Where to find Microsoft Office Setup Product key?

MS office Setup Product key is a combination of twenty five alpha-numeric characters and is printed on the back side of your www.office.com/setup Card. Submit your information, then sign in with your MS Office Account, create a new office account if you don't have one. Use your MS Office Account for everything you do with Office.

To make you understand better, here could be a sample key: xxxxx-xxxxx-xxxxx-xxxxx-xxxxx

How to sign in to Microsoft office 365?

1. First of all redeem your office product key at **www office com setup**.

Now precede with your Microsoft Office Account sign in at www.office.com/myaccount with your Microsoft account.

If you don't have a account yet then create a new one and use the same Microsoft login credential to sign to your Office account.

2. Once you have got with success completed with the the first step. Then select Install of your office product, select install again.

By default, this installs the 32-bit version of MS Office on your Computer using the language you selected when you redeemed the Office product.

If you want to download/install the 64-bit version, change your language.

3. Once can|you'll|you may} click on install web explorer will show you a popup with the choice "Run".

And in Google chrome and Mozilla Firefox you will get the choice to save the file. As soon as the file downloaded you would like to open it manually and run the installation.

4. also you may be informed when installation done like,

"You're all set! Microsoft Office is installed now"

Follow the instructions within the window, for example Click Start > All Apps to see where your apps are, and select Close.
