ABOUT PowerPay

The **Fast Business Loan Network** at FastBusinessLoan.today is partnered with PowerPay Merchant Services to bring you the **best merchant account services** for your specific business needs.

Selling and maintaining merchant accounts can be a challenge. Are you working with a merchant service provider that delivers the **level of service you expect** for you and your merchants?

Are they willing to go the extra mile to help you grow your business and your income?

Along with **top-notch customer service**, PowerPay offers competitive partner programs with customized training to help you succeed.

Because we consider you our partner, we work hard to keep you and your **customers satisfied and on-board**. Our partners get *turnkey* merchant account solutions.

FAST BUSINESS LOAN NETWORK

POWERPAY.FASTBUSINESSLOAN.TODAY

Our no-hassle online application with digital signature allows for **faster approval, easy deployment and secure and reliable** payment processing.

To further streamline the approval process, our underwriting and risk management departments are in-house so we can handle accounts usually considered higher risk and that equals a **larger merchant customer** base for our sales...**FOR YOU!**

Our partners also benefit from the services of a highly trained dedicated relationship manager who **advocates on your behalf**, helping you navigate the many in-house offerings included in PowerPay's customer service and technical support network.

We want to be the **fastest, easiest and most profitable** processing relationship you ever established.

MERCHANT COMPARISON CHART

There are many benefits of accepting credit cards from your customers such an increase in ticket size, customer loyalty and an increase in sales due to the spending power credit cards offer the consumer. The decision to accept electronic payments is easy but the process of selecting a card payment processor is not. The fact is most card processors are service clones of one another. The industry is segmented and there are only a few leaders in each segment. The services reviewed below are all industry leaders and those necessary to know when choosing the best merchant account for your business.

Service Provider	PayPal	2CHECKOUT	PowerPay	moneybookers Skrill
Summary	Widely used, international "online money transfer" service that allows people to transfer funds without revealing financial details.	Reliable payment method for 1.6 million+ products & services worldwide handling all aspects of the online transactions it processes	Top-level provider of fully-featured merchant accounts and eCheck.Net for processing electronic checks directly from corporate accounts.	Skrill, formerly moneybookers, is a great alternative to conventional merchant accounts for businesses with international customers.
Pro's	Well known. Free to sign-up. Global reach.	Easy to use. Reliable and secure. Flexible payment methods.	No setup fees. Fast and secure. Very flexible. Customized solutions. Stellar customer service.	100% fraud & chargeback protection. No setup fees. Very secure.

Cons	Paypal Pro option carries heavy transaction fees. Mediocre Support. Hotbed for scams.	One-time setup fee (waived at link below)	Low monthly fee, well worth the product quality and level of service.	Slow support and service. Only European payments process quickly.
Best for..	Small Online Startups	Internet Merchants, E-commerce Sites	Brick & Mortar Businesses, Internet Merchants	High-Risk Merchants
Choose if..	You need a quick, basic payment solution and a traditional merchant account is not an option.	Your payment needs are primarily for e-commerce and you have products to sell online to be integrated into an online shopping cart.	You want the highest quality and service available in a traditional merchant account with a solution that will be customized to your specific business type, size and needs.	You process payments related to online gaming, foreign exchange trading and other alternative industries in Europe.

Service Provider	Authorize.Net	stripe	Square
Summary	A leading online payment gateway that connects with your merchant account to process virtually any type of electronic transaction.	Essentially a suite of feature-packed API's. Acts as general-purpose mobile credit card processor built for developers. API allows for many additional third-party add-ons.	Mobile credit card processor that focuses on point-of-sale "swipe" transactions and offers the free Square reader.

FAST BUSINESS LOAN NETWORK

POWERPAY.FASTBUSINESSLOAN.TODAY

Pro's	Extremely reliable and trusted. Works perfectly with any e-Commerce software. High level of fraud protection. Scalable for enterprise volume processing.	Feature packed API's. Powerful toolkits. No setup fees. Works across many mobile devices.	Works with iPhone, Android and iPad. Encrypts cc info at swipe. Next day deposits.
Cons	Carries the associated fees you would expect from a product of this quality. Setup fee \$99, Monthly Gateway fee \$20.00, Transaction fee .10	Not an actual merchant account. Built for Developers . Monthly fees become expensive >\$2000/mo.	High "swipe" and transaction fees. Not very versatile with limited features and options.
Best for..	Small, Mid, Large Companies Online Businesses, E-commerce Sites	Small Digital Projects, Mobile Professionals	Small Merchants, Mobile Professionals
Choose if..	You need a full-scale solution and want to be able to accept credit cards online, offline or <u>anywhere</u> . Offers virtual terminal, gateway, recurring billing, fraud prevention, full PCI compliance and bundled merchant account.	You are mobile or web-based and want to build your own custom payment platform.	You are a small merchant who sells products "on the go" or at multiple locations.
