

Whereas We Do Have Custom Features

The Seed was created with one factor in mind - Minecraft. For the players which might be in search of a server that has countless custom-coded options, The Seed isn't for you. Whereas we do have customized features, our purpose is to keep The Seed simple and community-based for people who simply wish to play Minecraft with mates. So, here is what we provide:

- NEW 1.17.1
- Player Shops | Anyone and everybody is allowed to create their own shop
- Player Warps | Once you're a Nomad (play for one hour), you'll be able to create public warps
- User-Pleasant Land Claiming | Protect your property with ease
- Rank promotions for playing on the server | Every Rank has it is personal upgrades
- Pets | Every participant is able to tame their very own pet by killing any animal with a lead
- Participant-Driven Financial system | The Seed sells a restricted quantity of objects at it is shop. Go purchase and promote from different players! just another site
