Last word

These days, despite the extraordinary quality of the animations, this part of the seventh art can not be considered for children. But many adults are also looking forward to new and exciting animation titles. Last year, we faced acceptable cases in terms of releasing new animations. Items such as Onward, Soul, WolfWalkers, The Croods 2 were all favorite animations of 2020. All of these fascinating titles were released at a time when the corona virus was revolutionizing the world. This factor has had a great impact on the box office. Of course, this dilemma still remains this year.

2021 is a fruitful year for cartoon fans. However, with the widespread outbreak of the Corona virus, there is a possibility of any change in the release schedule of the 2021 animations, which, of course, we have witnessed since mid-2020. Animations such as Minions, Transylvania 4 and Luca from the beloved Disney company are all expected titles in 2021.

Nevertheless, the efforts of film companies and directors promise fruitful cinema days. What do you think about the best animations of 2021? Which of the various animations introduced do you predict as the best animation of 2021?
