
REAL RAP REVIEW

Pray | Prepare | Perfect

Pray

Gratitude - it makes what you have enough and attracts more goodness into your life. You are blessed to be alive. In order to achieve your dreams you need to believe in it; gratitude allows you to believe in your dreams and visions which eventually allow you to reach your full potential.

Prepare

Whether you want to get in better shape or start a business, know your top goals and start prioritizing bite-size improvements today by planning your day/week around them.

Perfect

Small wins build your confidence and build you up to have more success - look for more ways to celebrate accomplishments, check em off as completed, and do it again tomorrow, *that's perfect.*

The Hunger Game Society: Time To Step Up And Not Get Left Behind

“Quarantine is a blessing that you cannot leave your home. It forces us to make our homes safe and clean; your place of worship; and a place of study. We have much that we can do when we are forced, Allah will absolutely take us through. We will love each other better, stronger; [We will be] wiser and...united.” -

“ Levels Of Discipline, Get Creative”

Peace Family!!! Whats going on I pray all is well, I hope everybody's in good health. Disclaimer: I'm writing this hoping to inspire and give confidence to those who like myself can sense a see that the times we're living in are dark and getting darker by the minute. Like the saying goes "theres always light at the end of the tunnel" and I believe that, more importantly I know that. Now, I do have my opinions and thoughts about what's currently going on in the world but I feel like I can bring more value if I share my perspective on solutions and how we can benefit moving forward. Identify, Plan, Research, Create, Help... Five basic levels of discipline, and there's level to that but this has been my formula to creating the world in which I want to live in. The best thing you can do is invest in yourself, believe it or not you have value but thats a conversation for another time God willing. In the meantime get creative, figure out what your talents are, study and sharpen your skills, present it to the world and make an impact, wash and repeat. Think about your moves and plan ahead then find a way to unite with others who's like-minded and push it forward. All in all it's a good time to be alive its our time, stay on your grind, stay alert watch the weather and lets get it. Peace...
