INTRODUCTION

Welcome to Penny Inu V2

We are an Animal Charity Token with NFT Utility built on the BSC Network.

PROJECT MISSION

Penny Inu opened its doors to its first sponsored Animal Shelter in Asia in February 2022.

We believe Cryptocurrency has the both the ability to bring wealth to our investors and change the world for the better. We will use this platform to bring a change to the world and use our Charity Tokenomics to Launch our Animals Shelters Globally.

We have secured more partnerships and hope to expand further very rapidly and share our efforts with our community.

PROJECT FEATURES 01

ANIMAL SHELTERS

The Penny Inu Animal Shelter will open its doors to a wide range of animals facing welfare and trauma in their residing country. We will provide a wonderful, peaceful habitat to allow our friends the highest quality of life. They will be supported by professional veterinarians and support staff with medical treatment, food and play.

We are the first Crypto Project that has brought this greatness to animals. We Will continue to build on this and look go build sanctuaries all across the globe. Our Sanctuary will carry all our branding and will attract much media attention. The world will be watching!

OFFICIAL PARTNERSHIPS

Animal charity partnerships will be pivotal in our growth. We will be making strong partnerships with leading global charities and offering our support. This will put us in an excellent seat to both make a difference and allow extreme exposure to the project and our aims.

PROJECT FEATURES 02

NFTS

Initially all Nfts will be based on the Polygon Network via the Opensea Platform.

These will carry a specific rarity schedule of the following Bronze, Silver, Gold and Platinum(Ultra Rare). NFTs will be used to support the growing ecosystem of the token. Each Collection will be based on Animals in our Shelter. Collection 1 will consist of 2 of our favourite animals. A percentage of profits from the collection will go towards supporting and providing a high quality of life for the animal.

NFTS EXPLAINED

We will carefully select our beautiful supported animals across our Shelters. They will provide a unique aim in NFTS. They will give an insight to some of the animals we protect. Say Hi to Max on the right, one of the first animals we have rescued.

PROJECT FEATURES

CELEBRITY HYPE

We love our branding and trademark Pennydog - Beloved friend and pet of Ryan Reynolds/Deadpool. Ryan Reynolds is a keen charitable person who once rescued a dog from a shelter, so our project fits perfectly with his ideals! Our new marketing funding, new inbound community and Charitable works will increase our chances for recognition and will be aiming strongly for a reaction.

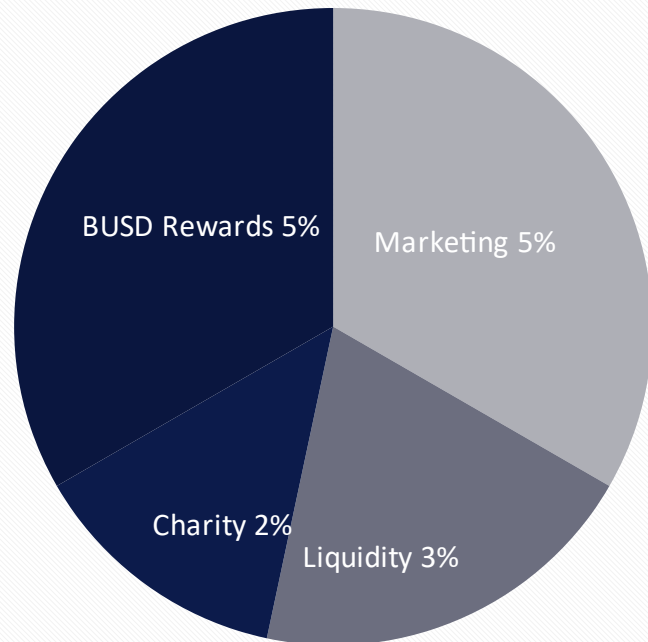

Penny Inu V1 has a strong, loyal community of 350 investors. This will provide a powerful drive in to V2 and support our aims and hype. V1 allowed the project to make a strong presence in Crypto Space and understand our direction better. We will enter V2 in a strong position.
