Menotropin (also called human menopausal gonadotropin or hMG) is a hormonally active medication for the treatment of fertility disturbances. Frequently the plural is used as the medication is a mixture of gonadotropins. Menotropins are extracted from the urine of postmenopausal women.

10 exercises working 30 seconds with 10 seconds rest in between_Do each exercise in a pair once before moving onto the next pair_Repeat 3 rounds per pair in total: * Plank > Plank up

J'ai fait un gâteau un pur délice, j'avoue que c'est mon basic. Poudre d'amande, beurre, erythritol et stevia, citron, œuf. Et pour le plaisir j'ai mis des amandes concassée sur le dessus. ☐☐☐
