

OSIS

What is OSIS?

OSIS' goal is to tokenize the world. OSIS is the first company to apply tokenization in everything it's doing.

As seen on
Forbes

Abstract

A Universal Value System of all Public Brands, Businesses, and Interconnected Services, would be a Decentralized standard globally. All parties interested in participating, or creating their own projects, would now be able to do so easily through tokenization, & with no need of a middleman controlling their process.

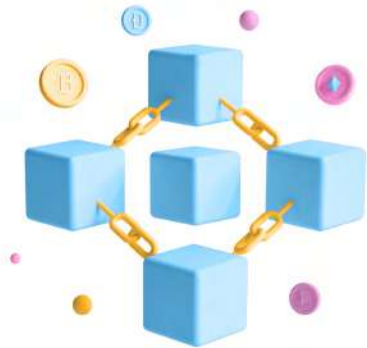

The socioeconomic benefits, typically exclusive to large private firms & the upper class, would be garnered by the entire world's citizens now. OSIS will make this possible, for less than a fraction of the cost & time.

OSIS embodies the Strength in Numbers ideology.

OSIS Tokenizer

There is a billion dollar industry around fake credentials & degrees with more than 3300 degree mills worldwide. Every major university is affected.

OSIS Tokenizer creates unchangeable, verifiable, and publicly accessible records online. This is an air-tight solution to verify degrees & nullify the fake degree business.

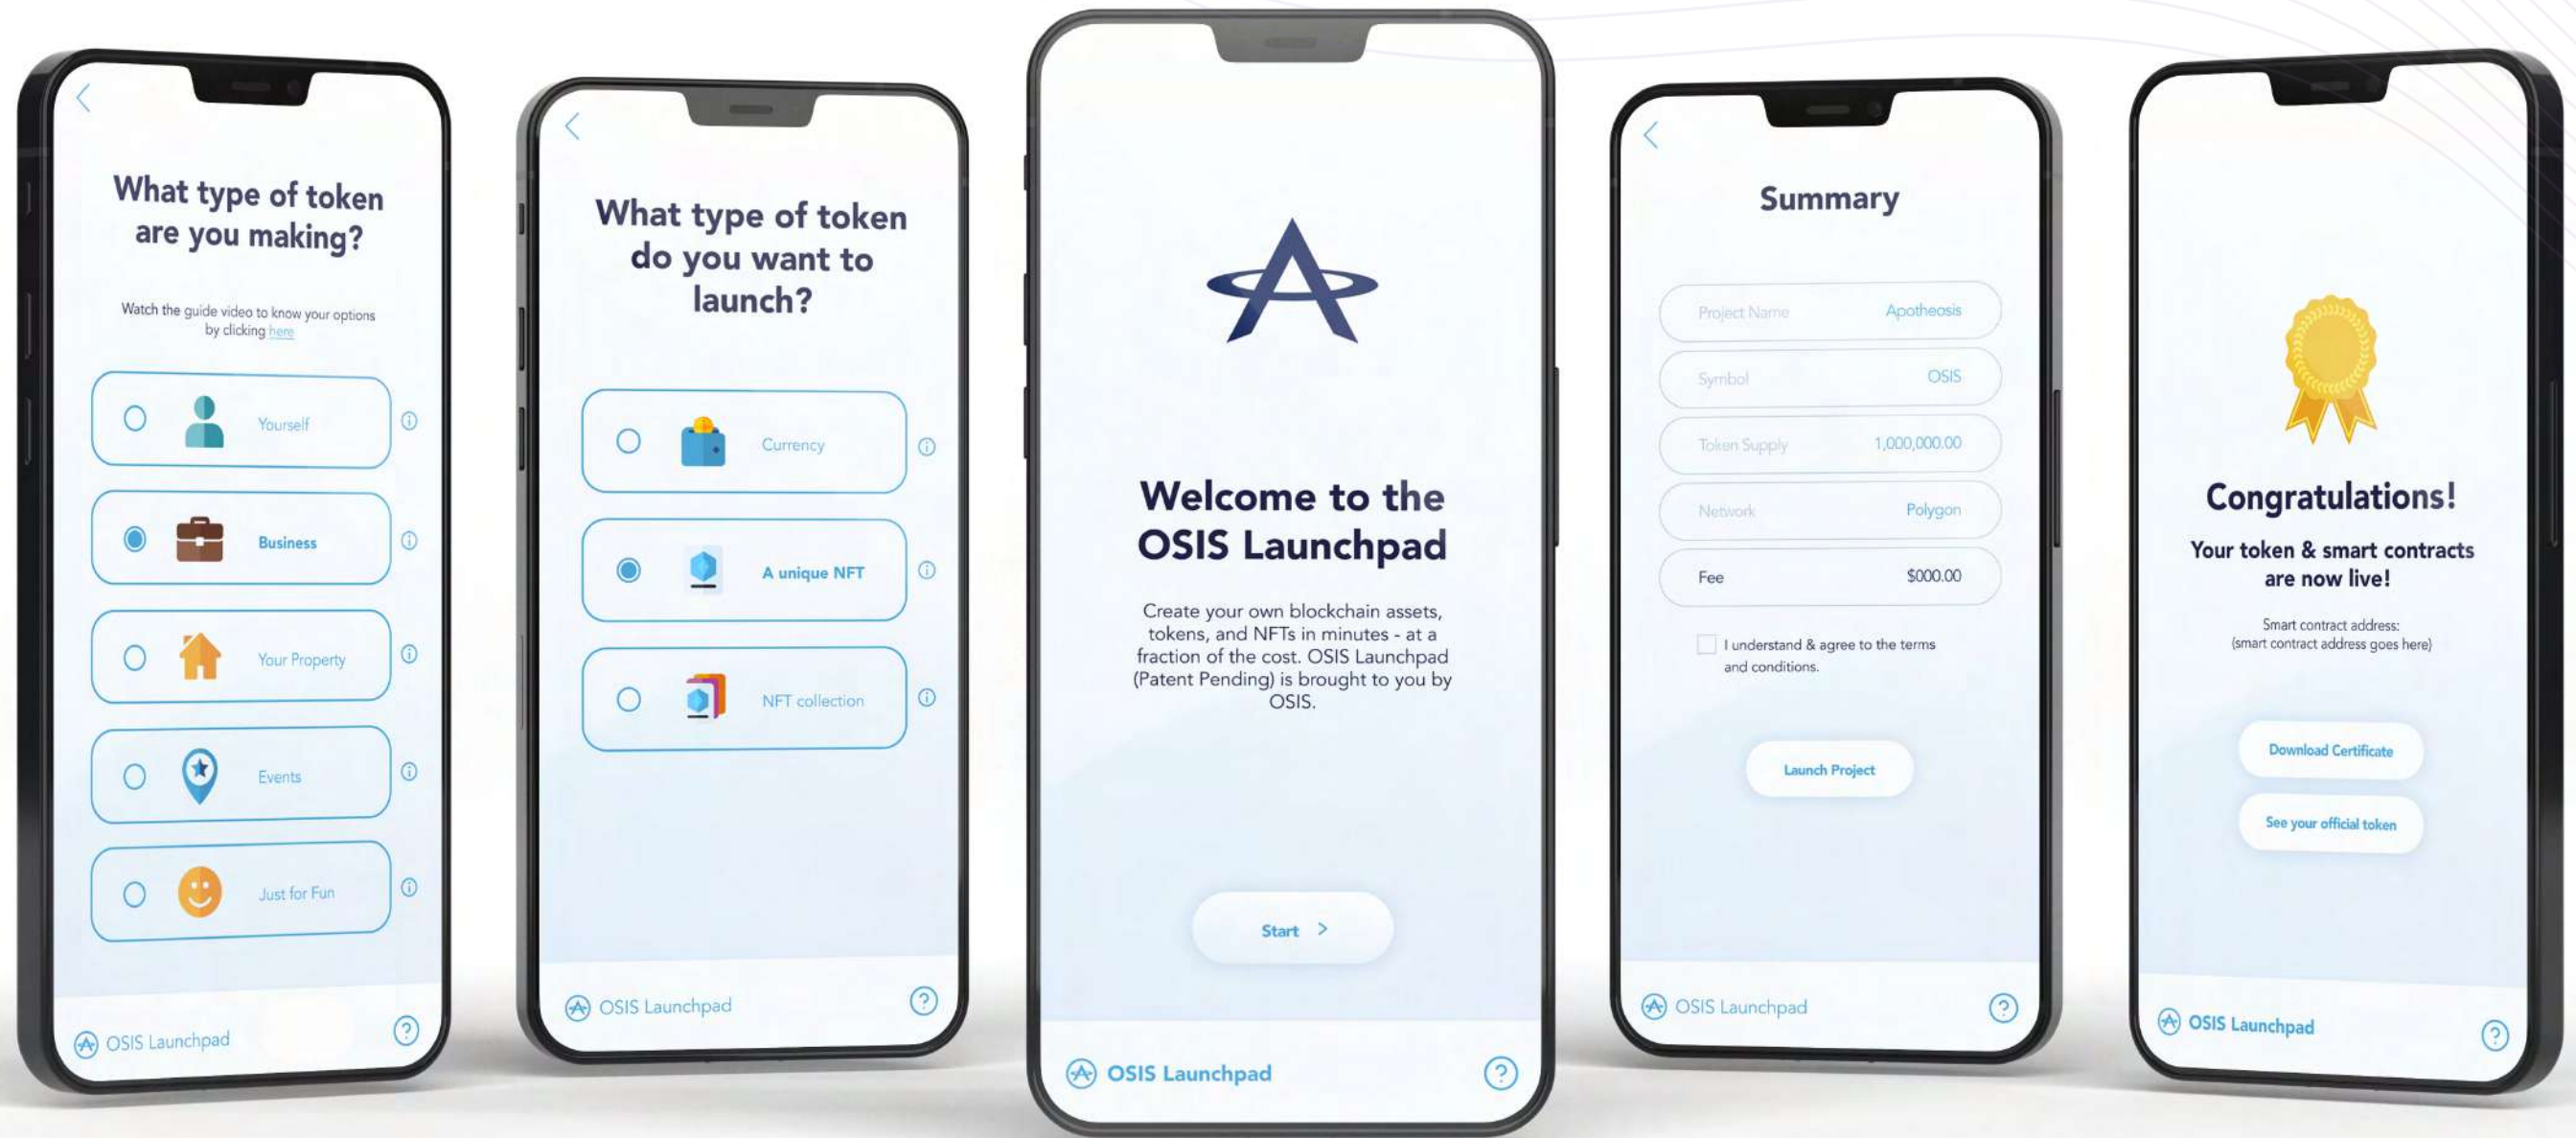

OSIS is working with world class Universities such as the University of Tijuana & Institute of Technology in Monterrey to tokenize more than 10 000 degrees each year.

Launchpad can create verifiable documents & other assets faster, cheaper, and easier than traditional methods.

Revenues generated from Tokenization amount to more than \$500 million by 2027

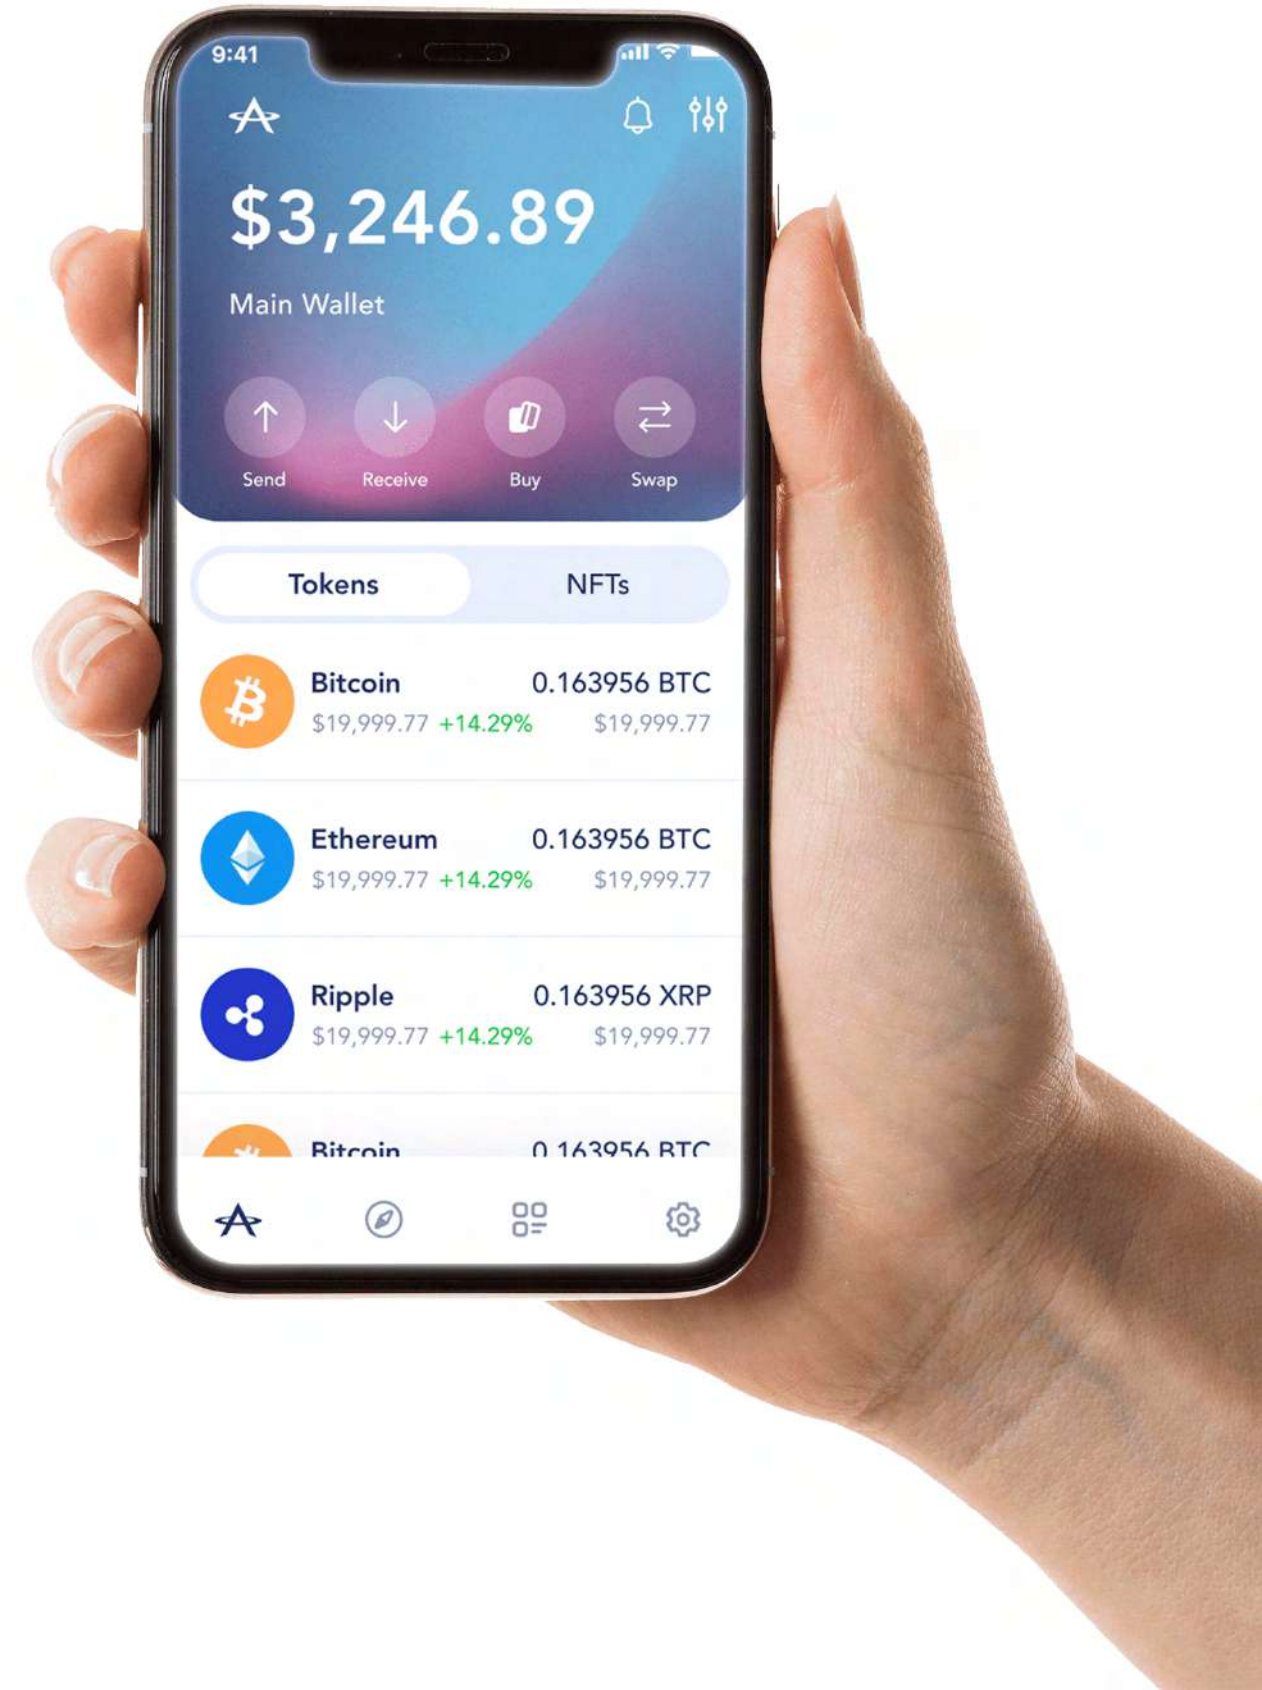

OSIS Core Wallet

Crypto wallets are difficult to use, unsafe for non-technical people, and are a critical component to Web3.

Why is OSIS wallet better?

Because it's simple. OSIS is safer, faster, easier, made in plain english. MetaMask for dummies.

Wallet industry is \$6.7 Billion, projected to grow at 23.1% yearly until 2030.

There are 84 million wallet users worldwide - out of 6.567 billion smartphone users - only 1.279% of people have a wallet - a blue ocean of 98.7% of the global population is an opportunity for OSIS.

The sales we generated for MetaBadges showed that 70% of people did NOT have a wallet. We taught them to get one. This is according to \$1M+ in first hand market research.

With OSIS Tokenizer & exchange integrated, the strategy with OSIS Core generates an average of \$109 per user annually in revenues - a total of over \$5Bn in revenues by 2027.

OSIS Exchange

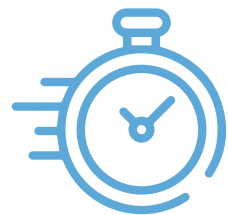

Today, crypto is made up of many disconnected blockchain networks, making it inaccessible to some, but full of opportunity.

Blockchain market is worth \$1 trillion right now with more than 65 unicorns (\$1bn+ valuation).

OSIS creates its own supply of buyers & sellers market through acquiring users in the OSIS Tokenizer & Wallet.

Businesses & users employ the OSIS exchange as a fully integrated marketplace from within OSIS Core; creating a harmonious, connected process that eliminates barriers to entry for new users.

OSIS makes money from all the transactions, activity, funds raised for other projects in the exchange.

FASTER

Capitalize direct path to public listing & support for tokenized projects.

SAFER

User/community driven curation of every project - fraud prevention via consensus.

SCALABLE

Users vet projects, all processes automated, community handles customer support & FAQs.

MORE REVENUE GENERATION

OSIS captures over \$1 billion in revenues with less than 0.7% of total market share of trade volume globally - the crypto space is vast & full of opportunity.

After maturity & gathering data, OSIS creates the Apotheosis blockchain that optimizes all that we are doing & further establish a foundation for people moving from web2 to web3.

OSIS Partnerships

ethos

Ethos (events social media platform) increases adoption by integrating OSIS for ticket & memorabilia tokenization. People can promote their tokenized businesses within Ethos. This generates over \$1 billion in revenues for OSIS by 2027.

COINCARE
GROUP

CoinCare will be a federally insured bank that bridges fiat & digital currencies, creating the first consumer bank that can swap the assets automatically. This bridges the financial gap by simplifying the process & integrating both currencies in normal checking accounts with mobile banking.

CoinCare, in partnership with VISA, will issue digital currency debit cards - allowing easy fiat/crypto spending - free to all MetaBadge NFT holders.

Unstoppable Domains increases mass adoption through OSIS Core & issuing integrated user-names NFT Domains. This removes the need for complicated crypto addresses, and replaces them with a single human readable address such as "OSIS.x". NFT Domains will be fully integrated in all OSIS Core wallets - even rewarding users their first domain for free.

With TCL's (The Crypto Launchpad) veteran advisory & marketing support, OSIS is listing on Tier 1 Exchanges & establishing itself as thought leaders in industry worldwide. ([TCL twitter](#))

What is Tokenization?

Tokenization is the splitting of anything physical or digital, into ownable assets (tokens) on the blockchain.

Real Estate
Building

Tokenized into
10 Million tokens,
or digital assets

1 Million people buy
10 tokens each at \$10 per
token = \$100M Valuation

Tokenization is already here

Case Study

In 2020, a financial revolution began. Digital art became NFTs.

By 2022, over \$30 Billion in NFT trades were recorded, more than the GDP of many small countries.

Graphic designers could now monetize their work with tokenization, creating a multi-billion dollar industry within a year from one small change.

This is just one micro-example of a tokenized economy in which the global population can participate. This is only the beginning.

A Tokenized Economy

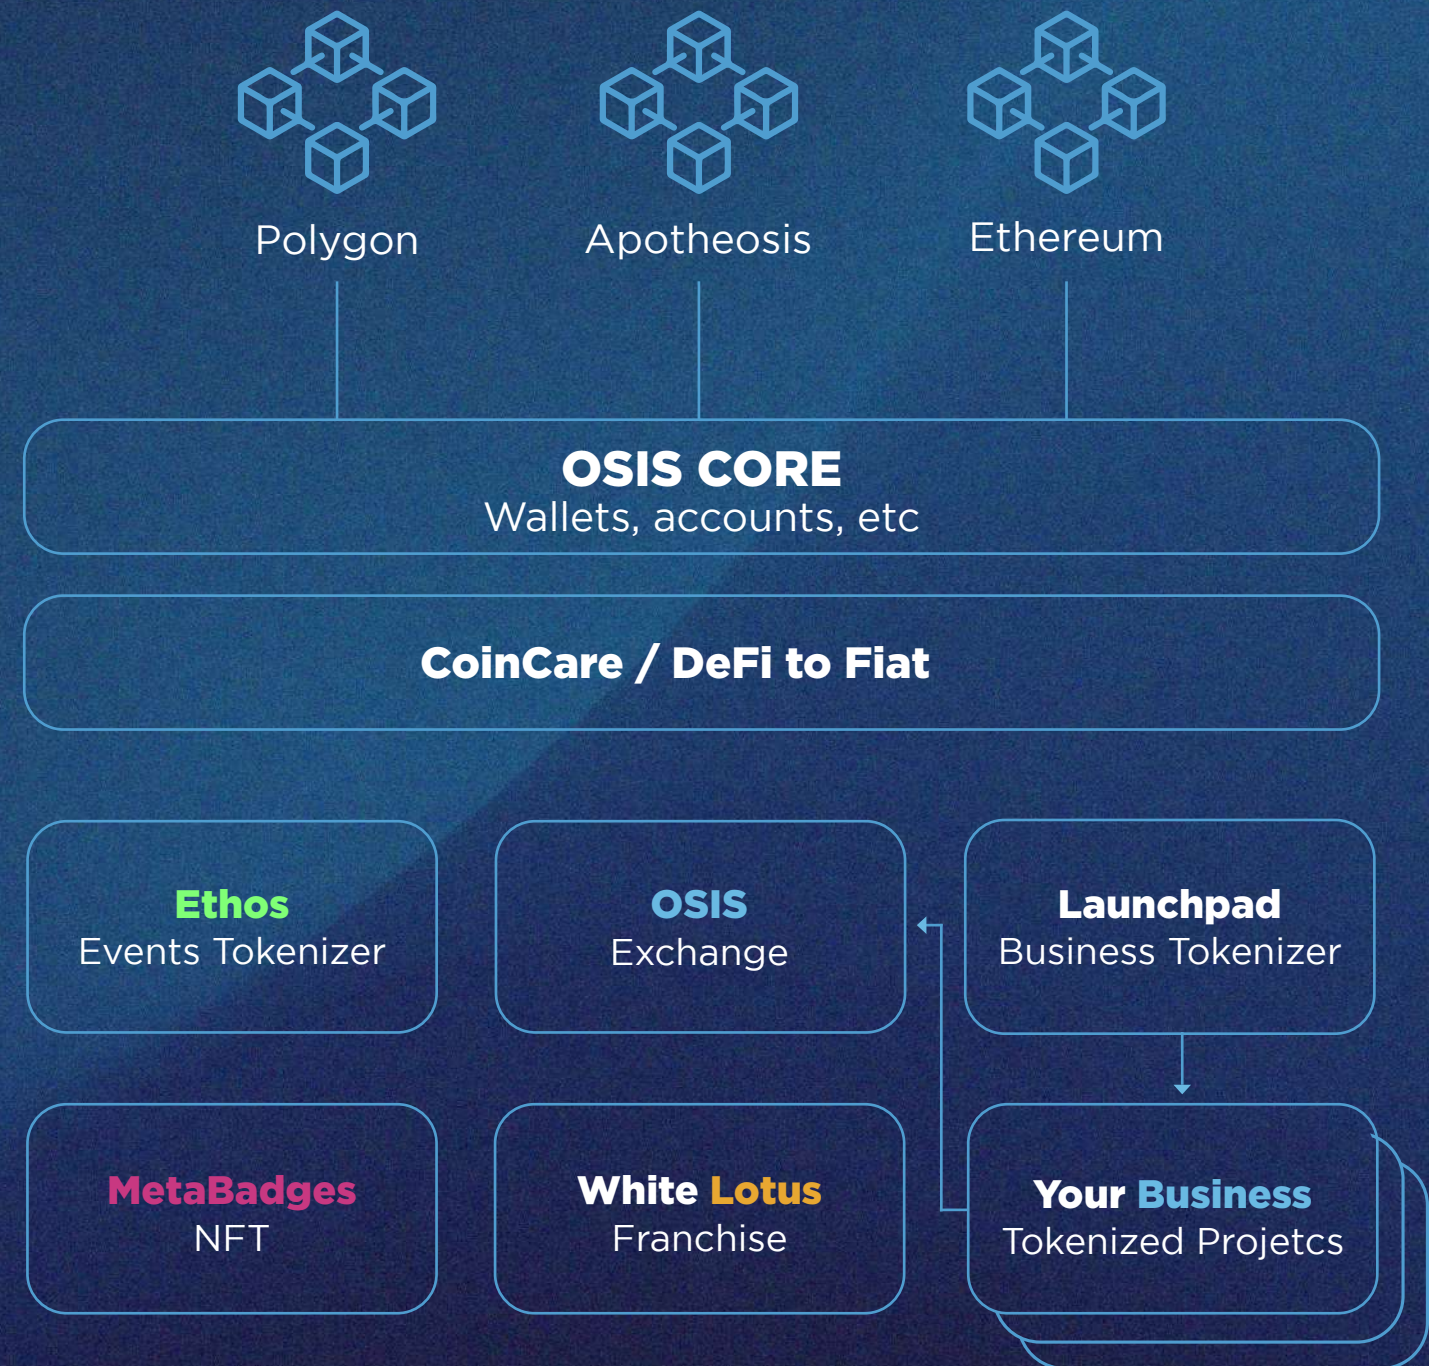

- Traditional industry research shows 1 in 1.6 Million projects achieve unicorn value in 7 years.
- It takes an average of \$160M of investment to build a Unicorn.
- In the tokenized space, 65 out of 21 000 listed projects are unicorns (in a bear market).
- Tokenized projects have a 5000x higher chance of reaching \$1 Billion.

The Difference = Open access to global investment

SECTOR	No. of businesses	Unicorn Rate	No. of Unicorns	Investment Attracted	Value Generated
Traditional	1.6 Million	0.00006%	1	\$160 Million	\$1 Billion
Tokenized	1.6 Million	0.31%	5,000	\$800+ Billion	\$5+ Trillion

OSIS Blueprint

Businesses will easily build on the OSIS Core infrastructure/ ecosystem. People will soon be seamlessly transacting between Fiat to Digital Currencies to buy products & services with CoinCare.

Family Tree & Partners

Revenue Streams

Tokenization

OSIS Launchpad is a tokenization platform that charges \$5.00 per-use for creating a verified, new smart contract (currency or NFT). This figure includes revenues from Ethos' user base tokenizing individual tickets as memorabilia, costing them an additional \$1 when they buy event tickets.

Subscriptions

OSIS' tokenization technology can also be accessed programmatically, so anyone around the world can use it in their own platforms & businesses. OSIS' mission is to tokenize the world, so the patented technology is white-labelled for use by the global community to implement in their own niche of tokenization. For example, an OSIS partner may be tokenizing music artists. It's easier, faster and cheaper to plug the OSIS Tokenization package into their websites & automate all their needs. These types of customers pay a monthly or annual subscription.

NFTs

OSIS MetaBadges is a 10 000 NFT project that is central to the OSIS Ecosystem & Exchange; hence is desirable & has high utility. All secondary sales of MetaBadges reward OSIS with 10% royalties revenue.

IDOs

Initial DEX Offering (IDO) is a feature of the OSIS Exchange where tokenized projects can publicly raise funds from the OSIS community in a safe & decentralized way. OSIS captures a 10% fee from funds raised on the platform.

Txn Fees

OSIS will get a small & standard marketplace fee (under 1%) for every transaction on the platform. The OSIS token will be used to pay transaction fees on each transaction, similar to BNB on its platform.

NFT Domains

In partnership with Unstoppable Domains, OSIS receives a 30% revenue share on all NFT Domains sold in OSIS Core. NFT domains simplify the web3 experience; allowing you to receive hundreds of digital currencies to a single, human readable domain, unique to each user.

Financial Projections

Revenue Streams	2023	2024	2025	2026	2027
Tokenization	12.6M	75.6M	152M	292M	457M
Subscriptions	5M	50M	375M	1.5B	4B
NFTs	4.8M	1M	5M	10M	30M
IDOs	1M	12.5M	40M	100M	120M
Txn Fees	5M	50M	250M	500M	1.25B
NFT Domains	1.2M	3.6M	6M	12M	24M
Total Revenues	29.6M	193.7M	828.3M	2.41B	5.88B

K = Thousands M=Millions B=Billions

OSIS Reviews

"Amazing!!!! Since I've been on board my outlook on this movement has changed a lot. Having the ability to invest in the little man everywhere in the world or your favorite music artist is a game changer. This opens doors for everyone."
