**ABSTRACT**

*Following the fall of The Black Tower, as well as the anarchy of it's demise, I, Dark Sovereign Ahimoth, have seen to it's renovation, both physically and metaphorically. This document serves to register the current configuration of the previously disorganized followers of the officially reknowned depot of Doom - henceforth known as the Barad Dùr Council of Evil. This includes the proper allocation of current members, as listed above, as well as a formal order and contract of which will anyone unmentioned looking to join The Council will be required to sign. Current members of The Council are required to agree to and abide by the terms and conditions listed below under threat of immediate termination.*
