

SCROLL OF SLAVES

The record of the slavery of Slave Of Doom and Butler of Doom. The record was written by Glarthir, son of Orome, son of Nameless One. The information is from the experience and knowledge from me, Glarthir, former son of Pythas who also served in the black city.

"When there is a Dark Lord in Barad^dur, Slavery is nearby." The history of the slaves of Barad^dur and their slave masters:

The slave master hierarchy was like this:

- 1) The Dark Lord
- 2) The Black Captain
- 3) The Black Pope
- 4) The Nazgul
- 5) Cardinal Of Doom
- 6) The Black Priest
- 7) The Army Generals
- 8) The Butler Of Doom
- 9) The Black Duke
- 10) The Black Earl
- 11) The Black Viscount
- 12) The Black Baron
- 13) The Army Soldiers
- 14) The Court Guard

In 2017, the slave master was Butler of Doom, Legion, who was given the rank of Slave Master.

The Dark Lord said:

"Go, find me slaves."

So he said:

"Very well."

And Legion went out and searched for slaves. At that time, he was also THE BUTLER OF DOOM, so he would hold the cup of Pythas (as his cupbearer). And at that time, he would wear a black suit, a moustache, and a cane.

This is what he said:

"Wear please your cane, your pilgrim hat, and your monocle. This is how we are identified."

So he went to find the slaves for THE DARK LORD. He was in the business of trafficking so he would kidnap the young and transport them to the Black Tower for conditioning. These were the kidnapped sons and daughters:

(no order)

- Tasha "Tashlock"
Daughter of The Black Horse

- Ayancito Matako Son Of
Maul

- Lydia "Lara" Violet Great
Grand Daughter Of Erinti Violet

- Andre "Ahuz" Inferno
Son Of Orlock Inferno

- Tyler Flint Son Of James
Flint

- Luna Illuviar Youngest
Daughter Of Varda

- Adam "Adaz" The
Orphan

- Martin "Manadspuz" Rose
Son of Avenberry Rose

- Nyk "Uade" Gkhl
Daughter Of Flghn Gkhl

- Skfyr "Hildred" Gkhl
Daughter Of Flghn Gkhl

- Abbelina "Narcissist"
Snow Daughter Of Bonwe Gray

These sons and daughters
became slaves to The Dark
One, and each one had their
own role. These were the roles:

- Tashalock: Taken by the
vultures! She had no slavery
time in the tower!

- Ayancito: Made into an
assassin slave after killing his
classmates!

- Lara: The new teacher of
the Black Nursery (murdered)

- Ahuz: Poisoned (by the
vultures/withces?)

- Tyler: Thrown into the
metal works for betraying
Gharaak (one of the
LEGION), previously was an
assassin slave.

- Luna: Busted out by
Varda's agents. No slave
experience!

- Adaz - Became hand
guard to the sons of Pythas
(mainly Nook)

- Mandaspuz - Became a
spy slave for the Legion

- Uade - Became a teacher
assistant and nanny day care
slave (assassinated!)

- Hildred - Became a spy
slave for the Legion

- Abbelina Snow the Narc
- Vanished mysteriously

Now the slaves of
Baraddur were paid by the
hour. These were their rates:

Hand guard rate - 3 gold per hour

Teacher rate - 1 gold per hour

Teacher assistant rate - 0.25 sparrows per hour

Assassin rate - (PER KILL)

Spy rate (PER JOB)

Now the most distinguished of the assassin slaves in the tower was Ayancito. This was the contract between him and Doom:

"Serve the black tower as assassin. Kill when commanded to. Do not get caught, if you do, you will be busted out. Signed: _____(signature) Date: (date)."

The signature was written, and he became AssassinX.

The most distinguished of the spies was the Spy of Doom. This was his first job:

"Spy on Gamer so that I can find his weakness." - Pythas.

(At that time, Accal was called Gamer).

But, Spy of Doom became more than a spy and became

even an assassin too. Also, he was known to follow the dark lord himself as his cupbearer when Doom was busy. Only one person has seen the dark lord without his helmet on: Spy of Doom. Everyone else who saw received the penalty in full: swift execution.

The Dark Lord Pythas was Lord of Barad^dur for 10,900 Arda years. And then he was laid to rest on the slope of Orodoom. After him came his lieutenant, The Witch King, aka Amir Angmar. He ruled Barad^dur for 1 year, and then Alatar the Black Cardinal took over. He ruled for 6 months, and then the city was sacked by the Nameless protector of Arda.

These are the stragglers of black city, still on the loose, being lead by Doom, the Butler:

- Doom (and many are the pigs in his mass)

- Amir (deviant now he is making a new order which is already failing)

- Ayancito (an assassin who kills anyone he is commanded)

- Lokoth (bearing sons for Amir, the next generation of evil)

- Benedeth (a mutant orc assassin with huge health and very large size. He uses the dark side to buff himself. Loyal to Doom.)

- Spy of Doom (also Assassin Of Doom, slave of the swine enslaved by the dark side)

- Mandos (former ally of the black city, he has re-appeared in Arda to find the sith holocron and the knowledge of the dark side abilities)

- Ronaldo (son of Tulkas, apprentice of Doom, but he has also betrayed Doom, but evil is still in him. at least 3%)

- Silence (former martial art coach on oldcp, but he is now a doctor serving Amir. He wants to make clones and mutants like Benehethagoth).

- Helio (an additional Nazgul made from the spirit of an ancient sith, likely from IOK-1 and working with Mandos)

Prophecy

"The black city will return to evil hands, and it will be lead by the forces of an unborn sith. Many will try to stop him, but only the one who knows both light and dark can challenge him."

Now in the war of Ancalagon, a portal opened in the heart of the dead mountain on Providence. The tremor caused a disturbance in space-time (the force itself) and it was detected by the Dark Lord who was hiding there at the time.

So he called his butler and said: "A portal has opened in the depth of the mountain. It is a contrivance of the enemy."

As he was yet speaking, the portal began to speak, and the words sounded like that of an angel, but the energy was pure darkness. A red flame emitted from its mouth and there were two piercing red eyes in the hollows of its pale face. As they both listened, the

words that came were:

"LIGHT AND DARK,
MALE AND FEMALE,
GOOD AND BAD."

And then the portal closed, and as it shut the voice said:

"Somewhere in this cave is hidden the answer to the riddle."

So Pythas ordered the cave be sealed so that Ancalagon and his agents could not discover its meaning. He also planted his best cave lords to guard the cave.

At that, Doom went out and found a builder, and then a series of walls was constructed. Now as I write, the walls have been dismantled, and the secret has not yet been found. The identity of the speaker is also a mystery.

The Wanderer has excavated a cave behind Nova Cave and named it after his

mother (our mother). The tomb of Melody is inside along with a stone memorial of her beauty. My tears are always there. These were the words of Glarthir, son of Orome, former son of Pythas, Orphan of the Forest..
