ABOUT GREENLIGHT COLLECTIBLES

GreenLight Collectibles, founded in 2002, is excited to be celebrating our 20th year in business in 2022! Throughout our 20 years in the toy and collectible industry, we've proudly delivered officially licensed, authentic model cars, replica figures, accessories and dioramas to consumers around the globe. It all started in 2002 with the concept of replicating 1:64 scale die-cast IndyCars and Pace Cars for the Indianapolis Motor Speedway, and over the years has grown into a globally recognized model car brand with offerings in all scales, an ever-growing tooling bank and licensing partnerships with many of the most recognizable brands on the planet.

Throughout our history we have continued to focus on our original goal of producing authentic, highly detailed replicas that would catch the eye of the collector and find their way into the homes of model car enthusiasts around the globe. In recent years GreenLight has twice been honored as a "Fast 25" company in the State of Indiana, as one of the 25 fastest growing private companies in our region. We've been privileged to bring some great model car brands into our company portfolio during the last decade, adding GMP, First Response Replicas and Highway 61 to the GreenLight stable. We're optimistic for the new year and look forward to producing the best range of die-cast model cars we're capable of offering, while keeping our collective ear to the ground for new and exciting opportunities to continue growing the market for vehicle replica enthusiasts worldwide. We're excited to see what 2022 brings with the introduction of several new and exciting product lines that are bound to excite. Look out for new licensed products in 2022 ranging from ABC, Paramount, Smokey Bear, Pikes Peak International Hill Climb and more!

NEW LICENSING AGREEMENTS!

GREENLIGHT COLLECTIBLES PARTNERS WITH PIKES PEAK INTERNATIONAL HILL CLIMB

INDIANAPOLIS, Ind. (January 11, 2022) – GreenLight Collectibles has inked a new licensing deal with the Pikes Peak International Hill Climb. As part of the new deal, GreenLight will produce replicas of Pikes Peak Hill Climb participants and winners in various scales.

"With over 100 years of racing, the Pikes Peak International Hill Climb is iconic among motorsports fans. We are excited to further expand our racing presence," said Russell

Hughes, GreenLight Collectibles President.

Staged on Pikes Peak – America's Mountain near Colorado Springs, Colorado, the track spans 12.42 miles and boasts 156 turns over a 4,720-foot elevation gain, reaching a maximum peak at 14,115 feet above sea level. June 26, 2022 will mark the 100th Running of The Broadmoor Pikes Peak International Hill Climb, brought to you by Gran Turismo.

"These collectible die-casts will allow fans to hold a reminder of Pikes Peak Hill Climb history in the palm of their hand," shared Lisa Haight, Historian. "So many of these vehicles hold special memories for those who have followed their success on Pikes Peak for years."

The initial product line is set to be released in the first quarter of 2022 and will feature a wide range of scale replicas.

GREENLIGHT COLLECTIBLES INKS LICENSING DEAL WITH SMOKEY BEAR

INDIANAPOLIS, Ind. (May 25, 2021) – GreenLight Collectibles has entered into a licensing agreement with the United States Department of Agriculture, Forest Service for the famous Smokey Bear. As part of the new

deal, GreenLight will be licensed to produce die-cast vehicles and action figures portraying Smokey Bear.

"Smokey Bear is a household name known across the United States and we look forward to producing die-cast vehicles and action figures in order to help further Smokey Bear's message of wildfire prevention," said Russell Hughes, GreenLight Collectibles President.

Smokey Bear was created in 1944 as a wildlife prevention program to promote appropriate behavior with fire in order to help prevent human-caused wildfires. The campaign is the longest running public service advertising campaign in United States history and beloved by both children and adults.

Maureen Brooks, Smokey Bear Licensing Program Manager, added, "The Forest Service is excited to be working with GreenLight to build awareness for Smokey Bear's mission. GreenLight's licensed die-cast vehicles and action figures will be a great addition to our growing portfolio of more than 100 Smokey Bear licensees."

The licensing partnership was facilitated by the Forest Service's official licensing agent, Perpetual Licensing. The initial product line is set to be released in 2021 and will be widely available at retailers across the U.S.

Georgia Marketing and Promotions, known to scale model fans everywhere as GMP, stopped producing its highly-detailed automobiles in 2011. Thanks to a joint

venture between GreenLight Collectibles and Acme Trading, the GMP brand restarted production beginning in the Fall of 2014, premiering in early 2015 and continuing into 2022!

Much to the dismay of collectors, the GMP brand ceased operation in April 2011, when funding for ongoing operations

could no longer be secured through conventional channels. While the GMP brand may have been dormant for several years, it was never forgotten, and its enduring value prompted discussions between Acme and GreenLight beginning in 2012. Resurrecting the brand meant GreenLight purchasing the old tooling, and with new funding in place courtesy of GreenLight, a deal was put together to make this happen. GMP models began hitting the market in early 2015.

GreenLight brings many existing licensing agreements to the table, which may allow an even broader selection of high-end die-cast products for GMP collectors!

BESPOKE COLLECTION

BY GREENLIGHT

FINE | RESIN | AUTOMOBILES

Bespoke Collection by GreenLight, a brand-new product line that launched in early 2021, brings fine resin automobiles to the collector market with the GreenLight Hollywood touch, starting with initial product launches in 1:12th scale.

"We carefully studied our licensing portfolio and considered all licensing partners when formulating the best approach for the launch of Bespoke Collection by GreenLight," said Russell Hughes, President of GreenLight Collectibles. "With the amazing fan support we've

seen from The A-Team and Gone in Sixty Seconds enthusiasts over the years, we couldn't have launched the Bespoke Collection by GreenLight program with any better support and market appeal."

MSRP for these models is US\$399.99 per unit. Master cases, from a business-to-business perspective, is 4 pieces per master. These delicately developed models are delivered with 1:12 scale limited edition polystone cast resin bodies. These 15+ inch masterpieces feature perfectly detailed bodywork, serialized metal plaques on the chassis and come packaged in polyfoam, with closed box presentation that contain eloquently developed artwork to preserve the models for years to come.

Light Blue & Frost White

GreenLight was founded as a hobby-first model car company in 2002, and beginning in 2014 started issuing 'Hobby Exclusive' branded model car items as a tribute to the long-standing dedication to providing individual hobby shops and web stores with items that cannot be found at larger retail chains. We strive to keep our items collectible, exclusive and unique for all our hobby accounts and dedicated GreenLight collectors.

Our team has continued to develop this range of hobby exclusive releases. These hobby exclusives come in a variety of scales, prices and subject matter across the entire year. Check our GreenLight B2B web store regularly for updates, sign up for our product blast or call your GreenLight Rep to learn more or to see the latest list of hobby exclusives offered by GreenLight!

62nd Annual Indianapolis 500 Mile Race Official Pace Car

EVERGREENS

GreenLight understands that many items, for a variety of reasons, never go out of demand – think a Starsky & Hutch Gran Torino or a Gone in 60 Seconds Eleanor. We call these evergreens because just like the plants are green year round, these items are always in demand. No matter the time of year, there are requests for these evergreens from a new walk-up customer or from a collector across the world. GreenLight knows an unfilled customer request can lose a potential lifelong collector. Because of this, we strive to keep these items either in stock or within 60 days or less of new inventory. Please talk to your sales rep about the evergreens on this list and make sure your company isn't missing inventory on any key items throughout the year.

Gone in 60 Seconds (2000) - 1967 Ford Mustang "Eleanor"
 1:18 #12909 1:24 #18220 1:43 #86411 1:64 #44742
