

Tecnotile

The long-term surfacing solution

TECNOTILE provides a unique self-draining surface for all year, all-weather play. Its cushioned properties, with excellent foot grip, prevents fatigue and injuries caused by playing on hard surfaces.

IDEAL FOR:

- Playgrounds
- Multi Sports Surfaces
- Exhibition Flooring
- Swimming Pool Surrounds
- Industrial Flooring
- Marine Decking
- Health Clubs / Gymnasiums
- Grass Erosion Control

- Colourfast (UV-protected) tiles can be used to form logos, letters, numbers or individual designs in a variety of colours.
- Suitable for wheelchairs, golf carts and controlled vehicular access
- Unique cushioning properties, inherently safer than tarmac or concrete
- Virtually maintenance-free
- Designed to withstand global weather extremes

Tecnotile

Technical Specification

TECNOTILE is a perforated thermo-plastic sports surface made up of small interlocking tile modules. Designed and chemically formulated for heavy duty performance **TECNOTILE** is suitable for both indoor and outdoor use. With a proven track record spanning over a decade **TECNOTILE** provides the perfect answer for upgrading existing or new sports and leisure facilities, easily, quickly, cost effectively and with minimal disruption.
