## MY EXPERIENCE ESSAYPRO

I decided to get writing help with my review of an article on Journalism. I gave instructions and set a deadline of 14 days. Then, I uploaded the article to be reviewed. You have the option of selecting the language that will be printed, like English in the UK or English in the United States.

Besides, they provide detailed information about writers. You can see their scores, the number of papers completed, student feedback and data on orders by subject group and the types of papers.

The paper's quality was outstanding. The writer was responsive to my queries and gave a thorough analysis. In addition, I didn't discover any errors or typos, and US English was good. Is EssayPro scam? No. You can hire a real professional to get academic help in this writing service.

## PRICING AND DEADLINES

EssayPro has really affordable and competitive prices, and most students are pleasantly surprised by the cost of their essays, according to EssayPro.com reviews. The prices start at:

Writing service \$11

Rewriting service for \$8

Editing service for \$5

Proofreading service \$3

As I've already mentioned, the company provides a bidding platform. But, you can still calculate the estimated cost of your paper on the homepage. Based on my experience, the cost of a paper can only increase by \$10.

My range of prices was \$21.66 - \$30. It was my understanding that the best way to get a high-quality paper is to purchase the most expensive price. However, this advice isn't the case in this instance. I went with the lowest cost and got professional assistance.

I was unable to locate any coupon codes or promo codes. They do offer discounts based on the amount of pages; for example, I ordered a 2-page paper and got 5% off.

Talking about deadlines, the shortest is 6 hours therefore it's not a business that needs immediate help. There is an agenda on their order form which can be used to select any day that falls within the deadline as well as the time of delivery.

### EssayPro.com

There are many EssayPro reviews online. We've looked over them all and made our own conclusions. To give you a better understanding of how the process works we also reached out to EssayPro directly. We are hoping that our review will prove useful and reliable. It is based on first-hand experiences using the service to purchase an essay. We contacted the service pretending to be students and placed two essays. We purchased a persuasive essay about 19th-century literature, and a research paper about sociology.

### Our Paper critique

This is our analysis of the article on the effects of the Covid-19 lockdown on people in different countries. We made sure to meet minimum requirements for all orders. The writer showed remarkable proactivity by asking clear and focused questions. The result was an outstanding piece of work.

The paper provides a substantial research base with accurate and pertinent references. Each point was supported by illustrations and compartments. These delivery methods created an overall sense that there was a unity and attention to detail.

As per our request the writer employed the college level vocabulary and made an obvious effort to avoid repetition and redundant words. Grammar, spelling, and punctuation were flawless, showcasing the writer's utmost professionalism.

The author also took some creative liberties and delved deep into the global trends that resulted of the Covid-19 epidemic. The final paper felt more personal and interested because of this.

The paper was then able to pass the plagiarism test and also met our originality expectations. This concerned both the originality of ideas as well as the choice of words and expression.

In the end, there isn't any negative feedback. However, there is just one thing worthy of mentioning. Without balancing out the negative elements, the author concentrated on the positive aspects of pandemic. This imbalance didn't influence our overall impression, however it could be one of the opportunities to improve.

Here are a few pros and cons we discovered while reading through the paper.
