Resume download <https://docdro.id/WmFrEZ2>

Profile:

I am professional with over 27 years of experience in international settings which involved industries such as retail/wholesale(**electronic, real estate, time share, car sales**) / government and private security / customer service / transportation / mechanical engineering, investigative journalism / film production and book writing in foreign language/ political activism / human rights and more...

CHARACTERISTICS: I poses excellent inter-personal skills, strong analyst(**researcher**), fast and entrepreneurial problem solver, fast learner, enthusiast, management experience, customer oriented(**because I love helping people/relate to their problems**), computer literate, multilingual(**English, Spanish, German, Croatian, Slovenian, and can read/understand – communicate in basic Polish language**), quality and budget minded.

DESIRED JOB CATEGORIES: transportation/delivery(**preferred B or C category locally**), customer's care manager/ salesman/ representative, industrial production/ assembly/ service, construction/ warehousing(**while not licensed, I have basic knowledge of using fork lifts**) etc. I seek employment in any industry that involves above mentioned services(**open to full time and part time opportunities – Saturdays/Sundays included**).

Education:

- Grammar and high school, Slovenia(**Osnovna Sola Grm, Novo mesto - 8 years**)
- Slovenia (**Solski center Novo mesto - 3 years for industrial/transportation maintenance mechanic**).
- Slovenia (**Solski center Novo mesto - 2 years for mechanical engineering technician**).

Languages:

English(very good), Spanish(good), German(so so), Slovenian(Very good), Croat(very good). Am learning Polish and I also speak some Russian(**enough to communicate with coworkers**). Have additional training in computers and in other areas.

Experience:

---**Auser Times, 01/08 – 01/17 (present)**

Owner: Independent news outlet(**investigative video and news factory created and owned by myself**).

POLAND 2019

PPH Legs Sp. z o.o. - Dział farbiarnia, Zgierz 10/7/2019 to 2/10/2019 Packaging position.

First employment in Poland ended with litigation(**am presently in complain process**)with employer as of October 2nd when fired on day off for(**according to employer**) not immediately answering single phone call, because of my not meeting with employer in respect to extension of job contract(**was never informed about meeting**), and my not performing according to employer's expectations at work.

REALITY: Theft of issued work related items accrued within first two days(**from pen to markers, and even scalpel knife – whatever was left on workplace table – thefts on pens then repeatedly continued throughout stay**). Worked first two months almost 75% of time on other than packaging(**SSM – manually supplying production lines with production material and removing one from production when completed**) as hired for and would hand lift(**move**) at times even 15 or more tones of material per shift(**20% of which higher than my own height 183 cm – boxes weighted frequently 20kg or more**) till I would experience real spine injuries(**pain in lower portion of spine, regular numbness in middle right hand finger and lately as well in left, and even spine related pain numbness in right leg**). No training was provided on how to handle material - in fact improper handling of material was demonstrated/ encouraged(**from beginning even for boxes which weighted 45kg were encouraged to hand lift and all the way to pushing them manually to production lines – supply was from beginning served by pulling manual forklift which weighted up to 800kg or possibly even more**). At packaging department computer system used to enter item information would disconnect online processing sessions on every 3/4 times per 15 processed boxes which needed to be weighted(**till last week of work**). No work manual was ever given on how to properly process work(**forget about few binded folder with few pages non related to work operation demonstrated last week for no photokopy was issued or would be allowed to even take photo of**) and if one would manage to direct his mind to proper sequence of packaging operation, coworkers arrived to ensure further disruption of mental process as soon as I would manage to recollect mind from confusion. There was no information on items location stored in warehouse either. Obvious desired outcome was well anticipated dementia/scattered mind all over the place(**total lack of concentration on work during rotating 12 hours early morning and overnight shifts**). Employer was further assisted by selected private settings(**housing rentals**) where all sorts of violent activities went on according to Mkultra scenario(**frequent destruction and theft of private property as well as physical violence – several wrist watches destroyed, as well as telephone timing modified to misguide on time – employer wasn't shy to modify/forgo and lie even about work schedule with idea to reprimand me**) which I have undergone in Poland between 1998 to 2017. A paranoid schizophrenic approach was continuously incited by demonstrating me(**examplng me**) job performance with certain work attitudes(**expanded into workers relations related activities**). **Despite here mentioned, I am eager to take on next employment opportunity as soon s possible.**

---**Commercial Audio Video, Miami Downtown, Florida 01/96 – 01/05** Electronic store co-owner(**retail/wholesale**).

---**Park West Galleries, Miami, Florida 02/05 – 02/06** Driver/Coordinator. Delivered(**semi tractor/trailer**) painted art throughout entire continental US, set art for auctions on display, and have assisted auctioneers during auctions.

---**Gumenick Properties, Miami Beach, Florida 03/03 – 11/03** Receptionist/Security officer in residential high rise on South Beach(**often worked along the law enforcement**).

---**State of Florida (DCF-SFETC), Miami, Florida 08/01 – 01/03** Controlled(**and monitored**) movements of residents/staff in Florida's state maximum security facility(**surveillance system operator**).

---**Wackenhut Corporation, Miami, Florida 02/99 to 02/02** Industrial security officer. Customer service, regulations' enforcement, industrial area patrol, and inspection.

Miscellaneous: Among other employments not listed above, but where I did spent time were aboard Cruise line Ship Meridian(**worked over 140 hours a week for 6 months in 5 star dining room serving people**), military service(**infantry/mountain branch**), several other jobs in security field including supervisory positions, work with children as summer camp attendant/educator, about year and half in industrial maintenance/production including car assembly lines in Novo mesto's factory Renault, few weeks of semi-trailer truck driving across the Europe alone and so on....Beside Slovenian(**EU**), I also have US citizenship.

Thank you for taking time to go over this resume.
