

Minecraft Servers 2022

Continue reading to find out why these servers made it onto the list.

What are Minecraft Servers?

Minecraft Servers are a great way to meet new people and forge new friendships. A Minecraft Server is a platform on which people can enjoy the game of Minecraft by playing with many players from all over the world. Minecraft Servers are hosted by companies or individuals. This is a great way to enjoy Minecraft! Learn more at [Wikipedia.com](https://en.wikipedia.org/wiki/Minecraft_server)

What is what is Minecraft Server List?

A Minecraft Server List is a website that lists a lot of Minecraft servers for players to choose from. On a Minecraft Server List, you can find thousands of servers which are categorized according to their gamemodes. To start, find the Minecraft server list, such as this website, and then select a gamemode and browse through the servers. If you find one that you like, click on it and then copy the ip to join the Minecraft server!

How can I play Minecraft Servers?

If you want to join an Minecraft server, you have to go onto a Minecraft Server List website like ours and find the server you want to play on. We have many servers available right here! We have vetted many servers and game modes. Once you have found the server, click "Copy IP" and then open Minecraft: Java Edition. Click on "Multiplayer" and then "Add Server" in Minecraft. Copy the IP address you copied into the IP Address field. For the port, enter "25565". From there, click on the server and it will start to load.
