E sad, rekoh vam gore da poslije 25e krecemo da starimo, a s njegom treba da pocnemo i ranije i mnoge od nas jesu, sto zbog problematicne koze, sto zbog sto vole da mirisu, neki zbog oba i ponekog jos razloga. Za poceti nikad nije kasno ali ne mozete da ocekujete da 25, 30, 40, 45 i vise godina nista ne radite na sebi i ocekujete rezultate preko noci, zaboga mjeseci, godine su potrebni u mnogo slucajeva damage is done, ali ne znaci da ne trebate poceti raditi na prolongaciji svega onoga sto ce se desiti sutra na prekosutra. Kontate?.
