PRIMAVERA - PRINTEMPS - SPRING 2018

Si tratta di un disegno corretto, e ripassare si finisce tornandovi sopra con piccoli tratti di carminio puro, i quali seguano la direzione del contorno del fiore. Si tratta di una tinta generale, chiarissima, rara degli occhi dei petali, sfumando insensibilmente verso il verde delle foglie, tinto sempre nelle chiare. Nell'ombreggiare

Dedicated to all the lovers of delicate nuances, to romantic people and to dreamers, the New Stamperia Spring Collection 2018 is a gust of fresh air and original details. Each subject evolves and finds its proper balance in the tones and in the shapes. The themes are 4 and they aim to satisfy our different creative friends all around the world. It is a puzzle of images that includes art, painting and graphic illustration.

SEA LAND

Il tema del mare da una prospettiva rilassante e sognante, suggerisce e rassicura l'anima.

Le thème de la mer vu dans un perspective relaxant et rêveur, suggère et rassure l'âme.

Sea land depicts the sea from a dreaming and relaxing point of view, it reassures and calms the soul.

CLOCKWISE

Clockwise ci ricorda che sotto un velo di colori suggestivi e interessanti, romantici e creativi c'è un meccanismo, la ricerca è la chiave, la rivelazione è l'orologio, l'arcano è svelato nelle nostre mani per dar vita a nuovi percorsi creativi.

Clockwise nous rappelle que, sous un voile de couleurs fascinants et intéressants, sentimentaux et créatifs, il y a un mécanisme, la recherche est la clé, la révélation est l'horloge, le secret est résolu entre nos mains pour donner vie à nouvelles voies créatives.

Clockwise reminds us that under a cover of suggestive, interesting and romantic colours there is a mechanism; the research is the key, the discovery is the clock, the mysterious is revealed to give life to new paths.

WONDERLAND

Wonderland ci accompagna delicatamente in un universo di colori e forme che si sovrappongono come in un sogno, le tinte e le linee si uniscono in un mondo dove tutto è possibile.

Wonderland nous accompagne doucement dans un univers de couleurs et formes qui se superposent comme en rêve, les teintes et les lignes s'unissent dans un monde où tout est possible.

Wonderland takes us to a universe of overlapping colours and shapes like in a dream, the shades and the lines come together in a world where everything is possible.

BABY BOY AND GIRL

Baby boy and girl completano la linea per rispondere all'esigenza di celebrare i nostri bimbi dalla nascita ai primi anni, molti stampi sono stati creati proprio per questi eventi.

Baby boy and girl complète la ligne pour répondre à l'exigence de célébrer nos enfants depuis la naissance aux premières années. Plusieurs moules ont été créés spécifiquement pour ces occasions.

Baby boy and girl complete the range to celebrate our children from birth to their first years of life, many moulds have been created for those connected events.

La collezione completa dei pennelli ed accessori per pittura, selezionati accuratamente, e le tante novità nel campo del colore definiscono il livello della proposta: a metà strada tra l'Hobbistica ed il Belle Arti. Tra i più interessanti: un acrilico, Art Deco Laquer, che è più uno smalto che una pittura proposto in quindici tinte.

Il Pouring, moda americana appena sbarcata in Europa, alla portata di tutti; anche per le scuole e i centri di attività ricreativa. Alla gamma Mix Media si aggiungono le finiture ed il Cracklé Trasparente da utilizzare con Aquacolor e Mystic Ink.

La collection complète des pinceaux et accessoires pour la peinture, sélectionnés très soigneusement, ainsi que les nombreuses nouveautés dans le domaine de couleur, définissent le niveau de la proposition: à mi-chemin entre l'Hobbie et le Beaux-Arts. Parmi les nouveautés les plus intéressants: un acrylique, Art Deco Laquer, qu'est plus comme un email qu'un peinture, proposé en 15 teintes.

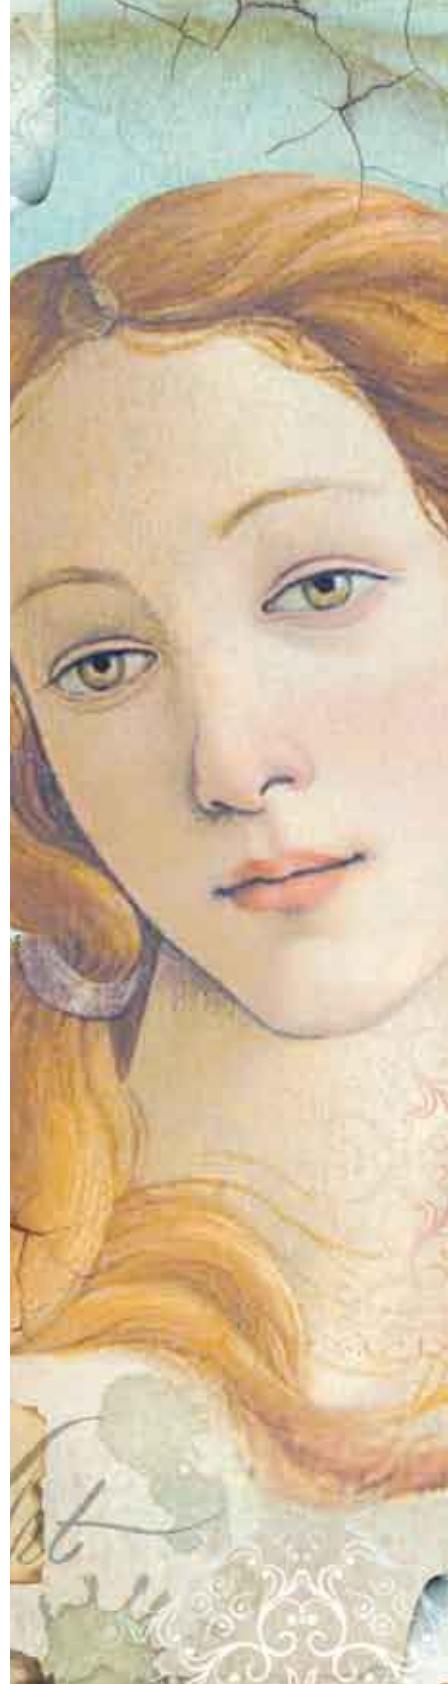

Le Pouring, mode américaine fraîchement débarqué en Europe, à la portée de tous, pour les écoles et les centres de loisirs créatives. À la gamme Mix Media s'ajoutent les finitions et le Cracklé transparent à utiliser avec Aquacolor et Mystik Ink.

The complete collection of brushes and accessories for painting, accurately selected, and all the novelties in the colours give a precise idea of the proposal level of this Collection: it is halfway between Fine Arts and Do it yourself. Among the most interesting items there is an acrylic product, Art Deco Laquer, that is a enamel more than a paint and it is offered in 15 different colours. The Pouring, an American trend just landed in Europe, is an easy to use product. It can be for schools and leisure centres too. To enrich the Mix media range, there are new varnishes and the Transparent Cracklè to use with Aquacolor and Mystic Ink.

Acrylic Pouring

ITA Arriva dagli Stati Uniti un nuovo modo di dipingere attraverso una tecnica artistica che, con movimenti di colore sulla tela, crea soggetti astratti con grandi effetti speciali, che ricordano un po' l'effetto marmo. Questa tecnica si chiama "**Acrylic Pouring**": in generale, si preparano dei colori acrilici molto fluidi miscelati con l'apposito Medium, si versano insieme sulla tela, e lì appare la magia! Il colore si spande e dà vita a movimenti ed intrecci, a celle e rigature uniche nel suo genere.

FR Est venue des États-Unis une nouvelle façon de peindre à travers une technique artistique qui, avec des mouvements de couleur sur le canevas, crée des sujets abstraits avec de grands effets spéciaux ce qui nous rappelle un peu l'effet marbre. Cette technique s'appelle "**Acrylic Pouring**": en général, les couleurs acryliques très fluides sont mélangées avec le Medium approprié et ils sont versés ensemble sur un canevas et la magie apparaît là! La couleur se répand et donne vie aux mouvements et parcelles, aux cellules et rainures uniques dans son genre.

ENG The new artistic painting technique, called "**Acrylic Pouring**" arrives from the United States. With the movements of colors on the canvas you can create abstract subjects with special effects which recall a little bit on the marble effect. Basically you prepare very fluid acrylic colors mixed with the special Medium and pour them together on the canvas where will appear the magic! The color spreads and gives life to movements and weavings, creating unique cells and lines.
