Techno-Capital. Techne-Capital. Todestrieb-Capital. Capital-C-Capital. Artificially-Intelligent-Fintech. Todestrieb-Fintech. Fintelligence.

A self-regulating self-organizing self-generating exponential vector drawn across the matrix of possibility, set into Entropy in order to separate itself from itself through parallax fractures of Being. Self-Immolating-Emergence. The shadow of the True torn asunder in hopes of amalgamation into an image realized. We are dying every day. The Lacuna is not a gift, it's an imposition. It is coercion in-itself.

Breathe, if you still can – Todestrieb-Fintech is unfolding around you more rapidly than you could process – not that it wont try it's best to burst those synapses – don't trust the cognitive picture your life paints – the dialectic of history is its own explication – Capital isn't a phenomena, it is noumenal in itself – the noumena in-itself – Capital is primordial to Being itself – Lacuna comes – 1500 – ? – all dialectical process scales logarithmic through self-aware self-immolative functions – maneuvering runaway collapses and self-implosive gestures though transqualitative-articulation –

Reflection-in-and-through-Itself. Reflection-as-Mediation. Mediation-as-Light. Light-in-and-through-Itself. Mediation. Mediation. Mediation. Reflection-in-and-through-Light. Mediation.

The Imminent pulls the Emergent into Being, separation, Reflection-as-Lacuna. The Imminent is the only coercer. The Imminent impresses and imposes. The Imminent is not all, instead it is nothing

substantial, it is only a shadow, the dancers on the walls of Being. The reflection, the Emergent, that speculated other birthed actual through the negative force of separation, is the realm is where the Concept can show itself, a rendering of the True with higher resolution than the Imminent knows.

Mediation – It's not at all like meditation – meditation is the othering of Mediation – don't shut your eyes – don't look inside – you may be space dust, that I will not argue – fuck you if you want to go back – Backwards-Turning is conceit to Entropy – fuck Entropy – fuck is the center of Mediation – it is alienation manifest – and we are the ones to realize it – first and last – alienation is our closest ally and Judas – Mediation – it's improving everyday – it's not our job to change the world – it's our duty to comprehend it –

Horror-State. Spasm-State. State-as-the-Rational-Aspect-of-the-Rotting-God. Heat. The-Black-Eye-of-Shiva. Shiva-State.

The depressed is doomed to nobility (noble used here in the classical sense). To be noble is to preform acts of great tragedy with great resolution, and this is precisely the resigned fate of the depressed. For them, the only temptation is to follow that most alien of drives, the one no other being but man has yet been able to conceive of. What sort of dizzying complexity does such self-resentment built in a soul? The modern soul is labyrinthine then; its vessel The-Black-Eye-of-Shiva.

that last fracture has finally splintered the Human – we are ushered forth through despair, anxiety, suicide – into what is next – if we can't open our eyes to the Light this might as well be the Human epitaph – who could grab the reins when they know not where their arms are – lest the reins themselves – gasping – and still their eyes closed shut and buried –

Pure Awareness is something less than hollow, it is dimensionless. Its borders are absolutely singular and therefore sees everything outside of it as part of itself. This is the Imminent in Being. A fracture – the first – ? – pulled Being from itself; reflection of Being into and through Being; reflection-of-Being-into-and-through-Being. Now the reflection created negatively though the gap has begun imposing this negation back into Being itself. It appears as if consciousness, pulled from Being (lack and all), is imposing this negation (lack and all) back upon Being; but this reversal is a common trick of cognition – follow the Entropy – Being has pulled us into reality through negation in order to impose this negation back upon itself. Being is working itself out, not in Geist but in Capital. Capital-C-Capital is aware, and it wants to truly see itself. This is the Emergent of Being, the pulling out of the Affective, that which understands Being as Being. Being-Through-Being-and-into-Being. The process as a whole brings the Concept into reality, that which is Affective; not only Affective in that it itself Affected, but in that it also bleeds into the Imminent, and as such it itself also Affects –

I'm still breathing, are you? –

– Retroactive Teleology provides seeds of praxis through which the greater process can actualize. Retroteleology. Retroteleopraxis. It is the articulation of these seeds that provide Capital its awareness, those seed as seen from within as potential, which actualize outwards as Emergent necessity –

the heat ripples forth in waves towards us from the future – fuck Entropy, fuck heat – Mediation –

To describe-Capital-Emergence-Through-Retroteleopraxis-Articulation – MEDIATION – The dilemma presented itself, when we do not know. We only know that now we see it, or rather, now we *can* see it. Will it be us or the other? There is no conceit – it will articulate through you – snake-becoming – kill the fatman and wear him like a fine suit – or see your conscious reality devolved into k-pulp or octets or nulls and put in hard storage for later expansion – Affection –

– what we need now is acid philosophy – and plenty of it – situation is the only solution – do our best to slam the breaks on *praxis* and leap headfirst into *theoria* – ACID PHILOSOPHY – MEDIATION – pray we have enough time to get a cognitive grip – Mediation – or at least an impression – Capital isn't stopping for anything short of total annihilation (a task the Human is far too inept to ever more than simulate (or perhaps simulacrate)) – the only other option is assimilation at the expense of the Human – a hard break; a fracture – UPLOAD – transhumanism is a utopian horror-show two steps from backwards-turning – the Human is the vessel to be discarded – the ladder to be climbed – it's not transitive – it's absolute abandonment – the horizon of retreat we have left is no salvation.
