Executive Summary

RedTorch was requested to review all pertinent information related to the potential reporting of a criminal action against an individual by one or more parties responsible for ongoing activities which, in aggregate, result in a highly inappropriate level of intensity and persistence based on unpredictability which has resulted in undue stress and fear for the victim. In addition, these actions have involved severe intrusions into the victim's personal privacy and autonomy, with an immediate and long-lasting impact on the client's quality of life as well as risks to security and safety of the client and those close to him, even in the absence of direct or express threats of physical harm.

The client is a resident of the State of Colorado and as such all activities engaged in the past and current actions against that client fall within the Colorado Revised Statutes Title 18, 18-3-601 / 602, Stalking and 18-9-111(e) Harassment. This report is designed to provide the client with a coherent view of the actions taken against them which can be used for informational purposes by the appropriate Colorado law enforcement agency to understand and conduct an appropriate criminal investigation of the allegations.

Recommendations

Timeline

In dissecting the potential allegations, it is important to establish a timeline of the alleged activities to insure all fall within the Colorado Revised Statutes, 16-5-401, regarding the Statute of Limitations. In this case those allegations which rise to the level of Stalking, first offense is considered a Class 5 Felony, requiring reporting to an appropriate governmental agency within 3 years of the offense taking place, or if found to be a lesser charge of Harassment, first offense is considered to be a Class 3 Misdemeanor, requiring reporting to an appropriate governmental agency within 18 months of the offense taking place.

Given the time limitations for report filings and the probability that a Class 5 Felony has taken place would require the offense to have occurred between January 2017 and the current month, January 2020. If the offense is found to only meet the lesser charge the offense would have to be limited to any that occurred after August 2018 to the current month of January 2020. A timeline has been established which meets both statutes of limitations and is shown in the following diagram.

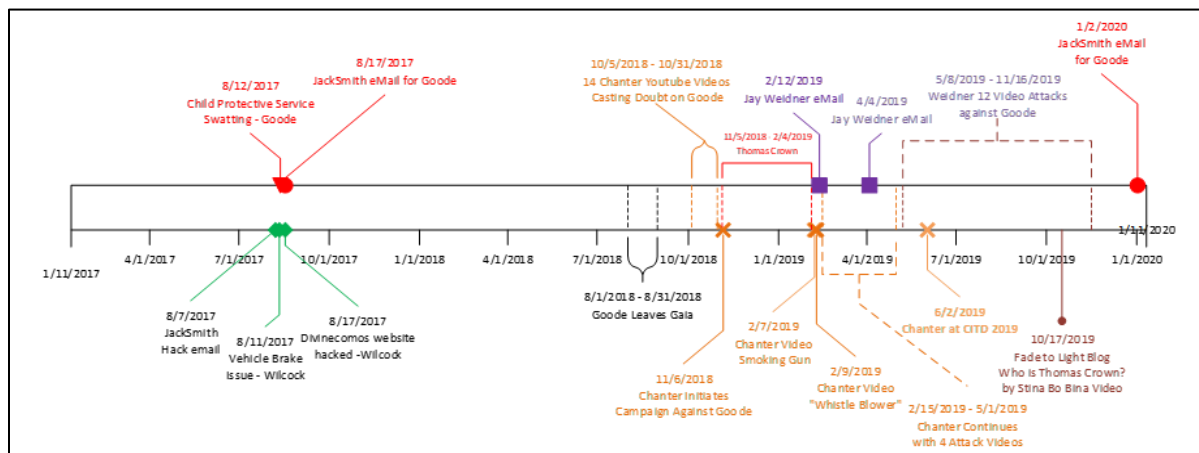

Figure 1 Timeline of activities 2017 to 2020

Each of the points within the timeline represent either a potential chargeable offense or items that lead to the initiation of a chargeable offense or provides underlying motives for the action.

Operational Campaign

In the review of the event stream there are a large number of disparate information “chunks” which cause the casual observer to lose sight of the overall attempt to remove Goode from a livelihood within the Ufology community and insure that the disparagement of his personal character is sufficient to drive him to financial ruin. The ability to provide a solid, provable criminal case requires the diligent review of thousands of social media events, videos, emails and obtaining the requisite evidence that supports the assertion of a criminal event. In that review process a pattern of behavior was observed and is commented on in the following sections

Information Manipulations

During the investigative process a document, “Taking Part in the PSYOP/Disinfo Operation Against Corey Goode?” was found which contained a series of statements showing a pattern of what might be termed “PsyOps” methods to support the removal of Goode by manipulation of information. The detail of that document may be seen in the following sections pertaining to the event dates. In those sections there is some validation as to the legitimacy of the document content and as such the initial statement of the document may have relevance to the overall pattern of activities and assist in showing that the individual statements and actions maybe a result of a controlled operation. The following is the opening statement of the document.

This is a Drone Account.

This group has many others on Avalon, Facebook and YouTube. This is one of many being used to manipulate people of a certain personality type to join in on an Intelligence Operation and make it their own battle. You have all been manipulated and tricked into this campaign against Corey Goode because of your previous history with him.

In dissecting entirety of the document for evidentiary content it is extremely important to understand that this statement and the information following it could be a deflection created to cast doubt on any existing or future negative comments or actions against Goode. However, when disassembled there are several points which support the overall contents of the document in its entirety as being factual in nature. At no point does this document provide a proof beyond a reasonable doubt but it appears to rise to the level of probable cause to enable the use of search warrants for additional information not publicly available.

When combining sections of the document with various pieces of electronic and visual data it ties the event stream into a lengthy campaign in which specific actions have been discovered that may rise to the level of probable cause for criminal investigation of individuals identified as having participated in this event stream. If the development of probable cause has been sufficient it will allow for the law enforcement engaged in this matter to find additional supporting material such as private messaging data, redacted or hidden videos, telephonic records, social media communications which have been redacted by the application providers via search warrant.

2017

August

It should be noted that both David Wilcock and Corey Goode were engaged together in the creation of Ufology series produced by a Colorado based company, Gaia Inc., located at 833 West South Boulder Road, Louisville, Colorado 80027, from approximately 2015 to 2018. The production items consisted of more than 230 episodes of material related to a number of different views of components of the general area of Ufology. During this period of time both parties were considered public individuals, having written, spoken or filmed a large variety of material. Both parties maintained public social media facing conversation applications on Twitter, Facebook and internet based websites owned and maintained individually.

During August 2017 both parties were subjected to what may be considered criminal acts by anonymous parties. While this report is to show specific activities taken against Corey Goode it is important to show the additional underlying activity that is tied to the principal issues. The following breaks down the specific actions that should be considered as criminal in nature.

DAVID WILCOCK / COREY GOODE AND "JACKSMITH"

August 7

On August 7 Wilcock received an email from a party representing themselves as, JackSmith. The following figure is a screen capture of Wilcock's email account where this party indicated that they (he or she) had conducted the hack of Wilcock's Youtube channel, David Wilcock 333, in which commentary sections had been broken and campaign of "down voting" against the site occurred.¹

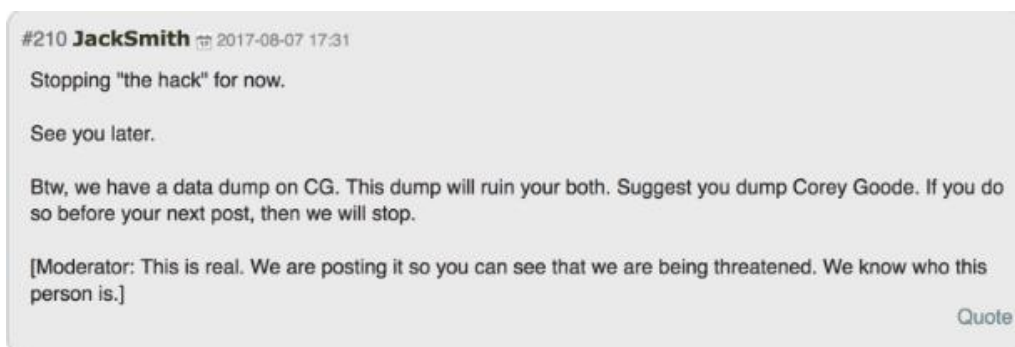

Figure 2 Screenshot of initial JackSmith email 8.7.17

The action taken during the attack of the Youtube channel may fall within the CRS Title 18 18-5.5-102. Cybercrime 1.(a) and 1 (e). In addition all of the communications shown indicate an underlying level of blackmail or extortive behavior. There is a second, lengthy article² posted on a now defunct website, is a compilation of information by "JackSmith" in which this party wished to become a "whistleblower" and provide both Wilcock and Goode with information obtained

through hacking. The following excerpts show the various statements of “JackSmith” and a request for an NDA to bind the deal between the parties; Wilcock, Goode and JackSmith.

Figure 3 Banner from NWO Regarding PSYOP/Disinfo Campaign

If you & Mr Wilcock can agree to the below terms, then I'll be able to show how this operation, is a direct "cabal attack" or however you want to spin this.

- All parties sign a NDA about this project
- We only communicate via secure e-mail providers & PGP

Background checks on me, will show I was the son of a so called "cabal" member. Public available information will be able to confirm this (Mainstream news articles, UN Security Council's reports discussing my father & the family business, just to name a few) .

I can be your whistleblower on the so called "cabal attack".

The reason why I require an NDA will be obvious when my real name is disclosed.

You might be skeptic about all of this, I understand that. I would.

However I am the real deal and could become a big revenue source for you. The only thing I wish for in return, is a bit of product placement(We'll negotiate a reasonable amount of course) at some point in the future.

Mr Goode (& Mr Wilcock), think about this offer and let me know of your decision.

P.S Mr Goode, enjoy & good luck with your conference!

All the Best & Kind Regards
JackSmith

Dear Mr. Goode
(Please forward this to Mr. Wilcock)
I am JackSmith and firstly, I would like to flat out apologies to you.
I am part of the so called "attack" team who hit Mr. Wilcock
comment section yesterday. If you read this e-mail in full, you'll be
able to once and for all put the campaign against you in the grave.
Mr. Wilcock's site was never hacked, however of course he know
of this already. I can go into details to validate this, if required.

Figure 5 Extracted Text Examples from NWO posting

It should be noted that the original posting was done using a Brazilian Portuguese commercial blog template and that the only exiting example of this document is found in the Internet archival website.³

Milo

It should be noted that the origin of this article appears to have been created by an individual using the name of “**Milo**”. The last entry on the article indicated it had been provided by “Milo via The Project Avalon Community Forum More at <http://ift.tt/2sAf0Rk>” The URL shown is a result of the use of, free web-based service to create chains of simple conditional statements, called applets. An applet is triggered by changes that occur within other web services Gmail, Facebook, Telegram, Instagram, or Pinterest. The result is a shortened URL. This particular shortened URL has not yet been found.

RedTorch did find that the individual named “**Milo**” had been a subscriber to “The Project Avalon” and had been removed by the founder Bill Ryan as follows:⁴

“Milo has been unsubscribed as an immediate consequence of posting, in lengthy detail, apparently hacked (or somehow leaked) e-mails. His several posts here were quickly deleted, to protect the privacy of a number of people, including some well-known figures in the community.”

In addition to the banishment the following statement was made regarding Milo.

“Some (but not all) of what Milo (aka 'JackSmith') posted here was also posted by Justin Deschamps at Stillness In The Storm, here.”

This information lead to RedTorch finding some information regarding Milo as a prior member of The Avalon Project. This individual had joined the group one month prior to the surfacing of “JackSmith”. His avatar and basic information are shown below.

Figure 6 Milo The Project Avalon

This account has been permanently closed on this website. As a result no subscriber detail is available for additional investigative leads.

Based upon the content of the posted article in NOW this may be one of multiple “sock puppet” accounts used by “JackSmith”. All presented email accounts observed are private, encrypted email services and therefore are not open to public viewing without use of warrants.

In addition to the material presented here a copy of the “JackSmith” NDA was obtained and it does contain several onerous provisions for the signing parties. This includes a € 900,000 (currently approximately USD \$1,002,415) payment should the agreement be breached. In addition the agreement was to be governed by the laws of Denmark. This is rather unusual and

³ <https://web.archive.org/web/20190308012900/http://novaordemnews.blogspot.com/2017/08/taking-part-in-psyopdisinfo-campaign.html>

⁴ <http://projectavalon.net/forum4/showthread.php?99350-By-Justin-Deschamps-Ufology-Researchers-Divided-but-Not-Conquered-Exposure-of-PSYOP-to-Create-Truther-Civil-War-But-it-s-Not-Working&highlight=JackSmith>

both of these items tend to point to the sender creating a fictitious agreement as a means to provide a cover story to conduct additional disinformation to further damage the client.

MICHAELMORRISON312

These are additional “sock puppet emails” that appear within the chain of information in this blog. It appears that these email addresses were used for communications with individuals that had negative online statements about Corey Goode. JackSmith disclosed in this posting that the michaelmorrison312@tutanota.com email was one that was used by JackSmith in communicating with Corey Goode and Linda Moulton Howe, a well-known investigative reporter.

There are two salient points found within these email conversations.

The first is in the email sent on Tuesday, August 8, 2017 to Corey Goode, the authorship of which is shown in figure 5, in which JackSmith exposes the purpose of attacks made against Goode.

I am a part of the team who created the strategy to start this "civil war" in the UFO community. This happened after you & Mr Wilcock released your "Antarctica" information. We deployed the strategy after Contact in the Dessert Conference. Our team tried, as an example, to persuade/influence Jordan Sather to remove & distance himself from you, Mr Goode, after the conference. Jordan Sather received an e-mail about this from a team member called Fracon, However Jordan Sather is clearly not dumb.

Sure, William James Vincent Ryan (BR) & Daniel Robillard (DJ) have been promoting their own information. However they are pawns in our overall strategy & plan.

In fact, Daniel Robillard has been promoting information we've manipulated with.
(However I would like to be clear. We never promoted, manipulated or influenced any information regarding the ridiculous "satanic" claims).

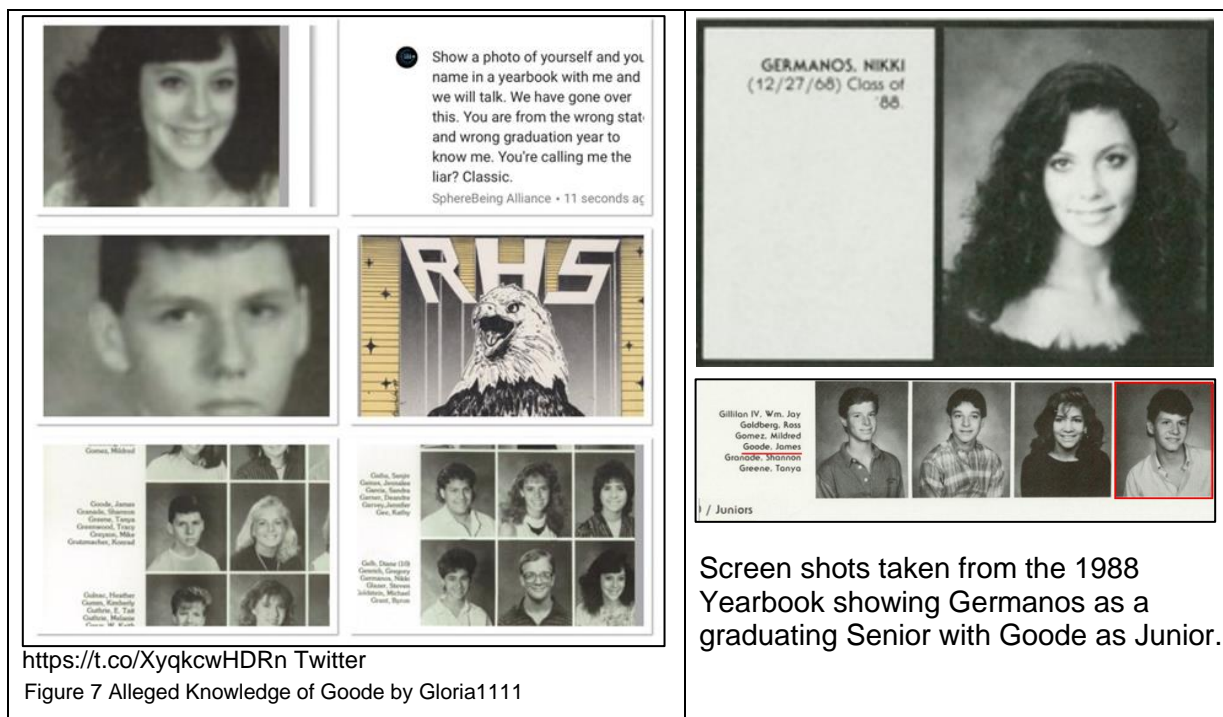

The date of this email is important as it shows an approximate, initial timeline for the creation of an organized group of individuals who have created a potential criminal enterprise, based on cyberstalking and criminal harassment, specifically designed to remove Goode and Wilcock from the UFO community. A motive is not expressed in the statement but further information found in various comments and one specific document points the motivation towards the former employer of Goode. These allegations are found in this document under the section regarding the Thomas Crown Document.

The second point is the exposure of a potential member of the disinformation strategy, twitter name Gloria111. The actual twitter account associated with this party is @MySuperTwoCents, and the Erik individual is likely to be @_refused (Erik Northman).

Gloria111(Twitter-username) is spreading information sent to her by one of our "drones". (This guy, doesn't even know and realise, he is being used).
His name is Erik by the way. Mr Goode, you will probably already know who this person is(Erik is very active on your Twitter)

The named account that ties to this assertion is found in Twitter and has one additional numeral than seen in the comment. The associated Username found was Gloria1111 (@MySuperTwoCents). A review of that account found that the probable owner was a female using the name of Nikki Germanos. This individual claimed to have known Goode during her

time at the Richardson High School in Richardson, Texas. Germanos claimed that she had known Goode while both had attended Richardson High School in the late 1980's. Germanos indicated that Goode was well known in the school as a liar and a cheat. Germanos provided a series of images as proof of her attendance at the high school along including showing her and Goode in the Richardson High School Yearbooks. The following is a screen capture of those items.

Based on the available public information it appears that Germanos was a year ahead of Goode and the images presented in her Twitter account do match those found in the 1987 Yearbook. However, it is generally accepted that in this time period Seniors and Juniors did not mix and any knowledge of Goode would be more than likely based upon local gossip rather than direct knowledge.

Additional information indicates that Germanos has been living in Australia since 2014 and has multiple Facebook accounts using a number of different names. Based on the review of the known Twitter account it is possible that this party has had lengthy encounters and interest in high profile criminal cases and political issues.

One very interesting point with this individual is that they appear to fit the mold of a certain personality type (e.g. high interest in unusual events/occult and conspiracy matters) and that has previous history with him (e.g. Goode). These specifics are noted in the beginning statement of the Blog document previously discussed. It is clear that this party has a great animus for Goode more than likely based upon some prior falling out.

A review of approximately 3,200 Tweets/Retweets from the Gloria1111 (@MySuperTwoCents) Twitter account has provided significant information that supports the assertion that the author, JackSmith, made regarding the account did have a relationship with “Erik” and that from early March, 2017 to early June, 2017 Gloria1111 appears to have crafted messaging that appears to be subtle in content and that this messaging is observable by “Erik” as he is shown as a follower of Gloria1111.

When read in sequence from June 10 to July 30, 2017 it becomes evident that the tone and direction of the messaging becomes more strident and directed at “Erik”, including retweets of “Erik’s” responses.

The following table provides some of the detail initially observed being Tweeted by Gloria1111.

Table 3 Twitter Comments that are directly pointed at Goode

In addition to the connection to Erik Northman, Germanos has a direct Twitter relationship with C.W. Chanter (Zavodnick) that may tie him to the overall claimed scheme. Chanter (Zavodnick) did not start his Twitter account under the name @C_Chanter until February 2017. This relationship was observed during an advanced relationship analysis was conducted and is shown in the following figure.

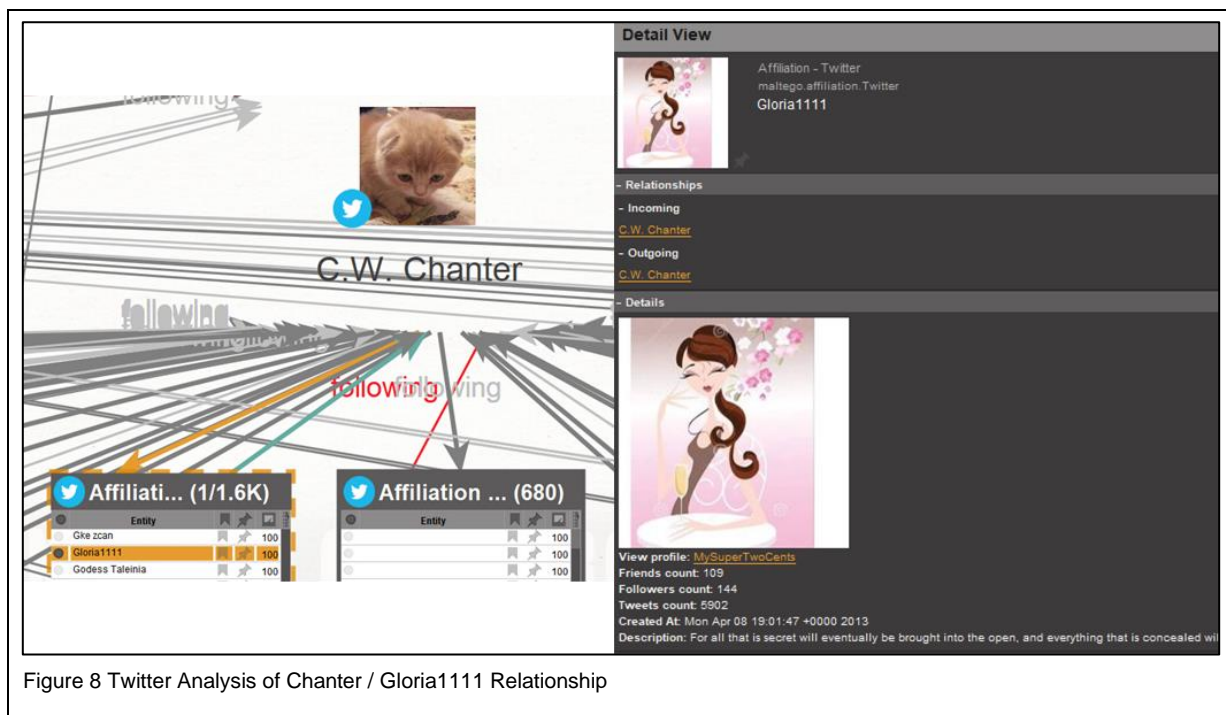

Figure 8 Twitter Analysis of Chanter / Gloria1111 Relationship

FRACON

The fracon@tuta.io email was used by the party using the name of “Milo”. It is highly likely that JackSmith and Milo are one in the same. The individual receiving information via this email address was Daniel Liszt aka Dark Journalist. The information provided included data, which was detrimental to Corey Goode and included information, available publicly via Collin County Texas Court Systems, of several civil cases from 2012 and the Children Doxxing information. It should be noted that this was a sample of information that was tied to a larger, alleged effort to undermine both Corey Goode and David Wilcock within the UFO community.

The follow figures are screen captures of an email sent to Jordan Sather on May 27, 2017. The content is specific to the preamble found in the email sent to Goode on August 8, 2017. The date sent is 6 days after the close of the Contact in the Desert on May 21, 2017. This matches the statement made in the email to Goode in August.

COREY GOODE'S CHILD PROTECTIVE SERVICES SWATTING

August 12

Based upon detailed, written information⁵ in which Corey described a 6 AM call on August 12, 2017 in which a party who identified herself as being with Child Protective Services in Collin County, Texas. "She then began to tell me that they were responding to a complaint that I was a cult leader. They were told that my children were in imminent danger while in my care. This was a serious issue and it required extensive information to disprove the allegations."

This specific type of activity was found with the NWO blog⁶, shown above. The following are extracts from that document showing that a person, using the name Lars Odggard, created an inquiry on a well-known Anti-Cult website, <https://familiesagainstcultteachings.org>. This occurred on May 31, 2017. The following are excerpts taken from the NWO article.

Dear Lads,

I am very sorry you have gone through this. Thankfully, you are free now and able to pursue a happy and fulfilled life.

Thank you for bringing this group to our attention. We will certainly investigate to see what else we can find out.

We feel the best way to impact groups like this is to write an expose so that we can warn others about the group. To do this we need more then one complaint. Are there any other previous members you know of that would be willing to come forward?

Best regards,

Figure 10 Extracted eMail text naming Goode as a "Cult Leader"

The information contained within this data has a high probability of initiating an investigation into Goode. The resulting call from Child Protective Services in Collin County, Texas is highly to be a direct result of the statements made to anti-cult organization. This is based on the fact that Goode is a former resident of Richardson Texas, a city within Collin County, the outline of information appearing in the above text extraction matches the profile used by the organization to collect information , shown the figure below, and that he maintains a mobile phone with a Collin County area code.

The identity used, Lars Ogaard, is of Danish origin and when using the Google.DK site shows approximately 180K results. The naming convention used does loosely tie it with the NDA structure naming Danish law and use of European currency as a breach method of payment.

While reviewing the specific information regarding this incident it an anonymous cyber based attack against Goode the specific laws governing the adjudication of this action are not clearly defined. In addition this action took place outside of the State of Colorado and therefore would not be included in a criminal filing. However, it is a continuation of efforts to cause harm to the client and could be seen as part of the overall credible threat scenario needed to file criminal charges within the State of Colorado.

Prior Knowledge of the Event

While reviewing the Twitter account of Gloria1111 (@MySuperTwoCents), a very vocal anti-Goode poster, RedTorch found a tweet string which contained information directly tied to this event. The following figure is a screen capture of the string indicating prior knowledge of this event. The term “blue chickens” is a derogatory term used to describe Goode’s group using @blueavians. This tweet was posted on June 27, 2017, approximately 6 weeks prior to the actual call.

January to September

During this time both Corey Goode and David Wilcock continued to interact with each other during the production of “Cosmic Disclosure” episodes at Gaia TV. The Gaia episodes continued until July 2018 when Wilcock resigned from Gaia TV. In addition Goode assisted in the production of a film, “Above Majestic”, released on October 30, 2018.

During this period of time there appeared to rift growing between Goode/Wilcock and Gaia Producer Jay Weidner. This underlying issue was not made public until the production of an online Youtube channel, REALiTY CHecK, when Weidner made a number of assertions concerning Goode including the introduction of a new “insider” Jason Rice.⁷ This series did not appear in the public view until May 2019. This was initiated by Weidner in December 2017 but Rice was not fully installed until after Goode left the Cosmic Disclosure episodes as the primary “interviewee” in August/September 2018.

October

This month was the unveiling of Benjamin Zavodnick aka C.W. Chanter (Zavodnick)’s Youtube video fest regarding Goode. Zavodnick has two public Youtube channels that are known to exist. They are:

- iamtheonewhoworkshere now
<https://www.youtube.com/channel/UC8Qj1n3VL5Egiz9jwnRN7TA>
- C.W. Chanter (Zavodnick)
<https://www.youtube.com/channel/UczEDwsA6ooejNKnEfi0Vqrg>

The channel “iamtheonewhoworkshere” was initiated in May 2017 and currently has less than 10,000 views of the videos and 503 subscribers. The channel C.W. Chanter (Zavodnick) was initiated in August 2015 and has had 905,233 views and 4,850 subscribers.

The total number of videos produced and publicly promoted is approximately 654 under the C.W. Chanter (Zavodnick) channel and 30 under the iamtheonewhoworkshere now channel.

The following are the videos Zavodnick promoted from October 5 to October 31, 2018 on his C.W. Chanter (Zavodnick) channel. It should be noted that each channel video has a commentary section and that it is controlled as to open for comments or not by the channel owner. In the case of the “iamtheonewhoworkshere” the commentary section is open while the C.W. Chanter (Zavodnick) channel the commentary section was closed after the initial videos from 2015.

Table 4 C.W. Chanter (Zavodnick) October Youtube Videos

Figure 13 - Above Majestic

The purpose of this table is to demonstrate the growth of C.W. Chanter (Zavodnick)'s level of disenchantment with Corey Goode and in general is making statements which, while not at a credible threat level, are directed in creating a negative impression of Goode. What is unusual is that these 14 videos appear to be clustered in the month of October, just prior to a significant event which turned the disenchantment of Goode into what appears to be a more directed, antagonistic and potentially damaging set of accusations.

The event was the release of the documentary, "Above Majestic" on October 30, 2018. This documentary was the first feature length video in which Wilcock and Goode created and released to the general public after an initial showing at "Disclosure Fest 2018" on June 24, 2018. This documentary was popular and headed towards positive

revenue streams just before the events of early November 2018. It appears to be beyond coincidence that a popular film release, produced by Goode and associates including Jordan Sather, would be overshadowed by the release of Doxxing material and that the response Chanter (Zavodnick) and others was highly antagonistic and initiated via social media, Twitter, within hours of the event. The distraction created by the November Doxxing event in all probability was set in motion by individuals that had motive to eliminate revenue and denigrate the personnel involved in the production of the film.

THOMAS CROWN AND ORGANAALDERAAN DOXXING TWEETS

On November 6, 2018 a Tweet sent from @ThomasC1063015 containing personal information on well-known members of the Ufology community to a number of individuals. One of the parties whose private information was released used the alias of JoefromCarolina for their social media accounts. In addition C.W. Chanter (Zavodnick) alleges to have had his private information released as well by a second Twitter accountholder, @OrganaAlderaan at the same time.

The original ThomasC10630153 Tweet has been deleted from Twitter and at this time no screen shots of the original Tweet have been found. However, a re-Tweet has been found that shows a portion of the original Tweet. The following figure shows the re-Tweet and the original account page. Twitter has removed the @ThomasC10630153 account along with all related postings.

Figure 14 Thomas Crown Twitter Account ThomasC10630153

Chanter (Zavodnick) indicates that he and his father were Doxxed by a second party using the name, OrganaAlderaan on or about November 7, 2018. The only information available as to the validity of this statement is seen in the following figure.

Figure 15 Chanter Twitter Page alleging a Dox against him and his father.

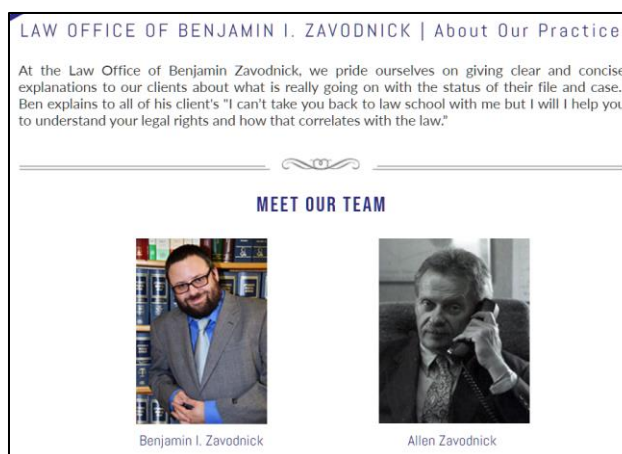

Figure 16 Business Website showing Chanter and his Father

No information was available on Chanter's (Zavodnick) account or through Twitter showing the actual Doxxing or other comments made by OrganaAlderaan. It should be noted that the

account in question has been removed from Twitter but it was in existence as the screen shot below shows an interaction on Twitter in October 2018.

In addition Chanter (Zavodnick) indicated in a Tweet, November 7, 2018, that he had actually put his true name on the internet before the alleged Doxxing occurred. This may be seen in figure 18 below.

Figure 17 Example of Twitter Account of @OrganaAlderann

The ThomasC tweet appears to be an inflection point, inciting an internecine war between the various factions of the Ufology community. This specific action, including the re-Tweet of the original, appears to have been conducted as an organized method; creating a very hostile effort to threaten the wellbeing and livelihood of selected individual targets under the cloak of the 1st Amendment Rights of Free Speech.

The immediacy of responses to this incident supports the view that there were individuals who appeared to have been prepared to act against one or more of the parties who reposted the original ThomasC Tweet. The following is a timeline of the incident and the responses involved.

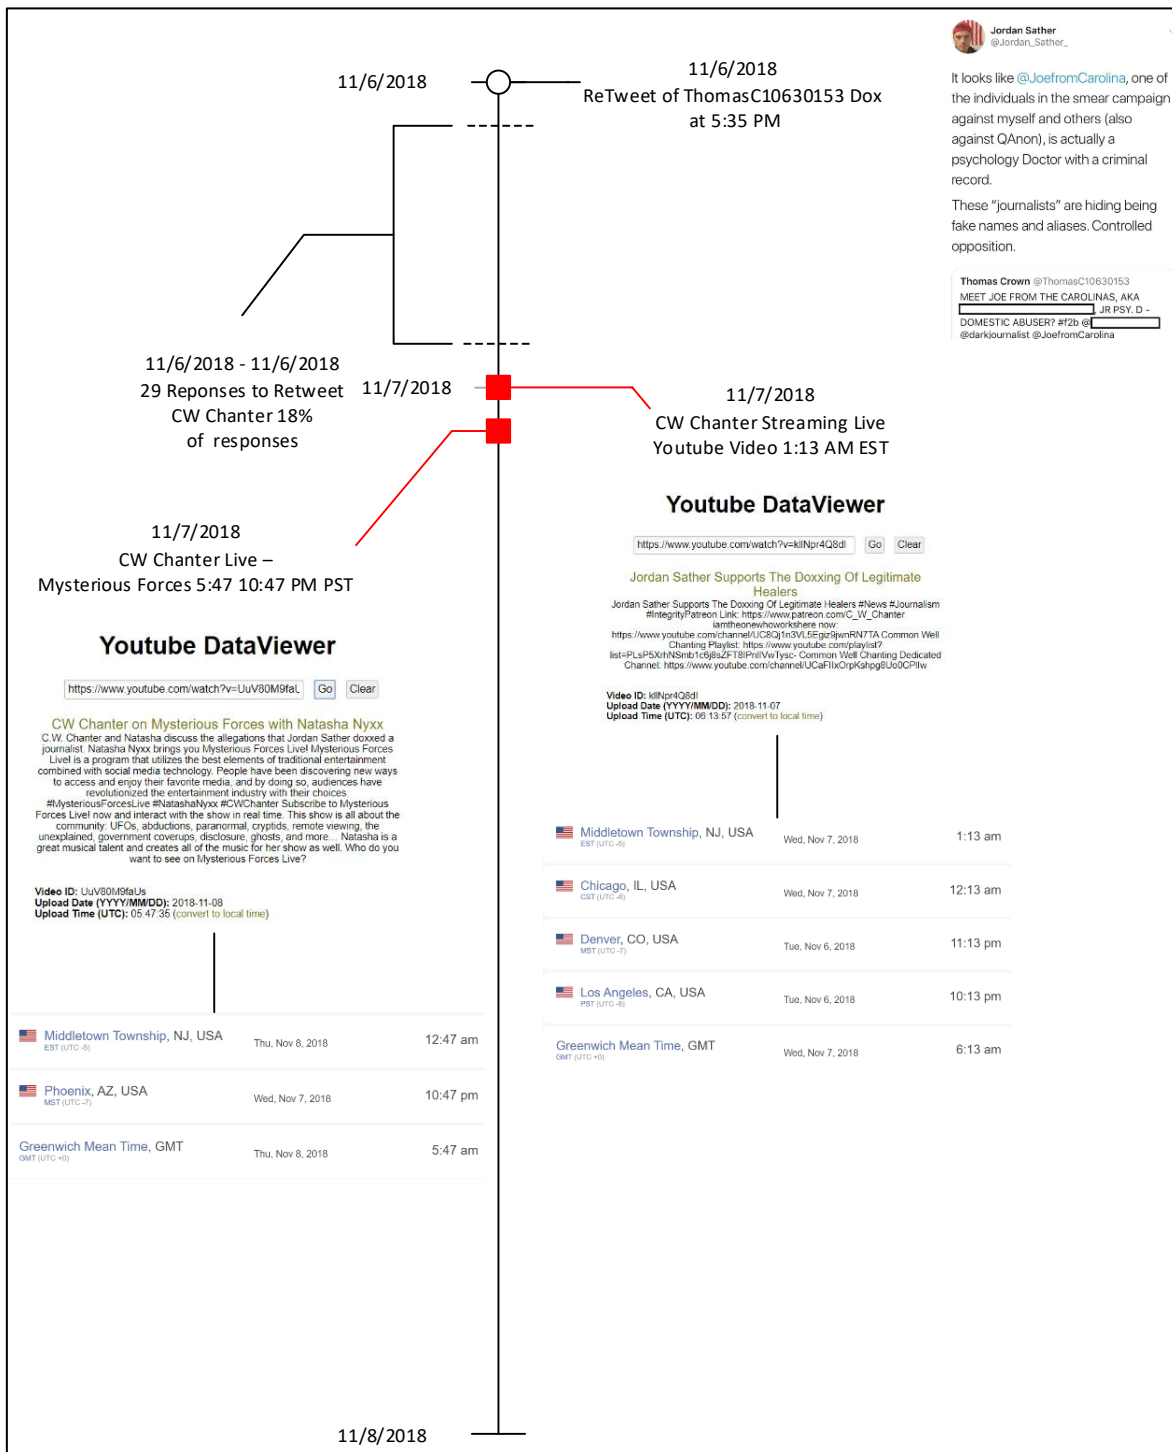

Figure 18 Timeline of Responses to ThomasC Retweet

The primary influencer to the retweeted material appears to be C.W. Chanter (Zavodnick) whose first response to the retweet occurred within 66 minutes of the post. The following are Chanter's (Zavodnick) initial posts:

Figure 19 C.W. Chanter (Zavodnick) Twitter Chain November 6 2018

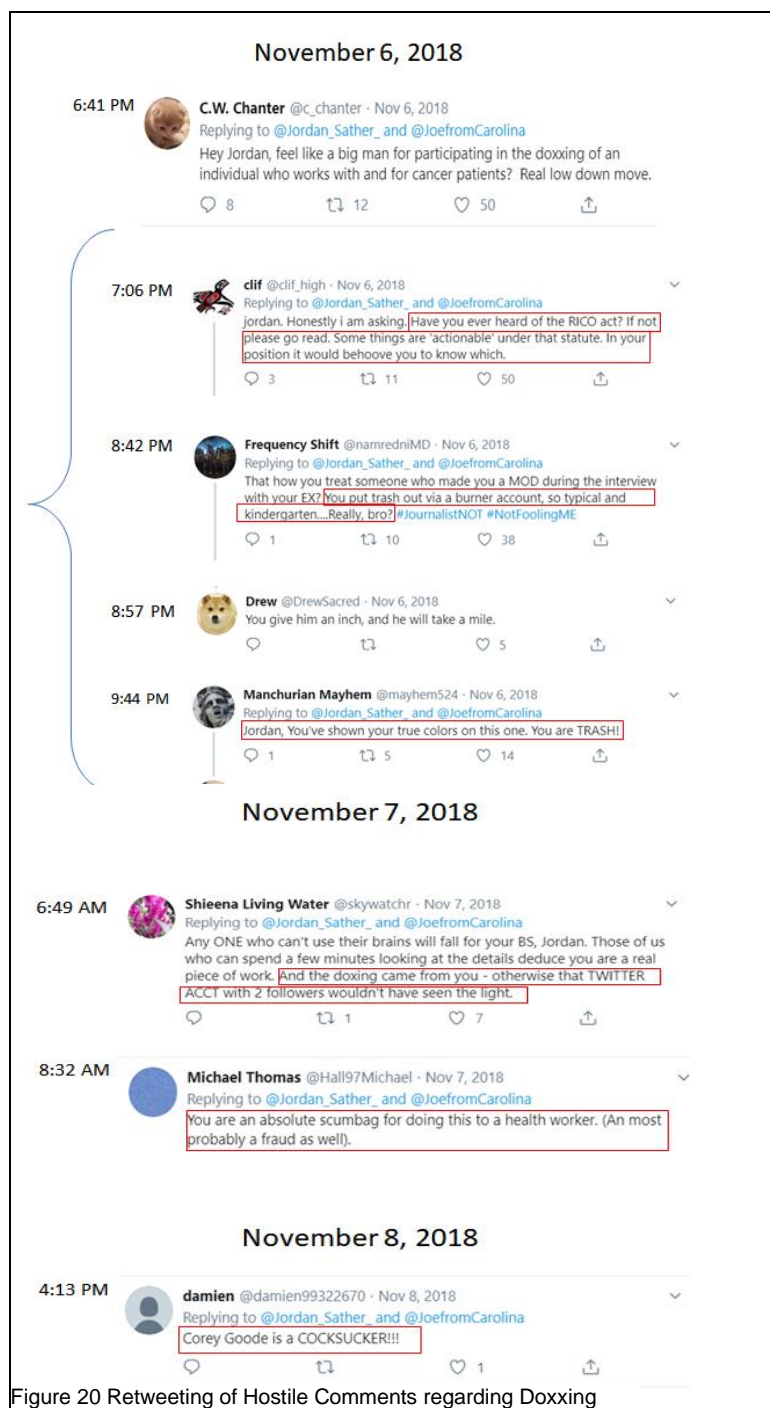

When this Tweeter chain is expanded it is evident that Chanter (Zavodnick) (Zavodnick) has stoked the retweets of his closest followers. The following figure shows the level of animus that is being retweeted. Keeping in mind that each of these individuals have followers who would tend, as they are following the prior party, to continue the retweet of the first retweeted comment.

Of interest in this action is the the number of times Chanter (Zavodnick) retweeted the original tweet. As the original ThomasC10630153 Tweet had been removed from this Twitter Thread it is not possible to see what, if any, dialog Chanter (Zavodnick) was having with anyother party other than responded to Jordan and the aggrevated party, JoefromCarolina.

However, the retweet symbol on several of Chanter (Zavodnick)'s comments indicate that he had sent to his following the comment / tweet he was responding to. Chanter (Zavodnick) maintains approximately 2,000 plus followers on his Twitter Account.

The importance of this distribution is seen in the following table in which the original comment retweet by Chanter (Zavodnick) is distributed to his followers, who in turn respond to the thread with hostile statements and offering no proof of the stated assertions. This appears to be the first of many actions that shape the overall threat to Goode.

If a count were conducted of the possible proliferation of negative information it could have no end. In a simple review of the Chanter (Zavodnick) account the first 20 followers were selected. The total number of their followers was 39,134 individual twitter accounts.

To simplify the next level of followers the largest follower account with 17,200 followers was selected from the first 20. The same process was used in finding the total number of their followers, resulting in 61,692 individual twitter accounts being found.

This surface examination of potential retweets shows a significant broadcast

2,212 Followers – Chanter (Zavodnick)
17,200 Followers – One Chanter (Zavodnick) Follower
61,692 Followers of One Chanter (Zavodnick) Follower.
81,104 Potential Individuals reached.

The normal response to this level of activity would be that it was a First Amendment right to make hostile and vulgar statements against a person or persons. However, when the timing of this action is considered it appears to have been an orchestrated effort to generate negative activity against both Sather and Goode.

When the immediate response of Chanter (Zavodnick) on Twitter is coupled with the live streaming

videos, all within directly attributing the Doxx event to Sather and by default Goode shows a pattern of behavior that produced dozens of Tweets and hours of live video all containing malicious statements directed towards Goode with no factual representation. This pattern has been consistently growing since Mid-2017 and should be considered as one of the major elements in proving a case of cyberstalking.

November 28

On or about November 28, 2018 a blog entitled “FadetoLight” was posted on line, using the facilities of Wordpress.com. The blog was claimed to be authored by an individual using the name, ThomasCrown007. The site has been removed from Wordpress as of February 17, 2019. The Internet Archive Wayback Machine site contains captures of the blog site based on its global scanning. The following figures show the day, month and year of capture.

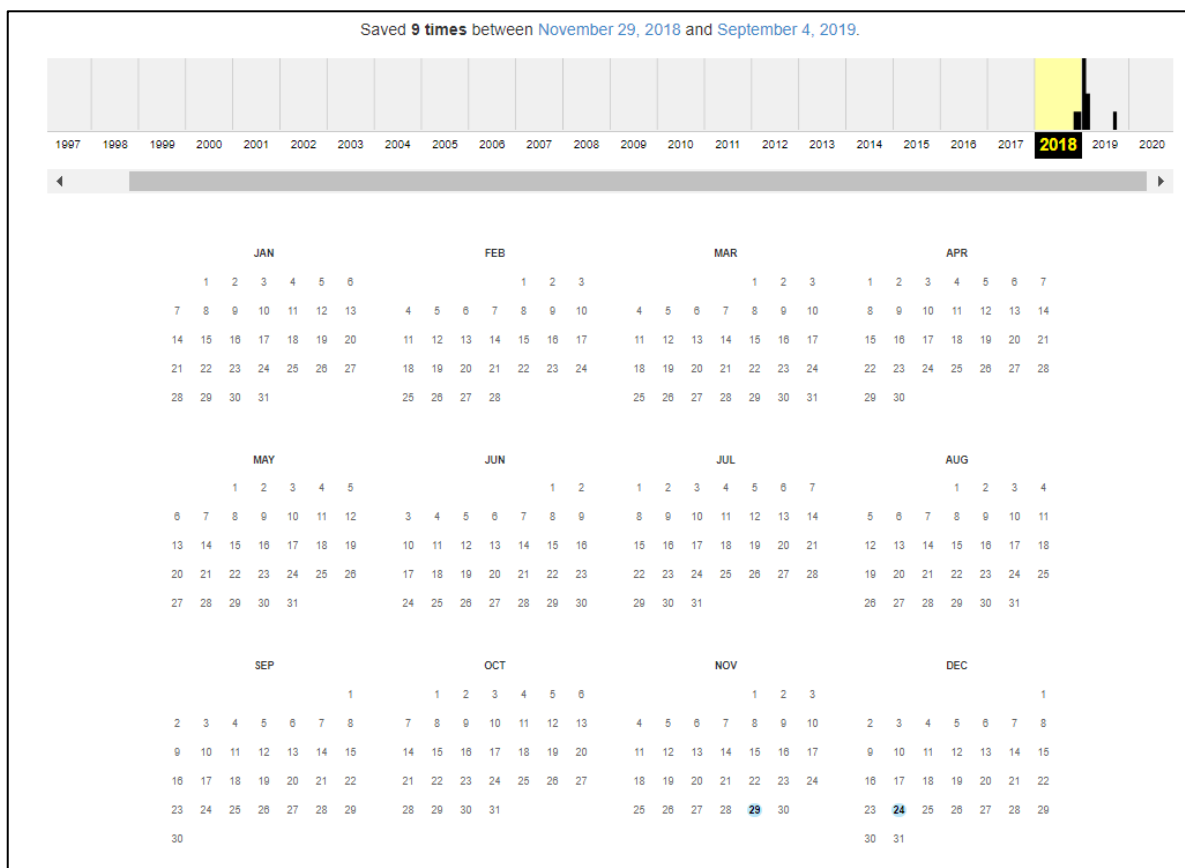

Figure 21 Wayback Archival of FadetoLight Blog 2018

The first site capture occurred on November 29, 2018. It should be noted that the site could have been set up at any time prior to this first scan. The last scan of the site occurred on September 4, 2019. There are no specific site statistics relative to the number of views but one page capture from the Wayback Archive, February 4, 2019, showed a total of 17 comments had been posted to the site.

The overall purpose of the blog appears to be had been the “investigative reporting” of issues related to Corey Goode, David Wilcock and those who had been vocal in calling them out for various issues. This blog, appearing approximately 23 days after the Doxxing issue, appears to have had no direct interest and it is unusual that something that is presented in opposition of the Twitter campaign involving the use of a Twitter account name of ThomasC10630153 had no large scale responses to its contents. In fact the total of blog comments, as found through the

Wayback Archive, only shows one specific comment that was negative and followed the Tweet campaign during the time period. The follow screen capture shows the comment and response.

Sather, you're only fooling the sheep. This is the same handle you used to dox Joe. This article is full of your usual propaganda to make your employers (Goode & Wilcock) look good and their competitors look bad. It's pathetic. Get off the kratom kid, it's not doing your judgement any favors.

Figure 22 Comment and Response from Posting on FadetoLight Blog February 2019

A direct result of this comment and response was the creation of a Youtube video, <https://www.youtube.com/channel/UCjKzHpoojBQIz-gEPEcWbgA>, commenting that the author of the blog was not Jordan Sather, Corey Goode or David Wilcock among other individuals that had been suspected in the Doxx of November 6, 2018.

The original youtube video was removed sometime after its original posting date of December 11, 2018 and reloaded on October 17, 2019 which coincides with the posting of a vitriolic video created by Stina Bo Bina aka Christina M Rios entitled, "Fade to Light Blog, Who is Thomas Crown?" (<https://www.youtube.com/watch?v=qri5BauRrm8>). The following screen captures show the current state of all the Youtube videos.

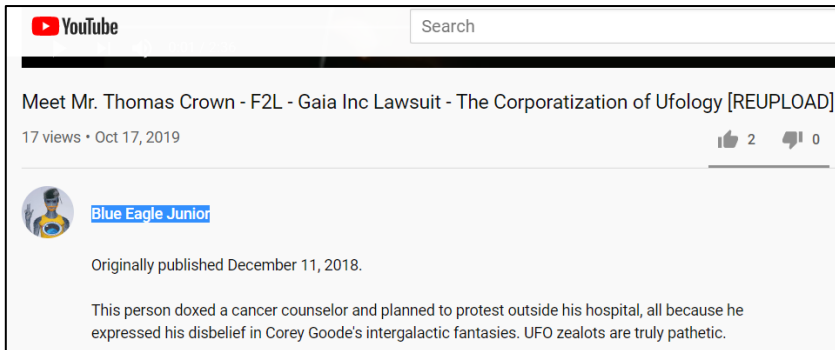

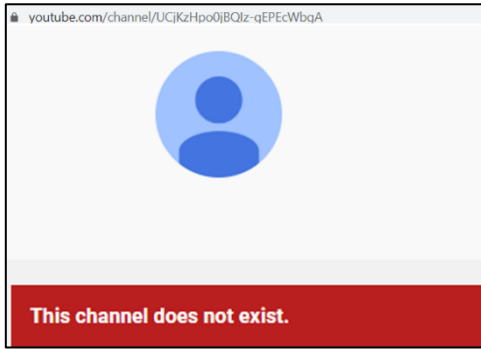

Figure 23 Fade to Light Blog Youtube Videos

The evidentiary value of this information is found in the lack of interest within a reasonable time period, close to the significant amount of social media traffic involved with the November 6 to 9, 2018 time frame around the Doxx issue. It would appear that the resurfacing of the information by a party that was not involved in the original dispute is based upon a number of actions leading to its republication and introduction of negative information against Goode. The actions leading to this specific publication are shown as per the established timeline in this report.

2019

February

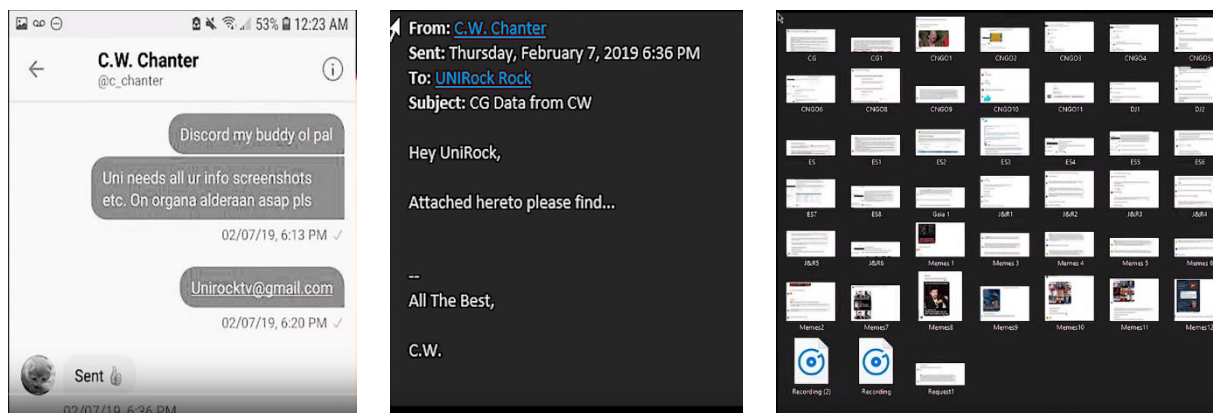

At the beginning of February there were several events which further support the investigation with regard to a potential continuation of a criminal action taken against the client over a period of 24 months. There are intervals within that time period where no significant or “loud” activities are observed, which tends to indicate a potential formulation of activities designed to produce negative and defaming attacks against the client. While it is possible that there are no controlling interests in these attack swells it is not without probability that there is an organized group of individuals that are crafting in the intermittent periods larger and more destructive campaigns against the client.

Even throughout the timeline there are continuing levels of negative chatter on social media but they lack the explosive nature of the Tweeting and Live Video actions taken by C.W. Chanter (Zavodnick), Cliff High, Nikki Germanos and others during the one week period of November 6, 2018.

FEBRUARY 7

On February 7, 2019 Chanter (Zavodnick) produced a streaming video, [youtube.com/watch?v=b6V0eBRE0qY](https://www.youtube.com/watch?v=b6V0eBRE0qY), which was removed, sometime after posting, for violating Youtube’s terms of service and removed. The video was copied and placed in the confines of The Project Avalon website, [The_Smoking_Gun_Proof_On_The_Doxxing_Blue_Avians_\(CW_Chanter\).mp4](#). The nature of this video was an expose of Goode as the driving force behind the Doxxing and general besmirchment of any individual that was not supporting Goode. The video was comprised of the showing a series of screen captures of Facebook postings provided to Chanter (Zavodnick) by a “Whistleblower” inside the Goode operation.

The video presentation contained 43 screen captures of Facebook postings. These postings were understood to be part of an internal team using the Facebook Private Group setting with the name of “Business Only Team Above Majestic”. Immediately after the video posting it appears that an interested party known as UNIRock, a well-known Live Stream and Produced Video personality, requested that Chanter (Zavodnick) provide him with copies of the screen captures shown in the video.

On February 9, 2019 at approximately 1:23 AM Chanter (Zavodnick) produced a live stream video, <https://www.youtube.com/watch?v=lmeR7bVqow8>, entitled “The SBA/Above Majestic Whistle-blower Comes Forth”. In this video Chanter (Zavodnick) introduces a “whistler-blower” who had an affiliation with the “Business Only Team Above Majestic” who have allegedly created a PsyOps group to support Goode.

The individual brought out was a person, Kelly Farmer, who had a knowledge of the internal workings of the “Business Only Team Above Majestic” based on her relationship with the leader, Joy Jackson. Upon review of the actual interview the following salient points were extracted as to the manner in which Farmer was introduced into the organization and what she had observed during the time of her interaction.

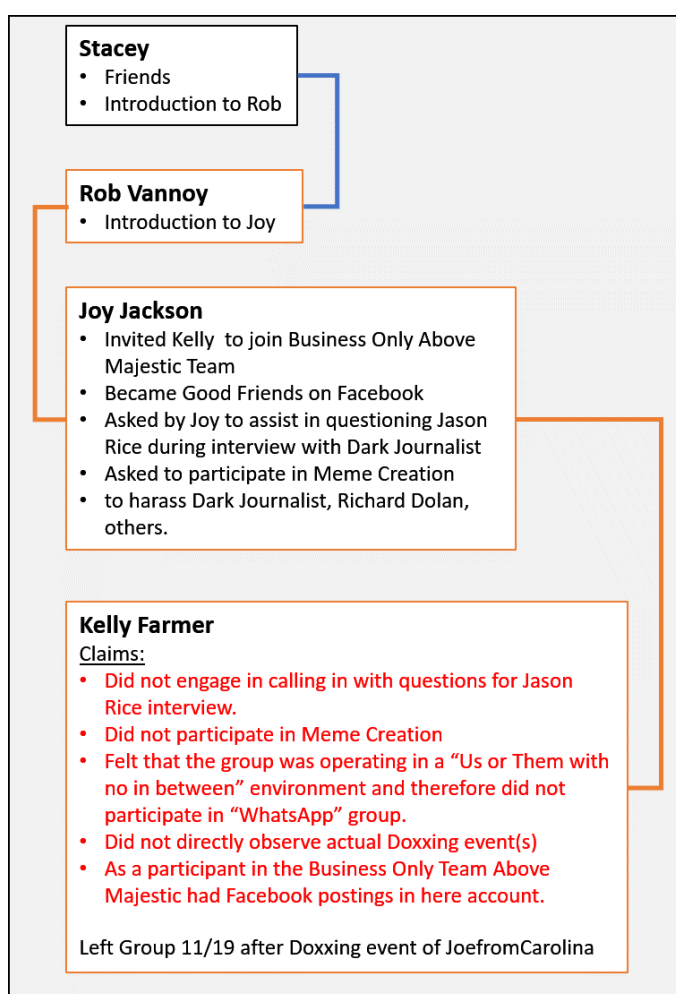

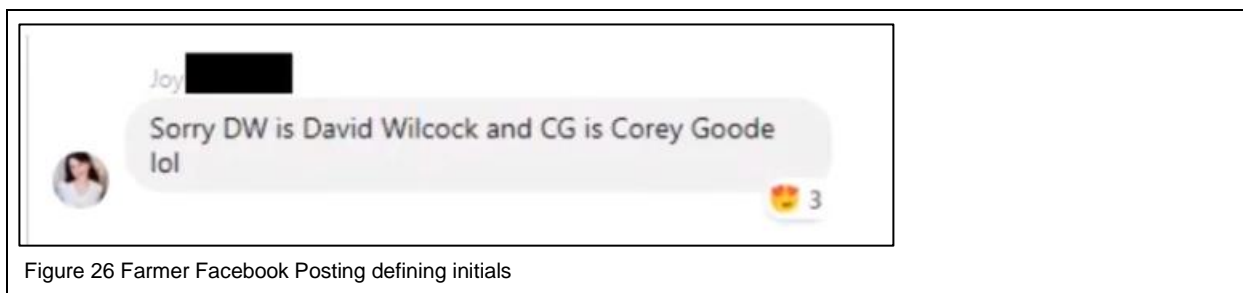

Figure 25 Kelly Farmer's Introduction to Business Only Team Above Majestic

The interview conducted by Chanter (Zavodnick) included Farmer providing screen captures from her Facebook postings alleged to have been part of the private Business Only Team Above Majestic. Farmer produced five screen captures of posts from her account.

Of the posts shown by Farmer none were observed in the February 7, 2019 video produced by Chanter (Zavodnick). This is incongruous with the overall position that Chanter (Zavodnick) and Farmer are attempting to substantiate regarding the Psychological Operations (PSYOPS) that Goode is attempting to conduct via a private group of trusted individuals.

The following figures are of the screen captures provided by Farmer.

The first posting shown by Farmer was one that indicated the initials used by the group.

This is the second post produced during the February 9, 2019 interview. There is an issue as to the authenticity of post based upon different group names. The post shows the Private Group name of "Team Above Majestic" which is diametrically opposed to the Farmer's statement that she was part of the "Business Only Team Above Majestic." In the proceeding February 7, 2019 redacted video the following was observed with regard to Farmer, known at that time as the Whistle-Blower, had provided to Chanter (Zavodnick)

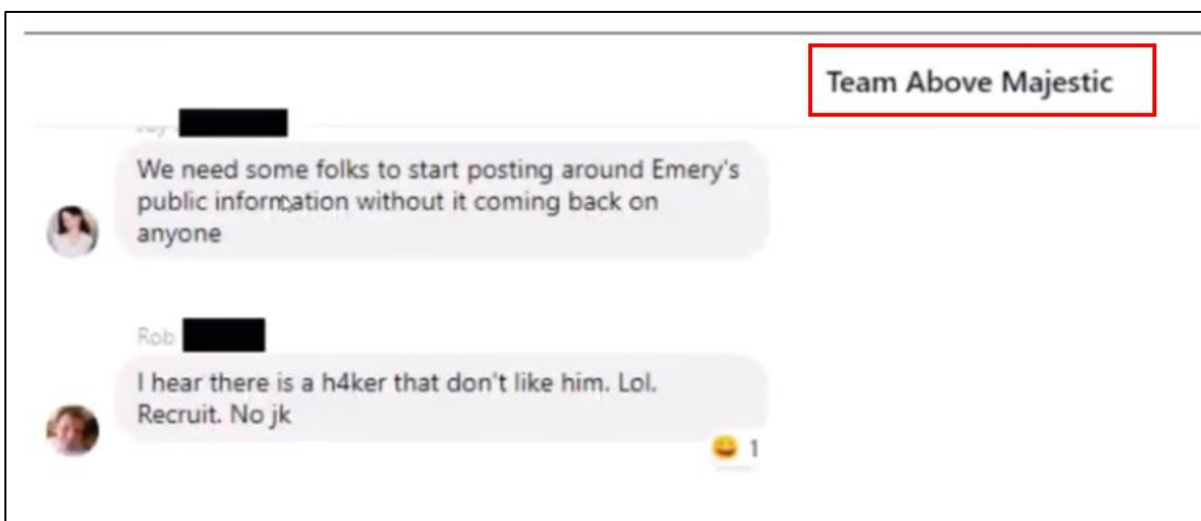

Figure 27 Farmer Facebook Posting for "Team Above Majestic"

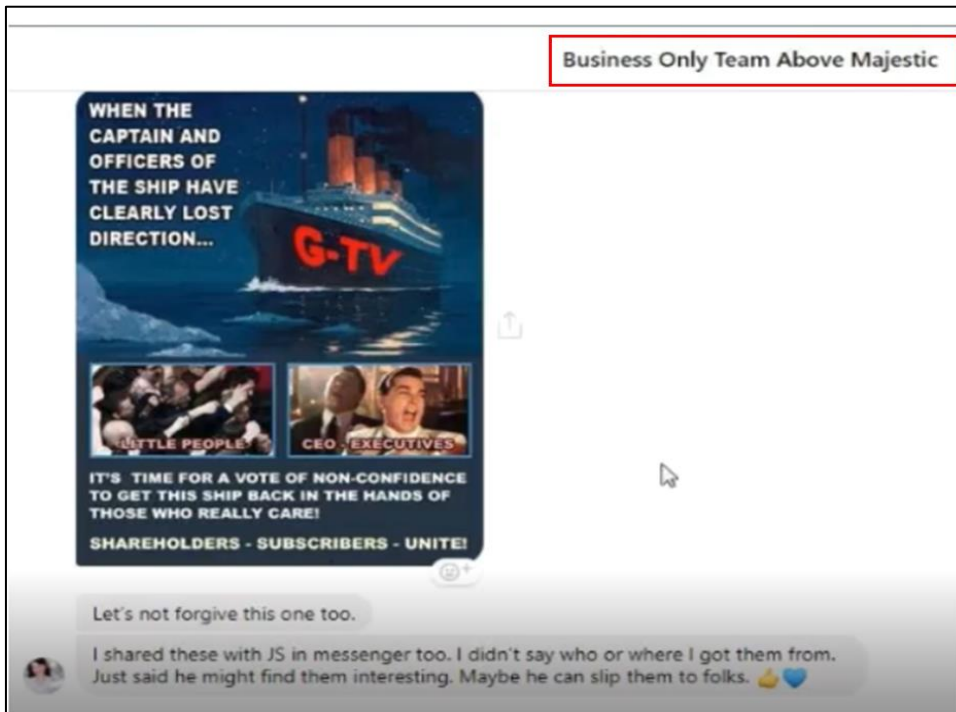

Figure 28 Contradiction in Group names shown in screen capture by Chanter (Zavodnick)

The third post produced during the Farmer interview is shown below.

Figure 29 Farmer produced screen shot not present in 2.7.19 presentation

In a more detail review of the URL posted Red Torch found that the pastebin account shown had been posted by an anonymous party on October 18, 2018 and contained the following text only statement.

Mr. Smith -
 Why you did no pay for my work? Not happy with me? Maybe should I send some things forward to Gaia? Or how bout Mr. Wilcox, maybe he would like to know what you hire me for. maybe Mr. good would like to know what you had me do to him also? You have 36

hrs. If no pay then the lulz it is. You people are all same . you never fuk with h4kr , u will always regret. always pay your hacker⁸

There are no other indicators of who created this entry. The value of the posting is questionable from an evidentiary perspective. It can be viewed that it was created by the individual(s) posting on this Private account as further information that the target, Emery Smith, was responsible for hiring a hacker to conduct operations against Goode and Wilcock or it can be viewed as a part of disinformation campaign by other individual(s).

The fourth screen capture is of interest as it is also the first indicator of potential Doxxing that was observed in this video. This specific image, as displayed in the video, has a file name of "it's BIG" and was saved as a JPEG image. The image has not been displayed in the prior video produced by Chanter (Zavodnick) nor does it appear in any future videos where image captures were utilized in describing Goode's actions.

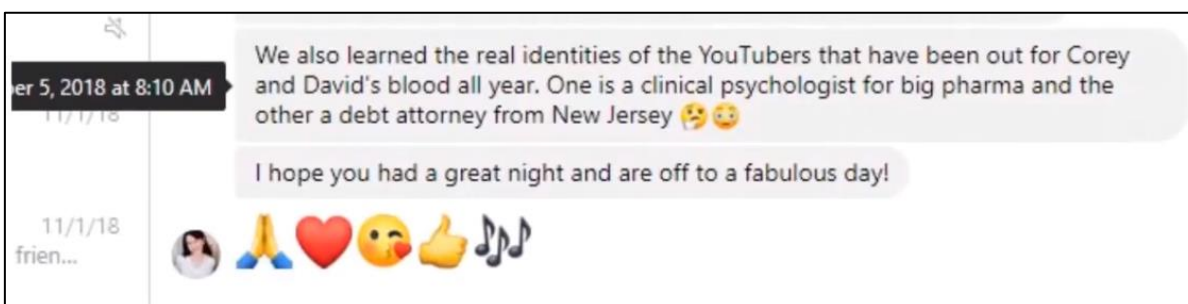

Figure 30 Farmer produced screen shot not seen in any other presentations.

The fifth and final screen capture shown in this video was referenced to Jordan Sather.

Figure 31 Farmer produced screen shot not seen in any other presentations

In addition to the screen capture of the actual screenshots as shown Red Torch analysts also reviewed the display used in showing these screenshots. The following items were also captured and may have some evidentiary value.

FEBRUARY 12

On February 12, 2019 Goode received an email, shown below, from Jay Weidner with a cryptic message one word message in the text block. When viewing the entire message and incorporating the Subject line and the main message it would indicate a subtle indicator of potential ill will.

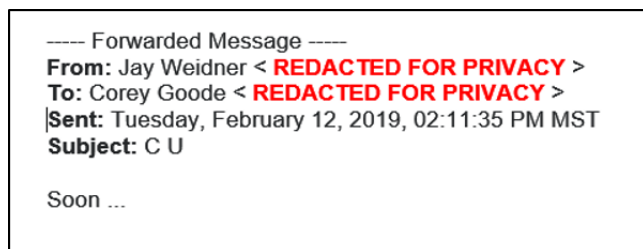

Figure 33 February 2019 eMail from Weidner to Goode

Typically, most threatening emails are tied to cybercriminal attempts to get funds from the victim by pronouncing they have information that would be detrimental to the victim if released. There are no current samples of emails similar to the one shown that have direct explanations of the terminology used as being a directed personal threat.

However, given the prior animus between the sender and Goode it may be interpreted as a representation of detrimental action to be taken against Goode at some point after the receipt of the email. This representation moves this individual towards one of the elements required to prove stalking, which is a credible threat against the victim.

FEBRUARY 15

Chanter (Zavodnick) produced a live streaming video on his Youtube channel, Don't You Dare Forget Groovie Bean⁹, which was a 18 minute diatribe against Goode and associated individuals in which Chanter (Zavodnick) continues to reinforce the earlier videos which alleged to have evidentiary value that Goode was responsible for the Doxxing attacks in November 2018. The title of the video contained the name of a party known on the Youtube and Twitter social media circuits as GroovieBean. The real name of this party is Yvonne Palermo and in 2017 she participated in The Project Avalon Forum. In exploring GroovieBean it was found that she had provided commentary in two separate Youtube videos of which only one remains as accessible to the public. The video, SSP CULT of Goode SBA & affiliates the abuse, targeting:

⁹ <https://www.youtube.com/watch?v=V-r1BmzWazE>

Walk Thru Process PART 2¹⁰, was published in December 2017 and contained a lengthy conversation about Goode and others. One of the more interesting features was a series of screen captures done by GroovieBean in relationship to her social media account in which she alleges that unknown parties using the name of Jack Smith had threatened her as a member of “The Dark Alliance”. The posted screen capture is shown below and of interest is the caption contained on it.

Figure 34 Threat to GroovieBean by JackSmith 2017 at 27:27 in the video

The use of the term, “See you soon” is almost identical to the expression of the email message from Jay Weidner to Goode on February 12, 2019 which read, “ C U Soon...”.

It is very clear that the image shown in the JackSmith screen capture is designed to cause a sense of threat and potential harm to the party receiving the message. This particular message was generated on a Twitter account under that name of Jack_Smith_Snow with a user icon of the Snow White Disney character holding a red apple, which is well known to be synonymous with a death state.

The Twitter account of Jack_Smith_Snow has been removed from Twitter and as a result no public information is available with regards to this specific post. However, as the video that contains this post was broadcast on Youtube on or about December 12, 2017 it is possible that any watching would be subjected to this specific threat mechanism and quite possibly has repurposed it to meet their needs. A second possibility is that the same party that authored this could have also authored the email by

Weidner, which would then tie Weidner to the JackSmith character and the significant amount of activities that were conducted under that pseudonym in early 2017, as outlined in this report under the [August 2017](#) section.

Further analysis of the image embedded in the above screen capture produced a number of locations where the image might have been obtained. The following is a list of sites associated with the image.

¹⁰ https://www.youtube.com/watch?time_continue=3&v=Qf7raPDaHeA

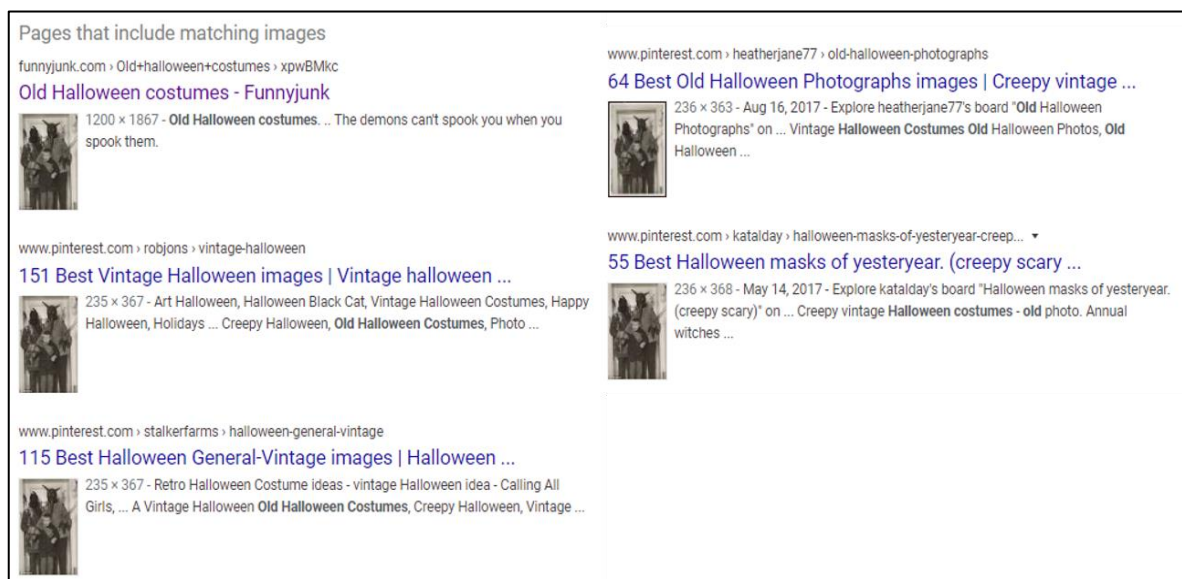

Figure 35 Multiple sources of image used in JackSmith email to GroovieBean

A separate image was located in a well-known online site used to publish memes and gifs. This particular image posting is shown to be posted by an individual using the alias Hahahaha__no.¹¹ The image shows that it was posted to the website on October 18, 2016 at 2000 Hrs. (8PM)

What is of interest is the alias used and the relationship of the image to the one posted in December 2017. The alias used has some similarity to the lengthy email posting by Weidner in April 2019 in which he used a similar pattern of language which may be seen as an extreme criticism of Goode.

Figure 37 Dimensions of Disclosure Event

Prior to April 5, 2019 Goode had requested the appearance of David Icke as the keynote speaker at a major event hosted by Goode and scheduled for August 23-25, 2019 called "Dimensions of Disclosure". This agreement was completed on April 3, 2019 and immediately broadcast to the public. The figure shows the public announcement of the event and keynote to be given by David Icke.

This announcement was followed on April 5th by an email from Jay Weidner to Goode containing the following.

----- Forwarded Message -----

From: Jay Weidner <REDACTED FOR PRIVACY>

To: Corey Goode <REDACTED FOR PRIVACY>

Sent: Friday, April 5, 2019, 10:21:48 AM MDT

Subject: David Icke

You think I would let a friend of mine get screwed and doxxed by you? Fuck you Corey. This is just beginning.

[illegible]

Figure 38 April 5 Jay Weidner eMail to Goode

This eMail was followed by an email from Icke's group cancelling the appearance. The event was conducted in August 2019 without the presence of David Icke. There is no public information as to the potential monetary loss for the removal of Icke from the engagement.

What is of importance is what was the information passed to Locke that supported a decision to withdraw from the Conference. Currently there is no direct information to identify or see what information may have been passed but given the prior email and current content of this email it

is highly probable that Weidner contacted Icke with negative information about Goode that was produced on the Chanter (Zavodnick) Youtube video, first played on February 7 before it was removed.

MAY 8

This is the first episode of a new YouTube channel created by Jay Weidner. The episode, "The Corey Goode Story Begins: Jay Weidner & Groovie Bean Episode One" 1 hour 17 minutes and 15 seconds in length was reviewed by RedTorch analysts. Commentary was not permitted on this and following episodes. This episode was published on Youtube May 8, 2019 and was devoted to Weidner speaking about the development of Corey Goode on Gaia and the various points in Weidner felt that he was being "attacked". One of the first points of dialogue found to be of interest by Red Torch analysts was at approximately at 37:15 into the track. Weidner at that time was speaking about the "egregious" action that was taken by Goode with a new episode in May 2018. The following are clips with Closed Captions of the actual dialogue related to Weidner assertions of plot theft by Goode and Wilcock.

Figure 40 Jay Weidner speaking about Goode stealing the plot to his movie "Last Avatar"

RedTorch analysts were able to find referenced film in the Internet Movie Database (IMDb) and found that the movie had been published in 2014 and was available to the public on <http://thelastavatarmovie.com> website, published and distributed by Sacred Mysteries Productions. While the full content of the above video was not captured for this document the

entire acquisition continues from 37:15 until 39:51 when Weidner stated he believed Corey had “Just Ripped Off my Movie.”

Figure 41 J Weidner Accusing Goode of Stealing Plot for Last Avatar

RedTorch analysts were able to find archival data that contains episodes of “Cosmic Disclosure” that contained much of the material that Weidner was describing. However, those episodes were produced or published from January to March 2016, months before Weidner is stating in this diatribe.

The following table contains the archival location and dialog content for those identified episodes involving Corey Goode’s interactions with the “Inner Earth”.

Table 5 Cosmic Disclosure Season 3

In addition to the various statements regarding Goode, Weidner made a general request to all viewers that he recommended the removal of all of the cosmic disclosures. The following is a screen capture of this statement made on May 8, 2019.¹²

Figure 42 Weidner recommends removal of Cosmic Disclosure episodes.

The recommendation statement immediately was taken up by Erik Northman, aka @_Refused on or about May 13 created a petition for the removal of cosmic disclosure episodes. The following screen captures show the first twitter announcement of the petition and its most current state as of February 2020. The call for removal of videos that Weidner produced supports the purported purpose of the Reality Check videos as a “mea culpa” series of statements that could be seen as a way to distance himself and ultimately the production company, Gaia, from Goode.

Video Interview With Jay Weider & Groovie Bean: Reality Check Episode Three: Death Threat Groovie Spills the Beans, [http://www\[.\]youtube\[.\]com/watch?v=IGqdfmOgGI0](http://www[.]youtube[.]com/watch?v=IGqdfmOgGI0) was posted and then removed from public viewing from the Reality Check Youtube channel. Red Torch found a related article, “Jay Weidner turns State’s Evidence with Groovie Bean about GAIA.com TV’s \$1 million vendetta vs NewsEvolution.”¹³

This article described the content as, “Jay Weidner’s functional Apology is for wrongful acts committed against NewsEvolution by GAIA.com officers, employees, and contractors in the corporate malfeasance and gross negligence at GAIA.com caused by Jay Weidner and GAIA.com TV production of multiple episodes of Media programs”. There are indicators as to why this video was removed from the subscriber channel. There is no posted episode 4 between this date and the next episode posting.

MAY 18

This was posted as episode 5, “Corey Goode and the GEM Files Episode Five”, [https://www\[.\]youtube.com/watch?v=5cVPi-bcubY](https://www[.]youtube.com/watch?v=5cVPi-bcubY). This episode contains explicit statements from Jay Weidner that further tie him to operating the underlying organized attempt to belittle, besmirch and ultimately cause Goode loss of income and reputation. In the preceding month Weidner had produced two emails in which he either directly or indirectly threatened Goode. This is followed by statements shown in video screen captures, using the closed caption text, to denote the statement(s).

here's the deal I call off the dogs no more dogs on you

one of your superiors in the secret space program
give a call

of your superiors talked me into it I will stop talking about you

Figure 44 Weidner making a deal to call off the "dogs"¹⁴

The screen captures from the video show a potential involvement of Weidner with a larger group. This is supported by the idiom of "calling the dogs off"; i.e. to stop threatening or behaving aggressively toward someone. This statement can have more expansive meaning when the larger number of participants are included.

MAY 21

Once again Weidner presents a new episode, "Undeniable Proof that Corey Goode is Leading Doxxing Op Episode six" (<https://www.youtube.com/watch?v=GnyleE0csxc>) in which he introduces C.W. Chanter (Zavodnick) and Kelly Farmer as providers of proof that Goode was responsible for the November 2018 Doxxing. This video is framed on the prior Chanter (Zavodnick) videos of February 7 and 9th regarding alleged visual evidence of a group that were associated with Goode and that the group conducted some or all of the Doxxing campaign.

Figure 45 Tweet disclosing Google Site containing Screen Captures proving Doxxing

A total of thirteen screen captures, allegedly taken by Kelly Farmer, of message strings inside a private Facebook group were presented. The screen captures are not sized properly for off screen viewing and when compared with prior showings, i.e. Chanter (Zavodnick)'s February 7 and 9 videos, are somewhat disorganized.

Further information was found in an earlier Tweet from Steve Cambian dated May 13, 2019 at twitter.com/i/web/status/1127997068687994883.

This was found in a comment string of an individual using the alias @sage_solon. The tweet posted by Cambian included a link to a google drive where a series of images had been posted.

The following figure is a screen capture taken of the google drive and its contents. It should be noted that the posting individual used the alias of Mystery

Man midnight hour show with an email address of midnighthourradioshow@gmail.com.

Figure 46 Steven Cambian aka Mystery Man

It appears that the party posting was Steven Cambian as his Youtube subscription channel uses the same naming as the poster of the images.

Figure 48 Downloaded Zip File containing image type and modification date

This site allowed the viewer to download the items shown in a zip file. Upon downloading the files Red Torch was able to view all 29 screen captures and collect metadata from each one. There are several issues that remain regarding the screen captures of Facebook messenger items used in four separate Youtube videos and the Google Drive folder.

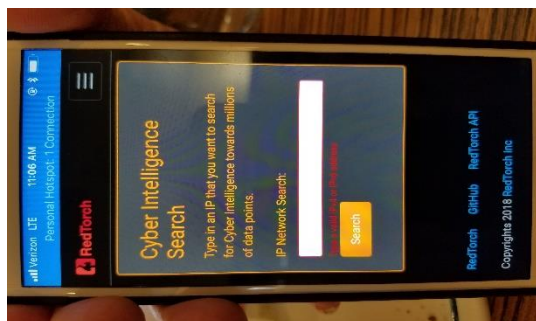

Facebook Messenger Image Issues

These issues are concerned with the authenticity of the images and how they were utilized in the various dialogues attempting to either discredit, defame or otherwise act against Goode. In breaking down the overarching issue of authenticity it is difficult to ascertain the actual production of the images with regard to those shown in all of the Youtube videos. However, the images posted in the Google Drive folder provide specific meta data on each of the images that has some level of authenticity as to the time and method of the image creation of the posted images.

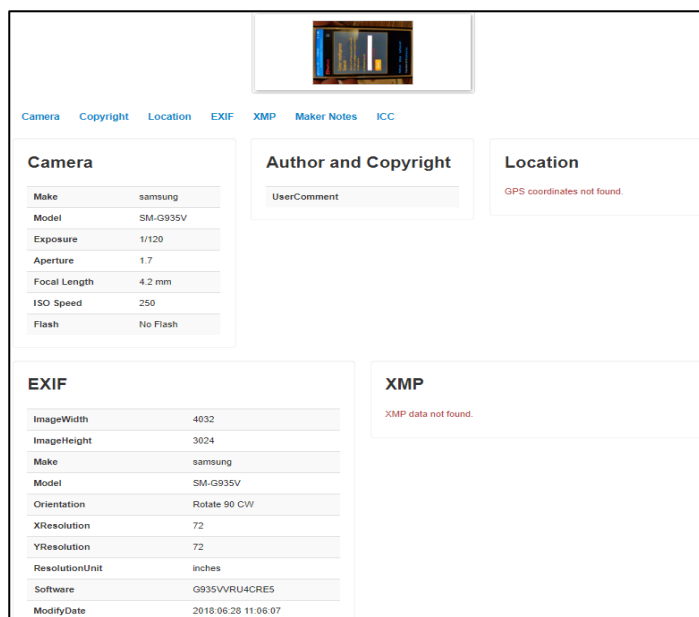

In that regard all of the images downloaded from the above site were subjected to multiple forensic softwares that are capable of removing all available data related to the image and presenting it in a manner that can be used to identify the methods used in the creation of the image, where and when the image was created and all other information that would be essential in evidentiary discovery. The following are some of the software applications utilized in reviewing the Metadata associated with these specific image captures.

- <http://metapicz.com/#landing>
- <http://fotoforensics.com/>
- <http://imageedited.com/>

It does require that the image reviewed must be the original image captured. Images that are derived from images will only contain the most recent information as to the origins of the image. An example of this is shown in the following figures.

Original Photo Image used in this test example was in the smart phone used to take the original photograph. These photographic images are generally found in a specific folder on the device used to generate it. This can also apply to other types of digital cameras where the images are stored on flash memory cards or other removable media or uploaded to internet cloud hosting systems.

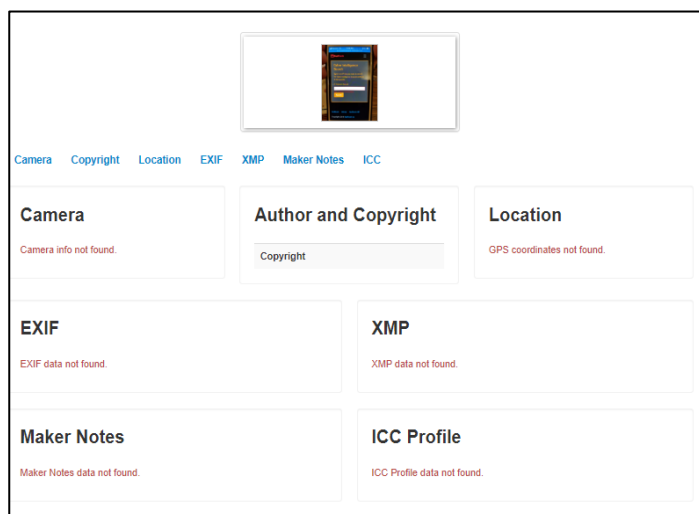

This screenshot shows a web-based interface for displaying meta data. At the top, there is a navigation bar with links: Camera, Copyright, Location, EXIF, XMP, Maker Notes, and ICC. Below this, the interface is divided into several sections:

- Camera:** A table showing camera specifications:

Make	samsung
Model	SM-G935V
Exposure	1/120
Aperture	1.7
Focal Length	4.2 mm
ISO Speed	250
Flash	No Flash
- Author and Copyright:** A section with a 'UserComment' input field.
- Location:** A section with the text 'GPS coordinates not found.'
- EXIF:** A table showing EXIF data:

ImageWidth	4032
ImageHeight	3024
Make	samsung
Model	SM-G935V
Orientation	Rotate 90 CW
XResolution	72
YResolution	72
ResolutionUnit	inches
Software	G935VVRU4CRE5
ModifyDate	2018:06:28 11:06:07
- XMP:** A section with the text 'XMP data not found.'

This meta data display is taken directly from the image stored on the device. All data that was incorporated into the image is provided when exposed to an Exfil software application. In this case the type of camera, all of the camera information including the data taken or modified is shown. This data is of importance when using images for evidentiary purposes.

This screenshot shows a web-based interface for displaying meta data, similar to the one above, but with missing data. The navigation bar is the same. The sections are:

- Camera:** A section with the text 'Camera info not found.'
- Author and Copyright:** A section with a 'Copyright' input field.
- Location:** A section with the text 'GPS coordinates not found.'
- EXIF:** A section with the text 'EXIF data not found.'
- XMP:** A section with the text 'XMP data not found.'
- Maker Notes:** A section with the text 'Maker Notes data not found.'
- ICC Profile:** A section with the text 'ICC Profile data not found.'

This meta data display is based on a secondary image capture of the original image. This shows no meta data associated with the image screen captured. This is due to the lack of allowed data by the software used in capturing the image.

Meta data on a secondary or tertiary image capture can be seen if the software creating that new image file was open to publishing the meta data. This provides information as to how an original image may be manipulated.

Figure 49 Methods of Meta Data Capture

Table 6 Meta Data of Screen Captures made by Kelly Farmer

The metadata capture showing the authorship of the images was made by Kelly Farmer may or may not be accurate. Without the actual device where the raw images are stored it is not possible to say with any degree of certainty that the images placed in the Google Drive were in fact authored by Kelly Farmer. The inability to produce unaltered, raw image data does go towards the nature of the presentations as being provocative and questionable in the sense of legitimacy.

However, in a Youtube Video, "Corey Goode CyberStalked by Ufology Public Figures & related Corporation Exposed?" (<https://www.youtube.com/watch?v=O6lsFKeJHAc>) August 30, 2019, the author (UNIRock) showed a single EXFIL result from a set of images that he had previously obtained from Chanter (Zavodnick) on or about February 7, 2019. This is already noted in the [February 7](#) section of this report. The following are excerpts captured

- LO image taken directly from Google Drive
- Screen Capture of EXFIL data from LO image

When both sets of images are compared, one directly and one by UNIRock, there are significant differences that appear. It cannot be understated that the image forensic conducted on image CNGO2.JPG by UNIRock was done by opening the image from the attached file sent by Chanter (Zavodnick) on February 7, 2019 and should be considered a forensically reviewable item.

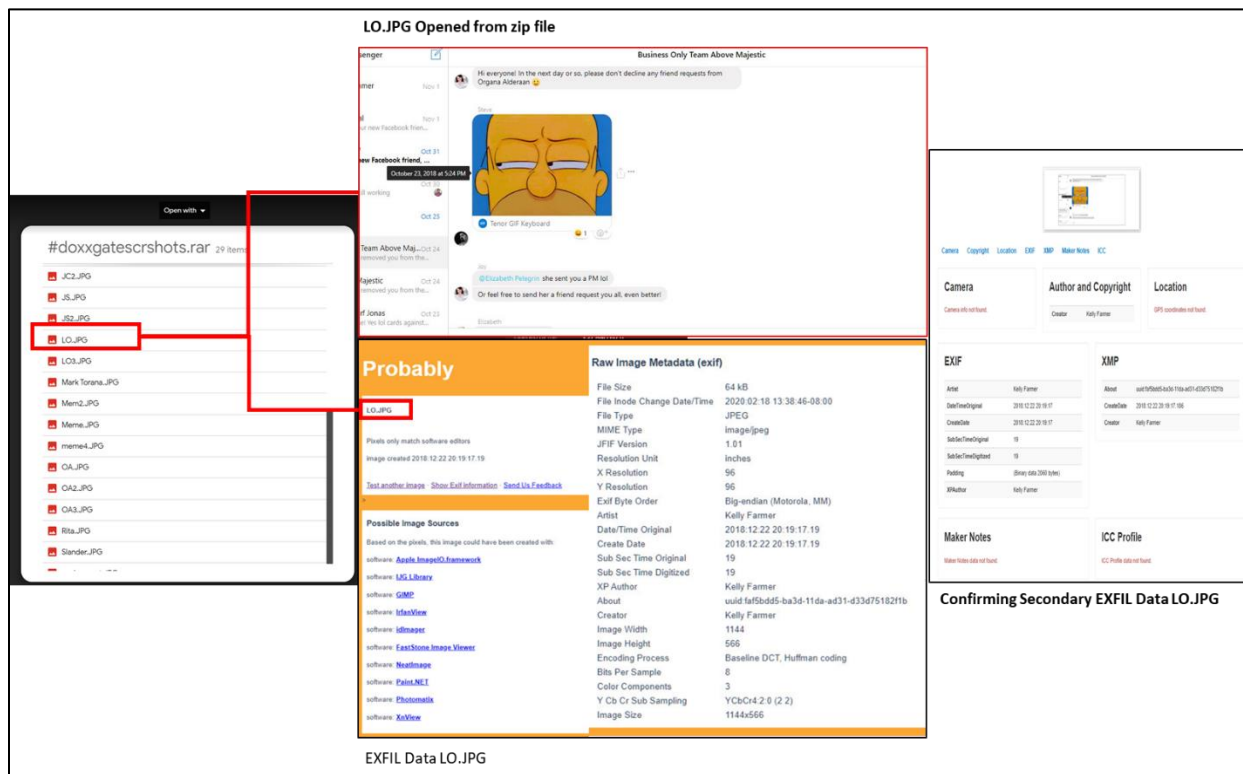

Figure 50 Forensic Examination of LO.JPG figure

The second image is that of the forensic examination taken by UNIRock. The image was labeled as CNGO2 and was one of 43 images attached to an email from Chanter (Zavodnick). This image was observed as item 35 shown in the Chanter (Zavodnick) "Lost" video and as image label LO in the 29 images found in the Google Drive.

The following figure shows the forensic data obtained by UNIRock with regard to the CNGO2 image obtained direct from Chanter (Zavodnick)

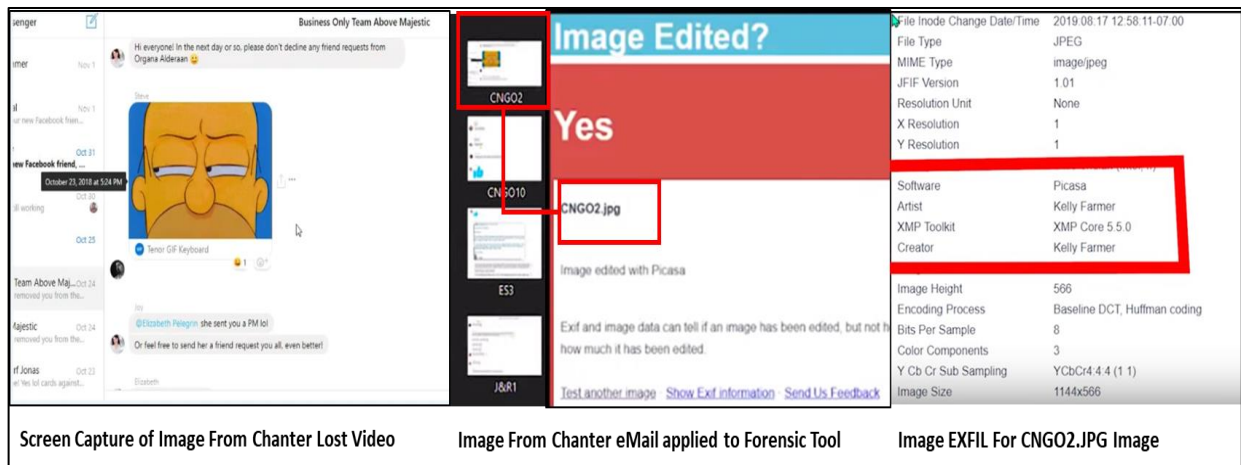

Figure 51 Forensic Review of CNGO2 Image

There are some significant differences between the same images which individually may have no impact but together cast significant doubt of the legitimacy of at least this image.

Forensic Item	LO image	CNGO2 image
Date of First Posting Observed	5/13/2019	2/7/2019
Party Posting	Mystery Man Midnight Hour Show	C.W. Chanter

Image Creation date	12/22/2018	None visible
XP Author	Kelly Farmer	None visible

Table 7 Forensic Differences of same images

The CNGO2 image information is reliant based on the information captured from the UNIRock visualization and when matched against the Red Torch forensics certainly indicates a potential manipulation of this and other displayed images. To insure complete forensic compatibility it would be necessary to have the original, posted images from February 7, 2019.

There are no other raw image files that have been exposed to the public to review and compare against the ones found in the Google Drive folder and the visualization of the same image on a video. There are naming differences between those image files shown in the video streams that may indicate some type of manipulation of the images during or after the raw image data was produced.

CONTACT IN THE DESERT 2019

The Contact in the Desert 2019 (CITD 2019) was held at Renaissance Resort and Hotel in Indian Wells, California, from May 31 to June 3, 2019. This conference is an annual event in which many individuals attend that have an interest in Ufology, government disclosure, ancient civilizations, crop circles, and more. This 7th event was attended by more than 7,000 individuals according to the sponsors of the event.

At issue is a potential physical element of stalking Goode at this particular event. The prior year, 2018, Goode was shown as a highlighted speaker but in 2019 he was removed and replaced by Emmet Smith, his replacement for Cosmic Disclosure at Gaia.

This may be relevant as those involved in harassment of Goode would have prior knowledge that he was not in all probability not going to speak at the conference and possibly not even make an appearance there. However, those involved did make an appearance at the conference and with conducted video streams concerning Goode while at this conference. It appears that there were a number precursors to the appearance of Chanter (Zavodnick) and his affiliate, Kelly Farmer, at the conference that may have given Goode and others that they, Chanter (Zavodnick) and Farmer, would be on the conference premises to conduct acts of intimidation against Goode and others.

Several videos and tweet streams have what could be termed as harassing or subtle references to violent actions have been directed towards Goode proceeding the 2019 Contact In The Desert (CITD) event. These videos may have created a level of concern when attending the event and as a result created a heightened level of anxiety which would have been further acerbated by the appearance of Chanter (Zavodnick).

This may be framed in a series of video statements made by Chanter (Zavodnick) from earlier in the year and are seen as follows.

The language taken by itself is not necessarily considered "fighting words" but when seen in the context of spoken language, facial expressions and vocal inflections can indicate a level of disturbance that when observed may be taken as hostile, angry and implying potentially dangerous actions towards Goode.

In addition of to the video statements made by Chanter (Zavodnick) prior Tweets by a party, Clif High, indicate a level of hostility actually based in violent confrontation. The following tweet¹⁸ indicates a challenge to a physical altercation with Goode and Wilcock by High for the “Theft of Material”.

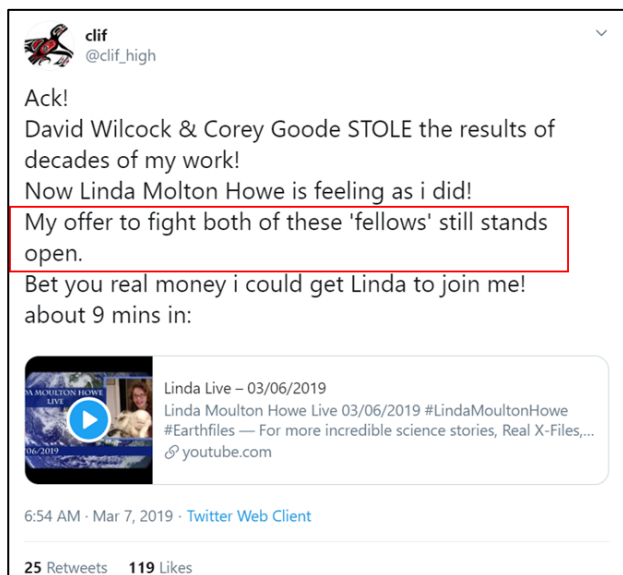

Figure 53 Physical Violence offered by Clif High

Figure 54 Farmer Trip to CITD 2019

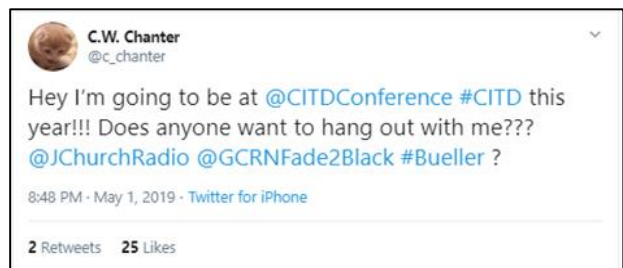

Figure 55 Chanter (Zavodnick) Trip to CITD 2019

The author of this Tweet, Clif High, has a known, established relationships with Chanter (Zavodnick) and Weidner. In addition he has made statements, on video, that he is an unstable person.¹⁹

The combination of the videos and tweets leading up to the CITD 2019 event that contained veiled threats against Goode ended with the announcement of Chanter (Zavodnick) and Kelly Farmer attendance at the event. This is seen in the following tweet excerpts. The statement made by Farmer indicates that she had decided to attend the conference sometime in late 2018. This coincides with a number of incidents that occurred within the same time frame in which Goode and others had been accused of involvement in the “Doxxing” of two celebrity individuals in the UFO community.

In addition Farmer’s statement of booking trip to the CITD event also matches the time frame in which various Facebook screen shots were taken, based upon the forensic examination of those images as shown in the [Facebook Messenger Image Issues](#) section of this report.

The tweet provided by Chanter (Zavodnick) has no specific reason for his attendance at the CITD event and in reviewing prior publicly available information found nothing that indicated his reason for attending. However, there were several replies to the notification by Chanter (Zavodnick) that appear to support his attendance and hoped for negative interaction with Wilcock and Jordan

Sather.

¹⁹ <https://www.youtube.com/watch?v=FNJyi4JnmOk>

The twitter announcements shown above, coupled with several prior months of continued disparaging verbal and written actions, created a real level of concern for Goode, resulting in a heightened level of concern and need for physical security at CITD. The following tweeter images reflect various statements concerning the potential for some type of encounter at the event.

Figure 56 Tweets concerning Physical Security at CITD 2019

During the time Chanter (Zavodnick) and Farmer were present at the event they produced two videos on site and a third after they left using Chanter's (Zavodnick) Youtube subscriber channel. They produced a fourth video on site using Farmer's Youtube subscriber channel. The content of those videos was redundant and represented prior public statements.

Of interest is a series of photographs taken of Chanter (Zavodnick) while at the event as shown below. While they do not show any violent behavior as defined; they do show an individual that appears to be demonstrating a subtle level of control over the other party. One image shows Chanter (Zavodnick) partially clothed in what appears to be a "friendly" interaction with a well-known UFO host, Jimmy Church. This was preceded by a photograph of Chanter (Zavodnick) getting an autograph on a similar T-Shirt from Church.

Based on the setting and action it would appear that Chanter (Zavodnick) stripped off his T-Shirt and was jostling Church before putting the other T-Shirt on. The third photograph shows Chanter posing with an individual identified as Ryan Gable. Gable was involved in an interaction with Jordan Sather, a compatriot of Goode, during a post presentation informal gathering. Those photographs are shown immediately following the Chanter (Zavodnick) images.

Figure 57 Chanter (Zavodnick) with Jimmy Church and Ryan Gable at CITD 2019

The following image was taken at an informal gathering of individuals who had just attended a presentation by Jordan Sather and were asking additional questions of Sather when interrupted by an individual later identified as Ryan Gable²⁰.

Figure 58 Interruption by Chanter (Zavodnick) Associate at CITD

On the whole the act of physically appearing at a public event, after publicly available statements that created a heightened level of concern for personal and family safety the action can be seen as one element towards a criminal stalking event.

JUNE 8

On this date Jay Weidner posted a new video, Emory Smith says Corey Goode threatened him. Episode 11²¹, on his Youtube subscriber channel, REALiTY CHEcK. This particular video focused around the Jordan Sather and Ryan Gable interaction at CITD with a culmination in the playing of an audio tape made by Gable at CITD with Emory Smith. This audio tape was played on the Kev Baker Show, Blue Chicken Cult EXPOSED! BOMBSHELL Information From #CITD2019 with Ryan Gable²² on June 4, 2019, immediately after the CITD event closed.

This audio tape contains a short conversation between Gable and allegedly Emory Smith while in a public area at the CITD event. The played audio recording was approximately 2:57 in length and was somewhat difficult to hear due to the background noise. In the tape the party, alleged to be Emory Smith, was asked a number of questions concerning Wilcock, Goode and Sather. The answers by the interviewee (Smith) were somewhat muffled at times and were somewhat vague. In all the evidentiary value of this tape is questionable as there is no way in which the interview is supported by direct proof of the party who is being interviewed is in fact Smith.

It appears that the content of this video and audio tape was to provide a means to deflect positive postings regarding either Sather, Wilcock or Goode that may have occurred during the CITD. In effect, providing some cover for Chanter (Zavodnick) for any negative behavior at CITD.

AUGUST 10 & 11

UNIRock released a number of streaming videos on August 10 and 11 that take on the February and May videos by Chanter (Zavodnick), Farmer, Weidner and Groovey bean, as being manipulative and directed at Goode to show him to be a con artist and cult leader. In a separate live stream video conducted via Twitter on August 10²³ UNIRock states that Weidner attempted to pay him for not exposing any of the information shown as part of "Doxxgate." The following images show screen captures of the video and comments made during the stream. UNIRock indicated that he did not accept any funds from Weidner and sometime, after the Twitter stream, launched his video, The Great Debate - Did Corey Goode Do It - Mysterious Forces Invite - The Evidence²⁴ and spent 3 hours demonstrating and talking about the evidentiary faults from the video produced by Chanter (Zavodnick) in February and the reposting of the same information in May by Weidner.

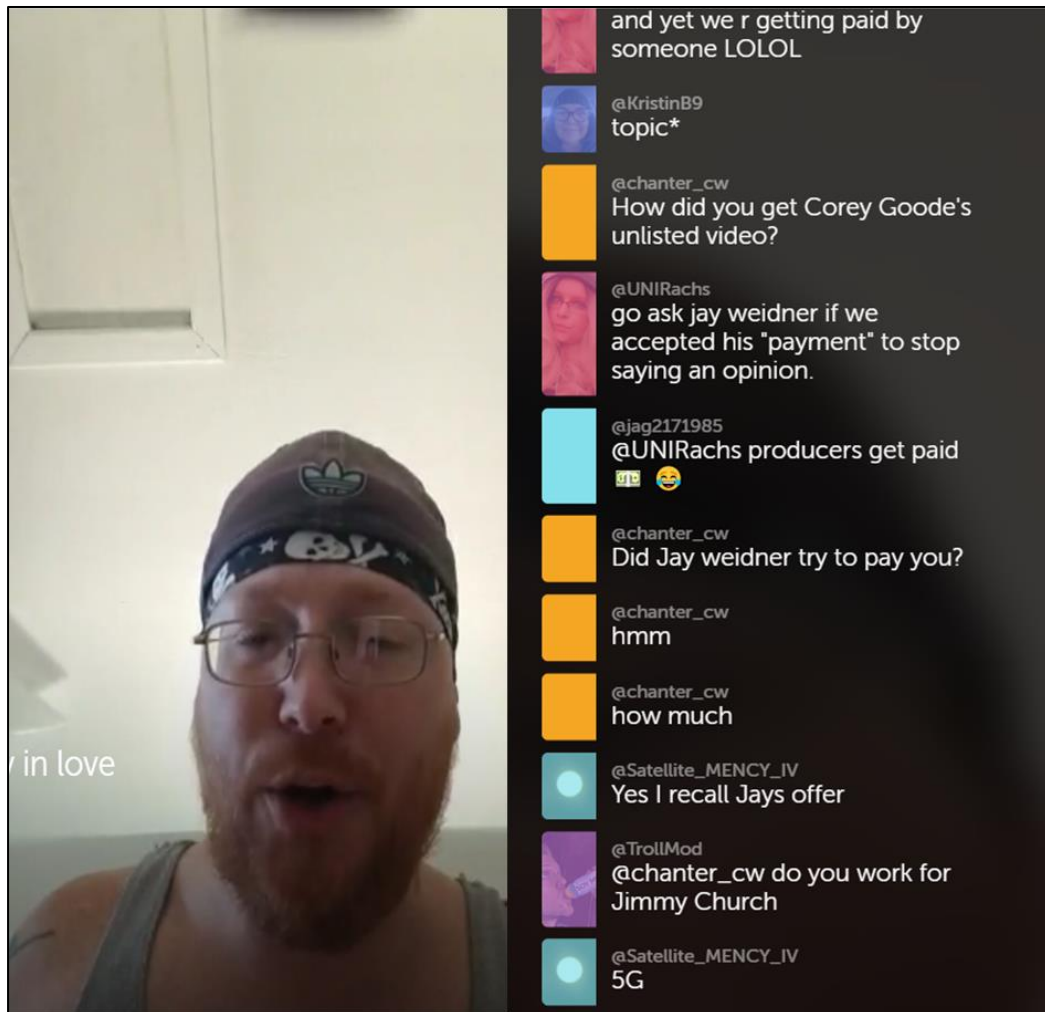

Figure 59 UNIRock Live Statement of attempted Pay Off by Jay Weidner

Jay Weidner

Jay Weidner appears to play a pivotal role in the overall issue at hand. Weidner had a direct relationship with Goode, beginning in 2015, until 2018 when both individuals left Gaia. The underlying motivation for any criminality may reside in the lengthy discord between Weidner and Goode over the period of time they were employed at Gaia. The purpose of extracting Weidner from the established time line is to further examine prior actions that this individual has been engaged in and establishing a reasonable belief that Weidner has participated in the identified period of time as a principal responsible for much, if not all of the criminal aspects of this issue.

One of the primary pieces of evidence of prior act(s) of defamatory acts was uncovered during a historical review of Jay Weidner's activities as seen over time.²⁵ It appears that Weidner had been engaged in a protracted online struggle between himself and the author of the cassiopaea.org, Laura Knight-Jadczyk aka Laura Knight. The length of time involved appears to be between 2005 and 2011. What is of particular interest is the manner in which this issue was conducted by Weidner.

On February 24, 2011 a blog post exposed a series of online sites that appeared, starting in 2009, that contained variations of Jay Weidner's postings of which most were directed against Laura Knight-Jadczyk. The following table was extracted from the posting and using the WayBack site several of the postings were found with damaging content.

The Gnostic Revival Part 4

August 4th, 2010

Russell: Interesting. So, your view is this freight train that's coming. What you're trying to offer at Sacred Mysteries is a philosophical and practical approach to both internal spiritual preparation, as well as a physical practical preparation.

Jay: That's right. You have to ask yourself. Do you really want to live in a world where the guy with the most guns wins? And I think most of us will say, "No. We don't want to live in that world". Well, if we don't do the things that we're trying to do at Sacred Mysteries, we could very likely end up that way. There's a lot of crazy people stacking a lot of guns in their garages and their basements right now, and that's not going to save us. So, my answer is to create communities that are examples, prime examples, so that other communities and other people can see how it works in a good way? then they will follow suit and that, to me, is the only way we're going to get out of this crisis.

The Secret History of Laura Knight Jadczyk

May 17th, 2011

by Jay Weidner

This email was sent to me by a man who was threatened by Laura Knight Jadczyk. Of course he is very angry at Laura Knight Jadczyk because she told him in an email that she would use her vast web resources to trash his good name all over the Internet. In other words she would do anything she could to defame him. But this man would not take it sitting down and now he is fighting back against her. Here is his note. If you bought a ticket in Laura Knight Jadczyk's infamous Fake House Raffle Scam please help this innocent victim and contact the Pasco County Sheriff's office below.

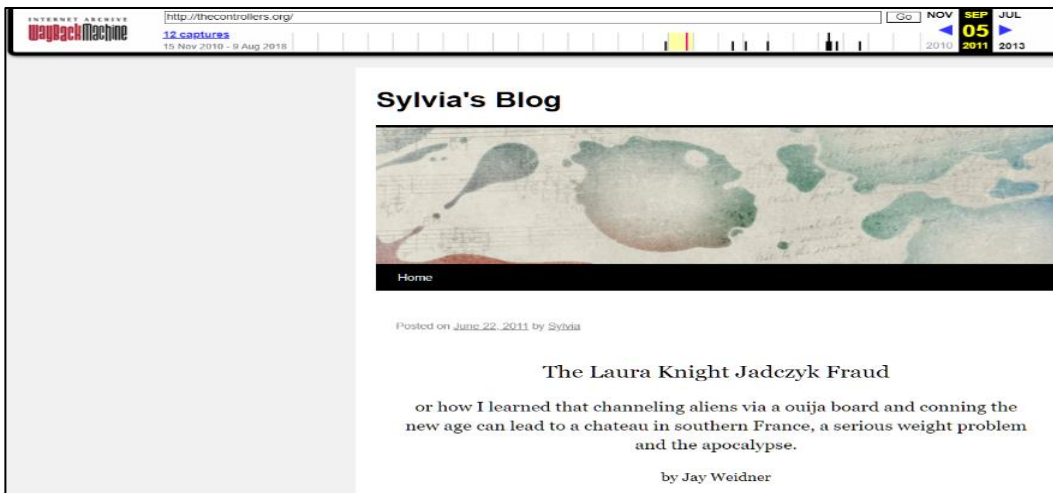

Figure 61 Screen Captures of Sockpuppet Blogsites

The use of online blog sites containing specious information can be considered the same as the act of creating a fake online identity to praise, defend or create the illusion of support for one's self, allies or company. The specific purpose for the construction of these sites is patently clear in that Weidner could direct individuals to the content he wished to use without directly implicating himself, other than through the authorship of the content. Of the 13 URL sites uncovered, 3 contained defamatory material concerning Knight-Jadczyk and were written under the name of Jay Weidner.

One of the blog sites, **Milo's Blog**, uses a naming convention that is the same name as shown in the [Milo](#) section of this document. This particular name is one that is seldom used and not generally well known. A check of names for indicates that only 12,375 males born in the United States have been given that name since 1880.²⁶ Logic dictates that the use of an extremely rare naming convention for the creation of an alias; having that creation tied to an identified individual who is definitely tied to the first use, has a high probability that the second use is also tied to that same individual, who has been identified as a possible participant in a similar scenario nine years later.

Communication Channels Observed

Using forensic tools a plot map of twitter specific communications between a number of identified individuals that had participated in dialog concerning Goode. The primary communications path noted was the use of Twitter accounts between the various individuals identified during the course of this analysis. The overall plot map contained 10,088 entities (accounts) and those most active accounts were analyzed for communications channels.

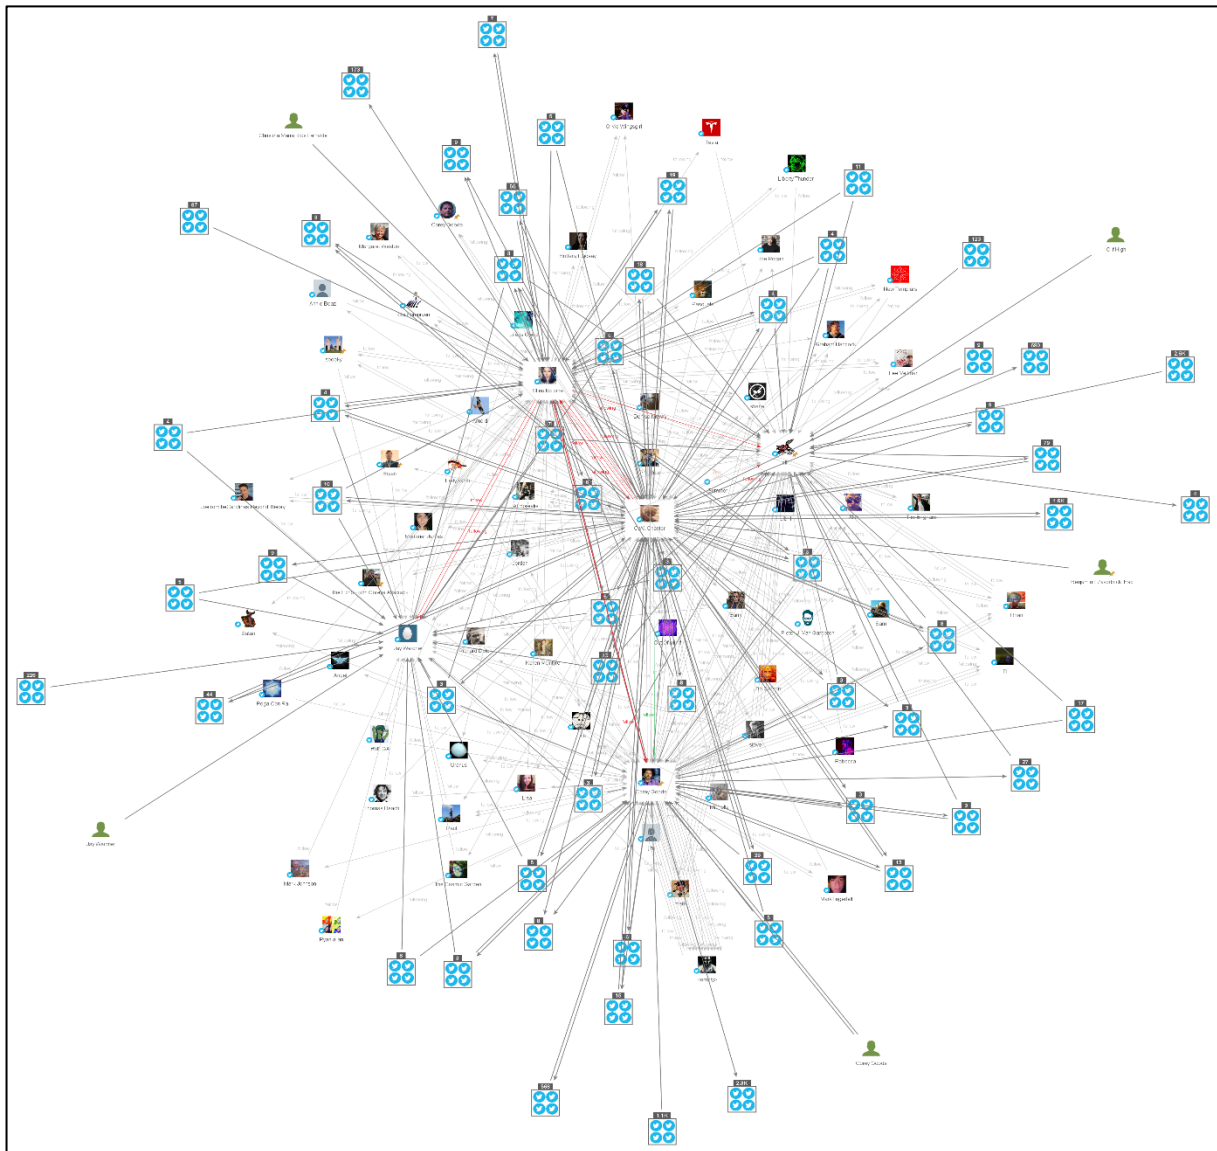

Figure 62 Plot Map of Twitter Account Communications

1ST LEVEL COMMUNICATION

The following figures represent the most active accounts based upon communication layers.

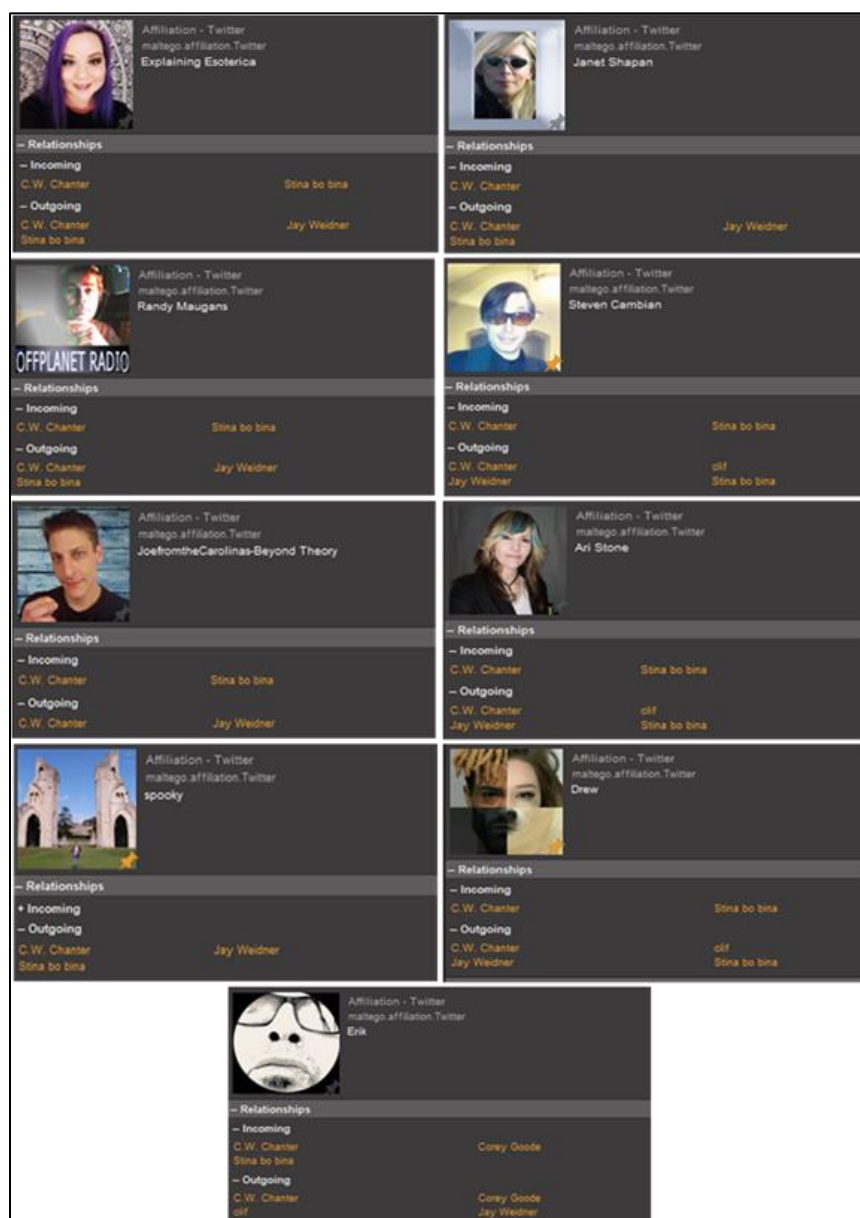

Figure 63 Twitter Accounts with 1st Layer direct contact with Weidner

This first group of Twitter accounts observed in multiple interactions involving Goode have the closest relationship with the Weidner account. This should be considered the 1st communication level.

The Weidner Twitter account shows more than 300 followers but the account is not following any other Twitter account. In addition when viewed publicly the account shows no tweets or retweets associated with it. The most logical explanation of having followers is to receive and send messaging without exposing the content.

The lack of publicly facing tweets is indicative of Weidner redacting any interaction with those individuals that may be permitted to tweet information to the account. This is done through the account settings and includes the Private Message application embedded in Twitter.

Additional analysis of the 1st communication layer accounts private messages found that 7 of 9 accounts had their private message set to prior acceptance only. This included Weidner's account.

2ND LEVEL COMMUNICATION

The next level of accounts do not have contact with Weidner but do have direct contact with those accounts that are on the first level of interaction with Weidner.

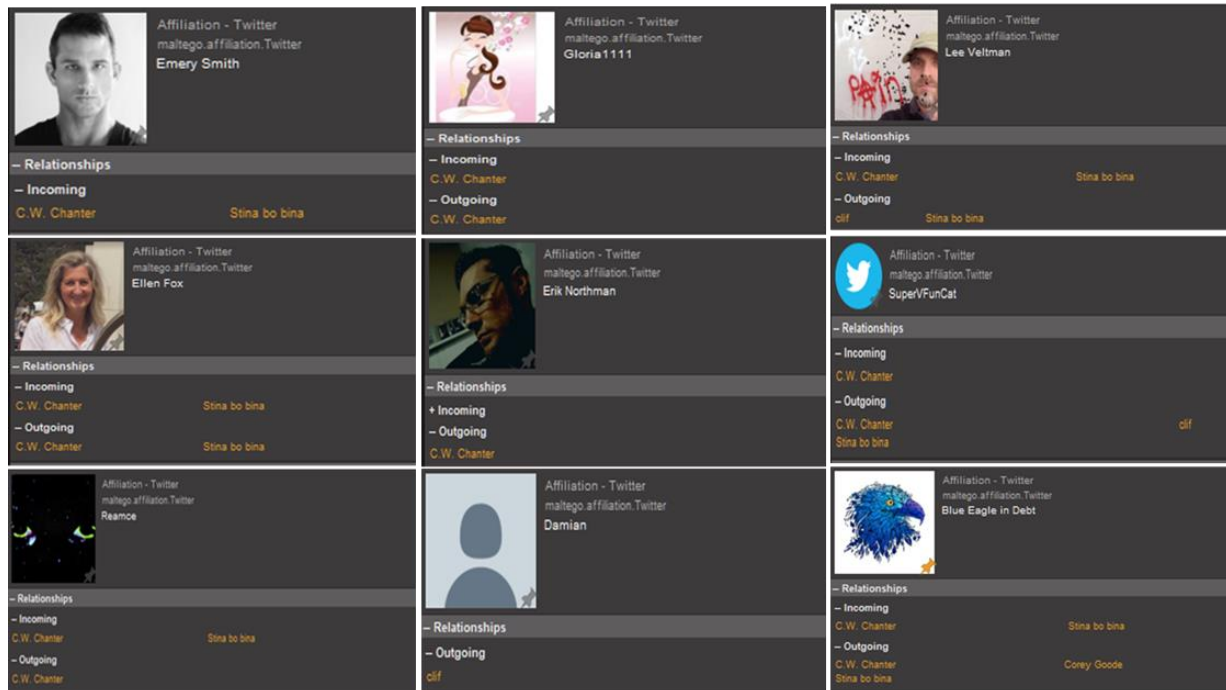

Figure 64 2nd Layer Contact with Weidner through 1st Layer Contacts

The 2nd communication layer consists of accounts that only have direct contact with first layer accounts. These 2nd communication layer accounts have been heavily involved with Twitter statements involving Goode. The primary interaction is with the C.W. Chanter account.

3rd LEVEL COMMUNICATIONS

The remaining interactive number in the thousands and would be considered 3rd communication layer accounts. The following figures are representative of some, but not all of the 3rd communication level accounts that are interactive with the 2nd communication level accounts of C.W. Chanter (Zavodnick), Stina bo bina (Rios) and Cliff (High).

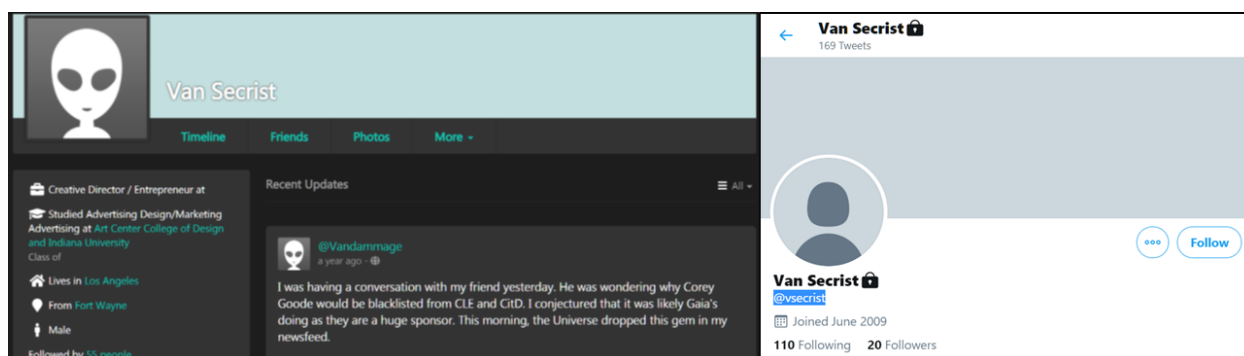

Figure 65 Example list of 3rd Communications Levels

There is reason to believe that this method of communication has been constructed to direct specific statements or other information to a broad audience which in turn continues the movement of those statements to an. The motivation for such activity is dependent upon the originator(s) plan. It can be a standard promotional messaging campaign as used by public relations for marketing or it can represent a means to damage or destroy a person's reputation which will lead to loss of employment, finances and other personal issues.

Reasonable Suspicion

In this specific case there is a reasonable suspicion there is an underlying motivation to remove Goode from his livelihood by creating a lengthy campaign of inuendo, possible presentation of doctored evidence and continual rehash of prior statements using different individuals to make them. This endeavor rises to the level of multiple criminal acts including Stalking, Harassment, and potentially Theft by Deception. The rise of this motivation is observed in multiple statements made throughout this period of time by one specific individual. That individual is Jay Weidner, who is at the nexus of all 1st level communications within this group. The following are examples of both direct and indirect statements or comments that reflect the motivation for this activity.

UNSUBSTANTIATED POSTING(S)

December 30, 2018²⁷, a posting by @Vandamage aka Van Secrist, on OnStellar, an online forum for the paranormal to UFOlogy, regarding information that he had received regarding both Gaia and Jay Weidner. The following is an excerpt from that posting.

“Both Greer and Goode have allegedly been blacklisted from major ufology events sponsored by Gaia, Inc., as well as by two leading ufology radio shows including Coast to Coast and Fade to Black Radio. This was due to the influence by both Gaia, Inc. and **Jay Weidner** both before and after he was fired from Gaia, Inc.”

The party posting this statement has a protected Twitter account. No additional information was available concerning the veracity of this statement.

SUBSTANTIATED STATEMENTS

The following comments were made directly by Jay Weidner via email and social media.

February 12, 2019 – email sent to Goode containing a header of “CU” and a single word in the body of the email “Soon”. This can be seen as a thinly veiled threat against Goode. It was sent within 2 days of Chanter (Zavodnick) displaying “smoking gun” material regarding Goode and the Doxxing event in November 2018.

²⁷ <https://onstellar.com/posts/118256>

April 5, 2019 – email sent to Goode containing vile language and a threat, “This is just the beginning.”

May 8, 2019 – Youtube video in which Weidner accuses Goode of “stealing his movie”

May 18, 2019 – Youtube video in which Weidner intimates that he is the “shot caller” and he can call off the “dogs” if Goode will make a deal with him.

This comment was made in response to questions posed to the author during a live streaming video.

August 10, 2019 – Video statement by UNIRock that Weidner offered him money to not further any additional information on “Doxxgate”.

Evidentiary Conclusions

Red Torch can only provide publicly available information as seen on social media and other online resources to support evidence of potential criminal activity in which Corey Goode and others may have been targeted for a continuous, organized activity to denounce, cajole, harass or otherwise disrupt and terrorize them and their families.
