Testosterone is a naturally occurring sex hormone produced in a man's testicles. Small amounts of testosterone are also produced in a woman's ovaries and adrenal system. Testosterone Enanthate is used in men and boys to treat conditions caused by a lack of this hormone, such as delayed puberty, impotence, or other hormonal imbalances. This medicine is not for use in treating low testosterone ...

Generalmente, antes de realizar la parte principal de una sesión de ejercicios, los estiramientos dinámicos se consideran más adecuados que los estáticos.

"Try before you buy"
