

The Place To Find Minecraft Saved Recreation Files On Mac & Home Windows

When you or a cherished one are a Minecraft consumer, you may be enthusiastic about monitoring down game save recordsdata on a Mac or Home windows Laptop.

Saved recreation files might be relevant if you're trying to manually back them up, store them in a cloud service to be used on a number of units, sharing with others, amongst other functions. With the period of time many individuals make investments into Minecraft, the saved sport knowledge is fairly essential. Gaming So, let's dig into the place these information are located on Mac and Laptop.

Minecraft Save Recreation Information Location on Mac OS

On all versions of MacOS and Mac OS X, you will discover saved video games at the next location:

```
~/Library/Utility Assist/minecraft
```

You'll be able to paste that file path within the Finder's Go To Folder command (Command+Shift+G) or in Highlight (command+spacebar) to jump to that destination shortly.

This can also be accessed from Finder by pulling down the Go menu, holding down Choice, and selecting "Library", then navigating to 'Application Support' and to 'Minecraft'.

Minecraft Save Sport File Location on Windows Laptop

For a Home windows Laptop, you will discover the situation of Minecraft saved game information at the following location:

```
C:\Customers\USERNAME\AppData\Roaming\.minecraft
```

Replacing USERNAME along with your person account.

You may also navigate to that directory manually by opening Home windows Explorer to your consumer home directory, going to AppData, then to Roaming, and into .minecraft.

Whether or not on Mac or Pc you possibly can add or remove saved game information into these directories, and they'll be out there if you open Minecraft into single participant mode.

Glad minecrafting!
