**Side A:****1. MISFIT - Red Shoes**

Melodic metal. This one is a ballad and unfortunately a bit on the glammy side.

**2. MISFIT - Find a Way**

The more metal of MISFIT's 2 tracks, with a great catchy chorus. Reminds me of ODIN (US).

**3. GAMBIT - Succes**

A more typical German metal sound, but with some inoffensive keyboards. Not bad.

**Side B:****1. TEMPEST - Get Your Motivation**

Outstanding metal with a unique sound. Best way to describe it is what would have happened if metal took a different, more progressive evolutionary path from the NWOBHM.

**2. TEMPEST - Two Sides of War**

Another great song. Both are in a similar style to their [End of a Dream 12"](#).

**3. LIZZARD - Into Void**

A nice fist pumping metal song but with some oddly whiny vocals.
