

In the Ming Yang Yang New Energy Technology Co., Ltd. to visit Korea to discuss cooperation

2017-11-09

On November 8, Liu Kaiyang, chairman of Shandong JiubuXing Vehicle Technology Co., Ltd., accompanied Han Zhiming, chairman of Zhongji New Energy Technology Co., Ltd., with his delegation to visit our city. He went on to study on the "annual output of 150,000 sets of electric vehicles Control components and 100000 vehicle project "with the leadership of the High-tech Zone Management Committee for discussion. Vice Mayor Sun Changhong attended the forum.

The delegation first visited Hancheng New Energy Vehicle Industrial Park and High-tech Zone Small and Medium Enterprise Base standard workshops. At the symposium, Han Zhiming, chairman of Zhongji Mingyang, said that the company has the leading domestic technological advantages and mature manufacturing experience in the production of new energy automotive parts and won over 30 national patents, especially in power supply, batteries, Motor controller research and development, master the core technology. Hancheng plans to do the first new energy electric car parts and components to do it, and then extended to the vehicle manufacturing project. Liu Jiuyang, a long time Star Chairman of the company's bearings production project also conducted a preliminary introduction.

High-tech Zone Management Director Zhou Hao, director, said 100 billion new energy automotive industry has been Hancheng municipal government as Hancheng "five billion industrial clusters," the first is planning the construction of an area of about 5800 acres of new energy electric Vehicle Technology Industrial Park, will be in the policy, service to give businesses a full range of support and protection. I believe that with the addition of Ming Yang Ming in the company will certainly vigorously promote Hancheng new energy automotive industry. At present, the policy dividend and the hardware in the park have been basically

equipped. Hopefully, the new energy technology co., Ltd. in the Yang Ming Ji Yang momentum for as early as possible settled in Hancheng Hi-tech Zone.

Vice Mayor Sun Changhong introduced the development potential and investment advantages of Hancheng for the delegation from the macro-policy, the internal development needs of Hancheng and the industrial development. And said it would speed up infrastructure construction in the park and create a fully functional and well-equipped park environment for investors to create a comfortable business environment and comfortable working environment. At the same time, I hope both parties will deepen communication and negotiate details of cooperation in accordance with the principle of "meeting with each other, speed up the signing of projects."
