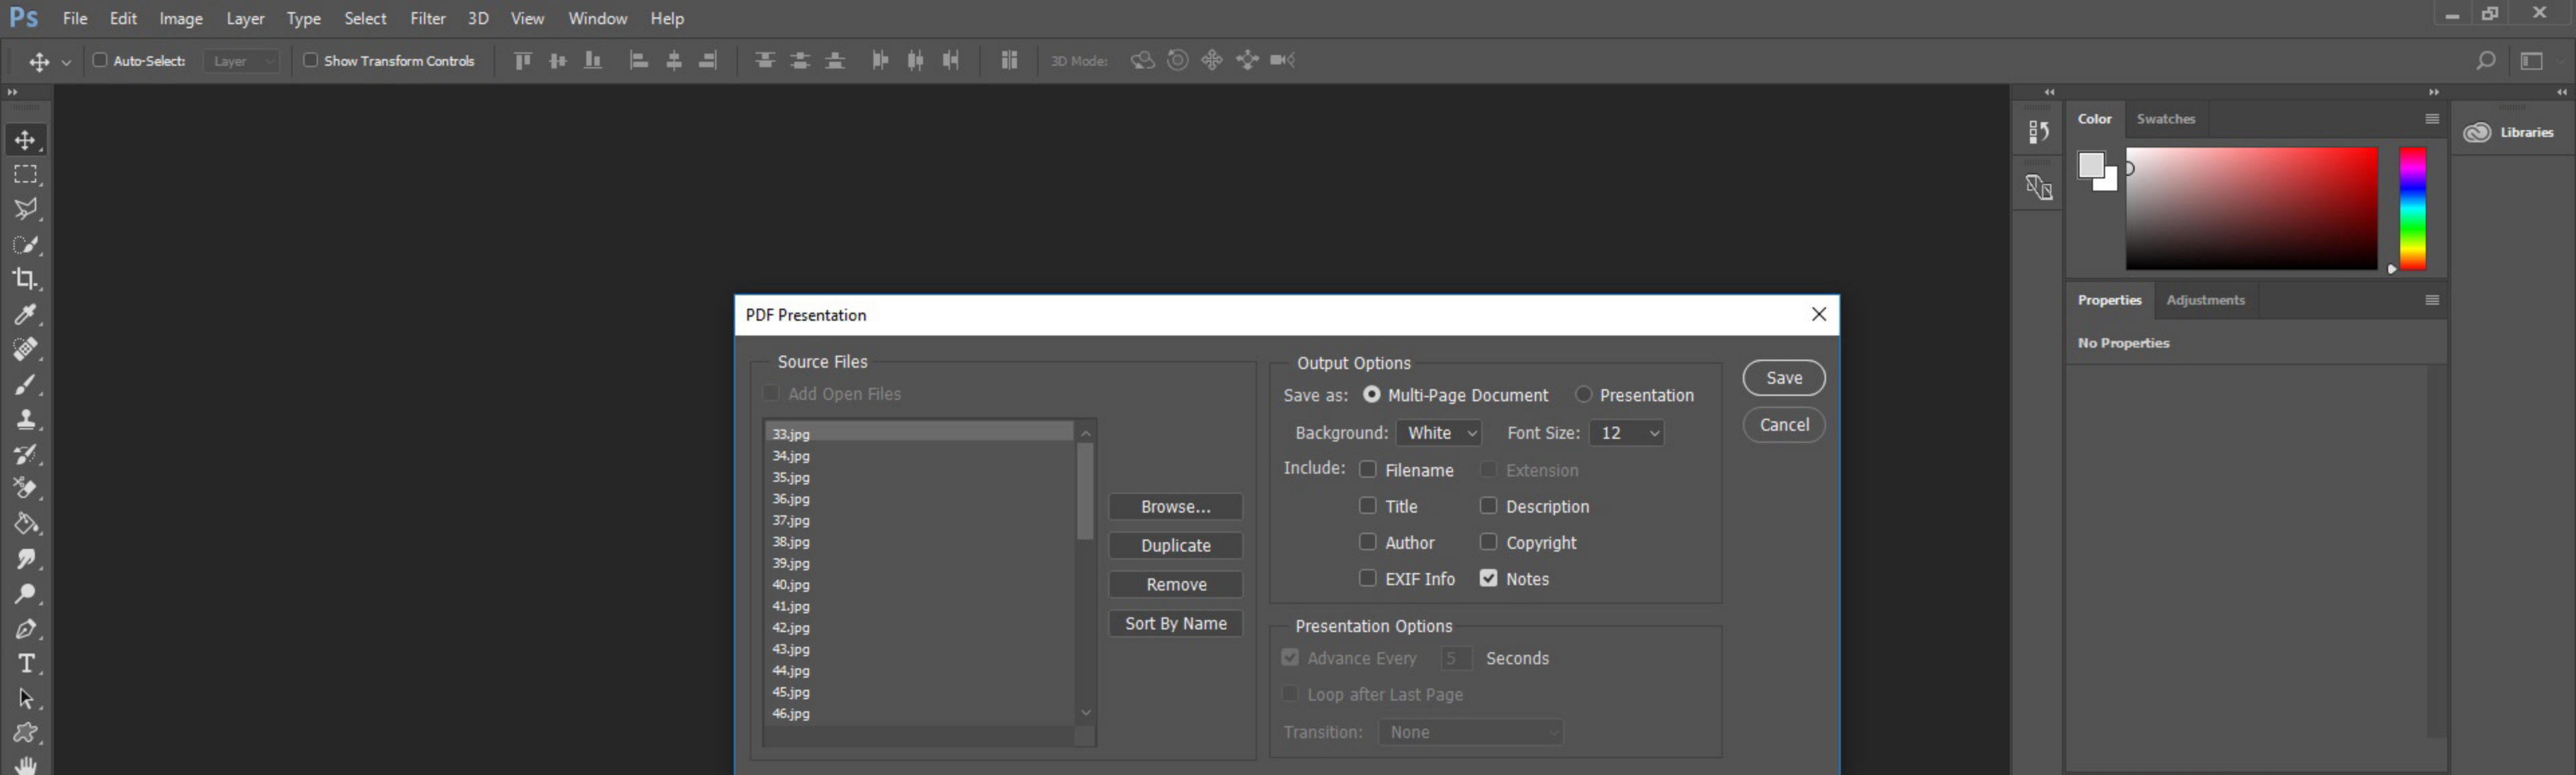

Korak 1. File - Automate - PDF Presentation

Korak 2. Browse...izbereš slike,ki bodo prikazane

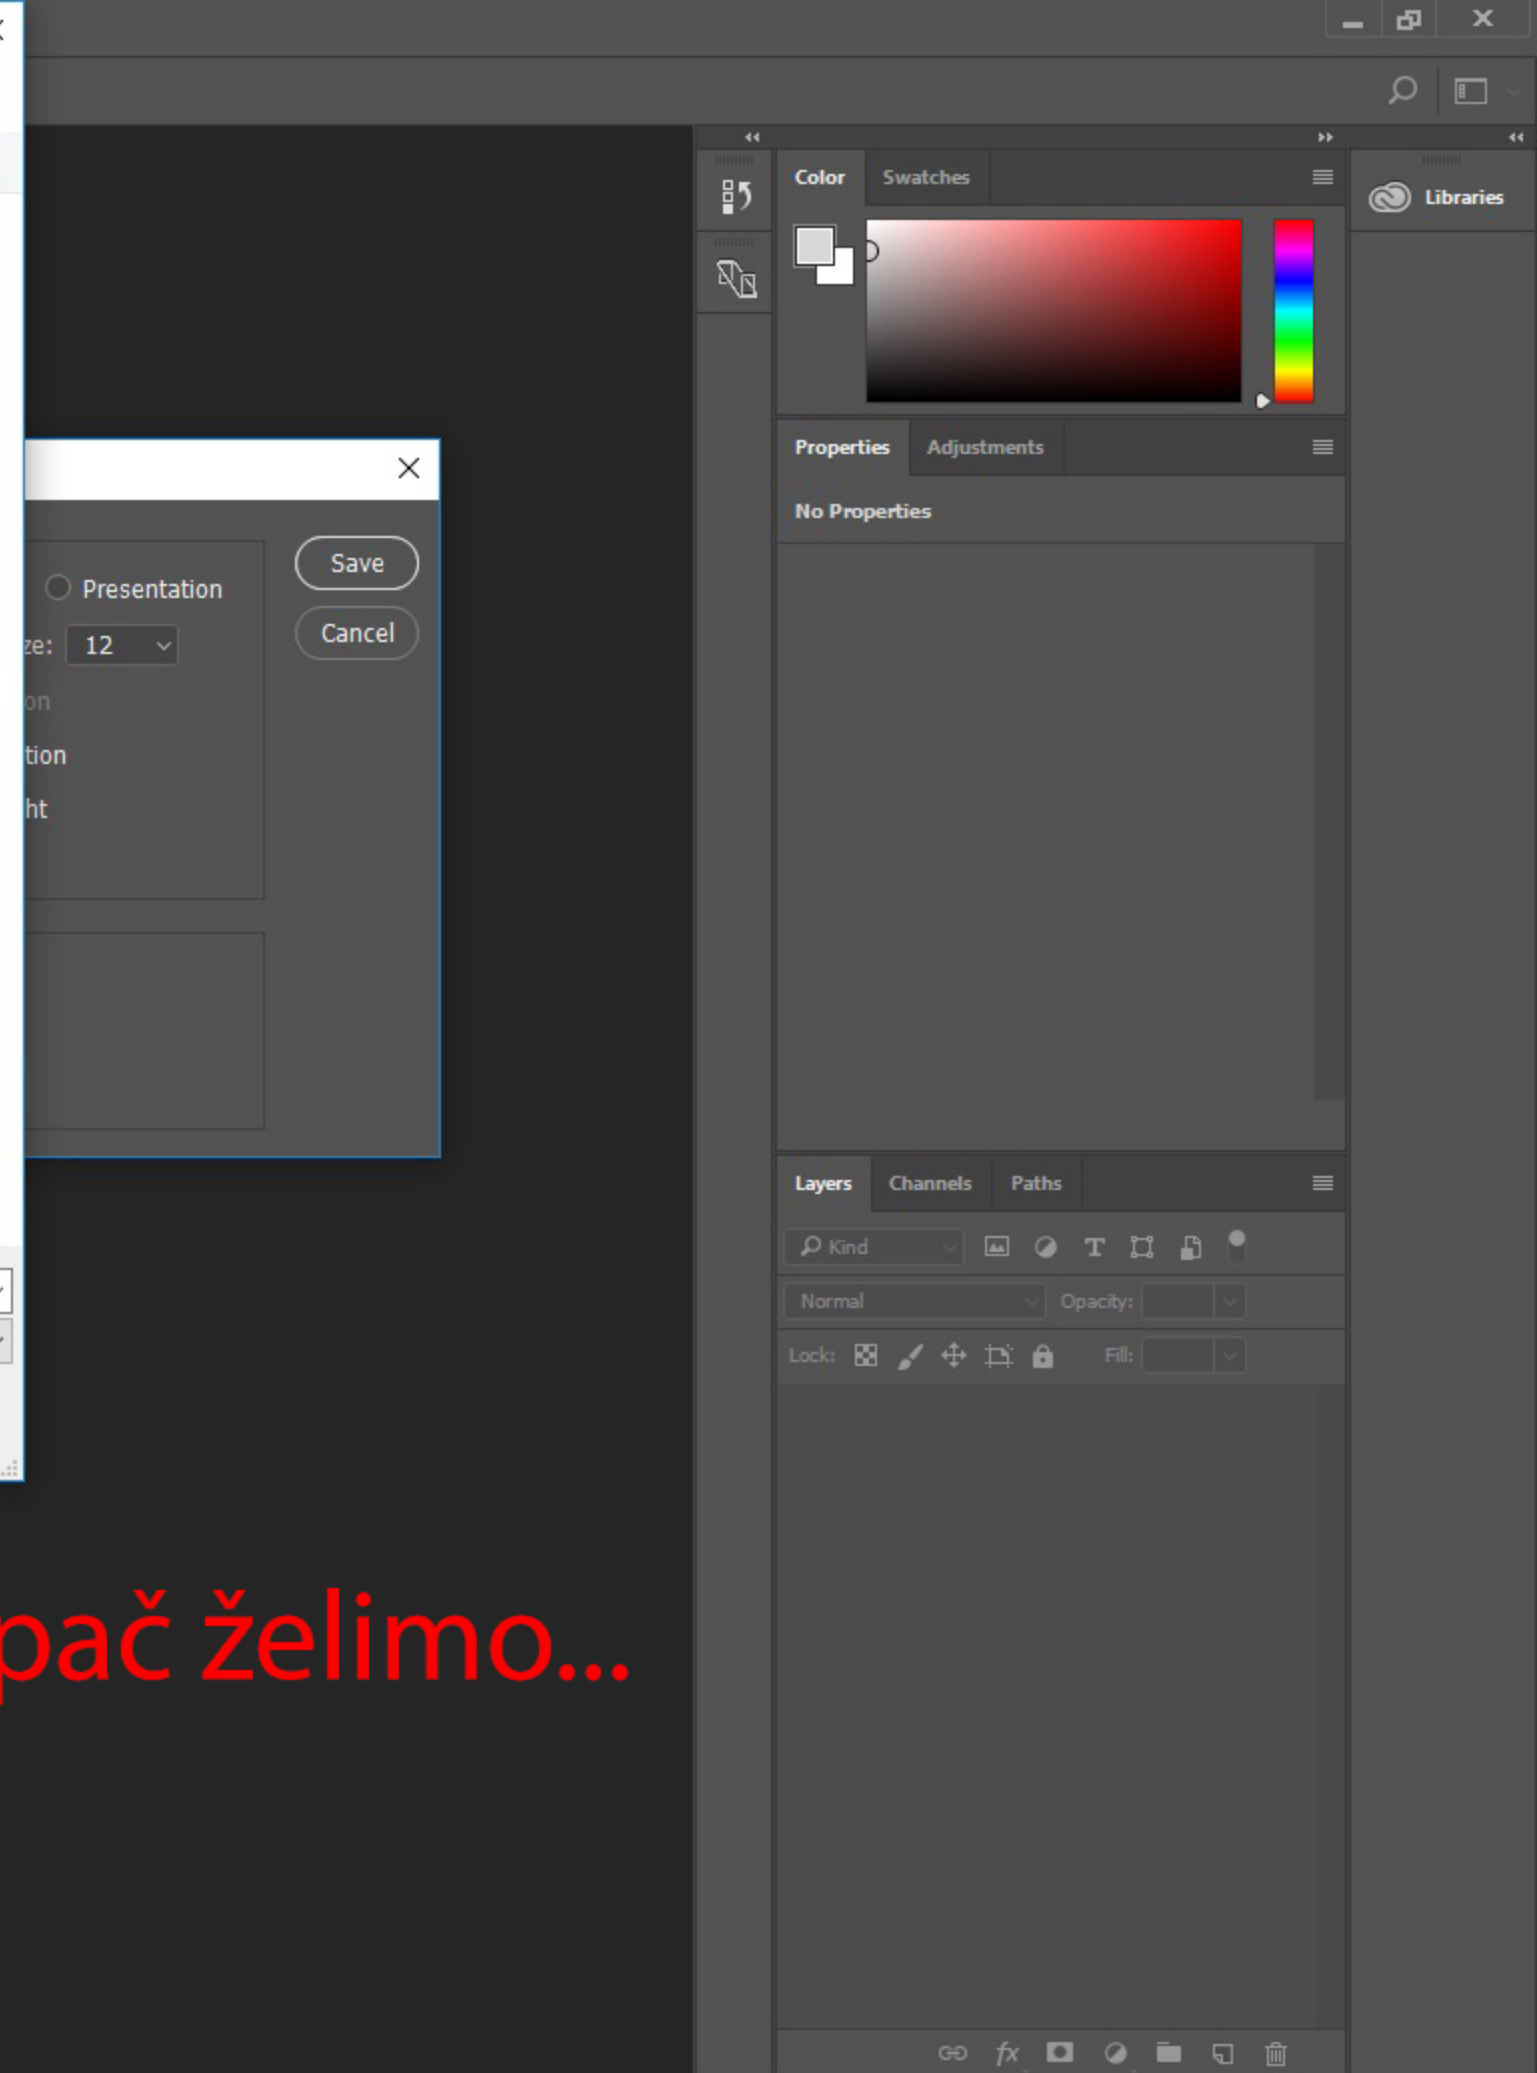

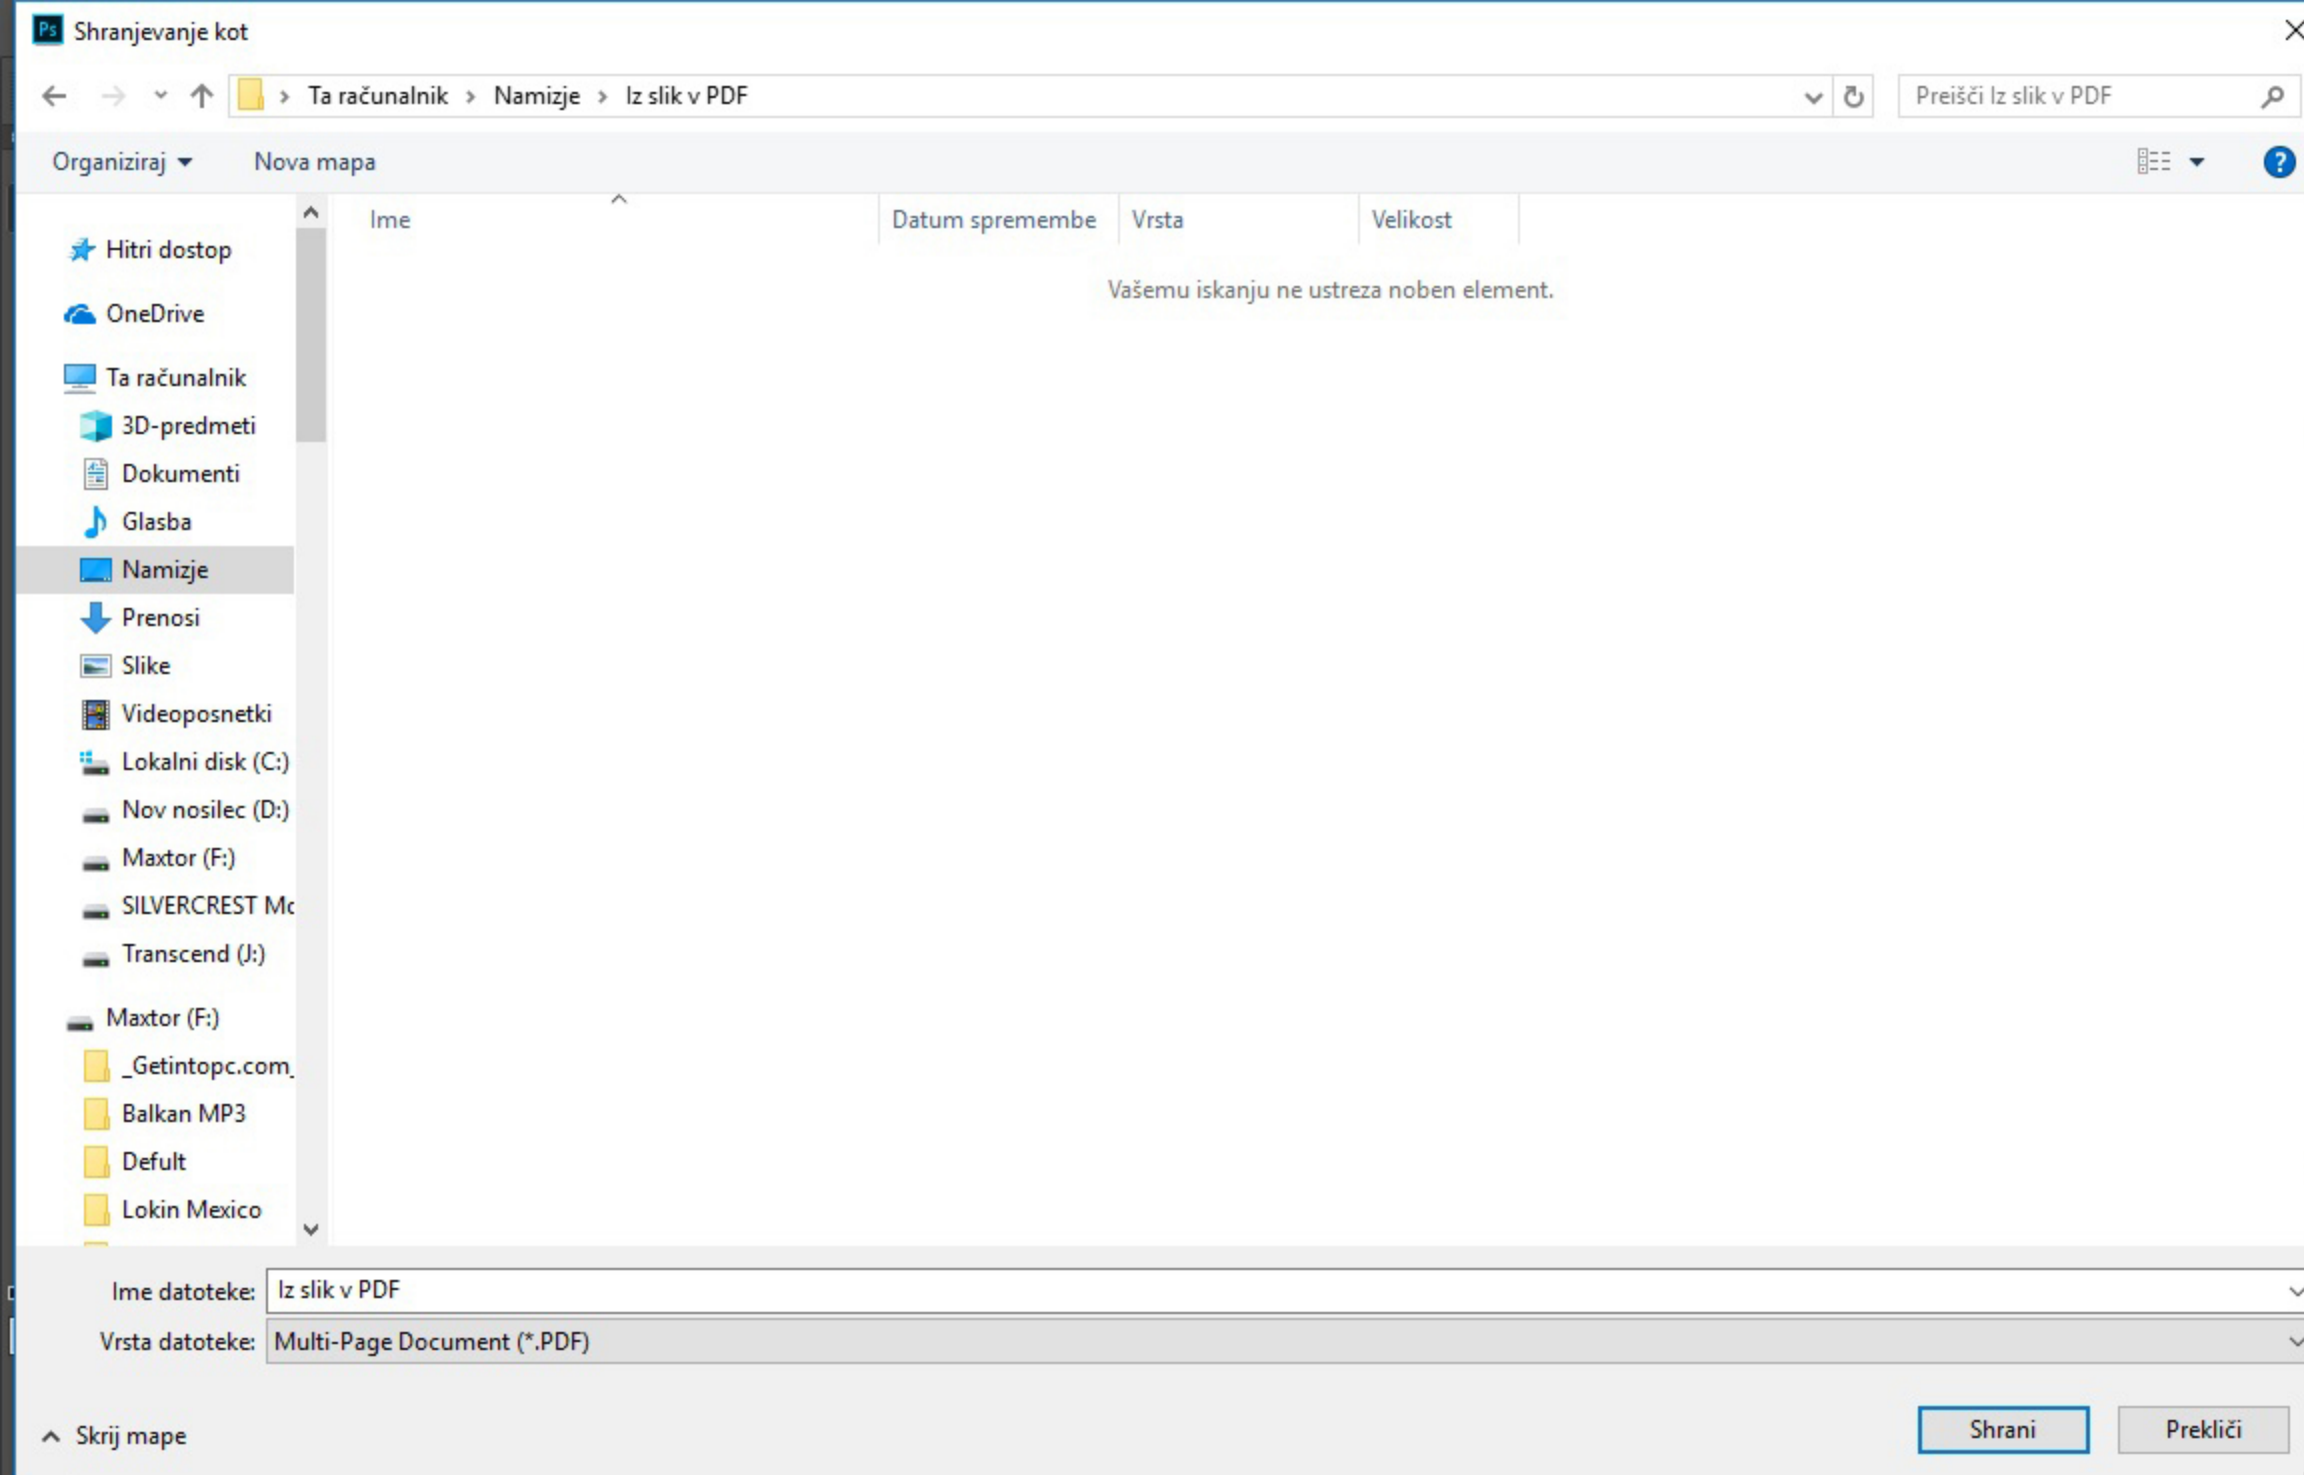

Korak 3. Slike naložene...lahko tudi...

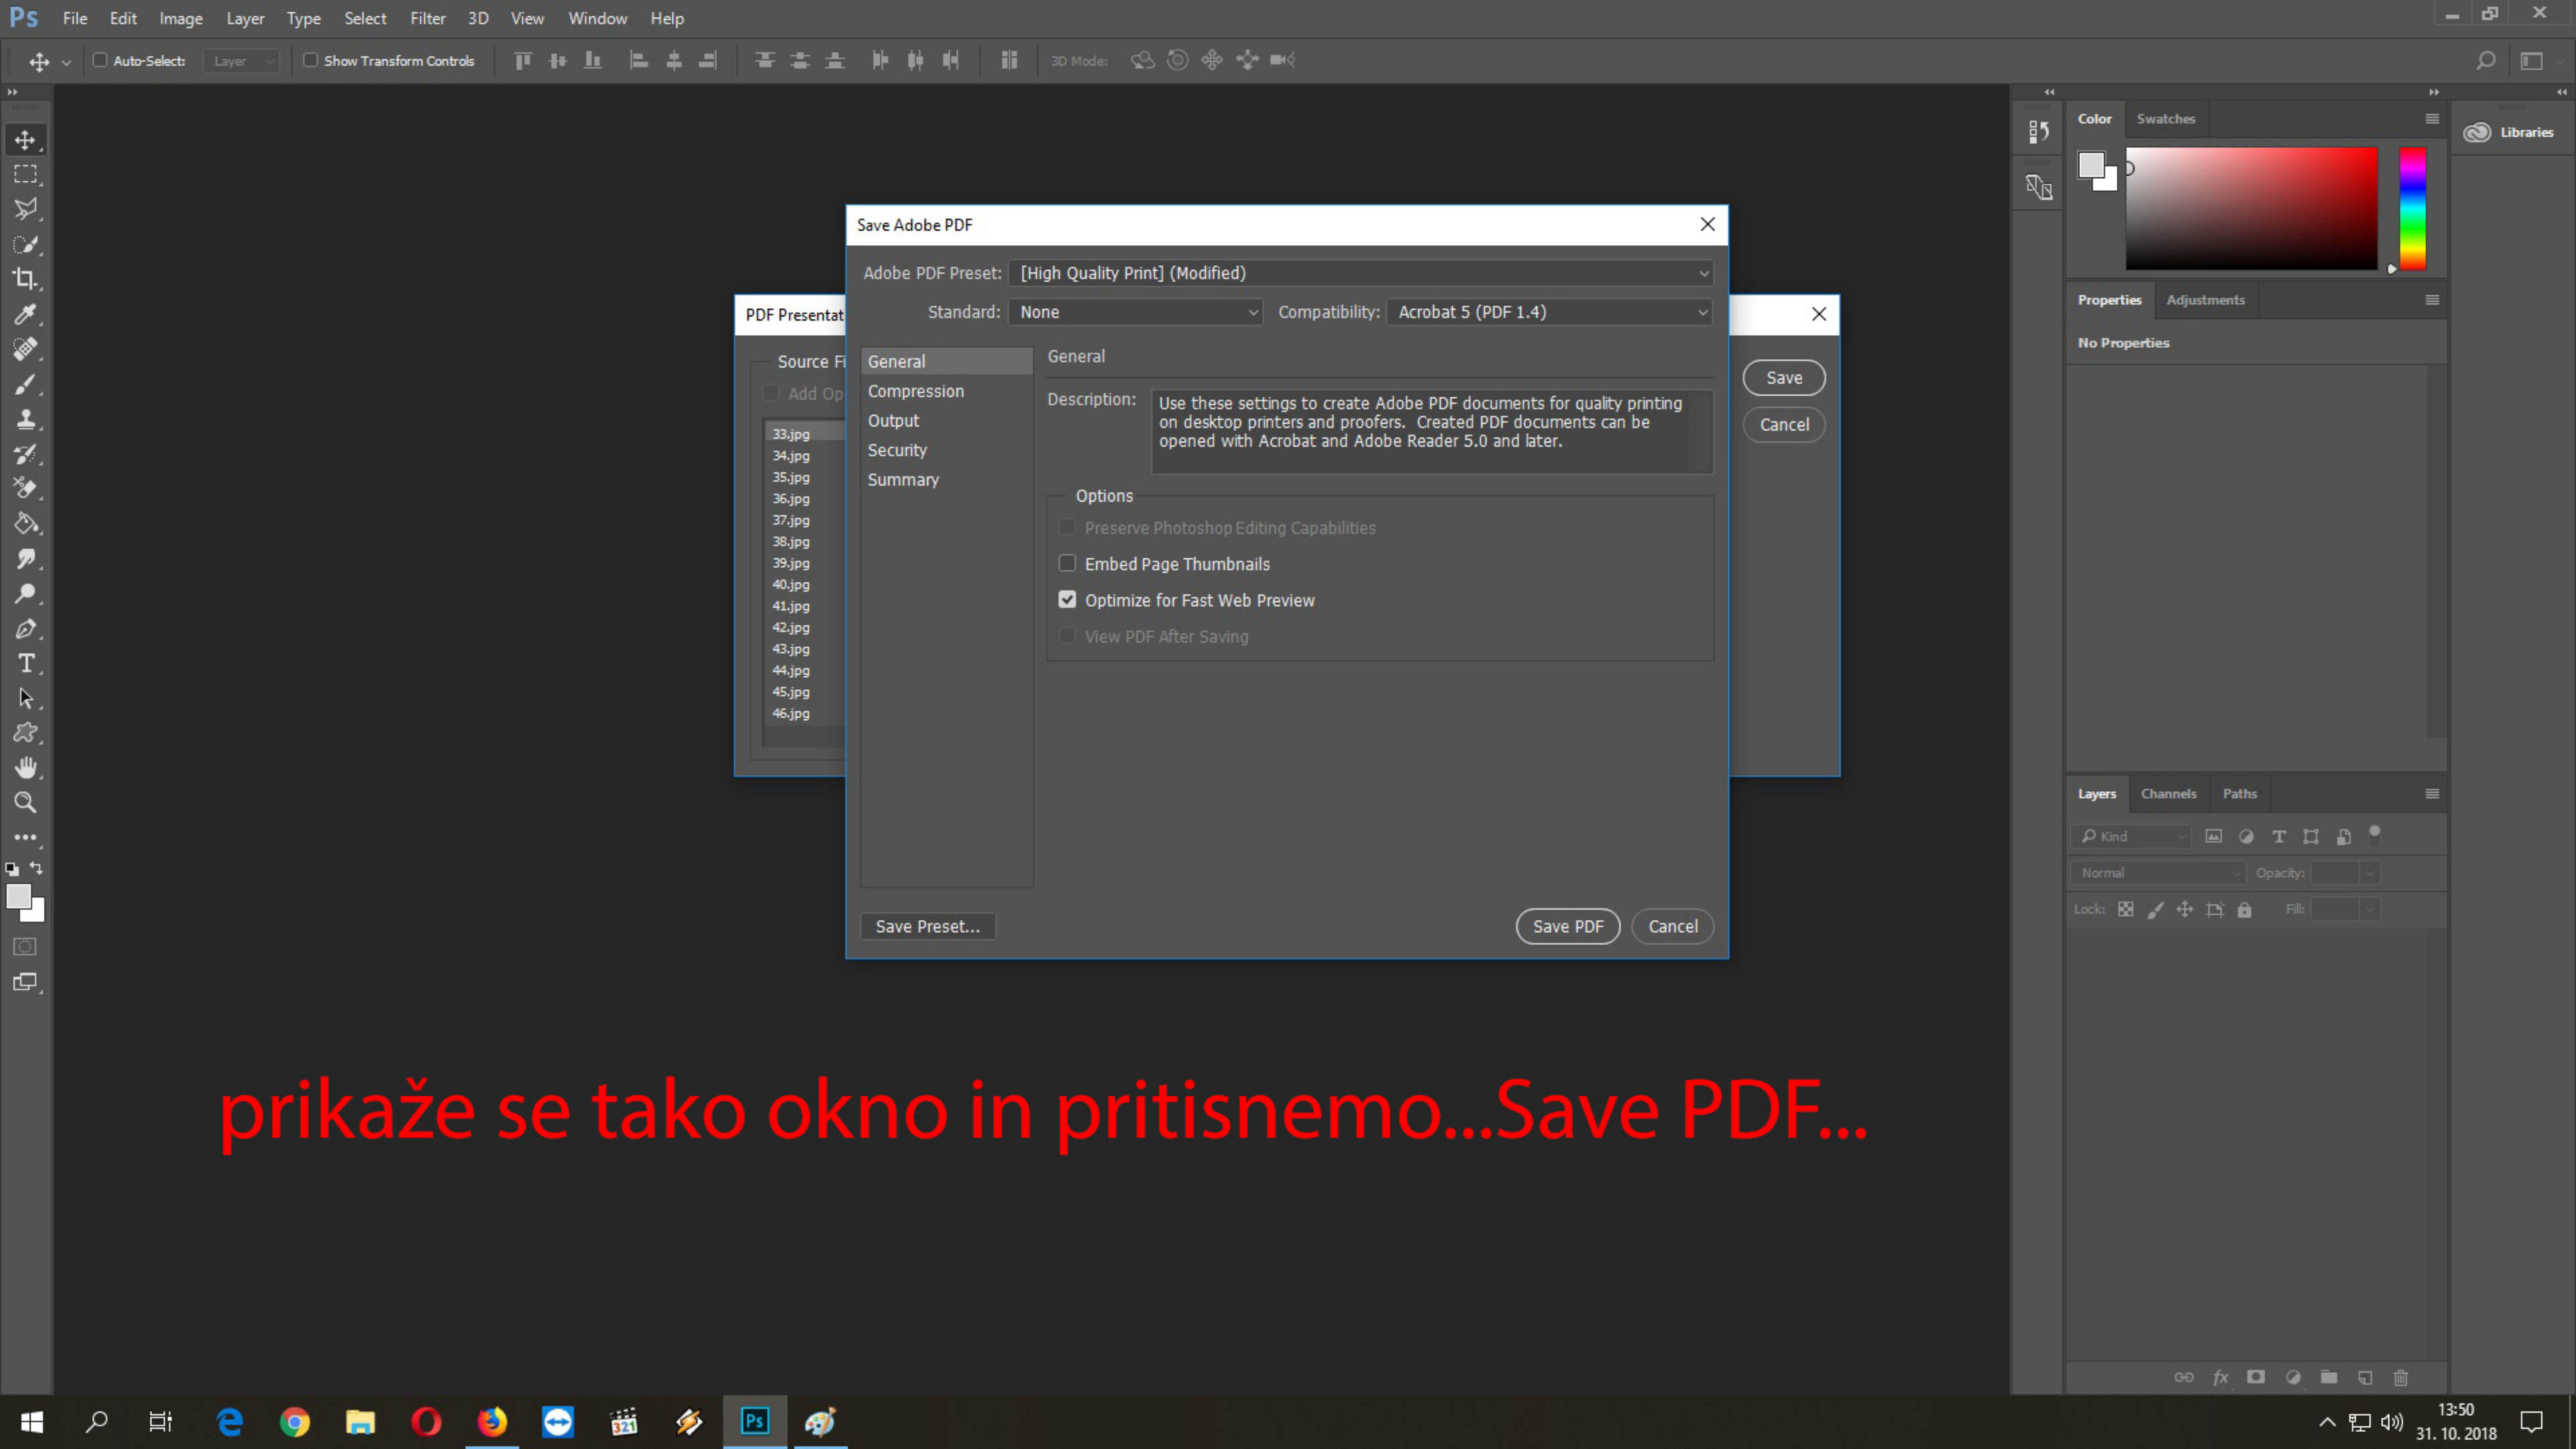

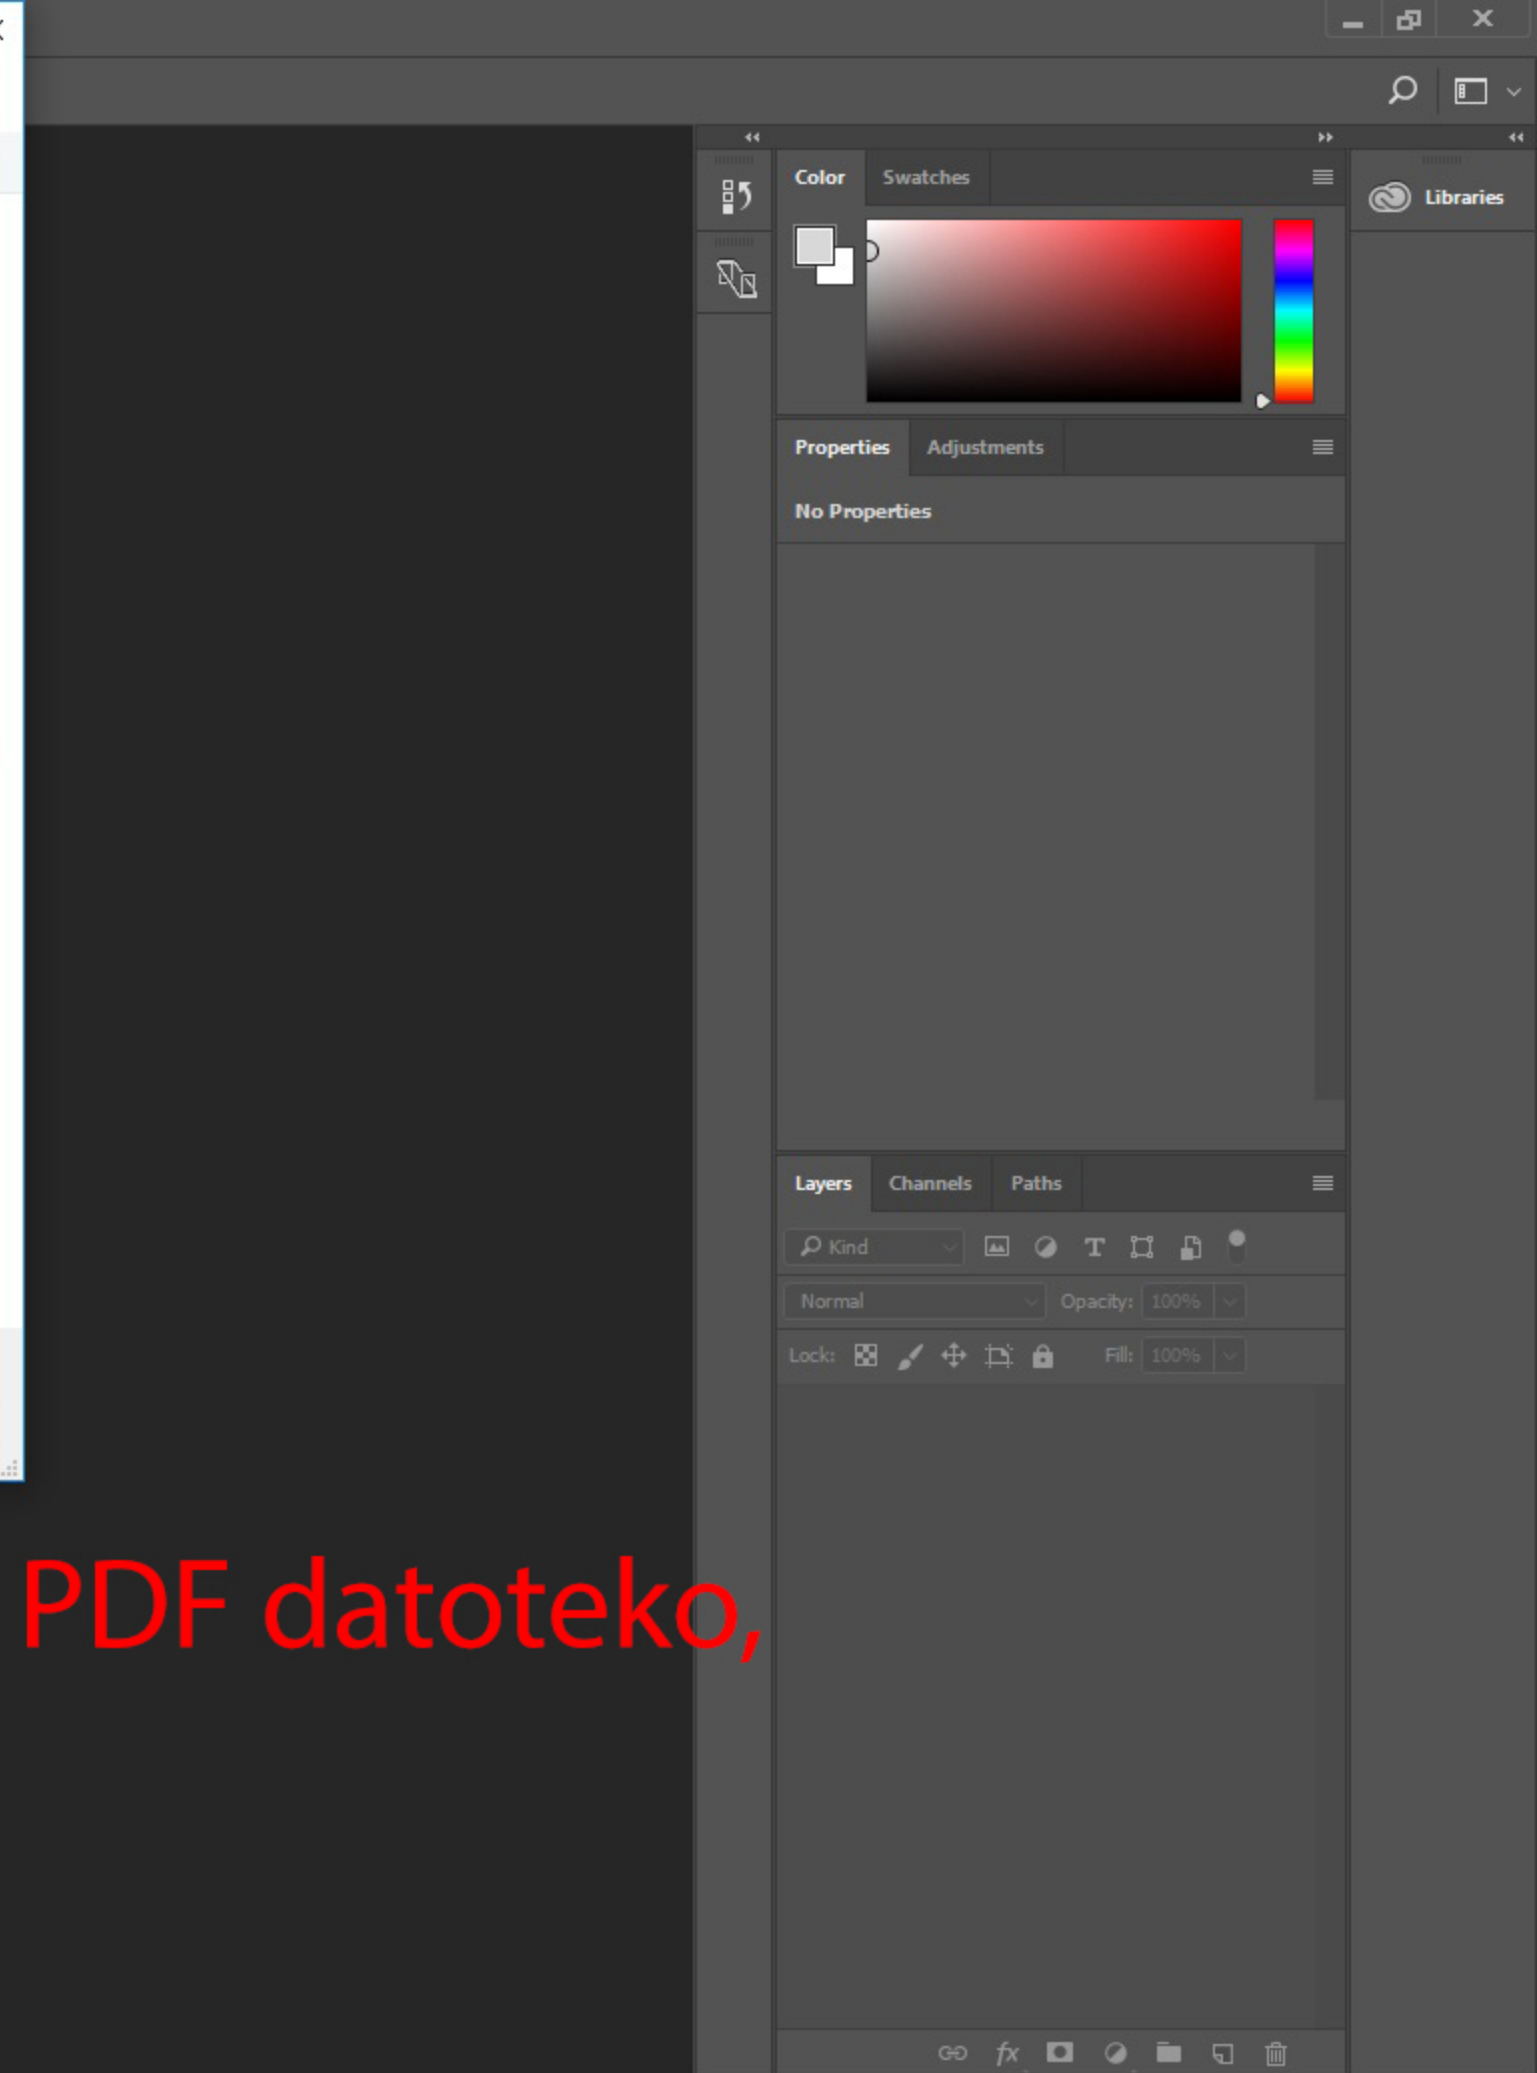

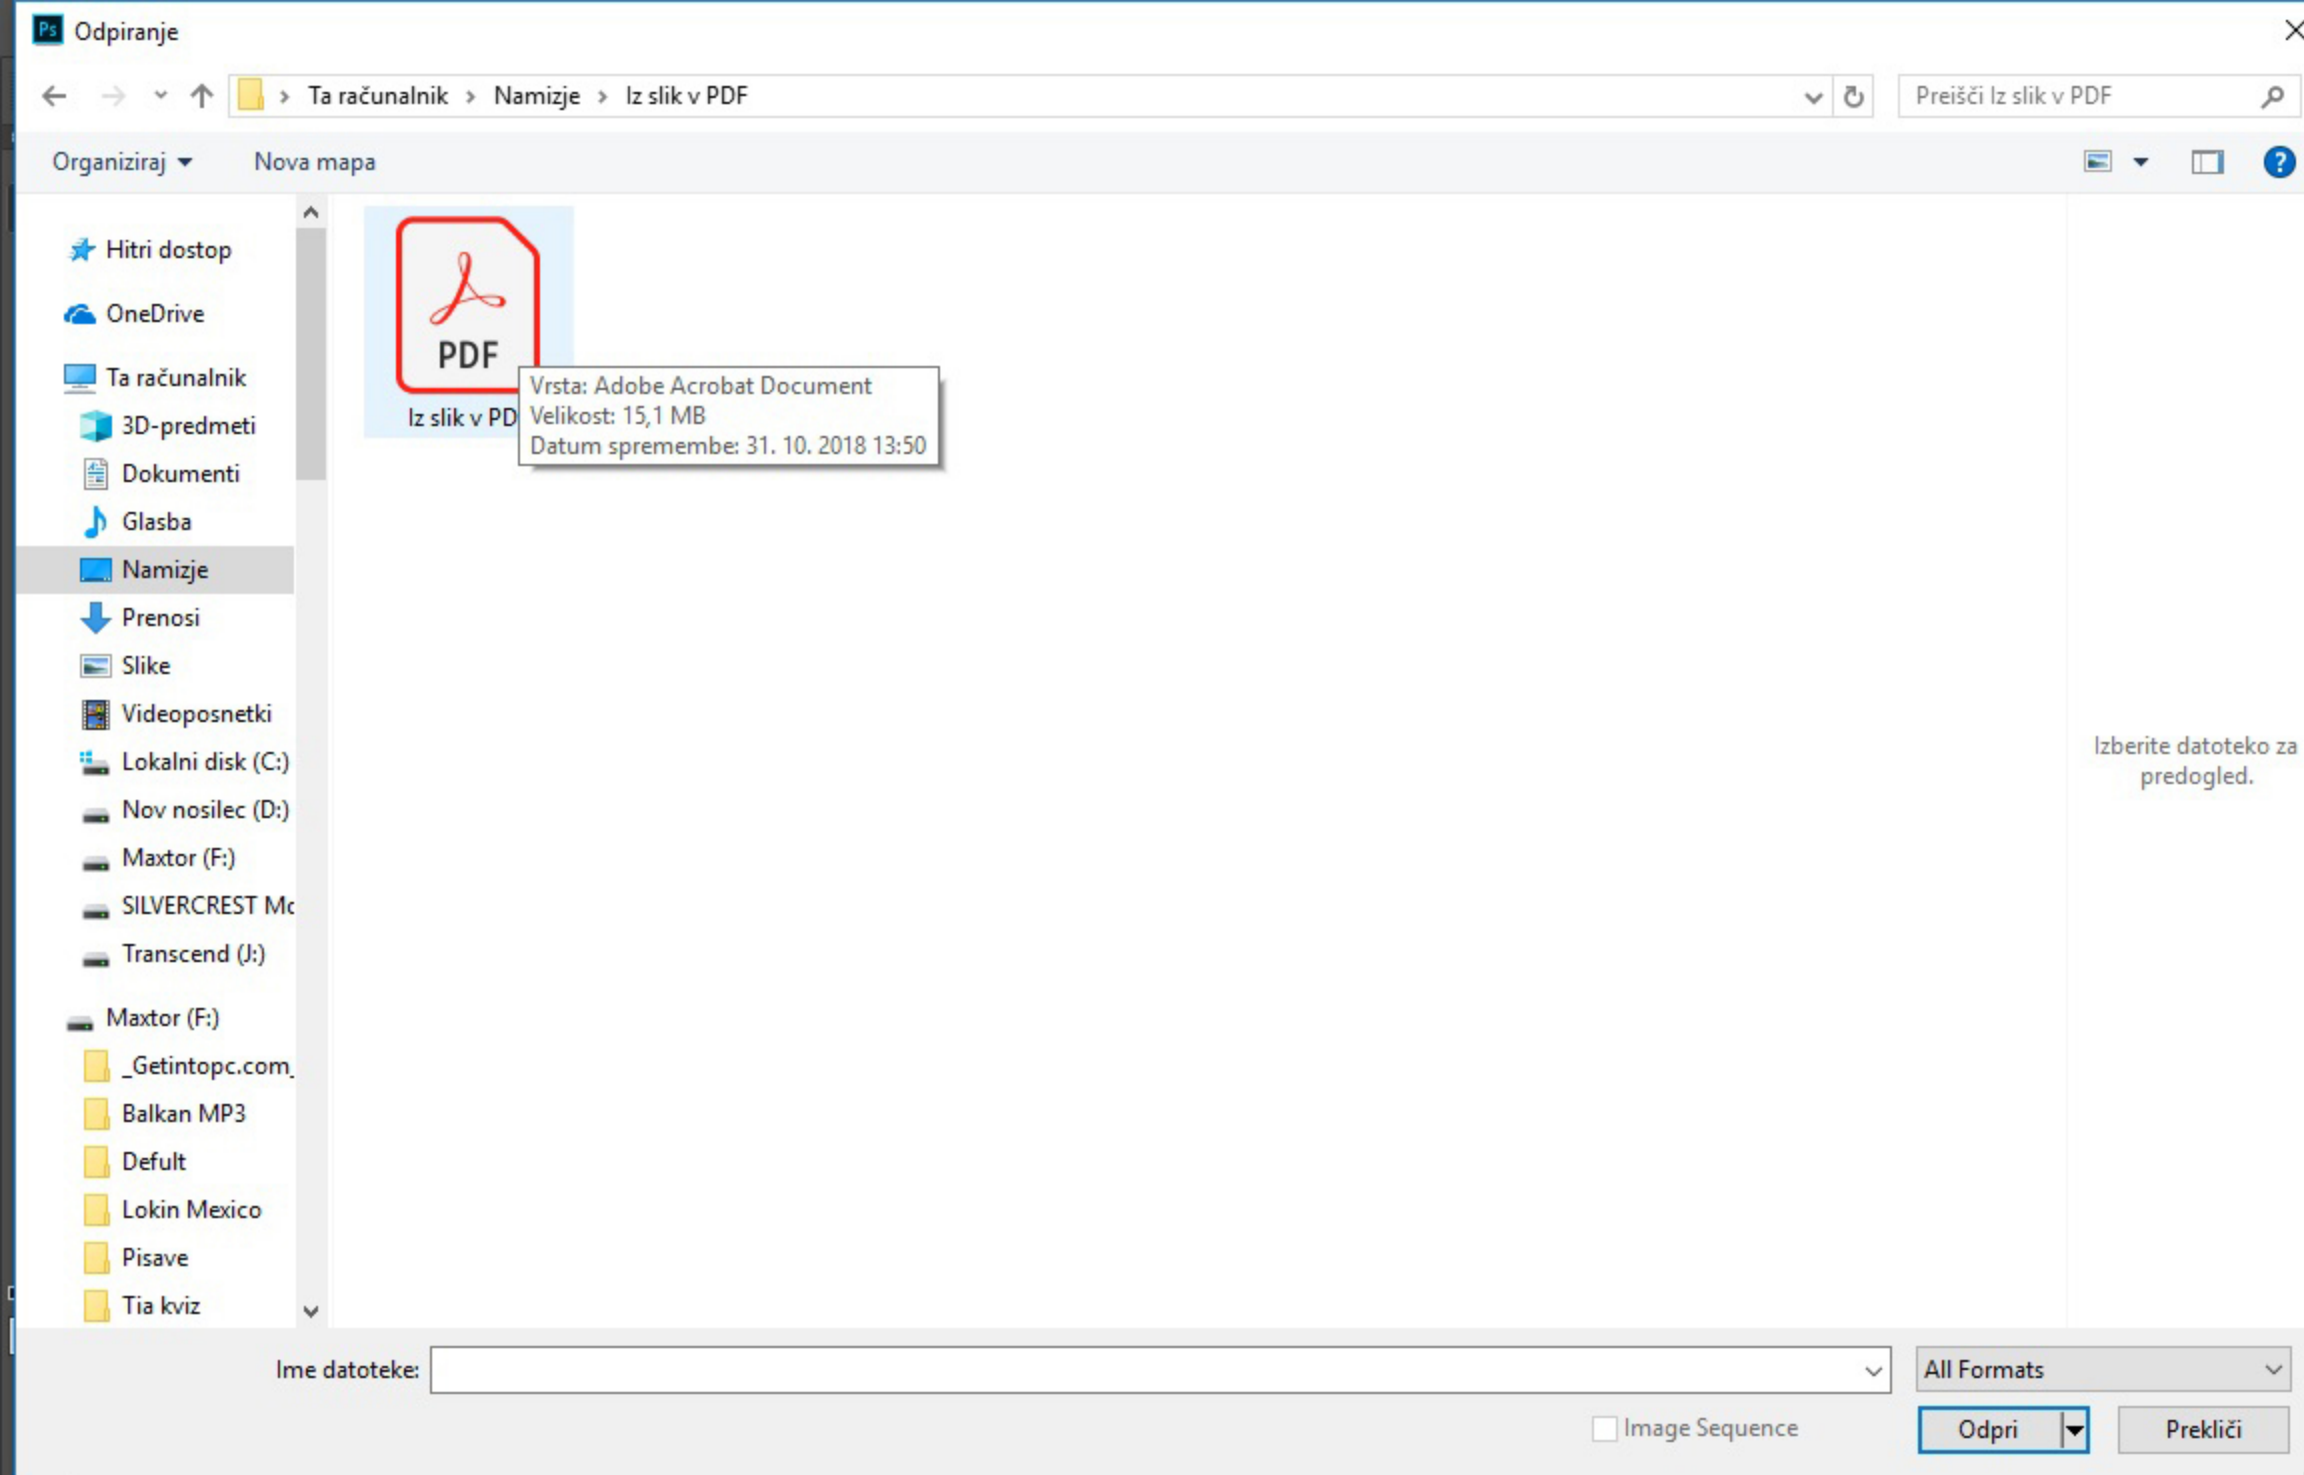

**Korak 4. Posamezno sliko označimo in jo dupliciramo
,zbrišemo ali sortiramo po imenu...ko so slike tako naložene
pritisnemo...Save...**

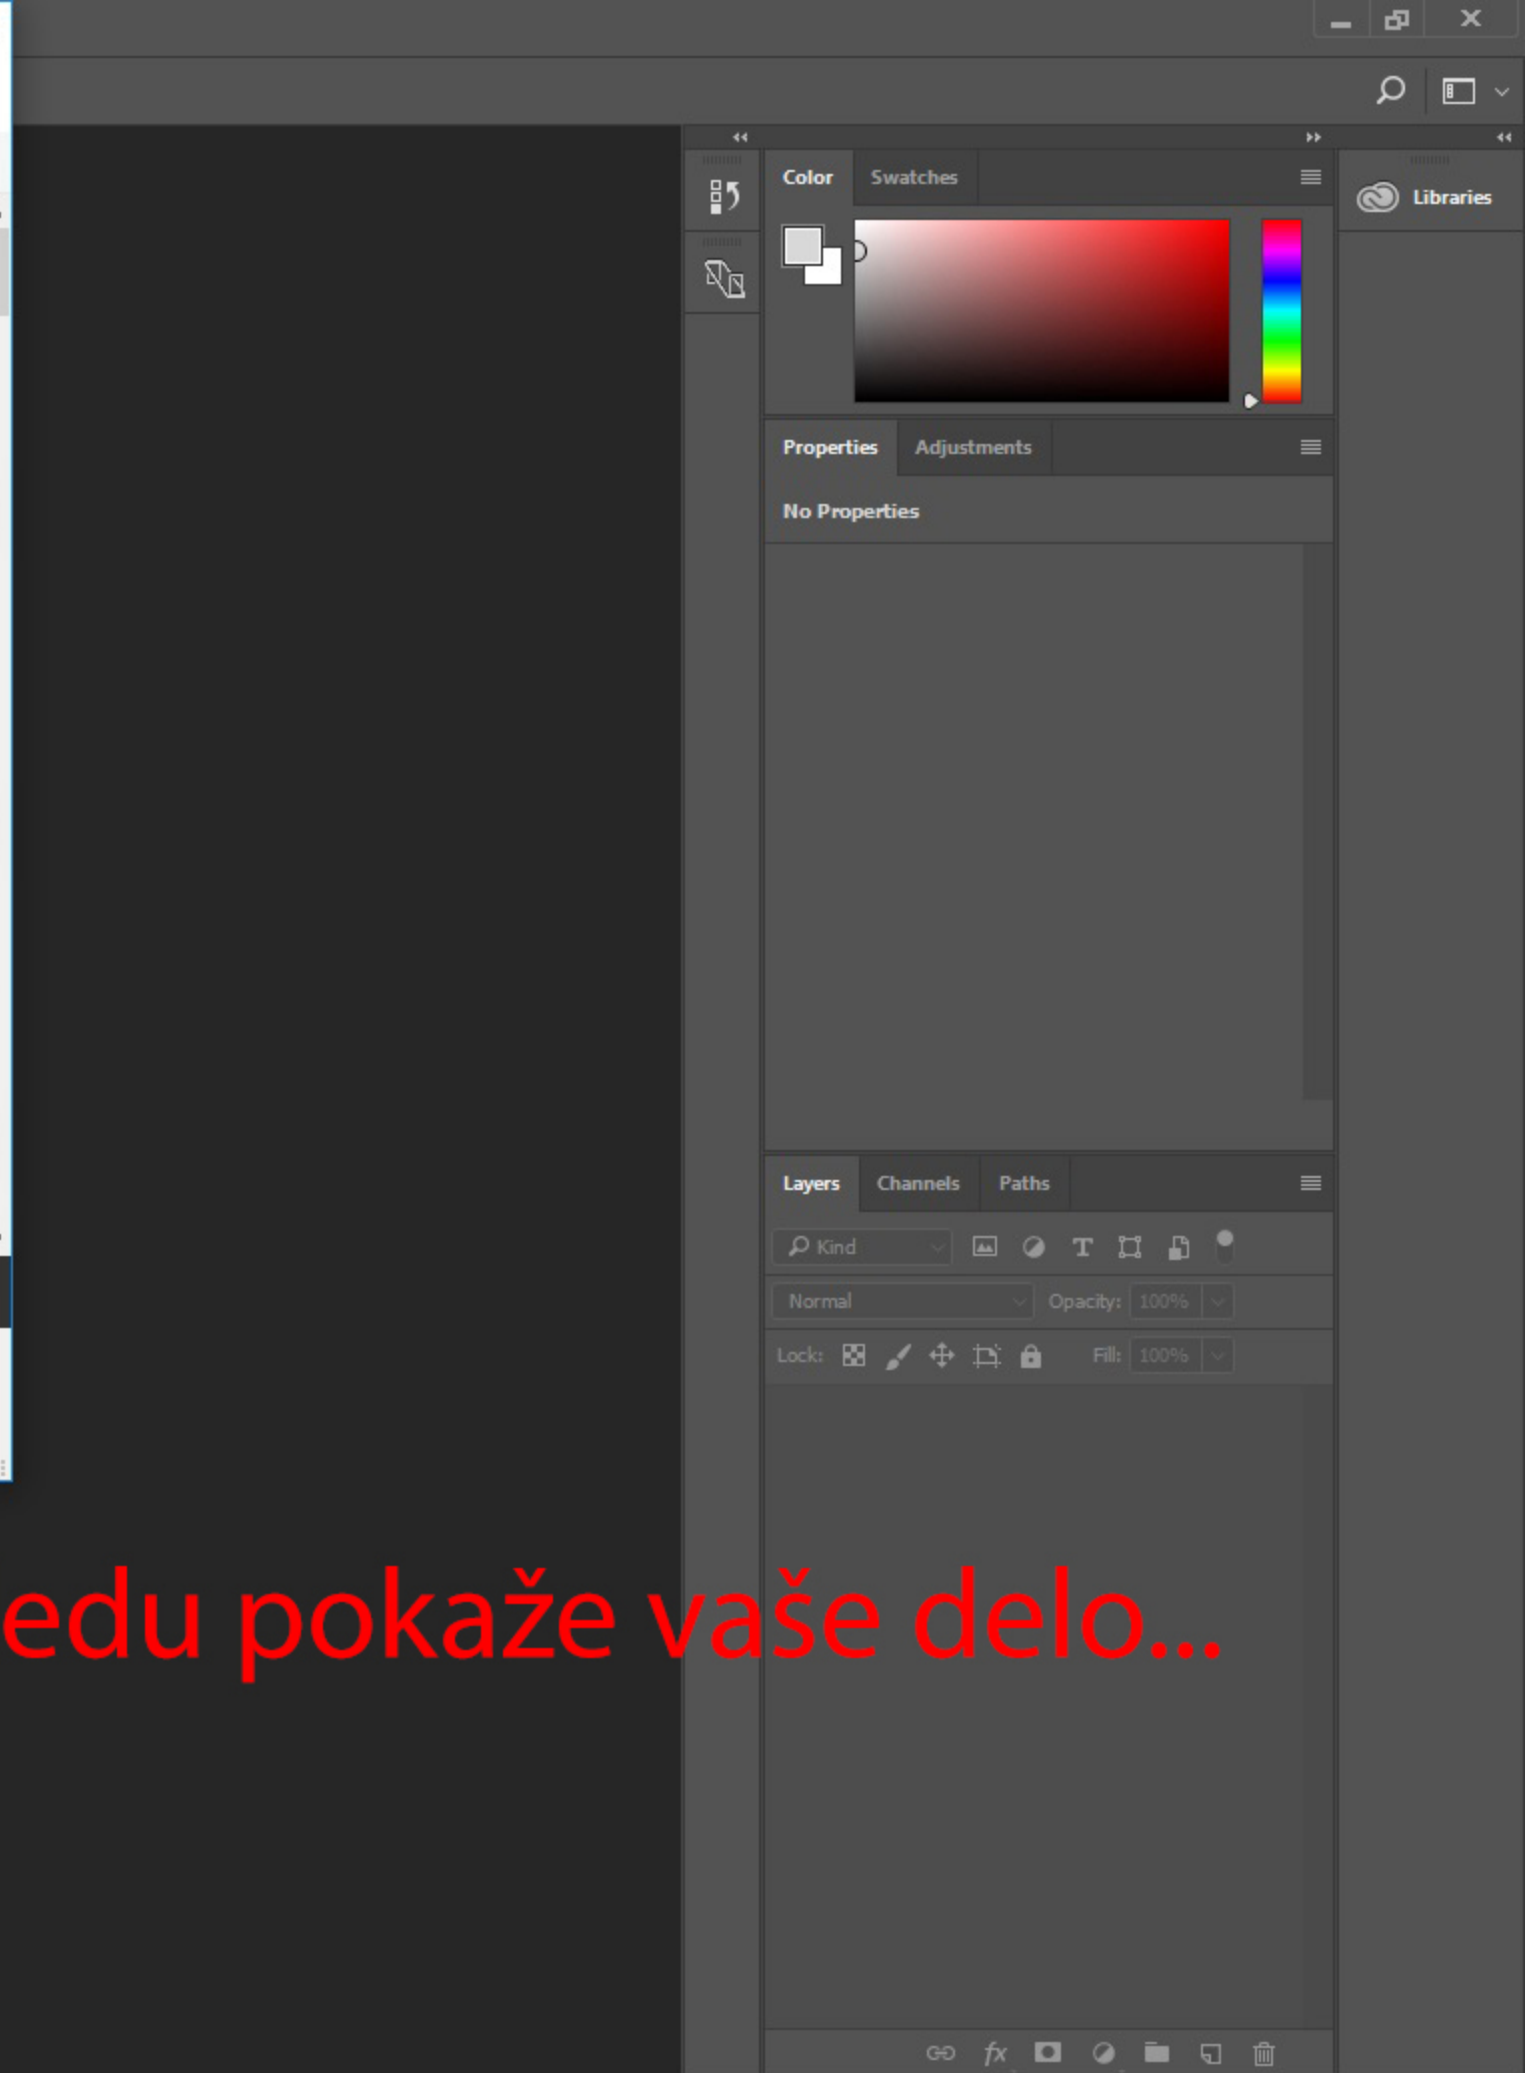

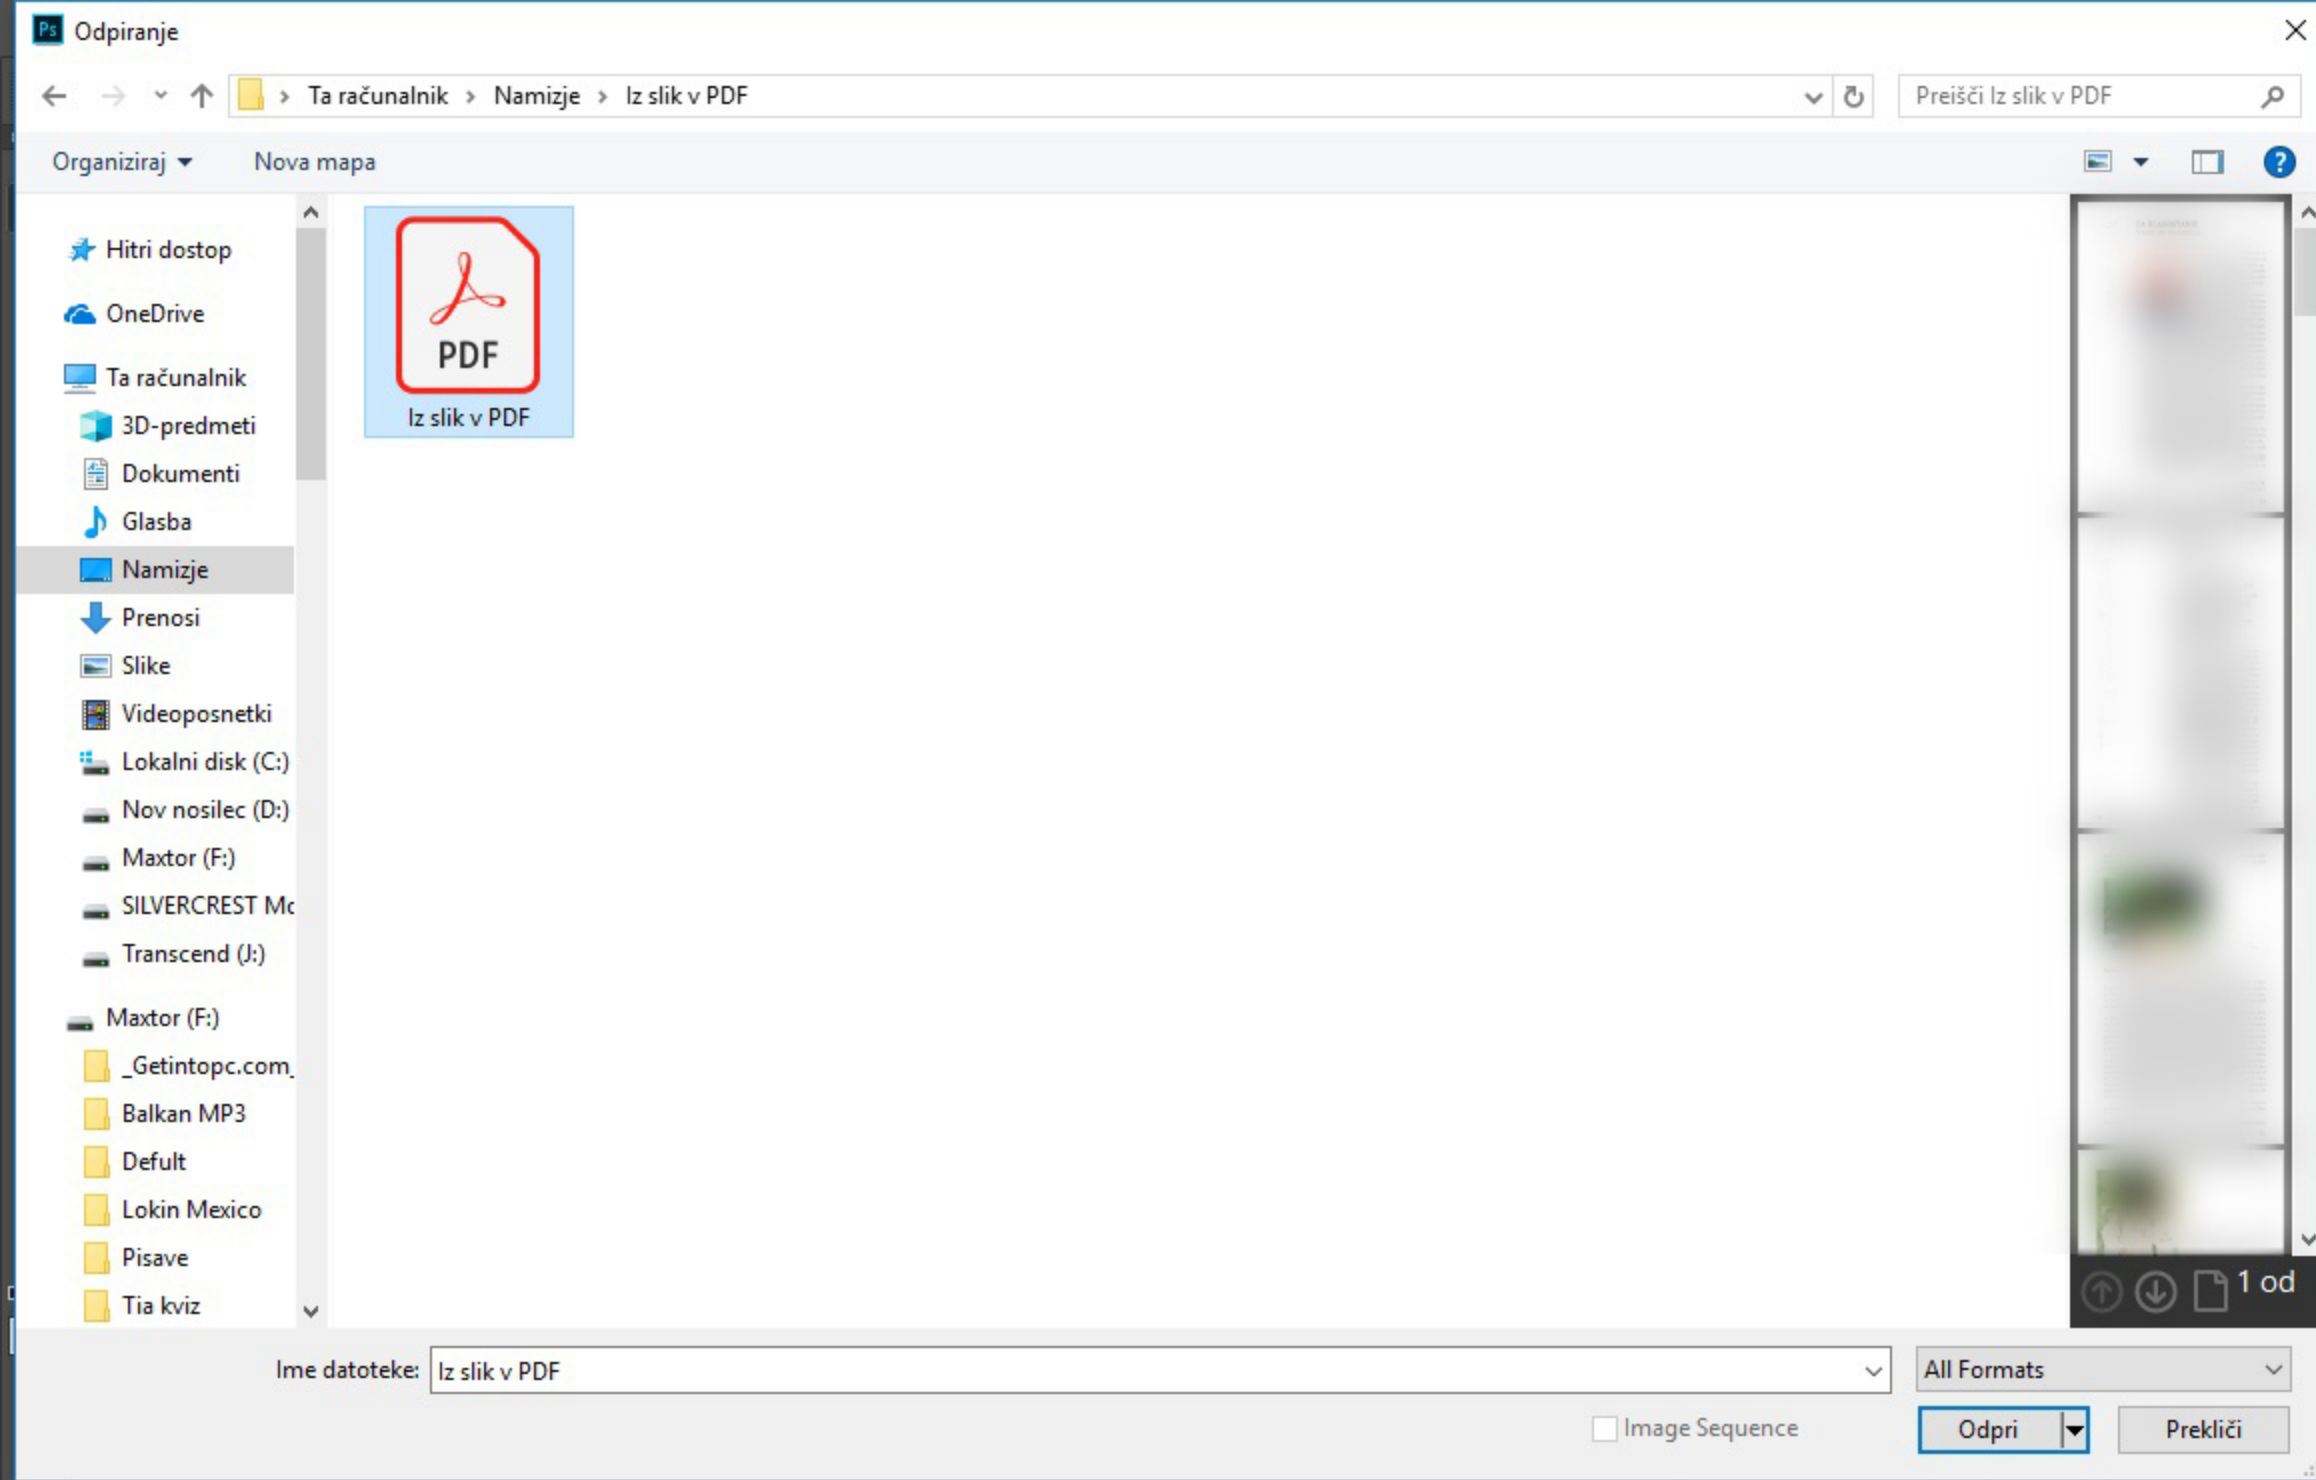

in dokument v obliki PDF shranimo kam pač želimo..

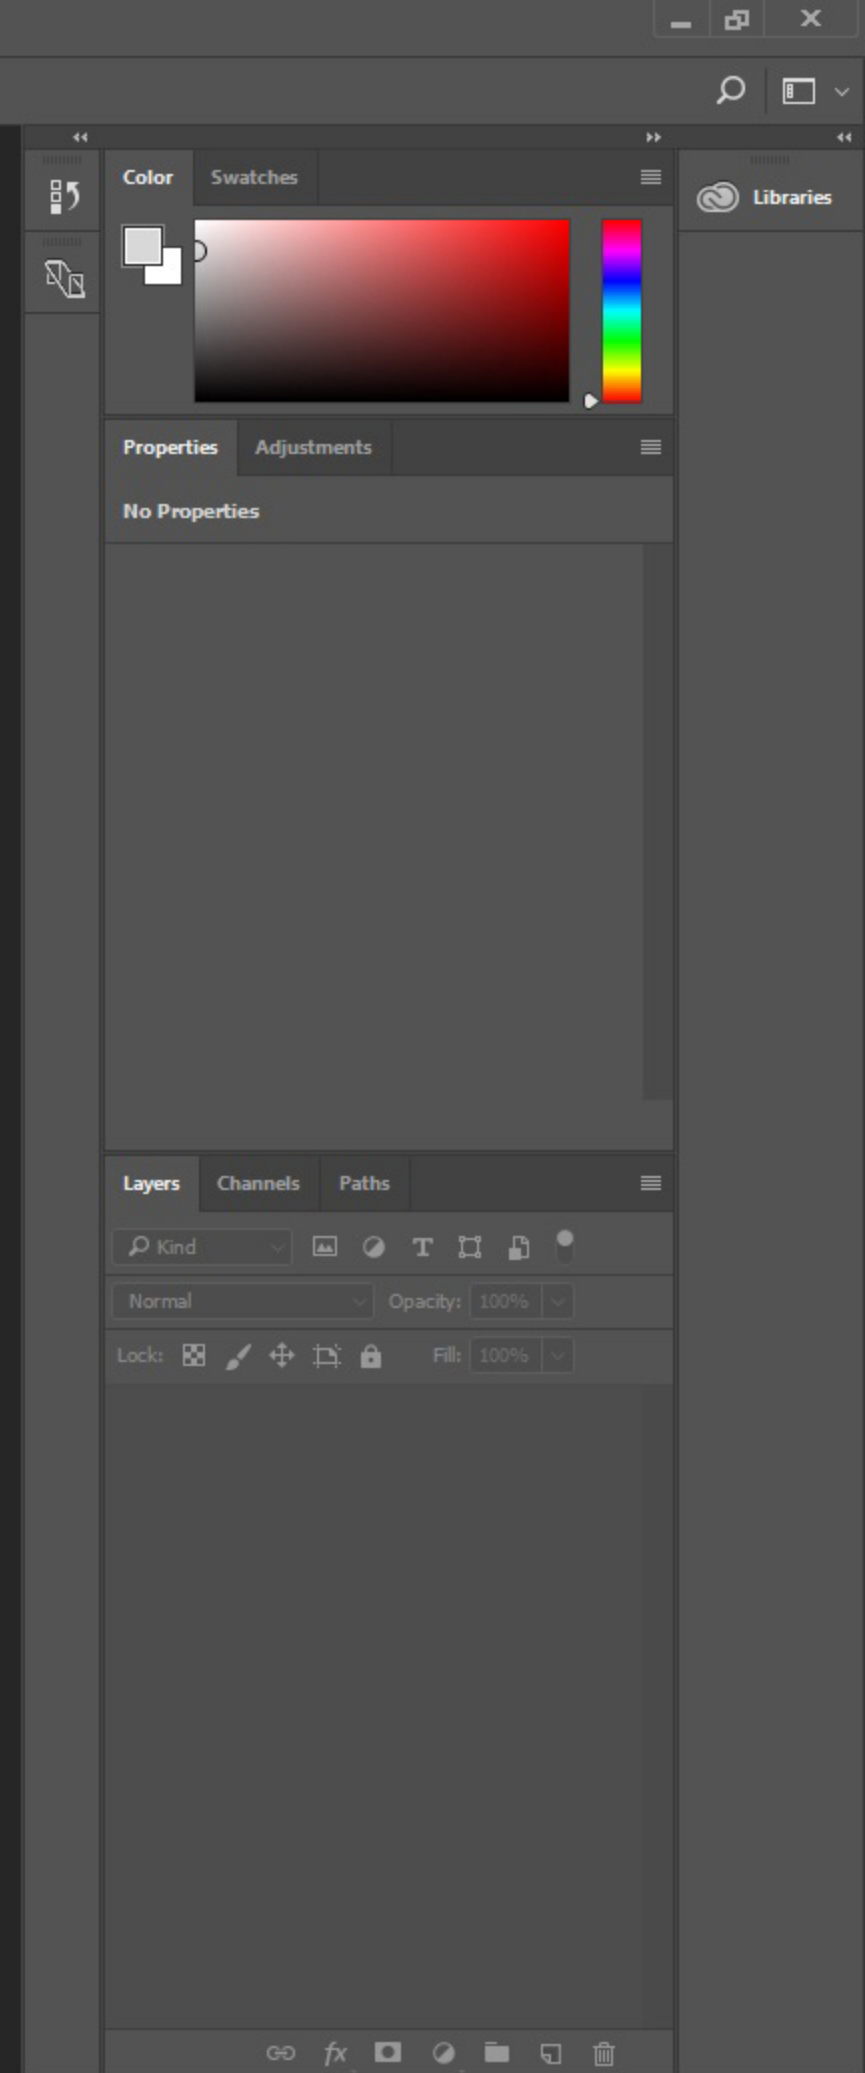

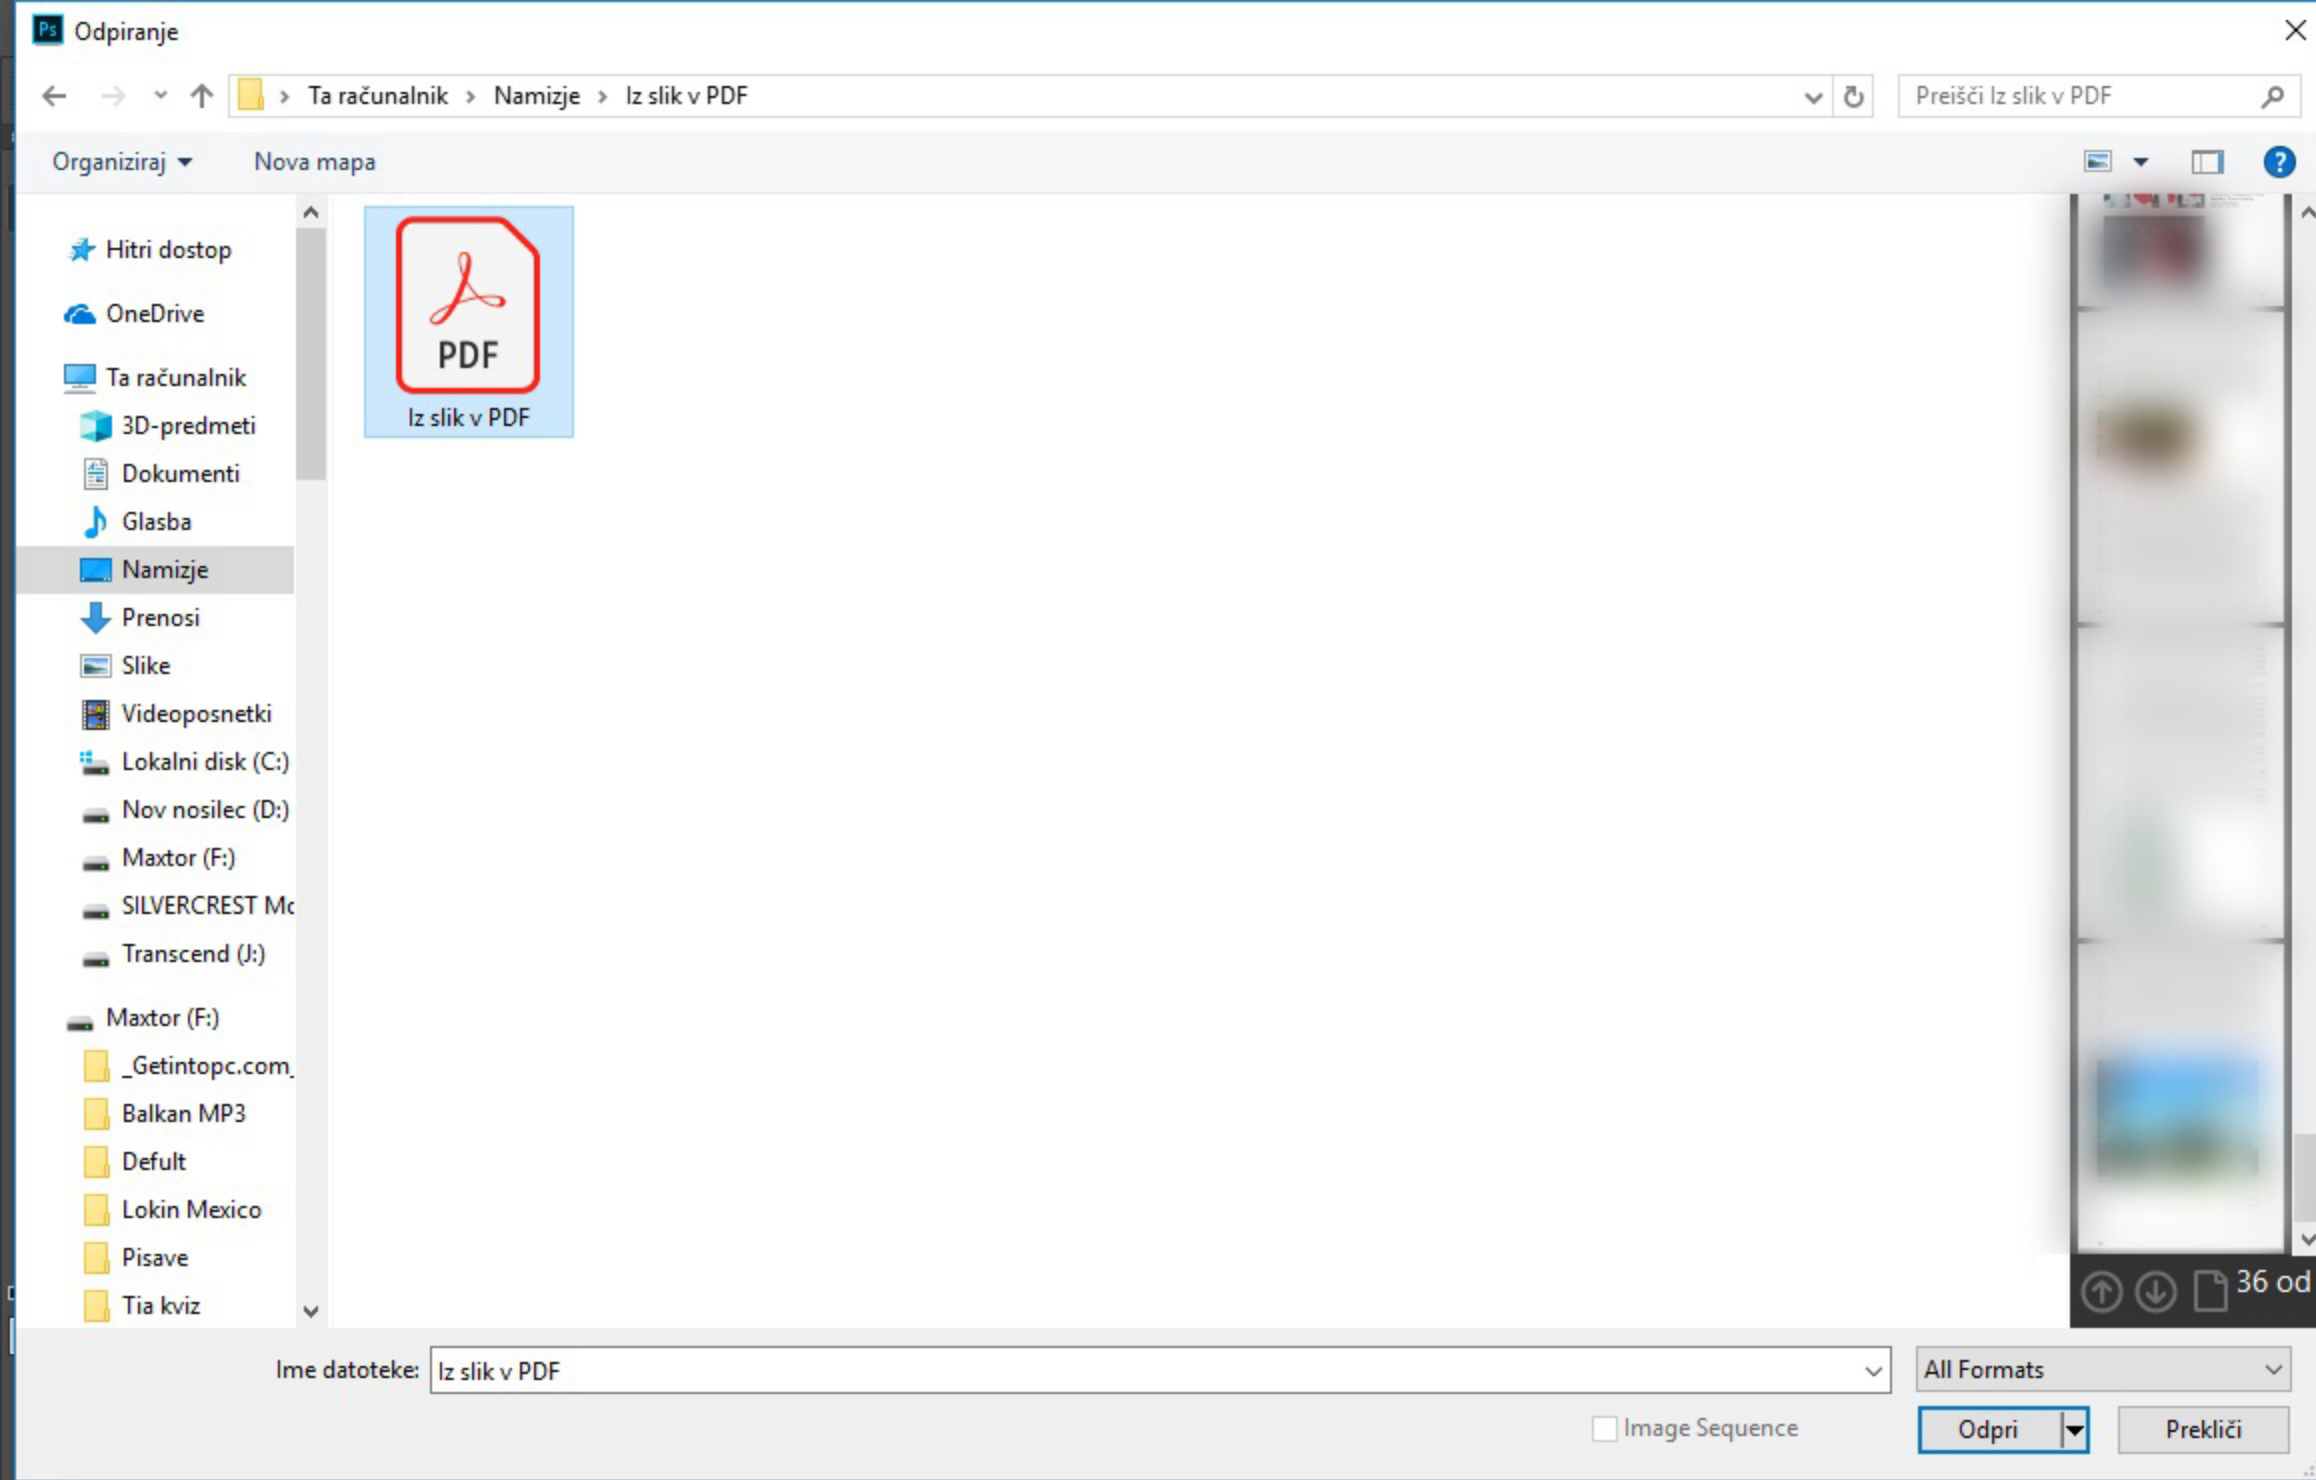

prikaže se tako okno in pritisnemo...Save PDF...

potem bo Photoshop konvertiral slike v PDF datoteko,
ki bo na mestu kje ste določili...

ko kliknete na datoteko PDF se v pred ogledu pokaže vaše delo...

v mojem primeru...slike od 1 do 36 katere sem dodal...
