ABOUT ME

I am a creative and detail-oriented developer with a passion for coming up with functional and immersive solutions to problems. With 3+ years of experience in finance and real estate, I've developed an analytical mindset. As well as having minored in Graphic Design, I am constantly working my creative side through logo and brand design. I am thrilled to be able to collaborate and innovate with tech to produce impactful results.

EXPERIENCE

Software Engineering Immersive

General Assembly | June 2020 - Oct 2020

- 800+ hours over full-stack training
- Designed UI using Figma and Adobe CC
- Developed and built custom applications
- **bidball.netlify.app** - Realtime sports betting app built using Python with Django, PostgreSQL, and Vue with Buefy. Features include live updates and customizable user profile.
- **consolechamp.netlify.app** - A fullstack video game rating app built using node js, express, mongo, and AWS
- **finance-tracker.surge.sh/** - Fullstack budgeting app. Backend built with Rails and PostgreSQL, Frontend made with Vue, D3, and Bootstrap

Funding Specialist

Lending Island | Jun 2019 - Jan 2020

- **Worked on deals of over \$400,000** and negotiated contract terms and payment options
- **Analyzed** financial records to assess credit worthiness

Real Estate Agent

EXR & Ascent Properties | May 2016 - Dec 2018

- Helped **boost company profits** by over 10% per month over a year long period
- **Marketed** and sold property for clients by hosting open houses and advertising
- Had a 100% client acceptance rate by **analyzing/approving finances** of clients

EDUCATIONAL HISTORY

Baruch College

BA Finance | Aug 2013 - Aug 2018

- Minor in Graphic Design
- Member of Phi Eta Sigma National Honor Society
