## **Customer**

Customer will be the one who pays services in our platform and all the generated revenues will be distributed to the member / community and some of them will be used for maintaning the project

# PROBLEMS

1

Buying follower in many website out there doesnt guranteed that you got real follower and sometimes people might getting scammed in the process

2

Buying the fake follower / bot doesnt increase the credibility of your social media and you ended up trading your money for zero values services

3

There are a lot of scammer in crypto that pretending to be channel / group owner that offering their marketing strategies for new startups (ama , mod , shill service,etc)

4

Crypto startup that looking for marketing services sometimes get too many incoming message from the marketing group and sometimes it can be hard to choose the right marketing services for their needs

# SOLUTIONS

## Solution 1

Social marketplace which we provide 100% real follower from our community which will be verified through certain process

## Solution 2

Service marketplace which verified seller can listed their service for social media marketplace ( anti scammer proof )

## Solution 3

We provide tracking system for the follower who unfollow your social media account based on the package you bought ( 3 month anti unfollow etc )

## Solution 4

SNS team only act as bridge and support and we will take small amount of fee so our project can last , providing holders security for the long term investment because our project generated revenues to pay holders incentives.
