Aquaviron Injection 1ml is a medicine used in the treatment of male hypogonadism caused due to low testosterone levels. It is only prescribed to men with known medical conditions. It helps in restoring the level of testosterone in the male body. About Aquaviron 25Mg Injection This medication is a prescription medicine used to treat hypogonadism and symptoms of low testosterone levels such as less energy, sexual dysfunction and the loss of a few key male characteristics. It works by supplying the body its natural level of testosterone. To avoid side effects that sometimes could be troublesome, it is common

to use a taper up approach, which requires special equipment for a compounding pharmacy.
